C. H. Prescott & Son's Saw Mill.

This firm manufactured about 14,000,-000 feetof lumber 1890 and they expect to cut 16,000,000 ft. the coming season. Mr. H. Funk, who has had charge this mill for the past 15 years, and who had, before taking charge, always held some important position in and about the premises, took us through the mill and imparted to us all the desired information. Mr. Funk informed us that he has worked in this one mill steady for 18 years and that the mill has not cut over 11/4 million feet without his connection in or about said mill, which we should judge is a pretty good record for Mr. Funk as a mill man as this firm employs none but first class workmen to attend to their vast amount of business. A description of the business is about as follows; The engine which was formerly along sign of the battery of boilers, and which y drive the gang, / all the cut of s circular, was about 70 feet from the has been removed gang and opposite th ase the towthe balance which wi er very much. All e and pulleys are being thoroughly Erhauled in the lower part of the mill; the upper floor has undergone some very extensive re pairs; the trimmers for equalizing the lumber has been changen; live rollers have been placed in all places where manual labor will be made easy, and new patent side-tracks are being placed ready for execution, which will make in all a firm delivery of the lumber manufactured. This last mentioned has heretofore been a hinderance, as the mill last season cut more lumber than they were able to take care of on the tram road. The tram road is undergoing vast repairs; a' large force of men are busy at all the apartments where they belong; new breeching are being added to the battery of boilers, and the arches overhauled; boiler-makers, blacksmiths, masons, carpenters, millwrights, and all kinds of experts ar busy The first deputy sheriff appointed at work. About 6,000,000 feet of white mence operations, which will take place the residence of Sheriff Bradley. Cigars. in about one week. The following officers will handle and keep the machinery in motion this season:

Gen. Supt. and Foreman-Henry Funk. Circular Sawyer-Elias Hampstead. Circular Setter-Henry Hosbach. Gang sawyer-Robert Howey. Gang Filer-John Gregwyer. Circular Filer-Not engaged as yet. General Repairer-Kenneth Monroe. Edger - Moses Kehoe.

About 4,000,000 feet of lumber has been wintered over on their docks.

Mr. J. M. Walker will have charge of their commercial dock and also attend to the shipping of the lumber manufactured. This is a position that Mr. Walker has comb county, this state. He was the had charge of for a number of years, and youngest of four children and the first his ability for the position he now holds is unquestioned, and we believe they have the right man in the right place.

FISHER A DIRECTOR.

At a meeting held at Detroit this week Hon. S. O. Fisher was elected a member of the American board of directors of the Grand Trunk rail lang way.

This election means that the chief officers of the road recognize the importance of the locality to their road and that they intend to make a move toward securing a large portion of the business from the Saginaw valley. They couldnt have found a man who would better serve the interests of the company, and it is also a fact that they have picked out the best man to look after the interests of the Saginaw Valley in matters pertaining to the road.

GEO. W. SHAVER, Tawas City.

Whittemore Heard From.

Having occasion to visit this place Tuesday last we were met by a host of friends, who received us with a spirit of extended hospitality, and as we were very much surprised to see how thriving our sister village was we thought we would jot down a few short sketches, as follows:

As we stepped off the train the first thing that came under our notice was a depot belonging to the D. B. C. & A. R. R., which is in charge of H. A. Wilmont, as station and ticket agent. This is a building of which the people of that place feel proud. A first-class hotel, known as the Drummond House and managed by George Armstrong, owned formerly by Drummond Bros., afterwards falling into the hands of John Drummond, who died about two years ago, and the business in running order ever since.

Dr. Wakeman's drug store was the next place to attract our notice, Mr. Wakephysician in that locality.

Just across the street we found Louis Landsberg, who keeps a first-class dry goods and clothing establishment, also a large assortment of boots and shoes. Mr L. L. located there some six years ago, and has built up a thriving business. He is a man that believes in helping the community in which he lives, and he has some of the most responsible positions in ant as ever after his illness. the township. He is township clerk, has charge of the large burglar-proof safe belonging to the township. He is postmaster, express agent, notary public and director of the schools; in all we should judge that the people of that village and township have placed special trust in him.

Mr. Jno. W. Curtis has a fine boot shoe, and clothing store and has been located there for a number of years, in fact he was one of the first business men to locate in the village of Whittemore. He is also agent for about 12,000 of farming and timber lands in Iosco and Ogemaw counties. Mr. Curtis holds and has held some responsible public offices and positions of trust in that place.

Mrs. Hugh Coyle has a general grocery and provision store.

boarding house with a tonsorial department in connection.

Messrs. Maynard & Butts also have a general store located in a prominent busness portion of the village.

The railroad company have about 500 rds of wood delivered along side of the ack and about 5,000 cedar and hemlock

Our county surveyor, Howard M. Belknap, resides in this village and has his office conveniently near. He reports official business brisk.

Mr. Haine has a general store opposite the depot, and he is also proprietor of a shingle mill which is situated about three miles to the west of the village.

Another general store which was foi- Taft. merly run by Messrs. Bullock & Horr, is now owned and managed by N. C. Rowley, who is well up in the business, and his stock consists of a good assortment inaw. of dry goods, clothing, boots and shoes, hardware, farming implements, and a full line of groceries, in fact everything usually kept in a first-class general store.

A Foresters Hall, with 25 charter members; also a good public school with an attendance of 45 or 50, the school board being Louis Landsburg, director: David Belknap, or; George Wismer, modboard claim that they have erator. To board claim that they have a first-class acher by the name of Miss R. Mosso.

Wiltsie & Wilkins have a smart saw and shingle mill and have about 600,000 cedar and pine shingles, which are manufactured and put up in good shape, ready for market by rail to any part of the United States or Canada. The shingle crew consist of John Buckner, sawyer; Birt Paradise, jointer; Walter Marion, packer; Robt. Wilkins, one of the proprietors, filer, foremrn and manager; Ambrose Wismer, engineer. A No. 5 Hall machine, improved and new shingle machinery has been added. They intend running all summer cutting lumber and shingles. The fire box, boiler, a stationery engine and the circular mill are of the Mansfield make.

The peace and other officers are as follows: Adam Catline, deputy sheriff; Fred E. Hess, M. Butts and D. Belknap, police justices; Peter Hottois, highway commissioner; Fred E. Hess treasurer; John Hurford, veterinary surgeon.

Not having more than two hours time in town, we could not visit the farming community, but when next we come among you, which will be when crops are nicely growing, we may have more time and then we will give the farmer a show. However we are satisfied that Whittemore is an enterprising new town.
