Attorney C. R. Henry has the reputation of being a very patriotic Irishman. To day being the 17th of Febuary and Mr. Henry being one month ahead in his excessive patriotism he came down to the office with about ten yards, more or less, of green ribbon fastened to his coat, Not only had he so decorated himself but we are told that he sent his little boy to school "wearing the green." Not content with this he insisted on Mr. Pugh, his stenographer, wearing a piece of the ribbon; but Mr. Pugh, being an Englishman, couldn't "see the point." Pretty soon Harry Gustin came in. 'Hello!' says Mr. Henry. "you're not patriotic at all take a piece of this ribbon and wear it, and out came the shears and Mr. Gustin. innocently enough, was wearing the color as bravely as Brian Behru, In a little while C. O. Duncan made his appearance. "Hello! Charley you're not a bit patriotic put on a piece of this ribbon." But Charley, being a Scotchman rebelled, and good house, barn, orchard and spring refused to wear the emblem of verdancy. To Charley's casual inquiries as to what three years, at 7 per cent. date the 17th of Ireland fell on Mr. Henry was obliged to acknowledge that he was too previous. We have a igar coming. -Au Sable Times.

THERE is now a spot on the sun that is 100,000 miles long and 50,coo wide and Prof. Wendell, of Marvard College, says that it will result in a terrific magnetic disturbance on our little plannet. He adds that there will be no end of violent cyclones the coming summer .- Ex.

THE moment Blaine announced that he would not be a candidate for the presidency, John Sherman, knowing that Gen. Alger would take the field, annouced that he wanted to be counted out of the race-he was tired of being bought and sold. Sherman hinted quite loud four years ago that Gen. Alger bought his delegates for hard eash .- Bay City Times.

GOVERNOR Winans is a democrat for sure. Replying to the New York World's sensation-seeking inquiry whether he thinks it right for New York to elect her delegation to Chicago120 days before the national convention, he gives the only answer a democrat could conscientiously give. He is quoted by the World as saying: "I think it is perfectly right for the people to hold their state convention whenever thay desire whether it be in February or May." The governor's head is level. It is no concern of the Michigan democrats when the democrats of New York choose to hold their state convention. The World's question was impertinent .- Bay City Times.

Washington Letter.

Speaker Cricp is thoroughly in accord with the desire to make a calm, conservative and business-like investigation of the Pension Office and its methods of doing business, and in selecting the committee authorized by the House resolution he made good use of his knowledge of the members of the House and named men who will sit with the same impartiality on the evidence presented to them and as carefully sift it, in order to throw out that which in there judgment is based on hatred or personal préjudice, as they would if sitting as judges in a court of law. The Democrats on the committee are Representatives Wheeler, of Michigan; Little, of New York; and Dungan. of Ohio; the Republicans Messrs Lind, of Minnesota and Brosius, of Pennsylvania. all ex-Union soldiers.

Representative Hoar, of Massachusetts, is confident that the adoption of his resoaution by the House authorizing the committe an Manufactures to investigate the socalled "sweating" system of tenement youse labor, is a long step in the right direction, and he predicts that the result of the investigation will be some startling facts of special interest to those who wear "ready made" clothing. Before the House adopted the resolution it, adopted an amendment directing the committee to inquire how much increase the McKinbey bill has caused in the wages of workmen employed in industries protected by the terms of that bill. It also afterward adopted a resolution offered by Mr. Helman, restricting the cost of the investigation to \$3,000.

Speaker Crisp has given some of the Democratic members who have been careless as to their attendance on the sessions of the House a little lecture on their duties, taking his text from the lack of a quorum of Democrats on the floor, which the other, day enabled the Republicans to compel an adjournment. A second lecture on this subject should not be neces-

The Senate Committe on Agriculture will report a resolution providing for the appointment of a number of sub-committees to make an investigation, a committee to each branch of the subject, for the purpose of ascertaining the present condition of agriculture in the United States, the prices of its products, and if there be any of which the prices are depressed, the cause of such depression and the remady therefor. This resolution will be reported as a substitute for Senator

George's resolution for an investigation of the depression in the cotton-raising

Representative Wheeler, of Alabama. has sent a cold shiver down the spinal columns of all the big office holders by introducing a resolution instructing the several committees in charge of appropriation bills to make reduction of 20 per cent, in all official salaries of \$5,000 or more-that would catch Senators and Repaesentatives and of 10 per cent. in all salaries of \$8,000 or more.

An attempt is being made to get the TAWAS CITY, Ways and Means committee of the House to grapple with the cigarette evil by reported a bill placed an internal revenue tax of \$10. per 1,000 on all cigarettes offered for sale, whether of domestic or foreign manufacture. A memorial showing that the excessive use of cigarettes has during the year killed 100 young men, and sent an equal number to insane asylumes is being circulated in Congress.

The manner in which the annual approprlation bill for the Military Academy was reduced by the House, sitting as committee of the whole, before it was passed, in spite of the powerful influences brought to bear in favor of passing it as reported from the committee on Military Affairs, has convinced a good many people who had doubts on the subject that when the Democratic leaders said economy in pubile expenditures would be enforced by the House, they indulged in no idle talk. Republicans may sneer, but when the people's verdict is heard next November the emocrats will get their reward.

The Bland free coinage bill, now on the House calendar, is the subject of much talk in and out of Congress. It is favored on principle by a very large majority of the House, but weather a majority of the Democrats believe it political wisdom to pass it at this time will very soon be known as a petition asking the committee on Rules to set a date for its consideration by the House is now be ing circulated for Democratic signatures. More than a hundred have signed.

It is expected that the Canadian reciprocity commisioners will return homo this week, knowing just about as much as they did when they came. They had authority to make a treaty, nor had Mr. Blaine, even had he been so disposed.
