Mr. Welsh will have a fine line of samples at the Iosco County Fair next month.

Some chemist, name unknown, asserts that perfumes act as disinfectants for houses, and that air impregnated with almost any perfume is cleared immediately of deadly microbes, as they cannot exist in it. If it is true it is a very pleasant way to disinfect one's premises. A perfume is always agreeable, even if not considered fashionable by the extreme elite.—Ex.

Passed from this life at noon Thursday Sept. 21, 1893, at the home of Frank Woods in this township Mrs. Marcilla Styles, age 64 years, of paralysis of the brain. She was a loving mother and a kind parent, and leaves one daughter and son-in-law, Mr. and Mrs. Frank Woods, to mourn her loss. Funeral services will be held at the home today at 2 p. m. by Rev. Kay, the remains will be interred in the Tawas City cemetery.

Wisconsin Cheesemakers are determined to cut do their Canadian Brethren in the manufacture of a monster cheese for the World's fair, the Muscoda and Lone Rock dairy boards having arranged to produce a cheese weighing 25,000 lbs, which is 3000 lbs heavier than the Canadian cheese. It will be made at Richland City and the Chicago, Milwaukee and St. Paul railway is putting in a branch track at the place, and will furnish a car at the factory for the cheese to be built upon.

A perfect town is that in which you see the farmers patronize the home merchants, the merchants advertise in the local newspaper, the laborers spend the money they earn with their own tradesmen, and all animated by a spirit that they will not purchase articles abroad if they can be purchased at home. The spirit of reciprocity between business men and laborers, farmers and manufacturers results every time in making the town a satisfactory one in which to do business.—Ex.

If you have a good horse, a cow, a pig, a sheep, a nice picture, fancy work, a good sample of nice grain of any kind, a specimen of fruit or vegetable, or anything that a premium is offered for, take it to the fair. Do not neglect it thinking as a matter of course there will be better ones to take the premium over yours, and then when you go to the fair and look the show in your particular class over, wish, as has often been the case, that you had exhibited your article, which is better than anything it would have had to show against.

Health officer Murphy has been putting forth his best efforts to prevent the spreading of diphtheria, which is prevailing at the homes of Ben Ullman and Lenard Soper in this township.

Nearly 5,000,000 feet of lumber was shipped from Cheboygan last week.

The Charlevoix post office was robbed last week of about \$300 worth of stamps and a small amount of change.

Burglars entered the Mackinac Island post office Sunday night and secured cash and stamps to amount to \$2,000.

The Eighth Michigan Cavalry will hold their twenty-third annual reunion in Representative Hall, Lansing, September 27 and 28.

The West Bay City Board of Education has adopted a resolution to borrow \$6,000 at 7 per cent interest for use until the school taxes are received.

The Au Sable and Oscoda mills are again running in full blast, at a reduction of 10 and 15 per cent in wages. The lumber sales at these places during the past ten days have been very large.

James Hiller, of Alpena, was shot and instantly killed Tuesday, by Wellington Scrimshaw. Hiller and a woman were quarrelling when Scrimshaw interfered with a shot gun. Scrimshaw was arrested.

The long lines of empty freight cars which have been stered on sidings and switches along the line of the Michigan Central up North are gradually diminishing, as the freight business is getting better.

Judge Albert Miller, of Bay City, the oldest pioneer in the Saginaw valley, is dead. He taught the first school organized there. He was also the first probate judge. He got Bay City its first railroad and built the second saw mill in the valley.

Ayer's Sarsaparilla does what no other blood medicine in existence can do. It searches out all the system and expels them harmlessly through the proper channels. This is why Ayer's Sarsaparilla is so pre-eminently effective as a remedy for rheumatism.

Some sneak thieves tore up a half-acre patch of late potatoes for John Moore one night this week. The potatoes were only about half grown, but nevertheless the crop was about ruined. Mr. Moore was compelled to dig the the remainder in order to save them.—Monitor.

The Bay City Matinee club will give races on the 27th, 28th and 29th, which will be of more than ordinary interest. Some of the fastest horses in the state will participate.

The decomposed remains of a man was found in the woods three miles north of Pinconning Monday. The man was about five feet seven inches in height, light complexion and bald head. Eighty dollars in money, a gold watch and a revolver were found on his person.

George Freeman, aged 25, of Millington Tuscola Co., was picked up in Bay City Monday by the police, while acting strangely. He had a revolver and imagined he was a detective. The city doctor attend to him. Two years ago Freeman became overheated while fighting forest fires, and his mind has since been affected at times.

The next reunion of the soldiers and sailors ass'n. of Northern Michigan will be held at Cheboygan next September. The following are the officers of the association for the ensuing year. President, H. H. Woodruff, Roscommon; vice president, W. N. Cross, Cheboygan, sec'y. J. C. Wooster, Cheboygan; quarter master, Chas. Krisden, Cheboygan.

Burglars broke into the general store of Ira E. Stwart, in the village of Auburn Bay Co., Sunday night, blew the safe to pieces, and took about \$200 in cash. Of this \$75 belonged to the Foresters' Lodge of Auburn and \$21 to the Michigan Central Railroad. The burglars were frightened away before they completed their work, as they left \$50 in cash in the safe.

William Badgely, the soldier of the Nineteenth Infantry, stationed at Fort Brady, Mackinac Island, who was charged with criminally assaulting Lillian Sautler, a waitress at one of the hotels on the Island, the latter committing suicide soon after, was found guilty Saturday and at once sentenced to eight years' imprisonment at hard labor. The jury was on twenty-two hours.

A man claiming to be a doctor of chronic diseases and giving the name as Dr. Fox has been operating in the southern part of the county. He treated a gentleman in North Shade asking a small fee in advance, but claiming that he especially wanted testimonials as he was about to start an institute in Lansing. Beware of him and his medicine. They are both frauds.—Ithaca Herald.

Five years ago burglars stole \$235 from John Chisholm, of Alpena. Michael Grant and Paul Worth, young men of good parentage, were arrested, and Grant's brother compromised the case by paying \$175. A few days ago word came from a Detroit priest that the real thief on his deathbed had confessed to the robbery. The priest sent back for the penitent \$210. The \$175 has been restored to Grant and his reputation cleared.

There is one of the most surprising freaks of nature on exhibitions at Cosgrove saloon that we ever saw. Apparently it is a snake, curled around in a very natural manner, with a very natural mouth and tail, but really it is a freak cucumber. The monstrosity is fully 4-1-2 feet long, and should be sent to the World's Fair as an example of what this glorious climate can inspire even mother nature to do.—Cheboygan Democrat.

THE tariff will be reformed, notwithstanding the howl of the republicans.

GENERAL confidence is again doing business at the old stand, after a somewhat extended vacation.

AS the times begin to brighten the gloom around our republican exchanges becomes more dense.

TOM REED seems to think the democratic reform tariff bill a kind of joke. He will not be much older before he knows better.

THE British house of Lords found no argument against the Irish home rule bill, but it found no trouble in burying it with votes.

Gov. McKinley has given his free trade scare crow a fresh coat of paint, but it is the same old song, "the foreigner pay the tariff."

W. B. Hornblower, of New York has been appointed associate justice of the supreme court of United States vice Samuel Blatchford, deceased.

THE democratic leaders in congress know their business, and will attend to it to the best interest of the people, with out the aid or advice of the republicans.

THE new tariff bill now being prepared by the House committee on ways and means, is on a basis of tariff for revenue only, and will be in the interests of the people instead of the monopolists.

THE Cleveland administration was not placed in power by the pension agents, and there is no reason why it should place itself at the disposal of this species of Treasury looters.—N. Y. World.

If the republican press of the state will quit lying about the cause of the hard times and explain to the people the cause of the increase of the state taxes this year, their efforts will be much more appreciated.

IT WILL not be long before those republican papers which are criticising the democratic majority in congress for not working faster, will be kicking because they work to fast. That is republican consistency.

THE people have twice demanded by their votes that the McKinley bill be repealed, yet the republican organs are demanding that it be let alone. It is a good thing for the people that the democratic party is in power.

IT is really touching to hear the lamenting of our republican friends because of their belief that the democratic party is about to be split in two over the silver question. Dont fret, boys, you will find the old party solid enough before you again defeat it.

THE political hornet has again got into the bonnet of Long John Ingalls of Kansas. A year or two ago this gentleman retired forever from the political arena, but it now appears his retirement had a stoiny attachment. He has pulled the string and now wants to run for governor. 'Twas ever thus.

THE increase in the state tax rate this year is nearly 50 per cent. When you walk up to the treasures office to pay you takes next winter please do not grumble, if you cast your vote to help elect the late \$-buck legislature. They are the ones who are to be blamed for the increase in your state taxes.

DENIAL is made of the statement that B. Harrison, late President, has planted a boom and is watering it from his ink pot with intend to have it bear fruit in three years. There

are too many Republicans who regret that he never was President and had the most extravagant administration this country has ever known, to make his boom any more flourishing than was Jonah's gourd.—Jackson Patriot.

THE democrats of Detroit, will probably nominated Marshal H. Godfrey, as their candidate for mayor. Mr. Godfrey is a native of Detroit, and will undoubtedly be elected if nominated as he will receive the support of both factions of his party in that city.

THE Detroit Tribune frets and fumes not a little because Attorney-General Ellis sees fit to give his opinion on legal questions to inquiring taxpayers of the state. The Tribune says he is not paid to answer such inquiries. Perhaps not, but some people can be courteous and accommodating without being paid for it, Mr. Tribune.—Hudson Gazette.

THE congratulations that have poured into the White House since the birth of Mrs. Cleveland's second daughter shows the extent to which the people of this country are interested in the welfare of the Cleveland family. It is no disparagement of any other President and his family to say that Mr and Mrs. Cleveland and their children occupy a larger place in the affections of the people, without regard to politics, than was ever attained by any previous occupants of the White House. Long life and great happiness to baby Esther, her sister and her father and mother.

A Washington dispatch says: Representative Weadock's ideas with reference to the lumber duty are embodied in his bill which is now before the ways and means committee. It provides that in case any foreign country shall impose an export duty upon sawlogs, pulp wood or other raw forest products designed for the use of American mills or factories, the import duty upon the product of sawlogs, pulp wood and other raw forest products of the kinds upon which the export duty is imposed, such as lumber and wood pulp, shall, when imported into the United State from such country, be increased by a sum equivalent to the amount of export duty; and if the article is on the free list a rate of duty equivalent to the export duty shall be imposed upon it.

THE Tribune is so determined to have a tariff scare follow the monetary panic that it said a day or two ago that more manufactories are closing than are opening.

Its own news columns, if honestly conducted, refute this new calamity howl.

Thursday's morning and evening newspapers recorded the resumption of work in forty establishments, most of them large ones. The number of men reported as put to work was over 16,000, and the number not specified would undoubtedly raise the total to 20,000.

Not a single shut-down was reported!

This is but an example of the recovery that has been going on since the strong vote in the House repealing the Silver-Purchase law. The improvement has received a new stimulus by the sure prospect of repeal in the Senate. It is seen in the money and the stock markets. It extends all over the country. Our news columns to-day tell a most encouraging story of reviving industries.

Why should any newspaper seek to discredit or belittle this recovery? Does the Tribune's indebtedness to the protected monopolists extend so far as to impel it to try and frighten away returning prosperity by a new and senseless tariff scare? Such a course strikes us as bad journalism and poor patriotism.—N. Y. World.

Generous Mr. Alger.

Gen. Alger's action in sending his check for \$10,000 toward making good the Taylor defalcation of \$36,000 in the funds of the Grand Army of the Republic was altogether praiseworthy. A part of the defalcation occurred while he was at the head of the organization; but doubtless his generous contribution was altogether due to his desire to save the purses of poorer comrades.—Philadelphia Record.

The generosity of "Our own" Russell A. is really touching. But we are of the honest opinion that it would be much more to his interest if he would send a few thousand up to pay the hands employed on his rail road—the D. B. C. & A.—who have not been paid off since June. Many of the boys are of the opinion that the 10 per cent reduction in wages, which took effect Sept. 1, goes to help the generous(?) gentleman pay a few of his princely vote getting gifts. Should the republican party be so unfortunat as to nominate the generous (?) man for the presidency he will be obliged to spend several times ten thousand to secure the support of his own laboring men in Northern Michigan.

The History Of the Bank-Note Tax.

Not one person in ten perhaps knows just what the 10 per cent, tax on state bank notes is, or when or how it was enacted.

It is commonly spoken of as a war measure, and yet it was not adopted until February, 1865, when the war was obviously nearing its end, and did not go into effect until Aug. 1 1866, fifteen months after Lee's surrender. It is usually regarded as an integral part of the national banking system, but in fact it was not thought of when the National Banking law was enacted, or for two years thereafter.

The original National Bank act was passed in February, 1863. It was radically amended in June, 1864 but still without any discriminating tax on state bank issues. The bill imposing such a tax was first offered in February, 1865, and defeated. On the same day it was offered again in a slightly different form and passed by an accident. Mr. Brooks, of New York, bitterly opposed it in debate, but voted for it for the purpose of moving a reconsideration. Had he voted against it the result would have been 67 yeas to 68 nays. As it was, it stood 68 yeas to 67 nays. A motion was made to reconsider, and Mr. Washburne, of Illinois, moved to lay that motion on the table. The vote was a tie. The Speaker voted in the affirmative and the measure stood.

In the Senate it was reported adversely from the Committee on Finance, but the report was overruled by a majority of two votes.

The original purpose of the tax was to encourage the establishment of national banks by giving them a monopoly of note-issuing, and thus to increase the market for Government bonds. This it did in a very slight degree.

But that act served another purpose. It extinguished a varrable and uncertain currency and gave us one every dollar of which was as good as the credit of the United States could make it. There is no longer any concern for the bond market, but the country is properly anxious not to return to uncertainty as to any part of its currency.—N. Y. World.

What Kind to Sow.

Various experiments have been made with winter wheat at the Ontario Agricultural Station to determine the best varieties for farmers to sow at the present time. The results of these experiments are thus summarized.

That the average yields per acre of the fifty-two Canadian and American varieties grown in 1893 were; Straw, 1.9 tons; grain, 30 bushels, and weight per measured bushel, 58.2 pounds.

The five best yielding varieties for 1893 were the following: Golden Drop, 42.7 bushels per acre; Surprise, 42.6 bushels; Golden Cross, 41.5 bushels; Hybrid Mediterranean, 40.6 bushels, and Early Red Clawson, 40.3 bushels.

The five varieties which gave the heaviest weights per measured bushel in 1893 were: Coryell, 62.7 pounds; Dietz Longberry, 61.5 pounds; Fulcaster, 61.2 pounds; Red Wonder 61.2 pounds, and Bulgarian, 61.1 pounds.

That in our experience of the past four years the average yields per acre of the white and red wheats have been almost exactly the same.

That in our experience of the past three years we have found that the red wheats average from one and one-half to two pounds more per

measured bushel than the white wheats.

That in our experience the past year, in showing varieties of wheat at different dates, we have found that in very instance the earlier sown plots have given the best results.—N. Y. World.

Mrs. Wm. Dennis has just returned with the latest novelties from Chicago and Detroit. Call and see them.

Mr. and Mrs. Pearsons, Mrs. White and Mrs. Dease, are among those from this place who are visiting the World's Fair this week.

Miss Maggie White has returned and assumed her duties at Mrs. Dennis' millinery parlors, after several weeks practice in the wholesale millinery houses.

The schooner L. L. Lamb which deserted by her crew last Saturday, during the heavy gale, was towed into this port Monday. Tuesday the crew arrived with a tug and took her to Port Huron.

### Sherman News.

(Received to late for last week.)

No teacher has yet been engaged for school Dist. No. 1.

The iron bridge crossing the East Au Gres river is completed and the town has the best highway bridge in the county. Much credit is due Commissioner Pringle and the several contractors.

Henry Reynolds, of Rose City, is spending a few days in town with his many friends.

Albert Drager has begun the erection of a new residence on his farm, and will commence the building of a new barn this fall.

Honey is not so large a crop this year as usual.

Sam Johnson is in town this week looking over his farm interests and will perhaps move in his family soon.

The old bridge crossing the Au Gres river on the Alabaster road is so defective that the highway commissioner justly and wisely condemned it, to be replaced by a new one.

The frosty nights have damaged the late potato crops, which would otherwise been a fair yield.

Your correspondent hears less complaints in Sherman, of the effect of the money stringency than in any other place in the county.

Mrs. Strodders, who has been the guest of Mrs. G. E. Pringle, returned to her home in Oscoda.

Jacob Edwards was in town this week, and purchased a car load of racked hoops from Geo. A. Pringle.

J. B. Jackson, of Alpena, brother of supervisor J. A. Jackson, paid us a short visit this week, on his way to the Columbian Exhibition.

The weather crop bulletin of the Michigan weather service for the week ending September 16 is as follows. Northern section—The week has been a fairly good one for late crops. The prevailing drought was broken by a general rain early in the week and pastures improved somewhat. In Grand Traverse county no rain fell. Seeding is still delayed. Reports from the upper peninsula indicate a fairly good crop of cranberries. Central section—The long looked for rains came at last early in the week, brightening up pastures and meadow lands and improving such crops as were not already beyond aid. In many localities farmers have taken advantage of the softened ground to do their fall plowing and seeding. Where seeding has been done the rain has caused a nice growth. Grapes are ripening finely, and apples, peaches and plums are an average crop. Potatoes small and yield light. Southern section—The showers which prevailed during the 12th and 13th made a material difference in the condition of the ground. Wheat seeding is quite general except in those counties where no fall plowing has been done. Corn is all cut and in portions of Wayne county the yield is very good. A fine crop of celery is being put on the market from Kalamazoo county. Fruits still hold good.

### To the World's Fair.

THE FLINT & PERE MARQUETTE RAIL AND WATER LINES offer the public a way to reach Chicago, that for comfort, far surpasses the all rail lines, to say nothing of the difference of fare in its favor, an item well worthy of consideration.

Passengers are landed in Chicago in the morning after a night's refreshing and invigorating rest in a commodious state room on a first-class steamship. The experienced traveler need not be told of the advantages of a rail and boat route, for summer travel, over the all rail route with its crowded, dusty sleeping cars, and very little thought on the part of the inexperienced, will convince him of the same. Ask your local ticket agent for rates and time of trains.

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

SKOOKUM ROOT HAIR GROWER

is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a Dye, but a delightfully cooling and refreshing Tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads. Keep the scalp clean, healthy and free from irritating eruptions, by the use of Skookum Skin Soap. It destroys parasitic insects, which feed on and destroy the hair.

If your druggist cannot supply you, send direct to us, and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Soap, 50c per jar; 6 for \$2.50. THE SKOOKUM ROOT HAIR GROWER CO., 57 South Fifth Ave., New York, N. Y.
