A traveling man made a wager that a Cheboygan sport could not drink 15 schooners of beer in 30 minutes, but the sport got away with the liquid with one minute to spare, and feeling fresh as a daisy. A man who bets against Cheboygan's beer drinking capacity don't know the town.

The second edition of the December World's Fair Cosmopolitan brings the total up to the extraordinary figure of 400,000 copies, and unprecedented result in the history of magazines. Four hundred thousand copies—200 ton—ninety-four million pages—enough to fill 200 wagons with 2000 pounds each—in a single line, in close order, this would be a file of wagons more than a mile and a half long. This means not less than 2,000,000 readers, scattered throughout every village and town in the United States. The course of The Cosmopolitan for the past twelve months may be com-

pared to that of a rolling snowball; more subscribers mean money spent in buying the best articles and best illustrations in the world; better illustrations and better articles mean more subscribers, and so the two things are acting and reacting upon each other until it seems probable that the day is not far distance when the magazine publisher will be able to give so excellent an article that it will claim the attention of every intelligent reader in the country.

Entered at the Postoffice at Tawas City, Michigan, as second-class matter.

THERE is a lesson for "kickin'" democrats in the present attitude of the republicans in congress towards the Wilson tariff bill.

THE great beauty of the income tax is that under it a man pays in proportion to his ability and not in proportion to his necessities, as he does under indirect taxes.

THE N. Y. Press, the most radical republican paper in the country, appears to have an idea that the senate is not a part of congress. But then the editor is "English, you know."

THE republican papers of New York seem afraid to trust the newly-elected republican legislature, which isn't strange when memories of other republican legislatures in that state are recalled.

If the United States government must either endorse the bonds of the Nicaragua Canal company or build the canal, it should by all means do the latter. In either case it would have to assume the responsibility.

WHAT has Chauncey M. Depew ever done that a bronze statue of him should be placed on public exhibition? He is wealthy, and if he chooses to have a bronze statue of himself made let him keep it in his own house.

THE attack of the Detroit Tribune on J. K. Wright, Receiver of the U. S. land office at Grayling, will receive but little attention from those who are acquainted with Mr. Wright, as his honesty and integrity is too well established to hurt by the barking of the cur who originated the attack.

How very considerate these republican hold-over officials are! It was really touching to observe the alacrity with which Mr. Lyman resigned the presidency of the Civil Service Commission in order that he and his republican colleague might join in electing the one democrat on the commission president. Why there are not two democrats on the commission is one of those things, etc.

THE wisdom displayed by Speaker Crisp in placing Representative Wilson at the head of the ways and means and Sayres of the appropriations committee is manifest in the forwardness of the tariff bill and in the fact that two or three appropriation bills are ready for the house to act upon. The old shilly-shally policy of delaying appropriation bills until the last end of the session and then rushing them through without proper consideration promoted jobs rather than economy.—Patriot.

It is gratifying to see that certain Protectionist Congressmen who are masquerading as Democrats are making little progress with their scheme of bulldozing the Ways and Means committee. The duty of that committee is plain. It must report a bill redeeming Democratic pledges—one constructed on broad national lines, and not on the fos-

tering of petty district interests. The democrats at home will take care of the masqueraders if they attempt to carry out their threats.—N. Y. World.

It is a noticeable fact that those manufacturers who are enjoying life these days by posting notices announcing a reduction of wages on account of the conjectured results of the Wilson bill did not post any notices announcing an increase of wages on account of the McKinley bill. Most, if not all of them, reduced the wages of their employes at the time that measure went into effect or soon afterwards and have kept at it ever since. They are never so happy as when engaged in that employment. Their millions have been accumulated off from the profits of labor and when they cannot secure it cheap enough here they send their paid agents to hunt the scums of Europe and import in shiploads the pauper labor of that country.—Northern Democrat.

BUSINESS DEPRESSION IN THE PAST.

To hear the outcry of the republican partisans over the present business depression, one unfamiliar with our history for the past thirty years might suppose that this country had never known hard times under high tariffs before.

It would be a great mistake. History is now simply repeating itself.

If ever the experiment of taxing a nation into prosperity had a fair trial, it was in the period following the war. And yet the panic of 1873 was the most disastrous and the period of business depression for five years thereafter was the most severe of any in our history. It was officially estimated that at least 3,000,000 workingmen were out of employment. And yet the tariff was nearly as high as the McKinley abomination. The republicans were in full control of the government.

From 1881 to 1886, under two republican tariffs, there were labor strikes involving 22,304 establishments and 1,323,203 workmen. Of these strikes 9,439 were for increase of wages. Then, as Master Workman Sovereign well says is the case now, protected manufacturers showed no disposition to share their "bonus" except upon compulsion.

The republicans "tinkered" the tariff in 1883. In that year there were 9,184 business failures, involving \$172,674,000. In 1884 there were 10,968 failures, involving \$226,343,000. In the next year there was a widespread business depression, with 1,000,000 men out of employment.

In 1890 the McKinley bill was passed, and there were 10,673 failures that year and 12,394 the next, with liabilities in each year amounting to nearly \$200,000,000. The tariff went up to nearly 50 per cent, but wages either stood still or declined.

Tramps and trusts were practically unknown in this country until after we had suffered from a monopolists' tariff for a number of years.

The worst labor troubles, the bloodiest riots, the most destructive strikes, the most brutal lockouts ever known in any country have occurred in the United States under the high tariffs bought, made and paid for by the contributors of the republican campaign funds.

The financial and industrial history of the past thirty years is simply a succession of short spurts of activity, artificially stimulated, interrupted by collapse, panics and long periods of depression and dis-

stress. In not ten years out of the thirty has labor in the so-called protected industries been secure in steady employment at fair wages.

The panic of last summer started when the average tariff on dutiable goods was 49.58 per cent.—pretty nearly the highest in our history—and when it was perfectly well known that no change could take effect for nine months or a year to come. It was due chiefly to the unsettlement of our currency by the republican silver-purchase and inflation act. But the old trouble of a market glutted with goods under the enticement of tariff bounties contributed to the result.—New York World.

Mrs. J. H. HORSNYDER, 152 Pacific Ave., Santa Cruz, Cal., writes:

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair

Began to Grow,

and I now have as fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."

"After a fit of sickness, my hair came out in combfalls. I used two bottles of

Ayer's Hair Vigor

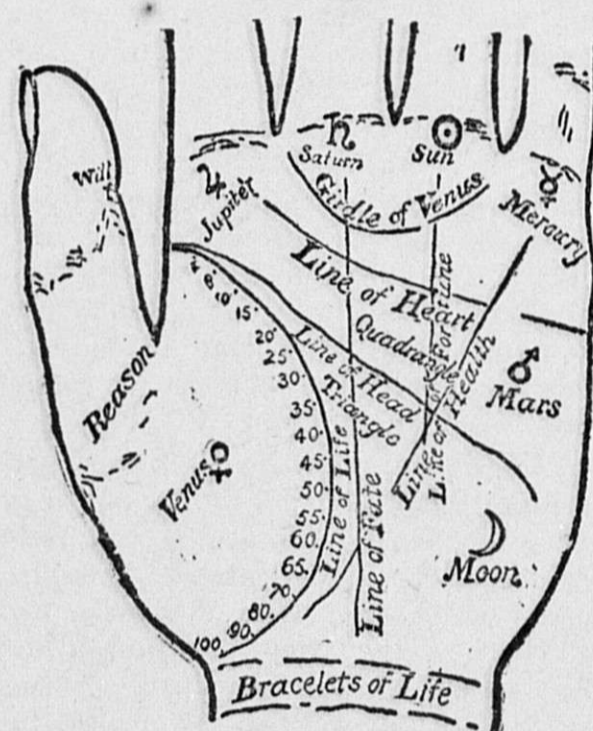

and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. Sidney Carr, 1460 Regina st., Harrisburg, Pa.

"I have used Ayer's Hair Vigor for several years and always obtained satisfactory results. I know it is the best preparation for the hair that is made."—C. T. Arnett, Mammoth Spring, Ark.

YOUR FUTURE

IS IN YOUR OWN HAND.

Palmistry assumes to tell what the lines in your hand indicate. It will amuse you, if nothing more. The above diagram almost explains itself. The length of the LINE OF LIFE indicates probable age to which you will live. Each BRACELET gives you thirty years. Well-marked LINE OF HEART denotes brain power; clear LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern deas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is entertained. It is a dozen magazines in one. A CLEAR LINE OF HEART bespeaks tenderness; a straight LINE OF FATE, peaceful life; the reverse if crooked. A well-defined LINE OF HEALTH warns you of doctor's bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the GIRDLE OF VENUS well marked; keep up your spirits by having Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gallery of exquisite works of art of great value, besides the superb premium picture, 7x22 inches. "In a Daisy" which is almost a real baby, and equal to the original oil painting which cost \$30; and you will have a magazine that cannot be equaled by any in the world for its beautiful illustrations on a subject matter, that will keep you posted on all the topics of the day, and all the ads. and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect, and you get with it, free of cost, all the patterns you wish to use during the year, and in any size you choose. Send in our subscription at once, only \$2.00, and you will really get over \$25.00 in value. Address the publisher, W. Jennings Demorest, 15 East 14th St., New York. If you are unacquainted with the magazine, send for a specimen copy. A large QUADRANGLE means honesty; a large TRIANGLE, generosity; long FIRST DIVISION OF THUMB, strong will; LONG SECOND DIVISION, reasoning faculty. The MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of splendor; MARS, courage; MOON, imagination; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the last and most valuable quality.
