While switching in the Black River
yards last Sunday Brakesman Arthur
Wilkins, of this village was thrown from
the top of a box car, and received severe
injuries. Fortunately no bones were
broken, but he was badly bruised about
the head and shoulders. It will be
several days before he is again able to be
around.

What, and where is Hell, or what is
the ultimate destiny of mankind? These
questions are subjects of conversation
every where, and should be of great in-
terest to all. It cannot be that a man
dies like a brute, but what about his
future? All this will be discussed in
Rev. Schermerhorn's Lecture next Sun-
day evening. Have you entertained
doubts about these things, go and hear
this lecture.

House cleaning season is at hand, and
with it considerable papering and paint-
ing will be necessary. E. D. Schermer-
horn, wishes to announce that, having
been able to procure good help, he has
decided to run both branches of his busi-
ness this season, and is prepared to do
house painting and paper hanging.
Those who get their names on order book
first will be served first. See him at
once.

The village council made the following
appointment for the ensuing year at their
regular meeting last Monday night;
President pro tem, Wm. Nesbit; Marshal,
night watch, and chief of fire depart-
ment, Wm. H. Kennedy; village attorney,
C. A. Jahraus; pond master, Wm Phelan,
John Swartz, clerk elect, having removed
from town L. I. Halsey was appointed for
the ensuing year. The marshal's
salary was cut from \$600 to \$500, the
clerk's from \$75 to \$50, and the health-
officer's from \$50 to \$25. The next meet-
ing of the board will be April 23.

A good story is told, though we would
not vouch for its truthfulness, that there
is only one newspaperman in Heaven.
It is not known how he got there, but
presumably passed in unexpectedly. As
soon as it was found who he was, a search
was made all over Heaven for a lawyer,
as a writ of ejectment was to be issued
but none could be found. So the lucky
but lonesome editor was given a seat.
As stated, we don't know whether this
story is true or not but we'll bet that if
the editor did go to Heaven he was a long
way from his delinquent subscribers.

George Henderson and Charles A.
Jahraus, of this village, are the paten-
tees of a new device for the manufacture
of shingles which promises to revolution-
ize the shingle business. The machine is
a combination jointer and knot saw,
and is so arranged that two men do the
work of four, as at present. One of the
machines is now being manufactured and
will soon be tested in Thos. Armstrong's
mill. The device is very practicable and
will beyond doubt become very popular.
We will give a more extensive descrip-
tion of it at a future time.

Gov. Rich has named Friday, April 27,
as Arbor day.

On Thursday night of last week a
special train took thirty of the Tawas
Knight of Pythias to AuSable to attend
Launcelot lodge of that city. To say
that an enjoyable time was had is put-
ting it mildly. After work in the second
and third degrees, the tables were set
and an elegant banquet prepared. After
all had done ample justice to the good
thing Tostmaster C. R. Henry called the
assemblage to order two hours was spent
in listening to responses to some very
interesting toasts. The program was
interspersed by some good music by the
AuSable male quartette and the Tawas
City Trio.

The following is copied from an Ocounts,
Wis. paper: "Monday forenoon, March 26,
after a short illness, Maggie, wife of Mr.
Chas. Curry of this city passed from this
life to the one beyond the dark and silent
river. At the time of her death she was
22 years of age. She was a lady of many
good qualities of head and heart, pleas-
ant disposition, genial manners, a loving
wife and daughter, and her death in the
prime of her womanhood is a most severe
blow to her family as well as a large
circle of friends. Her mother and two
sisters were at the bedside during the
last hours of her sickness, but their lov-
ing care and attention were no avail,
other than to sooth and cheer her as the
sands of life ebbed slowly away. The
funeral took place Wednesday forenoon
from St. Joseph's church, Rev. Father
Lochan officiating. The deceased lady
leaves beside her husband, a father and
mother, three sisters and three broth-
ers." The bereaved husband is well
known in the Tawasies, being the adopt-
ed son of John Curry, deceased.

Lost.—A certain township order, num-
ber 660, issued by the township of Tawas
Mich., dated the 15th day of April, 1893,
for the sum of \$72.50 in favor of the
Detroit Safe Co., of Detroit, Mich. All
persons are hereby cautioned against
purchasing the same. Dated Tawas
City Mich., April 12th 1894.

THE execution of Prendergast has again been delayed; this time until July 2. The public are beginning to think that the sanity of Judge Chetlain is more doubtful than that of Prendergast.

WHATEVER else may be said of Georgia's new senator, it is gratifying to learn that he stands by the platform of his party and is especially a staunch upholder of the tariff views laid down in that document. It may sound a little odd to commend a democratic senator for being a democrat; but there are times when such commendation is proper.—Free Press.

THE census statistics show that of 28,440 convicts in the penitentiaries of the United States 13,715 are natives of this country, and 14,725 were born abroad. Similar statistics show that 51 per cent of the inmates of the poor-houses in the United States are foreign born, and 24 per cent of the inmates of benevolent institutions, such as insane, deaf and dumb and idiotic asylums. These statistics are used to justify and sustain the rigorous inspection that is now being made of all immigrants.

Gov. MCKINLEY probably breathed easier when he learned that Coxey's army had crossed the Ohio line. It is now in order for the republican papers in Ohio to begin demanding that the democratic governors of Pennsylvania and Maryland shall arrest or disperse the army.

CONGRESSMAN WHITING is in the field as a candidate for the democratic nomination for governor. The party cannot secure a stronger candidate nor one who represents the democratic principals of government more fully. Mr. Whiting has made a record in congress which is a credit to him and his party.

A GROUP of Democratic Senators threaten to defeat the Tariff bill and to leave the McKinley act on the statute book. The protected interests are making a life and death struggle. They have never before so openly exhibited their enormous power over the legislative branch of the Federal Government. The group of Democratic Senators who have succeeded in almost entirely destroying the free list of the Wilson bill are the agents of special interests. Their motives are infinitely meaner than those of the men who passed the McKinley act. We can respect an honest protectionist who is suffering under a delusion that he can enrich two men by taking money from the pocket of one and transferring it to the pocket of the other one. But these Democratic Senators profess to disbelieve this theory, and are simply trading in legislation for the money there is in it. When men like Gorman, Pugh, Murphy, Hill, McPherson, Smith and Brice openly declare that they are in the senate to guard the interests of makers of collars and cuffs, of railroad which transports coal and iron ore, of potters that have reduced the wages at every increase of their bounty, why should it surprise any

one to be told that Senators buy and sell stock on Wall street, effecting the market by the demoralization of the Senate is so complete that Mr. White saw no reason why he should not remain a member of that body after his confirmation as Justice of the Supreme Court, for the purpose of protecting the sugar-growing industry, in which he has a direct pecuniary interest.

There never was such wholesale and overshadowing scandal in the United States Senate. There never was such a general belief throughout the country that legislation is being sold to favored interests. The people who placed the Democratic party in power because they thought that it was in favor of lower taxes are being portrayed. At the front of this conspiracy against his party and the country is Senator Hill. He is not accused of being pecuniary; but doubtless he has taken the leadership of the Democratic protectionists for the gratification of his political ambitions. He is intent on defeating any tariff bill. He is determined to make it worth the while of all the protected interests of country to favor his candidacy for the presidency. With Hill in the White House and a protectionists Senate, the men whose agents now in the Senate Chamber are blocking the way of reform would control the resources of the country, and the people of the United States would be governed by owners of mines and factories.—Saginawan.

RESCUE THE STATE.

This year a state election comes again. This year Michigan has been more thoroughly disgraced by the misfeasance of public officers than has any other state since the formation of the government. The Republican administration, elected in 1892, was the worst strain upon the state made during the fifty-seven years since it was admitted into the Union. This is undeniable. Even Republicans, when they go to other parts of the country, dislike to register at hotels as from Michigan. Now, if the moral sense of our people is not wholly blunted, if they have not lost the power to distinguish between right and wrong in official conduct, and if they prefer the general good name of the state to party prejudices, they will seek by mutual concessions and good will to elect an anti-republican senate and house of representatives, as well as state officers next November, and see to it that only men of high character and establish integrity are put in nomination. For much less cause than exists this year the people of Michigan, in 1890, noted the republicans out of power in the state. On all live questions, the tariff, silver, economy and honesty, two-thirds of the people of Michigan think substantially alike, and why should they not act together politically to rescue both state and nation from the hands of plutocrats and spoliators?—Jackson Patriot.

CROP REPORT.

Sec'y of state Gardner has issued the following crop report for March: March was remarkable for high temperature and moderate amount of precipitation. Reports are not yet at hand from all stations in the State, but at the State Board of Health station at Lansing, the records show it to have been the warmest March in sixteen years. The mean temperature of the month was 40.48 degrees, or 9 degrees above the normal. The mean temperature of the first twenty-four days about 44.65 degrees, or 13 degrees above the normal. The highest temperature recorded was 74 degrees

on the 18th. A cold wave passed over the State on the 25th, and the weather from that date to the end of the month was severely cold. The mean temperature of the last week of the month was below 28 degrees. On the 25th the temperature dropped to 10 degrees. This was the lowest point touched during the month.

Since April 1 the temperature has gone below the freezing point on all except two days. On the 1st it dropped to 21 degrees, on the 2d to 22, and on the nights of the 7th and 8th to 25. This morning, April 9th, there is a strong, cold wind from the east.

The average precipitation in March was 1.26 inches. Three inches of snow fell on the 28th.

As usual wheat on the summit and west side of hills, and on clay and undrained lands, has been somewhat injured, but as a whole the crop has wintered well. The average of the estimates of correspondents are for the southern counties, 89 per cent; central counties, 91 per cent; northern counties, 94 per cent; the State, 90 per cent; comparison being with average years. Correspondents in their remarks report the crop in good condition, much better condition than usual at the end of an "open" March. In 1893 the average condition April 1, in the southern counties was 81, central 91, State 84; in 1893, southern counties 90, central 89, State 90; in 1891, southern 97, central 92, and State 96. The average condition this year, in the southern counties is eight points better, and in the State six points better than on April 1, 1893.

The total number of bushels of wheat reported marketed by farmers in March is 1,138,557, and in the eight months, August-March, 11,423,596, which is 106,674 bushels less than reported marketed in the same months last year. At 27 elevators and mills from which reports have been received, there was no wheat marketed during the month.

The average condition of clover meadows and pastures is as follows: Southern counties 79 per cent, central 87, northern 95 and State 82 per cent.

Farm animals are in good condition.

During the warm weather that prevailed previous to the 25th of March fruit buds developed to some considerable extent, and grave fears were felt that the cold wave of that date would work great harm if not ruin to the crop. A large number of letters, which will be published in full in the final report, have been received from fruit specialists since April 1. but at the time they were written the growers themselves were not entirely satisfied as to the amount of damage. The Grand River Valley Horticultural Society, March 27, believed no harm had been done, but one of its members a few days later found pears and peaches badly injured. Ionia growers think their crop injured but a trifle. A St. Joseph correspondent thinks peaches all killed. At South Haven a fair crop of all kinds of fruit is expected. In Washtenaw peach buds had "started to bloom," in some cases showing color. All such on low ground are killed, while those on higher ground are not injured. Apple and other fruit on high lands have escaped.

A fair conclusion from these letters is that the early and tender varieties of fruit, especially peaches and pears, have been injured, but the later and harder kinds are yet safe. This is particularly true of apples. There is no reason why a full crop of this fruit should not be expected.

Mr. and Mrs. George S. Atkins contemplate taking their departure for Locke, Ingham Co., next week. Mr. A. intends taking a large farm to work on shares.

Mrs. John Foote received a telegram this week from Durham, Ont., announcing the serious illness of her mother. Mrs. F. left Monday for Canada, when she arrived her mother was dead.

Little Olive Jones, the seven year old daughter of Mr. and Mrs. Charles Jones, lost one foot by the 3:20 train Friday. It appears that she was crossing the track when the train was turning a curve close to her. Her foot went under the rail and the train went over it. The little one was taken to East Tawas where an operation was performed amputating the foot, by Drs. Howell and Goodale. She is feeling comfortable under the circumstances. This should be sufficient caution to keep children away from the rail road when near train time.

also negotiating for 20,000,000 feet more, which will also be taken there for sawing.

Lack of funds, it is feared, will seriously interfere with the work of the Bay County stone roads board, as there was only a small proportion of the stone roads taxes collected last year; there is a deficit of several thousand dollars in the usual fund.

Lumber sales are picking up. Messrs. Power and Lester this week sold 4,000,000 feet for immediate shipment. They will load the Nellie Mason at once, and a tow of big barges are expected next week after a portion of the lumber.—Alpena Pioneer.

W. B. Mershon, the head of one of the largest planing mills and box factories in the Saginaw Valley, states that within two weeks he has purchased 8,000,000 feet of lumber in the Lake Superior district which will be freighted to Saginaw by water.

The ministers of the different Alpena churches held a public meeting in the opera house Monday afternoon to organize a branch of the humane society for the prevention of cruelty to animals and children. Joseph Cavanagh was elected secretary.

"Six days shalt thou labor," says the great lawgiver. To do good work, men must be at his best. This condition is attained by the use of Ayer's Sarsaparilla. It overcomes that tired feeling, quickens the appetite, improves digestion, and makes the weak strong.

Marion, the twenty-three months old daughter of Arthur Hempstead, of Bay City was standing in front of an open grate Tuesday, playing with a toy broom, when her clothing caught fire and before her mother could help her she was shockingly burned. It is thought her injuries will prove fatal.

Farmers are talking up the cheese factory again. That's business. Good judges say that no industry could be started in the present time better calculated to succeed, and at the same time to furnish a profitable market for an important farm product.—Harrisville Review.

Alfred Bourbonnais arrived home Thursday from the Penoyar Bros.' lumbering operations in the Upper Peninsula. He reports a 40-mile sleigh-ride Wednesday, and says that there is two feet of the old snow still left up there and that the logs are still going in.—Oscoda Press.

Newell B. Parsons, head book-keeper of Wells-Stone Company, of Saginaw who was arrested Saturday charged with grand larceny in removing twenty-three books from the vault of the company, covering its business transactions during the last seven years, was arraigned Monday afternoon and bail was fixed at \$7,000, to appear for examination April 17.

"Be it resolved by the common council of the village of Ashley, in session this 27th of May, 1889. That hereafter whenever any show company or theater company desire to exhibit any show in said village, that marshal shall collect from said company tickets for members of the council and all other officers of the village both elective and appointive. Vote stands 3 yeas and 2 nays." This resolution actually stands on the minutes of the Ashley council.

David Ward, who is said to own more land in Michigan than any other man, is traveling through the northern part of the state. He is building a 30-mile extension of his railroad from Alba to Frederick. Mr. Ward owns 200,000 acres of land in Antrim, Emmet, Kalamazoo, Crawford, Otsego, and Montmorency counties, upon which is still standing 1,000,000,000 feet of lumber. He thinks it will take about 25 years to cut his Michigan pine.

Nearly two years ago a large barn, owned by Mrs. Mary Alexander, of Pine River, Arenac county, was destroyed by fire. It was hinted that persons with whom she was not on friendly terms could explain how the fire originated. While cleaning up the debris this week the charred remains of a man was discovered as well as pocket-knife, brass buttons, etc. As there is no one missing in that vicinity, it is supposed that the man was some tramp who was occupying the barn and may have set it on fire accidentally.

An interesting state of affairs now exists in Mikado township, Alcona Co Five years ago it was set off from Greenbush township and easily succeeded in getting in debt about \$3,000, with no visible means of paying it. Quite recently Greenbush township got a judgment of \$600 against Mikado. The new township tried to get even by bringing about re-annexation and saddling the debt on its old ally, but the scheme did not work. This spring it made another shot in neglecting to put up any candidates for township officers. The old officers resigned. The question that naturally comes up now is, who are going to attend to the collection of taxes and pay out running expenses. It looks very much now as if there was no such place as Mikado township.—Alpena Echo.

West Bay City is still having a hot time over the recent election. First, there are charges and countercharges regarding the brutal beaten given Capt. Shean by two policemen election night. A. P. A. sympathizers of the policemen assert that they were arrested "just because they were A. P. As. and that the justice and officers making the arrests were all Catholics and took the steps to arouse bitter feelings." The other side denies this, but mildly implies that Shean would not have been pounded so hard if he had not been a Catholic. A few nights ago John Master-son had a number of fine shade trees girdled, and the local republican paper wants its readers to believe that the work was done by some Catholic inspired by hatred growing out of the political fight.—Evening News.

About 12 o'clock last night Mrs. Jas. Lawson was awakened by a cow bell close to the window. Soon afterward she thought she smelled smoke in the house, she got out of bed and went through the house. When she opened the kitchen door she found the room in flames. See at once awakened her husband and they got the children up and took them to the neighbors. An alarm was turned in and the fire department called out. Before the fire was extinguished the kitchen was gutted and the rest of the house damaged by smoke and water. A kitchen window was found open, and it looks as though the fire was set, as there had been no fire in the kitchen stove since supper time. Had Mrs. Lawson not been awakened by the cow with the bell on the fire would undoubtedly have gotten start enough before being discovered to have burned the house up.—Oscoda Press.

\$3,000.00 A YEAR FOR THE INDUSTRIOUS.

If you want work that is pleasant and profitable, send us your address immediately. We teach men and women how to earn from \$5.00 per day to \$3,000 per year without having had previous experience, and furnish the employment at which they can make that amount. Nothing difficult to learn or that requires much time. The work is easy, healthy, and honorable, and can be done during daytime or evenings, right in your own locality, wherever you live. The result of a few hours' work often equals a week's wages. We have taught thousands of both sexes and all ages, and many have laid foundations that will surely bring them riches. Some of the smartest men in this country owe their success in life to the start given them while in our employ years ago. You, reader, may do as well; try it. You cannot fail. No capital necessary. We fit you out with something that is new, solid, and sure. A book brimful of advice is free to all. Help yourself by writing for it to-day—not to-morrow. Delays are costly.
