DEMOCRACY SAY ON!

Federal Officials Capture the State Convention.

Principles Democracy Repudiated and Cleveland and his Go'd Ideas Endorsed.

WILL THE DEMOCRACY SUBMIT?

The will of the democracy of the state was overturned and the state convention at Detroit last Wednesday was captured by a gang of government officials. The time honored principles of Jeffersonian democracy were turned down and the principles of Grover Cleveland and Wall street endorsed.

The friends of silver made a noble fight but were defeated by the "gag" rule. As usual the Wayne county gang hiss and hoot at all who fail to agree with them.

Such men as S. O. Fisher, who have sacrificed self interest to serve their party, are defeated.

Four administration, sound money men elected as delegates-at-large. The free silver men elect thirteen out of twenty-four district delegates.

The tenth district delegates are A. McDonald, of Bay, and J. F. Maloney, of Cheboygan. Jas. K. Wright, of Crawford, and Sylvester Vaughn, of Iosco, were elected alternates.

The silver delegates to the Chicago convention are supposed to be "gaged" by the adoption of the unit rule, but it is safe to gamble that should the policy be adopted in the national convention as was by the Michigan convention that the true democracy of country will rise in their might and give the gold-bug element one of the most crushing defeats ever sustained by any party.

I'll Start for Home To-morrow.

We have just received a copy of the above named beautiful song and chorus. Composed by Walter Coleman. It is now being sung nightly at all the principal Theatres in New York, with grand success.

Price 50 cents per copy. All readers and subscribers of this paper will receive a copy at half price, by sending 25 cents in silver or postage stamps to Union Mutual Music Co., 265 Sixth Avenue, New York.

Self-Government for Boys.

The training in citizenship and political methods was only less valuable than the training in practical thrift and industrial economies. The several industrial classes were allowed to be represented in the two chambers of the Republic's Congress. Each industrial class elected one member of the House of Representatives for every twelve persons, and elected one member of the Senate. Representatives were elected for a term of one week, and Senators for a period of two weeks. Thus the experience of conducting an election was enjoyed eight or nine times in the course of the two months. The balloting was carried on in approved fashion; and so the members of Mr. George's little commonwealth were prepared to understand, not only what elections mean, but all about the conduct and machinery of elections, the necessity for pure and honest elections in a self-governing community, and the proper safeguards to protect the exercise of the elective franchise.—From "Vacation Camp and Boys' Republics," by Albert Shaw, in May Review of Reviews.

EVERY THING IS LOVELY.

Fine Showing Made in the Weekly Crop Report.

Lansing, Mich, April 28.—(Special.)—The weekly crop report, issued today by United States Weather Observer Schneider, of this city, says: "The nearly normal temperature and abundant rainfall during the past week have been very beneficial to all vegetation and a majority of the correspondents report a marked improvement in the condition of winter wheat rye and grass. The frost of Wednesday morning did no damage. The wet weather has held back plowing and seeding to some extent, but generally this work has been pushed in most sections of the State. Reports from all correspondents are very cheerful and tell of the good condition of winter and spring crops and that the fruit prospects are excellent.

Over the upper peninsula the snow is fast disappearing from nearly all parts of the section, while in the farming districts the frost is about all out of the ground and considerable plowing has been done. Grass has started well and is coming up rapidly.

Over the northern counties of the lower peninsula spring farm works is quite generally. Considerable plowing has been done, but owing to the wet soil, this work has been held back somewhat and also somewhat confined to high ground. Winter wheat and rye, although somewhat winter killed has undergone a marked improvement during the past week and is now looking finely. Some oats have been sown in this section and some of the early sowing is already up.

In the potato district of Grand Traverse county, early potato planting is already commenced, but this work is not generally throughout the section. The fruit trees are reported full of buds, doing nicely and promising a good yield.

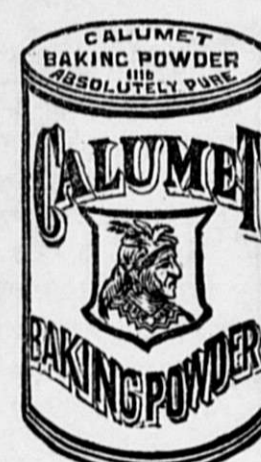

Over the central counties farm work has advanced steadily during the past week, although somewhat held back by the wet weather. Considerable plowing and oat sowing has been done, and in a few cases early sown oats are "doing fine." Winter wheat, rye and meadows have made great progress during the week and promises well. Some early potatoes have been planted in this section, but the work is not general. All fruit prospects are good, and apples, cherries and peaches are blossoming out.

Over the southern or four lower tiers of counties, as in the other sections, correspondents report winter wheat, rye and grasses as doing finely. All the fruit trees are in excellent condition, and from the present outlook the fruit yield promises to be abundant. In this section plowing for corn has commenced in earnest. Most correspondents report oat seeding as about finished, and much of the early oat seeding is already up and doing finely. Some early potatoes have been planted and considerable garden accomplished. Pasture are affording very fine fodder. Altogether, correspondents report the present season, not only for this section, but the entire state, more promising than for years back, the rainfall especially having been abundant, and confined with favorable temperatures, has given everything a good start and not too early in the year.

Republicans Roast the Rich Administration.

When we democrats charge the republican management of Michigan with rottenness and extravagance the republican newspapers and politicians say that it is nothing but campaign thunder. But now that Gov. Luce Jas. M. Turner and many leading republicans are out-doing the democrats in their denunciation of Gov. Rich's administration and the skunk legislature it is impossible to make that excuse.

At a republican meeting in Grand Rapids Monday evening, ex-Senator Wesselius and Hon. Chas. R. Sligh, president of one of the leading manufacturing institutions, both denounced the extravagance of the present state administration and the rottenness of the last legislature. Among other things Mr. Wesselius said:

"You have no idea of the number of rights you lost during the last session of the legislature. The corporations have one system of taxation and you have another. The railroads and mines pay a certain tax on what they earn, but you must pay the full amount whether you earn it or not. When the hard times come you see the corporations are not affected like you as far as the state can help them out for they pay taxes on a sliding scale.

"Within my recollection state taxes have risen 168 per cent and they are still rising. Where will this end? If it keeps on the entire assets will be all taxes. It is not long since a corporation under a railroad franchise got \$9,000,000 of public property for building an imaginary railroad."

Mr. Wesselius then called upon Charles R. Sligh for a speech on free silver, but that gentleman said he was not prepared to talk consecutively on the question, but he emphatically endorsed all that Mr. Wesselius had said and supplemented the epithets of the first speaker against the legislature by saying that it was not only the rottenness legislature that ever sat in Michigan, but it was more completely under the control of corporation than any other legislature that ever enacted laws for this state.

A Chance for Experiment.

Mr. Kenyon J. Butterfield, Superintendent of Farmers' Institutes, writes us that the Agricultural College has prepared some suggestions for experiments that may be carried on by members of our county farmers' institute society in connection with institute work. These experiments are of several kinds, and will be of interest to the farmers of this county. If the members of the county institute society will call on or address the secretary, Mr. Geo. Anschuetz, of Tawas City, Mich., they can secure a circular giving full information. They ought to apply at once if they wish to have the chance to take any of the experiments.

The new hoop company are pushing the work of erection of their mill on the old Hale site. The large barn has been moved back near the boom and two large additions are being built to it, one of which will be 32x58 feet, two stories high. Besides these large steam vats will be built on the west side. It is expected to have the plant completed and ready to commence operations by July 1. The company is also repairing the boom and docks by putting in a lot of new spiles.

Contractors Kennedy & Campbell, of this city, have been awarded the contract for the D. & M. extension from Omer to Bay City. The work will probably begin Monday. It is proposed to begin at Omer and work this way. The D. & M. is hustling matters along rapidly. Large quantities of hemlock ties have been piled up at Whittemore, on the main line, which will be used in the construction of the extension. It is expected that cars will be running to Bay City by August 15.—Bay City Tribune.

The boy who has the freedom of the streets after nightfall without business or permission is cultivating a dangerous habit. Any place where a boy has no business is a dangerous place for him, be it on the streets, in the stores, or around a livery barn. A boy who is all right will prefer his home, friends, books and newspapers to the class found on the streets. Business men look upon the boy loafers as the "dead beats" of the future. Boys, if you will adopt the right habits now, you will in manhood be useful to the world, will be a source of comfort to your parents and friends, and will have the satisfaction of looking back on a well spent life.—Ex.

The editorial pages of the Review of Reviews for May are especially strong in their treatment of current foreign affairs and international topics. The Cuban war and its relations to Spanish politics, the boundary difficulty between Brazil and French Guiana, other South American matters, the present status of Canadian politics, American policy toward Turkey, the Soudan expedition, England's position among the Powers with reference to Egypt, the British alliance with Italy, Russian interest in Abyssinia, the rising in Matabeleland, and the Budapest Exposition, are subjects which fall within the month's survey and which are intelligently discussed in the Review's department of "The Progress of the World."

The June Midland Monthly, (Des Moines) is out, and, besides its interesting editorial departments, home themes, war sketch, stories and poetry—a prize poem included—the following are its notable attraction: A bit of Itlay in May, by Mrs. W. F. Peck. Some attractions of the Upper Mississippi, by W. W. Gist. Jefferson Davis and Black Hawk, by Charles Aldrich. A glance at recent Western Literature, by Mary J. Reid. "Piety Corners," a realistic story of love and of Kansas ranch life, by J. Albert Smith. An Octogenarian's recollections of William Henry Harrison, by T. S. Parvin. An Ex-Consul's, (the Editor's) objections to the extension of Civil Service Reform to our Consular Service. The numerous and beautiful illustrations include a new full-page picture of Eugene Field, by Tabor, presented to Mrs. Reid, by the author himself.

No peddler does anything to help the town. He gives nothing to help the churches, schools, or public enterprise. He spends no money here. He pays no taxes. He has nothing in common with our people. He can swindle you—and often does—you can't help yourself. He has no store down street to which you return goods that are not up to sample. The intendant merchant has no reputation to sustain. He can cheat with impunity. The home merchant is and does opposite. He bears his share of the burdens of good government. When a subscription is passed, he is first approached. He spends all his money here. He builds a home which enhances the value of all property. He helped pay for the church in which you worship, and the school to which you send your children. He cannot afford to misrepresent his goods or swindle you. Self interest alone would prevent that.—Ex.

"Matron of a Benevolent Home and knowing the good Dr. Miles' Nervine has done me, my wish to help others, overcomes my dislike for the publicity, this letter may give me. In Nov. and Dec., 1893, **The inmates had the "LaGrippe,"** and I was one of the first. Resuming duty too soon, with the care of so many sick, I did not regain my health, and in a month **I became so debilitated and nervous** from sleeplessness and the drafts made on my vitality, that it was a question if I could go on. A dear friend advised me to try **Dr. Miles' Restorative Nervine.** I took 2 bottles and am happy to say, I am in better health than ever. I still continue **its occasional use, as a nerve food,** as my work is very trying. A letter addressed to Milwaukee, Wis., will reach me," June 6, 1894. MRS. LAURA C. PHOENIX.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 25c per bottle for 50c, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.
