## HENRY HANSON,

Prop. Hanson's Bazaar.

East Tawas, Nov. 26, '97.

SPECIAL VALUES IN SUITS AND OVERCOATS AT FRIEDMAN'S, LEADER OF LOW PRICES.

A BILL to establish a University of the United State at Washington, was introduced in both houses of congress last Monday.

THE present indications are that the Honorable Julius Cezar Burrows, is going to find a stumbling block in the road to his return to the United States senate, in the person of Hasen S. Pingree.

It is passing strange that the chief difficulty in the way of the good roads movement is the opposition of the farmers, who indeed, should be more benefited by improved roads than any other class.—Cedar Springs Clipper.

A TOPEKA preacher, in announcing a church festival, bids the guests to come in this classical language: "Reason will kiss truth and electrify the soul, while the physical man will swoon before the delicacies of the season. Come one; come all!"

At 2.08 o'clock Sunday morning, Nancy Allison McKinley, mother of President McKinley, passed to her last long rest, at the family home at Canton. The nation will mourn with the bereaved family. The aged lady died surrounded by her family.

The number of deaths in Michigan in November, according to returns made to the secretary of state, was 1,985, or 361 less than during the month of October, Consumption causes 197 deaths, typhoid fever 65, diphtheria and croup 76, pneumonia 176, diarrheal diseases of children 61.

If a child comes home from school with a good report, his parents think he is very bright and far ahead of his class and perhaps of his teacher. It's all in the boy. But on the contrary, if he comes home with a poor report his teacher hasn't sense enough to make a report anyhow. It's all in the teacher then.—Ex.

It is remarked that the chapter of President McKinley's message relating to the Cuban question is not in agreement with the plank of the republican national platform on the same question. "Getting together" in politics is not the easiest performance in the world. The president, though, should keep a copy of the St. Louis resolutions pasted in his hat.—Saginaw News.

PRINCE BISMARCK considers it "American arrogance" for this nation to remark, in the polite terms of diplomacy, that it would give us a sensation of indigestion if Germany were to annex Haiti. Evidently he does not see anything arrogant about the violent seizure of a Chinese province by his own Kaiser. There are some indications that the Czar does, and that he may feel compelled to call Emperor Willam down, in which case he will come.

DECEMBER brings a certain amount of leisure to the farmer, when the odds and ends of the year may be collected and set in order, and everything made ready for a fresh start with the new year. The wise farmer balances his accounts and knows how he stands with the world, and how his fields and stock stands with him. And in squaring his accounts, he doesn't forget society; he remembers that he owns something to the community in which he lives, and he is just as anxious to be a good citizen as a good farmer.—Farm News.

## SUPPLEMENT.

TAWAS CITY, MICHIGAN, DECEMBER 17, 1897.

### OSCODA TAXES!

Sheriff Shien will Collect them,  
as the Township Treasurer failed to file  
His Bond.

Another attempt of the upper end of the county to evade paying their share of the taxes now comes to light. In Oscoda township the treasurer failed to file his bond with the county treasurer, and so is disqualified from collecting the taxes. As provided by law, it now becomes the duty of the sheriff to act as collector, and accordingly, Sheriff Shien has filled the required bond \$12,000 and will attempt to collect the taxes.

Mr. Shien expects to have considerable difficulty as many of the largest tax payers have signified their intentions not to pay the state and county tax. The law is very plain as to the duty of tax collectors in cases where persons refuse to neglect to pay their taxes, and it is to be hoped that Mr. Shien will leave no stone unturned to bring those to time who refuse.

Iosco county has been beat out of thousands of dollars in the past, because tax collectors have been too slack in their efforts to collect, and it is time some effort was made, not only in Oscoda, but all other cities and townships, to force the collection of taxes. Officers who fail to make every effort to collect this year's tax will be required to make good the money lost to county, and state.

### Preparation of Ground for Planting Sugar Beets.

The increased interest in the sugar beet question has brought to the Indiana Experiment Station an unusually large number of samples of sugar beets from all sections of the state. Some of the beets were raised from seed furnished by the station and some from seed obtained from other sources. In the case of the seed sent out from the station, full working directions were furnished. In most cases the directions were not followed, although those who requested free seed agreed to fully follow working directions. The most essential preliminary to raising good sugar beets is the proper preparation of the seed bed. The ground should be stirred to a depth of at least sixteen inches. The best way to accomplish this is to turn a furrow about eight inches deep with a common plow and follow with a subsoil plow in the bottom of the furrow. Very few farmers who tried raising beets, report that they used a subsoil plow or any other implement for stirring the soil to a greater depth than eight inches. The result of this is seen in many samples received. Instead of a single tap root there are a number of small roots, and instead of the growing well under ground, it extends so far above ground that nearly one-half of its weight is useless for sugar making purposes. Both these defects can be corrected by deep plowing and subsoiling. It is much better to do this plowing and subsoiling in the fall. We therefore advise all those who intend to experiment with sugar beets the next year or who intend to raise them for any purpose, to plow the land now, and be ready to plant as early as the season will permit in the spring. This early planting is a great advantage on the moderately light lands that are best adapted for sugar beets since it advances the crop to a stage where it can better withstand the usual dry summer season. In the distribution of seed in the spring, the station will give preference to those who have land properly prepared. If raisers intend to try the raising of sugar beets it is the utmost importance that the work be properly done in every respect. For every test not properly conducted and giving beets of poor quality is not simply useless, but it is directly injurious, since it seems to indicate that the locality is not adapted for beet culture. Badly conducted tests may be the means of keeping beet factories away from localities that are really well suited for the business. They will certainly never be the means of inducing capitalists to invest money in factories in any locality. The first step in the right direction is proper plowing, and this can and ought to be done at once.

### Annual Holiday Excursions

The F. & P. M. Ry. will sell excursion tickets to Canadian points, on December 16th, 17th, and 18th, 1897, at half fare, or fare one way for the round trip. Tickets will be sold to London, St. Thomas, Woodstock, Hamilton, Stratford, Guelph, Toronto, Belleville, Kingston, Montreal, Quebec, Ottawa, and all stations in Canada, except those west of Ailsa Craig, Fargo, and Chatham, and east of Hamilton and Janfield. Tickets good for return trip until January 7, 1898. For time of trains ask ticket agents.

### Extra Notice.

There came into my enclosure in the township of Reno, on or about Sept. 25, 1897, a yearling steer, black color. The owner can have same by proving property and paying costs.
