## OUR COUNTY SCHOOLS

Supt. E. L. Russell, of the Oscoda schools, spent Saturday with the commissioner.

The American Primary teacher has a fine picture of Audobon, for its supplement this month.

The Oscoda schools have their vacation this week. They have but a nine months school this year.

Many a schoolmaster better answereth the paidotribes (boy-beater) than paidagogs (boy-teacher).—*Thos. Fuller.*

The Teachers Reading Circle at the other end of the county is studying physics in addition to the psychology.

High school pupils in this city are memorizing "The Blue and the Gray" and the preamble to the constitution this week.

The governor has appointed April 29th as Arbor Day. Are you going to celebrate it? Plant at least one tree with appropriate ceremonies.

The commissioner will appreciate the courtesy if the teachers of the county will send him a postal card stating the time their school will close.

The friends of Supt. Jansky will be glad to hear that he has entirely recovered from the indisposition that prevented his being in attendance at the association.

Remember the school exhibit to be held in connection with the meeting of the teachers' association at Whit-timore. Get your best work to the front for this purpose.

The warm weather of the last few days have renewed the sports of childhood at a great rate. Mar-bels are on the wane, white peg-gops, skipping ropes and base-ball are just beginning to absorb the juvenile attention.

Papa—"I am surprised that you are at the foot of your class, Tommy. Why aren't you at the head sometimes, like little Willie Bugbee?" Tommy—"You see, papa, Willie's got an awfully smart father, and I guess he takes after him."—*North-west Magazine.*

No teacher should begin the work of the school room until he has read "Page on Teaching." Although th s work was written many years ago, its value is nearly, if not fully as great today as it was the day it was published. Get it, my friend, and read it, if you have not done so already.

Rev. E. L. Osborn favored the Tawas City High school with his lecture on the Mammoth Cave on Thurs-day. The lecture was given without charge by Mr. Osborn, a kindness much appreciated by the pupils and teachers of the school. Better report will be given next week.

It is said by the newspapers that the coming special session of the legislature will decrease the primary money quite perceptibly. On the other hand, it is said that if the measures that Gov. Pingree is after are made laws, more money will be available for school matters.

School closes in the A:n district for the year, on the 25th. Five months, just enough to secure the primary money, has been held. Miss Nellie Howell has been the teacher. The people of the district have been much pleased with her administration of affairs. It is Miss Howell's first school.

Item for the geography class: "I presume," observed the exchange editor, "that the Chinamen have slanting eyes because they are inclined that way." "That doesn't follow," remarked the financial editor. "In San Francisco the Chinamen's eyes slant in order to accommodate themselves to the Pacific slope." But friends interfered.

Don't use valuable blackboard space for a program, when a large sheet of paper or cardboard will do as well. Have you ever tried window curtaining for a blackboard? It is lots better than some of the blackboards we find in the district schools. Get a dark shade. It is inexpensive, wears well and erases well. It will pay a teacher to have a few yards to carry along with her from school to school. You will ai-

ways find a place to tack it up where you can use it.

Supt. Evans, of the Standish schools, is out in an article in the last number of the Arenac Independent against the reading of dime novels by the pupils in his schools. He states that many of the pupils have the books, and that the reading of them has grown in the past few months. That he may succeed in his crusade against the deadly things is our wish. With the possible exception of the cigarette, we do not know of anything that will sap the intellectual life out of a good healthy minded boy sooner than a dime novel. A bookdealer who will handle the things is a greater foe to a town than a fire-bug, for one destroys that which can be replaced by time and money and the other destroys that which nothing but the will of God can replace. Success to you, Bro. Evans.

Office hours from 9 a. m. to 8 p. m.

The doctors will make monthly visits hereafter.

### Raising Clover.

Clover is at its best as a fertilizer when it has produced its second crop. This is when it has grown two full seasons. If kept beyond this time, either weeds or grasses come in, according as the soil is best seeded with these. Whoever keeps a field in clover longer than two years, lessens the crop that can be grown after it. On the other hand, a clover ley will not down the first season after it is plowed, so that it may be sown with clover seed the following spring. An old sod made up from any of the grasses needs to be cultivated two years before it is ready to reseed. Hence the smaller amount of fertility it furnishes is more thoroughly ex- hausted by three crops on it instead of two, as clover allows before the land is again being reseeded.

Upper Peninsula saloonkeepers say that adulterated butter is injuring the health of their customers.

OUR government has purchased two new war ships of the Brazilian government, which are just being completed in England.

SOME of Schuyler S. Olds' Lansing friends are urging him to go into politics. They insist that with experience he would become a success.

THE middle-of-the-road populists have called a convention for June 21, at Grand Rapids, to nominate candidates for state officers.

PINGREE'S "greatest show on earth" commences its exhibition at Lansing next Tuesday. Query: Will the clown be able to manage the animals?

CORRESPONDENT—"What is civil service?"—"ANSWER"—"It is a political invention used chiefly to work upon the gullibility of the modern mugwump."

THE policy of the American republic should be to enforce a political system that will produce our own offshoots of society, rather than encourage their importation from foreign countries.—Hi Potts

It is stated that Hon. W. G. Thompson and Hon. Joseph Weiss, of Detroit, well known political reformers, have become discouraged combating political corruption and are talking seriously of withdrawing from politics permanently.

LAWs should be placed upon the statute books of our country prohibiting the appearance of ballet girls before the public in scanty attire. These privileges should be reserved exclusively for receptions, charity, and inaugural balls and summer resorts.—Hi Potts.

EVERY believer in bimetalism should be a reader of the Silver Knight Watchman, Senator William M. Stewart's paper, published at Washington. This is beyond doubt the ablest exponent of the silver cause published. The subscription price is \$1 per year. Copies of same can be seen at this office.

THE republican press continue to talk of 50 cent dollar. We would like to have some one of them please explain how it is possible to have a 50 cent dollar. The fact is that when this government puts its stamp upon a dollar and says it is full legal tender for all debts public and private, it is worth 100 cents, whether the material in that dollar is gold, silver or paper.

THE Mohawk Bimetallic club of Detroit will hold its annual banquet at Light Guard hall in the city of Detroit on Tuesday evening April 5, 1898. W. J. Bryan will make the principal address. A gathering of county chairmen will be held in that city on the afternoon preceding the banquet. Tickets to the banquet will be \$2. There will be a large number of people present and it will be necessary to secure seats in advance.

OCCASIONALLY a republican newspaper will be found who will become so badly disgusted with some un-American stand taken by party leaders, that it will express its honest opinion. This undoubtedly is the reason that the following opinion of Mark Hanna appeared in last week's Bay City Tribune: "The story that Mark Hanna attended a cabinet meeting and told the president and his advisers that war with Spain must not be thought of in any contingency and that Spain couldn't afford to pay indemnity is a lie manufactured of whole cloth. The president and his cabinet are not devoting any time to Mr. Hanna lately. Since Mr. Hanna was rebuked by the president for poking his nose into other people's affairs the fat gentleman from Ohio has abstained from speech. Mark Hanna's silence is appreciated by the whole country. His example should be imitated by the spot cash patriots. It is not safe to attempt to paint \$ on the American flag."

# WASHINGTON LETTER.

MARCH, 14, 1898.

The Washington end of this nasty Spanish business is now in a fairly satisfactory condition. Since congress placed \$50,000,000 at Mr. McKinley's disposal, the administration has come out in the open with its war preparations, and no time is now being lost in getting together the fighting material that will be necessary to enable us to drive the Spaniards off every foot of American territory. Although Mr. McKinley deserved criticism for waiting so long to get started along the right road, it is overlooked now, and he is given the praise he deserves for the energetic manner in which he is pushing things. The country is rapidly being put upon a war footing; the people have been on a war footing for some time.

No harm is done by Secretary Long's denying that either the president or himself has any information as to what the report of the naval court of inquiry will be, so long as there is not let up in the preparations to be in position to act promptly on that report, which cannot be delayed much longer. There isn't the slightest doubt that the report will show that the Maine was destroyed by an outside explosion.

Mr. McKinley has not told anybody, so far as known, that he intended to couple with the demand he makes on Spain on account of the Maine, another that Cuba should be free, although he has intimated his intention to in the same way combine the two things. If he wishes to act in accordance with the dominating sentiment in congress, he will certainly take some means of letting Spain know when the Maine demand is made that this government has stood the disgraceful condition of affairs in Cuba, just as long as it intends to, and that if Spain does not at once voluntarily recognize the independence of Cuba, the United States will help the Cubans to force her to do so. The talk on this subject among congressmen is plain and outspoken, and practically all one way.

The new Spanish Minister talks as though the most important issue between Spain and the U. S. was the negotiation of a reciprocity commercial treaty, and says he expects the representatives of the alleged autonomy government of Cuba, who will have charge of the interests of the island during the negotiations, to reach Washington in a few days. No one believes that such a farce as negotiation for a reciprocity treaty would be, under existing circumstances, will be allowed to begin by the administration, and the minister is probably only indulging in such talk for the purpose of trying to impress us with the peaceable intentions of Spain towards us. He is wasting time. We know Spain's real attitude towards us—an attitude that has worked the American people up to such a pitch that the determination to thrash Spain has become universal among us.

Senator Jones, of Ark., voiced the almost unanimous sentiment of congress when he said concerning the report that a movement had been started with a view to bringing about an alliance between England and the United States: "I do not think that there is anything in the report, for it would be one of the most foolish things this or any other administration ever undertook. In the first place, we do not need any alliance to conduct our own quarrels. We are able to take care of ourselves, and an alliance with some other power, particularly those on the other side of the water would be especially repugnant to the people of this country. I am confident there is nothing in it, and if there was, and it should be submitted to the senate, as it doubtless would be that body would not sanction it."

Those who had supposed that the fight against the confirmation of the nomination of Terrence V. Powderly, to be commissioner of immigration—the price of Powderly's stumping in the presidential campaign—was over were not well posted. It is being waged quite briskly, and one of the apparent results is an adverse report from the senate committee on immigration on the nomination, and Powderly's opponents express confidence that they can get enough votes in the senate to ratify the committee's adverse report. Powderly is now holding the office under a recess appointment.

Czar Reed having succeeded in his efforts to compel a majority of the house committee on rivers and harbors, to vote against reporting a river and harbor bill at this session, Representative Wheeler, of Alabama, has introduced a bill appropriating \$5,000,000, to be expended at the discretion of the secretary of war, for the continuance of river and harbor improvements already begun, preference being given to those which can be best operated during the summer and fall months. Gen. Wheeler will do his best to get his bill through but as it is opposed by the Czar, the chances are rather against him.

As to what success he will meet with can be guessed considering the fact that the supreme court has declared the office vacant and ordered the election of a successor to Mr. Dudgeon.

Last week Sheriff Shien seized a quantity of lumber belonging to the Louds and advertised it for sale to satisfy taxes. Wednesday Circuit Court Commissioner Cornville issued a temporary injunction restraining the sale, and the matter is still in air. This company seem determined to evade the payment of taxes if there is any possible way. What surprises us the most is the fact that some, including certain newspapers, are supporting them in their efforts to rob the country.

The soap-fraud racket is abroad in the land, and the mode of operating it is much in this wise: Two men enter a country town, put up at a hotel, hire two carriages, and start out to sell soap at \$5 a box. As a premium they promise 40 yards of Brussels carpet with each box of soap if the \$5 is paid in advance. They make many sales, after which they leave town. The soap is delivered, said to be worth less than \$1 per box, but the purchasers are yet waiting for the carpet—and probably they'll continue to wait. Any person "soaped in" by this sort of game, or having anything to do with strangers that promise much for little, deserve to be swindled out of their money.

Miss Myrtle Otis of East Tawas spent Sunday with her sister Miss Edna Otis. Thomas Lowe and Thomas Lake have returned from the lumbering camp. Saturday the 26th, Mr. B. Lawrence will make his last trip with the Vine and Edison Mail. He has carried the mail between Vine and Tawas for the past seven years and has never missed a trip. When the roads were pronounced impassable he went through fields, taking him two and one half hours to travel one mile. If the people provided more such men in their employ this country would not have to be run by confidence, Mr. G. W. Ferrister takes Lawrence's place in carrying the mail.

We all join in wishing them health, happiness and prosperity.

Taxes of 1895—See that your Lands are not Sold for Taxes.

STATE OF MICHIGAN, AUDITOR GENERAL'S DEPARTMENT, Lansing, Mich., March 10, 1895. The sale of lands delinquent for taxes for 1895 and prior years will be held at the offices of the county treasurers, beginning May 31, 1895. Attention is called to this sale so that you may assure yourself that you have not neglected to pay the tax of 1895. If you have not already done so, you should obtain a copy of the publisher's list from the newspaper in your county publishing the same, or in the county where your lands are located, and carefully examine it for description of your own lands. A little care and time spent now may save you a great deal of annoyance after lands are sold. Very truly yours, ROSCOE D. DIX, Auditor General.

W. G. T. U. COLUMN.

By Local W. C. T. U. The "righteousness that exalteth," is the Union's ideal. Don't cover your neglected duties with the cloak of excuse. The man who works for the Lord, will never be out of a job.—Ram's Horn. "Every sin makes its own hell." Therefore hell is constantly enlarging her borders and kindling her fires for the accommodation of the progressive sinner. The time for holding our city election approaches. Will some of our "big brothers" tell us why "politics" is introduced, so persistently into municipal affairs? Perhaps it is for the same reason that some of our "big sisters" so persistently insist upon taking a poodle dog to church. Both are out of place and a damage to "the cause." If it must be so, then let us have a well-behaved poodle, and a clean party ticket. Sisters "can't play" but say brothers, we are watching your game. Play fair. We sincerely hope that the practice of treating the young boys and youths, to cigars, etc, by the successful candidates, will be discontinued. The hope of reward, in this case, is degrading. "Boodle" is their aim, unmanageable, rabble as soon as the result of the vote is declared. Mothers have a voice here and urge that their boys, the future voter be not corrupted F. A. S.
