## ALABASTER.

Mtts was in town Wednesday.  
What is the matter with the Fourth?  
Five vessels loaded plaster here during the last few days.  
Miss Mae Poppan visited friends in East Tawas last week.  
Miss Maggie McDonell is visiting relatives and friends in Wilber.  
Miss Lizzie Johnson spent a few days with friends in Tawas City last week.  
Miss Celia Martin left Monday for Standish to attend the Summer Normal at that place.  
The sad death of Mrs. James McCue of this place occurred in East Tawas Tuesday at noon. Mrs. McCue has been a patient sufferer for nearly two years from that lingering disease consumption. She leaves beside a large circle of friends a husband and five children, a father, six sisters and four brothers to mourn her untimely death.  
Mrs. B. F. Slingerlend was given quite a pleasant surprise by a number of her lady friends last Wednesday afternoon, being her 30th birthday. After enjoying themselves for a short time refreshments were served and all did ample justice to the well filled table. Mrs. Slingerlend was the recipient of many nice presents.

## W. C. T. U. COLUMN.

By Local W. C. T. U.

"That beverage, the mother of sins,"—*Southey*.

No man has a right to do as he pleases, except he pleases to do right.

O, thou invisible spirit of wine, if thou hast no name to be known by, let us call thee devil.—*Shakespeare*.

The Union Signal still carries the name of Francis E. Willard as editor-in-chief. The good she did lives after her.

The National W. C. T. U. is now canvassing for the last \$100,000 of the \$300,000 needed for their temperance temple. A holder of temperance temple bonds in Chicago subscribed \$3,000 the other day and another one \$600 toward this fund.

Anton Dreher, the millionaire brewer of Austria, the wealthiest in the world and owning four great plants in Austria and Bohemia, with aggregate capital of \$40,000,000, has decided to locate a \$10,000,000 branch in Milwaukee.

A scientific explanation is now given of the snakes seen in delirium tremers. The blood vessels of the retina of the eye are quite transparent in a healthy man. But under the influence of alcoholic stimulants they become dark with congested blood, and are thus visible.

The National Temperance society is by its agents distributing temperance literature in the several camps where are soldiers are gathered and are responding to the calls of chaplains for temperance tracts. This is making an unusual demand upon the funds of the society. Perhaps the friends of temperance who would aid in saving our soldier boys from ravages of strong drink cannot do so more effectively than by contributing to the funds of this society, No. 5, West 18th Street, New York.

The Y. M. C. A. people have distributed to many of our soldiers, a small paper Cuban flag, on the back of which is printed the following address by Major General O. O. Howard: I have a message to young men who think of volunteering in this warfare between our country and Spain. It is this: If after thoughtful consideration, a young man resolves to volunteer, let him be sure his heart is right with God. Second let him do something every day to show to his companions that he is not only a patriot but a lover of humanity and a christian as well. In a war to set the oppressed free, to rescue and restore thousands who have no helper, and to establish a good and stable government in Cuba, he should be sure to keep the flag of the upright and godly in view of his daily associates. As he goes forward let it be like Joshua to have on his banner, "Fear not man, but fear to break the commandments of God."

## A Farewell Reception

The Farewell Reception held on Brabon's lawn last Thursday evening by the Tawas City Reading Circle, was a decided success in every respect except that of "farewell." The reception was held that the society might tender Miss McElhinney their thanks and appreciation for her work as president of the club for the past year. An accident prevented her attendance.

The party, in order to shake off a little of the stiffness which sometimes accompanies a reception of that sort, indulged in the old fashioned game of "hide and go-seek." The fact that the trees were large helped the "hiders" and—, the width and depth of the ditch separating a patch of "spuds" from the lawn hindered them. Other games were indulged in, refreshments served and "good-nights" said after promising to hold a "farewell" at the house of another member the evening after he (or she) left town.

The yard was decorated and lighted with Japanese lanterns, which would occasionally furnish entertainment by a conflagration. At one time there was a scramble, a number of the gentlemen, because one of the members shouted: "Be careful! The rope will fall on you, and hurt you!" All agree that thanks were due Miss Brabon for the use of her home and the pleasant more than pleasant evening spent there.

## Four-Inch Guns.

The main batteries of all the gunboats in the navy are made up of four-inch rapid-fire rifles, which are altogether the most popular weapons in the service for offensive and defensive purposes on the lighter vessels. The Castine, the Helena, the Machas the Nashville and the Wilmington are each equipped with eight of these guns, while the Annapolis, the Marietta, the Newport, the Princeton, the Vicksburg and the Wheeling each mounts six of them. The Brancroft relies upon four, and the Dolphin upon two as their chief fighting powers. Even the formidable Iowa has six of them upon her superstructure to deter the approach of torpedo boats and the armored cruiser New York mounts 12 in her secondary battery. The fastest two vessels in the navy, the Columbia and the Minneapolis, have eight apiece, and the double turret monitor Puritan is provided with six to support her four 12-inch monsters.

The chief advantage of this gun lies in its extreme rapidity of fire and ease of manipulation, while the penetrating power at all ranges enables the projectile easily to pierce all unarmored cruisers and lightly protected gun positions. It fires a 33-pound shell with 14 pounds of smokeless powder, which develops a muzzle velocity of 2,000 feet a second, and a muzzle energy of 915 foot tons. Such a shot will perforate a seven-inch plate near the muzzle, and will go clean through a five-inch plate at 1,500 yards' distance.

Ordinary crews on all the gunboats get a rapidity of fire of six a minute out of those four-inch rifles, four men handling the ammunition, while two sight the place and fire it. This speed enables a four-inch gun to throw as much weight in a given time as the five-inch rifle, which is practically twice its size, the latter weighing three tons and firing under the best conditions four 50-pound shells in a minute. The best penetration of the five-inch rifle is barely an inch more than that of the four-inch at all ranges.—*Ex.*

## Gold Democrats Barred.

There is no party issue as to the war, but the currency issue exists today as strong and virile as it was in 1896.

This being the case, there is neither consistency nor wisdom in giving gold democrats a representation on democratic tickets. Men who knifed the silver issue in 1896 and who have since returned to the democratic fold have a stain of disloyalty to wipe out before they can expect to be granted leadership.

Such men, if they are really convinced of the error of their ways, will be glad to march in the ranks and will not aspire to command. Such of them as may show a desire to lead should be told plainly that their record is against them and none but true democrats are entitled to full confidence.

Democrats will fight the creed of gold and demand the money of the constitution this year as they did last year and the year before. They see hope for the people in the opening of the United States mints to the free coinage of silver at a ratio of 16 to 1. They see poverty and enslavement for the people in the continued existence of the single gold standard. With these convictions, the democratic party will refuse to reward disloyalty exhibited in 1896 by nominations to office in 1898.

That gold democrats are barred goes without saying, and former gold democrats must serve in the ranks until the stain of their disloyalty has been completely wiped out.—*Chicago Dispatch.*

## Annual School Meeting.

The annual school meeting of Fractional School District No. 7, Tawas City and Tawas Township, will be held at the high school building in Tawas City, on Monday, July 11, 1898, at 7:30 o'clock p. m., for the purpose of transacting such business as may properly come before it. The attention of the qualified voters is called to the following provision of the Public Acts of 1897:

Sec. 8, Chapter XXV, General School Laws of the state reads in part as follows: "Provided, That the provisions of this act shall not be mandatory on districts that are furnishing free text-books for use in the school or schools of the district or that may, at the annual school meeting, or at any special or general election in the year eighteen hundred and ninety-seven and eighteen hundred and ninety-eight, by a majority vote of the qualified electors of said district determine to furnish free text books for use in the school or schools of the district, and it shall be the duty of the school board of the several districts that have not previously adopted free text-books to submit the question of the adoption of free text-books to the electors of the district at any annual school meeting or special or general election during the years eighteen hundred and ninety-seven and eighteen hundred and ninety-eight under the conditions and provisions of act number one hundred and forty-seven of the Session Laws of eighteen hundred and eighty-nine: And provided further, That the provisions of this act shall not be mandatory on any district which shall at any annual, special or general election during the years eighteen hundred ninety-seven and eighteen hundred ninety-eight determine, by a majority vote of the qualified electors of said district voting on the subject not to come thereunder."

While a majority vote of the electors of the district is required to adopt free-text books, only a majority vote of those present and voting upon the subject is required to carry the proposition "not to come thereunder."

### Best Papers the Best Mediums.

There is much good solid sense for every advertiser in the following paragraph from a thoughtful eastern advertiser: The daily paper is by far the safest and most certain method of reaching the public. It should not be difficult for any intelligent man who has lived for any time in a community to know just what papers will serve him as advertising mediums. It isn't at all necessary to examine the books in the newspaper's counting room or to get their affidavits of circulation. A paper that you read yourself and that your neighbors read and respect and that you know to be widely read and respected, you can safely rely on as a satisfactory medium for reaching people of your own kind.

Iosco's "hero of Manila," will encounter much harder fighting in capturing a seat in congress, than he did in capturing Manila.

It is high time that a few "sore-heads" who claim to be democrats, but who spend most of their time crying "bossism," were regulated to the rear where they properly belong.

TEN senior law students of the University of Michigan took the state examinations at Columbus, Ohio, recently. All passed creditably, whereas fifty per cent, of the other candidates examined, failed.

An Ohio man has brought suit to recover the price of a cork screw, which leads to the inquiry whether, with Hanna in control of the government, an Ohio man who loses his pull should not be made to suffer the consequences.

If the people want a state administration run on economical basis and business principals Hon. Justin R. Whiting will be the next governor. If they want one run in the interest of Pingree's presidential "boom" they will re-elect "Ping."

It is noble to die for one's country, said the Roman. But is doubly noble to die for one's country when one's country has called upon its citizens to battle for justice and right and liberty. Our dead at Sevilla are indeed "dead upon the field of honor."—*N. Y. World.*

The democracy of Michigan can congratulate itself that that able young leader and steeling democrat, Hon. Daniel J. Campau, has been chosen to again direct the campaign as chairman of the state central committee. The party never had a man in that position who devoted more time or gave them a better conducted campaign than Mr. Campau.

## Washington Letter. June 27, 1898.

Gen. Shafter's army, by its victories in every engagement that any portion of it has had with the Spaniards since its landing in Cuba, is demonstrating to the world what we knew all the time; that the American soldiers is no whit behind the American sailor in fighting qualities, and as a fighter the American sailor has never been surpassed. Shafter has driven the enemy into the main fortifications surrounding Santiago, and if he is not interfered with from Washington, will soon capture the town by assault. For the first time during the war we have had a considerable number of killed and wounded, but every man who volunteers to fight knows that he must take his chances.

It is claimed by friends of the administration that Shafter is being allowed to conduct the campaign against Santiago in his own way, without orders from Washington, but there have been several things said and done by members of the administration which have been sufficient to cause a doubt of that claim to be entertained, and if it turns out that Shafter waits for the reinforcements that have been sent, and are to be sent him before attacking the main fortifications at Santiago, it will be very safe to wager that the delay will be the result of Washington orders. For some mysterious reason the administration has become alarmed less the garrison at Santiago should prove strong enough to defeat an attack by Shafter, and members of it have publicly expressed the hope that he would not make a general attack until the reinforcements reached him. This feeling was so strong that arrangements were all completed to send Gen. Miles to Tampa for the purpose of taking about 15,000 troops to Santiago, but for some equally mysterious reason Miles did not go. Some say that Miles feared that he would

be charged with trying to pilfer glory that properly belonged to Shafter, and persuaded the administration to change its plans—not a difficult task, in view of its habit of making changes from day to day.

Such a hubbub has been raised among the republicans of the house by the manner in which that alleged Currency Reform bill was reported to the house from the committee on banking and currency trickery is openly charged by some members of the committee that it has been found necessary to recall the bill from the calendar, in order that radical changes may be made in the wording of the report and of the bill. Many of the republicans of the house were unwilling to be so strongly committed to the perpetuation of the single gold standard as this bill and report made them, on the eve of a congressional campaign. Some of them say, with a wink, that after the election the bill can be taken up and passed without danger.

The announcement that ex-Senator Blackburn, of Ky., is to be a brigadier general in the volunteer army was a positive pleasure to many persons, for few, if any, every made more warm friends during their long service in congress than "Joe" Blackburn did.

The senate committee on claims has begun the investigation directed by resolution of the senate as to the payment to a lobbyist of a large percentage of the \$288,000 recently paid to the southern Methodist Book concern, by act of congress, for war damages to its property at Nashville, Tenn. The investigation was dead easy, as Mr. Barbee, agent of the book concern, told the committee that 35 per cent of the money received had been paid to Mr. Stahlman, who had been the attorney at Washington of the book concern; and he added that he considered the employment of an attorney to aid in pushing the settlement of the old claim was a matter that concerned only the book concern, and that he had not at any time considered himself under any obligations to inform senators or others of the nature of the contract made with the attorney. Mr. Stahlman, the attorney, told the committee that he had received the pay for his services, and that he did not mention the nature of his contract while the matter was pending in congress, because to have done so would have been to prejudice the claim, and to prevent its being voted upon on its merits. Those two witnesses appear to have told the committee everything it was directed to find out. There is some curiosity to know whether the committee will recommend any action, and if so, what? If it be a crime to employ an attorney to lobby a claim through congress, about every claimant who has had or now has claims before that body has been or is guilty.

It will be seen this week whether the thirty odd senators who are opposed to the annexation of Hawaii can succeed in preventing the fifty-odd senators who favor annexation getting the annexation resolution to a vote. The screws are being put on by the majority. Some of the opponents of annexation frankly admit that they will not aid in filibustering to prevent a vote, but others still say that they will resort of tactics to stay off a vote. Butting one's head against a brick wall is neither pleasant nor profitable, and the chances are that the opposition will gracefully throw up the sponge and allow the resolution to be adopted without attempting a lengthy filibuster, after they have all had their say against annexation.

### What "Expansion" Means.

In considering the new policy of "territorial expansion," which looks to the annexation of one group of islands 5,000 miles distant from Washington and another group 10,000 miles distant, it is well to reflect on what it signifies.

1. It means a large standing army—certainly not less than 200,000 men. The support of this force, a considerable part of it at far-remote stations, would make a fine addition to the cost of our 1,000,000 pensioners! A large standing army is a standing menace to liberty.

2. It means an enormously increased navy—not merely enlarged, as it should be, to meet our present needs, but a navy rivaling that of England.

3. It means expensive fortifications of the chief harbors of these islands, when our own seaboard is most inadequately guarded against the attack of any first-class naval power.

And all these things mean taxes—taxes—more taxes!

4. It means the introduction into our republican system of the despotic

principle. Military government, or an oligarchy as in Hawaii, is a form of despotic rule. Is it well to familiarize our people with this? Do we want to set up Satrapies for the sons of Somebodies? Would it be wise or safe thus to reinforce our already powerful plutocracy with a shoulder-strap oligarchy?

5. It means more rotten boroughs to supply Senators and Presidential electors for the party in power whenever the exigencies of home politics shall require them.

6. It means the absolute abandonment of the Monroe doctrine. We can no longer warn European powers out of this hemisphere if we invade the South Pacific and Oceania for conquest. It is not Asia but Europe, in Asia that we shall have to deal with in this rivalry in land-grabbling.

7. It means a stultification of the basic principles of this Republic—the right of every people to Freedom and Independence, Government with the Consent of the Governed,

And all for what? Coaling stations? We have them already, or can secure them in any just settlement of the war. Trade? The consumption of one of our smaller states exceeds that of all these islands combined. Outposts for defense? Rather outposts to defend!

Have we not troubles enough of our own? Do we need to go abroad for problems? Is our magnificent continent so cramped that we need to annex leper colonies and Malay aggregations at the end of the world?

"Only common sense is necessary" to banish this wild dream of imitation imperialism and crazy "expansion."

ing her vacation at her home in East  
Tawas.

was, who has been at Chicago receiv-  
ing medical treatment, arrived home  
Monday.

Mr. and Mrs. James LaBerge and

ing? I can fit your eyes with glasses  
at a small expense, and you will have  
no trouble in reading.

W. B. MURRAY.

The gospel meetings at the M.  
E. Church this week have been well  
attended. They will be continued  
all next week, Rev. MacJachlan,  
is not only an entertaining speaker  
but a vocalist of extraordinary abili-  
ty.

Commencing Saturday evening  
Rev. O. Soule will begin a series of  
addresses consisting of a thorough  
discussion along the line of the Prophe-  
cies. These sermons will be illustrat-  
ed by charts. A cordial invitation is  
extended to all to attend.

A one day meeting of the Iosco  
County Farmers' Institute Society  
will be held at Whittemore, August  
4. Prof. Clinton D. Smith, of the  
Agricultural College will be the prin-  
cipal speaker. Watch for program  
and further announcement.

Mr. Edwin Emerson, Jr., whose  
adventures in Porto Rico last month  
were chronicled by the newspapers  
from one end of the country to the  
other, contributes to the Review of  
Reviews for July a valuable account  
of some things that he saw and learn-  
ed on his perilous journeyings. As  
Porto Rico seems destined to be the  
theater of the next great movement  
of our troops after the fall of Santia-  
go, this fresh and first-hand study of  
the country from an American point  
of view is most timely. The article  
is illustrated.

The D. & M. Ry. will sell return  
trip tickets to all points in lower  
Michigan, and including Toledo, O.,  
at one fare for the round trip. Tick-  
ets on sale July 2-3-4; limited to re-  
turn July 5.

The Gladwin Enterprise complet-  
ed the first year of its existence  
last week. The Enterprise is one  
of the neatest and brightest exchang-  
es that comes to our desk, and we  
wish Bro. Spencer success.

Edyth Virginia Walker, the little  
daughter of Mr. and Mrs. Ed Walker,  
of Grand Marais, was recently award-  
ed the first prize as the handsomest  
child at a baby show held at that  
place. Grandpa Walker is exceed-  
ingly tickled.

Last Tuesday Mrs. Wardwell Chase,  
of Tawas township started to go down  
cellar when she missed her footing  
and fell the entire distance, sustain-  
ing quite severe injuries. Her right  
wrist was badly sprained and one  
of the bones of the hand broken,  
besides other bruises on her arm and  
side.

Mrs. James McCue, of Alabaster  
township, died at the home of her  
sister, Mrs. Brennen, in East Tawas,  
Tuesday, of consumption. The de-  
ceased leaves a husband and five  
children besides a large circle of re-  
latives and friends to mourn her loss.  
The funeral services were conducted  
from the Catholic church at 10 o'clock  
yesterday morning.

H. S. Lewis, of West Bay City,  
was in the city on business Tuesday.  
Mr. Lewis had a most delightful (?)  
bicycle trip through AuGres and  
Sherman townships. Part of the  
time he rode the wheel and part of  
the time the wheel rode him. Be-  
tween the muddy roads and the  
"skaters" he had an interesting 17-  
mile run.

The moonlight excursion on the  
steamer Mascotte Wednesday even-  
ing, received a decided "frost" from  
the citizens of this city. Not to  
exceed a half dozen attendees.  
We predict that the managers of  
this boat will get mighty few dol-  
lars out of this city as long as  
they refuse to make this a regular  
stopping place.

There "was a hot time" at East  
Tawas last Sunday during the time  
the excursionists were in town.  
Some who became disgusted with the  
affair made an effort to secure war-  
rent for the saloonists the next day  
but after a consultation with some of  
the officials it was decided that it  
not "policy," and we understand  
that the matter has been dropped.

Miss Grace Redhead, the little girl  
who wrote the stanzas which recently  
appeared in the HERALD, entitled  
"The Troops from Alpena," this  
week received a finely engrossed card  
of thanks, signed by a large number  
of the members of Co. B, 33d Reg't.,  
together with a purse of \$4.40. Al-  
though only thirteen years of age,  
Grace has written a number of excel-  
lent little poems.

The August Ladies Home Jour-  
nal will be made up almost entire-  
ly of fiction. There are promised  
seven or eight short stories, in ad-  
dition to Julla Magruder's serial,  
"A Heaven-Kissing Hill," which  
is brought to its conclusion in Au-  
gust. Julian Hawthorne, John  
Kendrick Bangs, Abbe Carter  
Goodloe, Clara Morris, Sewell Ford  
and others have contributed their  
best short stories, which are to be  
illustrated by the most popular  
American artists.

This is credited to a Missouri or-  
ator: "We live in a land of high  
mountains and high taxes, low val-  
ues and low wages, big crooked  
rivers and big crooked statesmen,  
big lakes and big stashes, big drunks  
and big pumpkinheads, streams that  
gambol in the mountains and pious  
politicians that gambol in the night,  
roaring cataracts and roaring or-  
ators, fast young men, fast, faster  
young women, sharp lawyers, sharp  
financiers and sharp-toed shoes,  
noisy children, fertile plains that  
lie like a sheet of water and thou-  
sands of newspapers that lie like  
thunder."

This year is an unusually good one for the plains farmer. The crops on the farms around Lewiston are very luxuriant and promise a bountiful harvest.

Rye For Pasture.

Rye is one of the most valuable plants that we are likely to have in this northwestern country, and especially in sandy soils. But it has not as yet been generally grown for such use, and it does not matter very much whether it is wanted for sheep, cattle, swine or horses.
