## OUR SOLDIER DEAD.

Will Hill, of East Tawas, is the First of the Tawas Boys to answer the last call.

Will Hill, son of Mr. and Mrs. J. E. Hill, of East Tawas, died in camp at Jacksonville, Fla., last Saturday, of typhoid fever. Aged 21 years, 13 days.

Last spring Will and Fred Hill went to Yazoo City, Miss., in the employ of the Michigan Pipe Co., and when the call for troops came they both enlisted in the 2d Mississippi Infantry and have been in camp at Jacksonville since. Will was taken sick with typhoid fever several weeks ago. His father who was also in Yazoo City was with him during his illness and accompanied the remains home. Also his brother, Fred.

The funeral was held Thursday afternoon at four o'clock, and the remains laid at rest in the East Tawas cemetery. The G. A. R., W. R. C. and S. of V. attended in a body.

## Circuit Court.

The adjourned August term of circuit court convened Monday, Judge Simpson presiding. The first case taken up was that of Grant Lewis, vs. Temple Emery. This is a case where Lewis sues Emery to recover damages claimed to have been received while in his employ. The case was given to the jury before noon Tuesday, and up to time of going to press no verdict has yet been rendered.

The next case taken up was that of the people vs. Chas. E. Marvin and Frank Burt, charged with violation of the liquor law. It was given to the jury Tuesday afternoon and on Wednesday noon they returned a verdict of not guilty.

The case of Michael Corrigan vs. Arthur E. Latter and A. E. Sharpe, appeal, was taken up Wednesday forenoon and given to the jury at four o'clock, which after a short deliberation, returned a verdict in favor of Corrigan.

The second case of the people vs. Chas. E. Marvin and Frank Burt, for violation of the liquor law, was taken up Thursday morning and given to the jury at noon, which rendered a verdict of guilty.

The Chief Burgess of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of house keeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. Dr. G. S. Darling.

## From the Front.

The following are extracts from letters received from John Brabon, who is with Co. B., 33d Mich. Vol:

Seboney, July 19, '98.

Dear Father and Mother: I thought I would write and tell you that I am well. The weather is rather warm here at present, but we are getting use to it, but it is hard on us yet to stand guard in the middle of the day.

There was an accident on the rail road this noon and one man was killed and four hurt, but not fatal.

We are living pretty well at present, but don't know how long it will last. Some of the boys are sick, but most of them are all right. This is the last sheet of paper I have got and you can't buy any here. Well I will have to close as I have to go to work at three o'clock, taking down some of the officers tents. We don't work here between ten in the morning and three in the afternoon, it is so hot.

I saw Will Borland last night, he was in Santiago yesterday; He says it is a fine place, but it is rather ancient, the side walks are about two feet wide. Well, good-bye.

JOHN.

Cuba, July 28, 1898.

Dear Father and Mother:—I thought I would write and let you know that I am well and hope to remain so in Cuba, at least. It is a fine place to come on a pleasure trip, but not a very good place to fight in for a northern soldier.

At the fight in Santiago our forces charged against a rifle pit that was made of rail road iron, and they captured it, but lost a good many men in doing it. The niggers are good fighters and stand the heat better than anyone else here. The paper I am using cost five cents for two sheets, and everything else is as dear in Santiago.

Some of the Spaniards are nearly as white as we ought to be. The name of this place is Sardana. We moved here a week ago today. Most of the boys are well and happy as can be in Cuba. I got the paper and handkerchief you sent me all right and needed it, but you need not send any more. We have got two months pay coming, but we don't need any money here, as we can't buy anything except when we go to Santiago, and I don't think we will go there again until we move to the boats, but I guess this is all for this time. Give my best wishes to all Tawas folks. Love to all, from

JOHN.

Cuba, July 31, 1898.

Dear Parents:—I think we will go back to the U. S. by the 8th of Aug. and maybe before. You can't tell much about it, there are so many reports around camp, but we think this one is true. I hope so, for I have got all of Cuba I want, and all of the boys here feel the same.

Will Borland is well and sends his best wishes to all of the folks in Tawas. He has got a Spanish girl in Santiago. He thinks she is 18 carets fine. All I have seen there I thought to be on the bum. The city is one of the oldest in Cuba, and it looks it, too. The houses are built like a brick block, all joined together. There are no yards at all, and I did not see a pane of glass in the whole city. The windows all look like prisons with bars all over them.

August 1, 1898.

I will now finish this letter. Everybody in the 33d have got to have new clothes, and of course I have got to be in line, they are canvas and every suit has shoulder straps on and the boys all look like officers.

The paper I am writing on came from Santiago and the heading is of the company that owns the railroad here, it is a narrow gauge and has six engines that I have seen so far. One of them is like the Alabaster engine.

Well I must close with love to all the folks from

John.

THE Gazette, following the lead of a few other republican organs of the "bloody shirt" variety, rung in about a half column of slush about the democrats attempting to disfranchise soldiers, etc. From the general tone of the article one would think that all loyalty and patriotism was to be found in the ranks of the republican party. Such rot is enough to disgust any intelligent American.

We learn from our exchanges that in Michigan the best hard wheat, sixty-pound test, is now selling for sixty-three cents. And this was to be the year of plenty and high prices according to the republican spellbinders. Do the farmers still believe that a republican administration is in some mysterious way empowered to use the function of Providence and fix the price of farm produce? Or will they take a leaf from the bitter book of experience and strike at the root of the evil? Let us have more money and less bonds, and the poor man will have a chance.—*National Entelligencer.*

THERE is a strike going on among the nail workers of Cleveland, Ohio, which should serve as a lesson to every wage-earner in the country. These are the men who voted the republican ticket in 1896, with the promise and understanding that with the election of Mr. McKinley and the success of the single gold standard idea, wages would be increased and labor made secure and permanent. Some time ago a cut of 33 1-3 per cent. in wages was made by the nail trust, and now comes another cut of 20 per cent., which precipitated the present strike. How much longer will the wage-earners allow the astute and unprincipled representatives of the money power to make tools of them? They should begin to understand the situation. They are the victims of false promises and dishonest methods, practised by the advocates of a money standard which will absolutely enslave every man who works for wages in this country.—*Ex.*

THOSE naughty Pingree-Pack fellows from the short end of this senatorial district can't slide down Clare's cellar door any more, and we shall see to it that they don't get any more garden seed from Washington. In the face of our demands to the contrary they had the audacity to nominate for senator one of the Smith family, who doesn't worship at the Burrows shrine, and they were also impudent enough to resolve that Pingree was all right. Besides the tremendous pressure we are capable of bringing to bear of ourselves, we had a telegram from Perry Powers to the effect that the wrath of Wexford would fall on John Caldwell if Smith was nominated, and John, you know, raises the Pingree potatoes; but this had no effect and Mr. Caldwell came in out of the dew and commenced hustling with us against the candidate from his own county. Clare county delegates immediately put on their things and came home those deluded curses from the Iosco end who didn't know enough to recognize our authority in such matters can't play in our yard any more.—*Clare Courier.*

## Washington Letter.

(From our Regular Correspondent.)  
WASHINGTON Aug. 15, 1898.

Mr. McKinley is still in doubt as to the policy we should pursue towards the Philippines. It was that doubt that caused the temporary peace agreement, signed by repre-

sentatives of the two governments, to provide that the commissioners to negotiate the treaty of peace, which shall determine the final disposition of the Philippines should meet at Paris, not later than Oct. 1, when it would have been easy to have saved a month by having the commission meet September 1. The Spanish government has been quick to recognize this doubt on the part of Mr. McKinley, and to act upon it; it has issued a statement to the Spanish people saying that they had reason to believe the peace commission would allow Spain to retain the Philippines. What the policy of the administration is to be towards the Philippines will be plainer after Mr. McKinley names the five American peace commissioners. The only one yet known is Secretary Day, who may be considered as Mr. McKinley's mouth-piece and personal representative. It is daily becoming plainer that a great mistake was made in allowing Spain to have any say as to the disposition of the Philippines. While there are differences of opinion among our people, as to our keeping the islands, the opinion is practically unanimous that Spain should not be allowed to retain them. It will be farcical for us to talk about driving Spain out of Cuba and Porto Rico for the sake of humanity, and then to allow Spain to keep the Philippines after they were practically in our possession. We should not confine our humanity to the Cubans, else foreigners will refuse to believe that it is humanity.

The government is preparing to send food to Cuba, not only for the insurgents, but for all that need it, including the Spanish soldiers, but the Red Cross Society is ahead of the government as it is already distributing food and other relief in Cuba.

If the democrats do not elect a majority of the house, this year, it will not be the fault of the democratic congressional campaign committee, which is preparing for a vigorous campaign with confident expectations of success. While the committee will, as usual, furnish the candidates with the kind of literature they think will be most effective in their districts, it will also distribute literature criticising the war revenue law, because of its being harder upon the poor than upon the rich; showing up some of the many evils resulting from Secretary Alger's using the war department as a republican partisan machine, and the financial question will not be neglected, but will be discussed in accordance with the Chicago platform. Democrats who have visited the committee headquarters, without exception, regard the close of the war at this time as decidedly advantageous for the democratic party, because it will enable them to bring other questions to the attention of the voters and because it will prevent the other side going into the campaign with a false plea that a vote against a republican candidate would be voted against the conduct of the war. It has not yet been determined whether the administration should be attacked for its action in giving Spain too much to say through the three joint commissions provided for in the terms of peace, when it could just as easily have settled everything in the terms themselves, which Spain would have been bound to accept anyway, although such action is being strongly advocated.

There is some very strong talk among the Senators and representatives, who have been in Washington since Sampson was advanced eight numbers and promoted to be Rear Admiral, while Schley, who was also promoted to be Rear Admiral was only advanced six numbers, which makes Sampson one number ahead of him, instead of one number behind him as he was before these promotions were made. While it is not regarded as likely that any attempt will be made to hang up Sampson's promotion in the senate, it is almost certain that occasion will be taken in both house and senate, to show

that he owes it more to favoritism than to any thing he did. It will not be surprising, either, should the resolution offered by Representative Berry, extending the thanks of congress to Schley for destroying Cervera's fleet, be adopted.

It is stated at the war department that no troops will be discharged until it is known how many will be needed to garrison Porto Rico and Cuba, and it will be sometime before that is known, as military commissions are first to meet at San Juan and Havana, and arrange the terms and time of evacuation of Porto Rico and Cuba. The Spaniards will be hurried out of Porto Rico as fast as possible but as there are six or eight weeks more of the unhealthy season in Cuba, our representatives on the commission are not likely to object to the Spaniards taking all the time they want to leave there.

"I think DeWitt's Witch Hazel Salve is the finest preparation on the market for piles." So writes John C. Dunn; of Wheeling, W. Va. Try it and you will think the same. It also cures eczema and all skin diseases. Dr. G. S. Darling.

Finding myself overloaded with Shoes and Mens' Furnishing Goods I will offer my entire stock for sale during the month of August. I need money and must reduce my stock at once, and to do so, I will make prices that will surprise everybody who will call and see my goods. Watch for hand bills announcing this sale and giving prices.

Yours Truly,
