A very pleasant affair took place at the home of Mr. Byron Pangborn, on the evening of Feb. 22d, in the form of a wedding. The contracting parties being Mr. Byron Pangborn and Mrs. Elizabeth Leonard. The marriage ceremony was performed by Rev. A. C. Kay, of East Tawas. Mr. Thomas Low, of Grant, acting as best man and Mrs. Thomas Low, as bridesmaid. About sixty invitations had been sent out to their neighbors and friends and nearly all responded. After the ceremony the guests were invited to the tastefully arranged and well filled tables, to enjoy the good things provided for them. When supper was over the tables were removed, music furnished and the "light fantastic" was indulged in until the 'we sma' hours. It was one of the most pleasant affairs of the season and all enjoyed it very much. Mr. and Mrs. Pangborn were the recipients of many handsome and useful presents. The guests before taking their departure for home all joined in wishing Mr. and Mrs. Pangborn a happy wedded life.

The editor acknowledges the receipt of a peice of the wedding cake, and joins Mr. and Mrs. Pangborn's host of friends in wishing them a happy wedded life.

Before the discovery of Ono Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. Dr. G. S. Darling.

One merchantile firm in Onaway has paid out \$10,000 in cash for saw logs, railroad ties, telegraph poles and other forest products during the month of February alone.

The supervisors of Ogemaw county have settled with the bondsmen of County Treasurer Cline, who was short \$4,000 in his accounts by reason of the failure of the M. H. French & Co. bank. M. H. French gave his note to cover the shortage, paying \$1,000 per year, for five years.

AuGres has been a very sleepy village ever since the pine ceased to come down the river. Now it will have an awakening, for a first-class stave and heading mill, employing sixty men, is to be erected there. The village has donated \$1,000 to the mill owners, and will exempt them from taxes for five years.

They have 84 grandchildren and 224 great-grandchildren, some of whom live in Scotland. Many valuable presents were given to the aged couple.

As the season of the year when pneumonia, la grippe, sore throat, coughs, colds, catarrh, bronchitis and lung trouble are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good as One Minute Cough Cure. That is one infallible remedy for lung, throat or bronchial troubles. Insist vigorously upon having it if "something else" is offered you. Dr. G. S. Darling.

Jno. Berube, who is running a cedar camp on the AuSable river, has a little girl who is not yet ten years of age. One day last week the little girl heard a noise in the little underground chicken coop, which is about 8x8 feet, and went in to investigate the cause of the unusual disturbance. On entering she saw an animal, which proved to be a wild cat, in the coop. She picked up a piece of a box about about three feet long and half an inch in thickness and proceeded to drive the animal out. The cat showed fight, but was knocked down by a blow on the head with the club in the hands of the little girl. The wild cat got up and made a spring for the girl, who made a second successful hit on the top of the cat's head, killing it instantly. — *Oscoda Press.*

## Democratic State Convention.

The democrats of Michigan will meet in State Convention at the Academy of Music, in the city of Kalamazoo, on Wednesday, March 8th, 1899, at 12 o'clock noon, for the purpose of nominating a candidate for the office of Justice of the Supreme Court of Michigan, and two Regents of the University, and to transact such other business as may properly come before the convention.

According to the rule adopted by the Democratic State Convention held in Detroit in 1880, and since followed, every county in the state is entitled to one delegate to the State Convention for each 500 votes cast for governor at the last general election, and one additional delegate for a fraction of not less than 250 votes. But each county is entitled to at least two delegates. All delegates must be residents of the counties they represent.

The delegates from the several congressional districts are requested to meet in caucus at ten o'clock on the day of the convention in such places as may hereafter be designated by the State Central Committee, for the purpose of selecting candidates for recommendation to the convention for the following named positions, to-wit: One chairman of the District Delegation; one vice-president of the Convention; one member of the Committee on Credentials; one member of the Committee on Permanent Organization and Order of Business, and one member of the Committee on Resolutions.

In view of the increasing dangers which menace our country and its institutions, we appeal to all patriotic people, regardless of party, to lay aside all minor differences, and unite in protecting the rights and liberties of the people from the encroachments of organized monopoly. We believe that the efforts of reform would be more effective if those who agree upon essential principles were not putting forth their energies in different political organizations. Therefore we cordially invite the members of the Union Silver and Peoples Parties; all those who have voted in the past with the Democratic Party; all those who subscribe to the principles set forth in the Chicago Platform, and all others who are desirous of associating with the party in the future to participate in the caucuses for the election of delegates to this convention.

DANIEL J. CAMPAU,  
Chairman.

CHARLES S. HAMPTON,  
Secretary.

H. G. COBURN,  
Assistant Secretary.

Under the above call Iosco and Ogemaw counties will be entitled to representation of three delegates each.

THE democratic state convention will meet at Kalamazoo next Wednesday.

EVERY vote in favor of a standing army is a vote to aid in the erecting an empire on the ruins of our glorious republic.—*Silver Knight Watchman*

It is rather encouraging to find that there is one republican congressman who has the courage of his convictions and refuses to support the administration policy of impartialism. Rept. Johnson, of Indiana, gave the administration the worst scoring it has yet received.

An income tax bill, now being considered by a joint committee at Lansing, provides as follows; 2 per cent tax on all incomes between \$1,500 and \$100,000; 3 per cent. between \$100,000 and \$500,000; 4 per cent. between \$500,000 and \$1,000,000; 5 per cent. on all in excess of \$1,000,000.

Arrangements have just been completed whereby Campanari, the celebrated baritone from New York, will be added to the list of singers.

'Tis a good thing that man wants but little here below or he'd get left.—*Ex.*

MAIN J. CONNINE, of Oscoda, has received the nomination for the position of judge for the 23d judicial circuit, at the hands of the republican party. As yet there has been no democratic convention called, and it is safe to say that none will be called. Resolutions were adopted by the democratic county convention Wednesday endorsing Mr. Connine, with but one dissenting voice. The indications are that should another convention be called no one could be found willing to accept the nomination, and in our opinion it would be poor policy to do so, as the nomination would of necessity go to a republican. Mr. Connine is eminently fitted for the position and from all indications is the choice of the people, regardless of party.

## WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, FEB. 27th, 1899.

Mr. McKinley's backdown from his army bill bluff will go down in congressional history as the most complete ever made by a President. The democratic victory is complete. The new army bill is practically just what was offered to the administration by Senator Cockrell, on behalf of those senators who opposed a large standing army—it provides for continuing the present status of the regular army of 62,000 men for two years from next July, and for enlisting 35,000 volunteers for the same period. The administration senators fairly fell over each other in their anxiety to except Senator Cockrell's offer. The next congress, which will be republican in both branches, will probably inflict a large standing army on the country, but that will not deprive the senators who killed the bill, to do so at this time, of deserved credit.

Our Philippine policy is bearing fruit quickly. In addition to having an expensive war with the Filipinos on our hands, Dewey's despatch to hurry up the battleship Oregon indicates the belief on his part that there is danger of war with more powerful opponents. Just how great this danger is can only be guessed, because officials are concealing what information they have and pretending that the despatch from Dewey, which was made public by mistake, had no meaning. Little information can be gained from private despatches from Manila as they are all strictly censored, but it is known that conditions are critical, and that European consuls there are making some stiff claims on account of the recent partial burning of the town.

Mr. McKinley has been catching it again from members of his own party in congress. Senator Sewell, who voted for ratification of the treaty and for everything else that has been asked for by the administration, was so stirred up by the progress of the war with the Filipinos, that he let out the fact that he had been supporting the McKinley policy against his own judgment. He said emphatically: "I never was in favor of the acquisition of the Philippines," and added that he had begged Mr. McKinley to order Dewey away from

Manila, after he won his victory. Mr. Sewell thinks the Filipinos will have to be practically exterminated before we can control the Philippines. He also thinks that we shall soon be at war with Cuba, because of the administration policy.

Representative Johnson, of Ind., a republican, made a long speech, nearly every sentence of which contained an attack upon Mr. McKinley. He said of those who attacked Alger and praised Mr. McKinley that they have "lacked the courage to lay their ax to the root of the evil and censure the gentleman who, to reward him for his political services and disbursements in the campaign of '96, appointed him (Alger) to his present position, and had maintained him there ever since, notwithstanding his incompetency and against the right-against him." He said that Mr. McKinley's recent Boston address "was nothing more nor less than carefully devised misstatement of the issue," and of our Philippine policy: "I insist that the whole policy is not simply an error, but that it is a crime, and that the chief Executive of this nation is the one who has precipitated upon us the embarrassments and difficulties by which we are now confronted." Speaking of the claim that Mr. McKinley acted upon the advice of Dewey, in demanding the Philippines, Mr. Johnson said: "The chief executive cannot screen himself behind the gold lace of the hero of Manila." He expressed the opinion that the real reason for Mr. McKinley's policy was his concessions to the selfish capitalists of the country, his surrender to their demands. These are the gentlemen who furnished the money for his nomination and election, and who, I doubt not, have pledged him a re-nomination and re-election. These are the gentlemen who are already grasping after special privileges in the Philippines, in Cuba, and in Porto Rico. It was, I imagine, for their especial benefit that the president created his advisory board to the war department."

It is an open secret in Washington that Mr. McKinley would be glad to receive Alger's resignation. The story circulated last week that Alger was about to resign originated in administration circles, and was doubtless intended as a hint to Alger. It brought out the defiant statement from Alger that he did not intend to resign, of his own accord. He is said to believe that Mr. McKinley is afraid to ask for his resignation, although he knows that he is constantly being advised by prominent republicans to do so.

When the Morgan Nicaragua Canal bill passed the senate, there was seven votes cast against it; when the river and harbor bill, containing an amendment providing for the building of the Nicaragua Canal passed the senate, only three votes were cast against it—Senators Pettigrew, Teller and Rawlins, neither of whom are opposed to the canal under what they consider proper conditions.

Mr. McKinley has nominated Ex-Secretary Day to a U. S. circuit court judgeship.

The reason a blow on the ear may do irreparable injury is that the air, being driven suddenly and violently against the drum of the ear, might rupture the membrane and cause incurable deafness. The ears should never be pulled nor meddled with in any way, except to wash them in the gentlest manner, the orifice being cleansed with a fold of the washcloth rolled into a little coue.—March Ladies' Home Journal.

Not one child dies where ten formerly died from croup. People have learned the value of One Minute Cough Cure and use it for severe lung and throat troubles. It immediately stops coughing. It never fails. Dr. G. S. Darling.

Girls, listen, and if emergency requires the use of weapons remember fashion has made a useful provision for you. A young Lansing lady, returning home from church at night, saw a suspicious looking man following her. She removed a long hat pin from her hat and when the fellow seized her arm she gave him a smart jab in the hand with the pin that caused him to yell with wain and flee like a deer.

We read in an exchange of a certain editor who had a long and carefully prepared article on the importance of patronizing home industries giving many reasons why farmers and others should patronize home merchants rather than to send off for their goods. The article was so good that it attracted the attention of the merchants and they highly commended the loyalty of the editor. One merchant was so impressed with the article that he sat down and wrote a congratulatory letter to the editor, but to the surprise of the pencil pusher, the letter head which the merchant used had been printed in Jackson, and the return on the envelope was made by a Chicago axle grease house.

### Rod Broke.

Engine No. 19, hauling the morning passenger train from Bay City, met with an accident while a half-mile from the Washington ave. crossing in this city Monday, that delayed its arrival and the departure of the south-bound passenger about an hour.

The train was running along at the easy rate of 35 miles an hour, in charge of Conductor Chris Swindell, when the connecting rod on the right hand side of the engine suddenly broke, throwing Engineer Benedict and Fireman Crandall from their seats to the floor. The engine continued for about 1,000 feet before it could be stopped, and the broken rod meanwhile did considerable damage to the engine. Luckily, the cab and its occupants escaped injury.—Alpena Echo.

### A PROFITABLE CROP

The Stone Roads of Bay County Given Credit for Much of the Profits.

It is no longer an open question in Bay county whether the cultivation of the sugar beet has been a profitable thing for the farmer. The one year's experience in the growing of this root has so far exceeded expectations that 49 out of every 50 farmers who devoted no fewer than five acres to the crop, will say that they are more than well pleased with the results attained.

In the introduction of any new industry, there are always certain drawbacks and difficulties to be encountered, and in the sugar business, from farm to factory, there have been various obstacles to surmount, some of which have been costly; but, taken as a whole, the success attending the propagation of the beet and the manufacture of the sugar, have been almost phenomenal, when it is taken into consideration that this was the first season.

Up to the present date, two farmers have been heard from who made a failure of raising beets. One lives near Lansing, and the other in the back-woods of Bay county. The latter said that his beet crop did not pay him, and hereafter he will devote his attention to wheat. The Lansing man, on investigation, did not have the proper kind of ground, having planted his seed on a mucky soil.

As to the profits made by farmers in the cultivation of the beet, there is a variance coming from the varied conditions. The farmer whose beet land was along a stone road, or very near one, and not far from the factory, has cleared as high as \$46 an acre, after all expenses were paid.

The average profit per acre is probably \$20 or \$25, depending on the (CONTINUED ON EIGHTH PAGE.)
