CONGRESSMAN CRUMP, of Bay City, is actively at work for a fourth term. His private secretary was at Onaway last week, and told the editor of Onaway's new paper the Outlook, that his chief will have an easy re-nomination and re-election next year.

HEARING has commenced at Toronto in the "saw log" case, in which Michigan lumbermen seek to have the act of the province requiring the sawing in Canada of logs cut on Ontario crown lands, declared unconstitutional, or, in the alternative, to obtain damages from the province for breach of agreement.

ARRANGEMENTS are being made at the University of Michigan Observatory to study the shower of meteors which is due November 13. Observations will begin November 11 and continue for several nights. The meteors are expected to appear in the direction of the constellation Leo, which rises about 11 o'clock, and will be seen to better advantage as the night advances. This shower occurs at periods of about thirty-three years.

A Warning.

The fact that smallpox is a mild form, but unmistakable, exists in 10 places in Michigan, has induced the state board of health to issue a warning to the people of the state. The board states that when the cold weather arrives it is expected that the disease will be more dangerous, and, unless greater care is taken, more widespread. In order to prevent an epidemic of smallpox in the state, it is urged that all citizens and physicians co-operate with the local health authorities in acting promptly when they have reason to believe that a case under their observation is or may be smallpox. The protection of the public health is best served when physicians and citizens give to the public health the benefit of any doubt which they may entertain as to whether a given case is or is not smallpox.

The board expresses the hope that all suspicious cases, including those apparently chickenpox, will be immediately reported by householders and physicians to the local health authorities, and by the latter to the state board of health, and that the latter be kept "constantly informed," as the law provides, of the facts in each outbreak. In all localities where the disease appears, all exposed persons should be immediately vaccinated with in the past five years, and kept under surveillance until the period of incubation is passed about 14 days. General vaccination should be publicly recommended by the local health officers and by the local boards of health. It has already been recommended by the state board. This month's issue of the Teachers' Sanitary Bulletin, issued by the state board of health, deals with the subject. "Vaccination and re-vaccination the prevention of smallpox." The bulletin for December will treat of the "Restriction of smallpox."

Cigarette Smoking.

Dr. C. A. Clinton, of the San Francisco board of education, has made a special study of the effects of cigarette smoking among the public school children of that city and expresses himself in the following language: "A good deal has been said about the evil of cigarette smoking, but one-half the truth has never been told. I have watched this thing for a long time and I say calmly and deliberately that I believe cigarette smoking is as bad a habit as opium smoking. I am talking now of boys, remember. The effect upon grown men is of course not so marked. "A cigarette fiend will lie and steal just as an opium fiend will lie and steal. Cigarette smoking blunts the whole moral nature. It has an ap-

called in to prescribe for palpitation of the heart. In nine cases out of ten it is caused by the cigarette habit. Every physician knows the cigarette heart. I have seen bright boys turned into dunces, and straightforward, honest boys made into miserable cowards by cigarette smoking. I am not exaggerating. I am speaking the truth, that every physician and nearly every teacher knows."

A Few Dant's.

Don't snub a boy because he wears shabby clothes. When Edison, the inventor of the telephone, first entered Boston, he wore a pair of yellow linen breeches in the depth of winter.

Don't snub a boy because his home is plain and unpretending. Abraham Lincoln's early home was a log cabin.

Don't snub a boy because of the ignorance of his parents. Shakespeare, the world's poet, was the son of a man who was unable to write his own name.

Don't snub a boy because he chooses a humble trade. The author of "Pilgrim's Progress" was a tinner.

Don't snub a boy because of physical disability. Milton was blind.

Don't snub a boy because of dullness in his lessons. Hogarth, the celebrated painter and engraver, was a stupid boy at his books.

Don't snub a boy because he stutters. Demosthenes, the greatest orator of Greece, overcame a harsh and stammering voice.

Don't snub any one. Not only because some day he may far outstrip you in the race of life, but because it is neither kind, nor right, nor Christian.

Make Young Again.

"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens again'" writes D. H. Turner of Dempseytown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at G. S. Darling's and J. E. Dillon's Drug Stores.

Dr. H. H. Haden, Summit, Ala., says, "I think Kodol Dyspepsia Cure is a splendid medicine. I prescribe it, and my confidence in it grows with continued use." It digests what you eat and quickly cures dyspepsia and indigestion. **Dr. G. S. Darling.**

one of the most famous distilleries in the world, that which is connected with the monastery of St. Bruno, in the department of Dauphine, which is better known as La Grande Chartreuse. The distillery itself is a considerable distance from the monastery, but it stands on land belonging to the order, although the French government has a claim over it.

The monks of St. Bruno, although they are sworn to poverty, have control of an industry which produces about \$150,000 a year profit. Of this one-third goes as a contribution to the fund known as Peter's pence. Another portion is devoted to the maintenance of hospitals, and the remainder is devoted to subsidizing poor churches throughout France and to the personal relief of poor applicants, without distinction of church or creed. It is interesting to note that those who have control of this lucrative business are expressly forbidden by their vows to carry on a trade which could result in a profit to themselves.

Many attempts have been made to purchase the business, one notably by the Rothschilds, but all have failed, because the heads of the order consider that they are not justified in selling the business to a firm that would make a personal profit by it.—Cincinnati Enquirer.

A Study in Hose.

The girl behind the counter said to the young man who appeared as though he knew just what he wanted to buy, "What can I do for you?"

"I was going to buy a nice pair of stockings for a woman. This is the right department?"

"Yes. What material and what size?"

"I thought I might leave that to you, as we are sort of related in our calling."

"What do you mean?"

"Well, I'm a fireman—the man with the hose, don't you see? As the head of this department you're the woman with the hose. I haven't the slightest idea of what I want or what it should be or what it should cost."

"For your wife?"

"No; I hoe my own row."

"So do I," she laughed, "and as a hoister."

"They're for my sister. And that's all I know about the whole thing. She's smaller than I am, but larger than you."

"I take eights."

"Then I should think she'd take sixteens."

He laughed to hear her laugh, and a whole row of customers waited.

"It's the best hose attachment you ever made," he thought to himself, and so it proved, for the cards are out and they are furnishing a regular bridge of a flat in the north end.—Detroit Free Press.

One of the queerest crops raised in this state, perhaps, is that in which a Muskegon man is interested. It is the growing of willows. Last spring he put out 25,000 sets, and this fall 10,000 more. The trees grow very rapidly, and the cuttings sell for \$15 a ton, and at that price the crop is quite profitable. The cuttings are sold to basketmakers. The recital given by Miss Gurtrude Kinkenter at the Baptist church last Friday evening, was attended by a large and appreciative audience. The publishers, Wilmer Atkinson Co., whose card will be found in another column, tell us Biggle Cow Book is most elaborately and beautifully illustrated in wood engraving, in half tone and in color work; and the type, press work and binding are simply superb. Eight of the principal breeds are shown in colors true to life by a first-class artist. No expense has been spared on these portraits, and they must certainly gratify and please. THE NEW YORK WORLD
THRICE-A-WEEK EDITION

Almost a Daily--At the Price of a Weekly.

The most widely circulated "weekly" newspaper in America is the Thrice-a-week edition of the New York World, and with the presidential campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism. It is issued every other day and is to all purposes a daily. Every week each subscriber receives 18 pages and often during the "busy" season 24 pages each week. The price is only \$1 per year. It is virtually a daily at the price of a weekly. Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service. The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence--the wonder of modern journalism--"America's Greatest Newspaper," as it has been justly termed--The New York World. The political news is absolutely impartial. This fact will be of special value in the presidential campaign coming on. The best of current fiction is found in its columns. These are only some of the reasons; there are others. Read it and see them all. We offer this unequalled newspaper and THE HERALD together one year for \$1.65. The regular price of the two papers is \$2.
