Dr. Trask, formerly of Whittemore, later of Lincoln, is about to locate in Prescott.

SOME "MEET HERE."

The boy and girl were standing close by the garden gate.
"You silly pair," her father cried, "Why sit you up so late?"

"Oh, papa, dear," the girl replied, "The reason's plain to see—
Tonight, when one o'clock is struck,
The meteor shower will be."

And thus they fooled the poor old man,
As to his bed he went;
Little thinking what a joke they played,
But they were quite content.

A social was held at Arn's camp last Saturday for the purpose of raising money for a Christmas tree, which netted a good sum. This may seem a little early, but it is better to be early than behind time.

If Whittemore is to become the metropolis of Ioco county, we would suggest that they put at least one light in the depot so that the traveling public need not sit in total darkness. It is really worse than Arn, for where there is nothing given, nothing can be expected.

Our farmers are anxiously waiting returns from their chicory.

Killed Three Large Bucks.

Cash Centela, the 12-year-old son of a Polish farmer, of Presque Isle county, has distinguished himself by shooting three large bucks in less than a minute. He heard the baying of hounds and took a position on a runaway near his home. He soon saw coming straight toward him at top speed three bucks and a doe, one behind the other. To shield himself as much as possible from view he dropped to his knees and shot the forward deer through the head. He shot the second one through the heart and it fell directly beside the first one. He shot the third one in the shoulder and it "laid down" within five rods of the other two. The doe cleared the dead bucks with a bound and was shot at the edge of the river by his brother. Experienced hunters say that considering the boy's age the killing of the three deer was a marvel of unerring aim and good judgment.

Our Hero "Pirate."

The English press hastens to lay wreaths upon the just-discovered grave of John Paul Jones. They are talking of the "pirate," the "pirate and naval adventurer," the "pirate's ashes," etc.

It is now nearly a century and a quarter since John Paul Jones, flying the American flag, sailed up and down the English coasts, filling them with terror of his name and of the

sea prowess of the new Republic. In some of those English coast villages mothers still lull their babies to sleep with assurances that John Paul Jones will not harm them.

It is therefore not surprising that English newspapers should still bite their nails and chatter their ineffectual teeth at the first of America's sea heroes.

In spite of English adverse comment we must bring home the "pirate's ashes" and bury them in our soil with ceremonies that will freshen in the minds of the youth of the republic the memory of the man who, when his ship was burning and sinking, answered the British captain's demand for surrender with the immortal sentence:

"I haven't yet begun to fight!"—

The Rev. Irl R. Hicks Almanac

There is no comparison between former editions, and this splendid Almanac for 1900, now ready. Printed in beautiful colors, on much finer paper, its 196 pages are packed with invaluable information on storms, astronomy and meteorology. It is illustrated with nearly 200 finest half tones and other engravings. This superb book would sell anywhere for fifty cents, but it cost only 25c a copy, and every subscriber to Rev. Irl R. Hicks' now famous paper, World and Works, at \$1 a year, receives this elegant Almanac as a premium. World and Works is a recognized leader among the best family and scientific journals, while nothing of its kind can compare with Hicks Almanac. One dollar a year is a nominal price for such unique and useful publications. Professor Hicks has justly, and of necessity, withdrawn his storm and weather forecast from all free almanacs, having generously given his time and labor free for nearly twenty years, World and Works Pub. Co., 2201 Locust St, St. Louis, Mo.

It is reported that Alpena county hunters have hit upon a novel substitute for dogs in hunting deer. The Gillman party hire a force of men at so much per day, clothe them in bright red coats and with a large dinner horn, start them off through the woods in about the same manner as dogs, formerly used. At the sound of the racket, the deer takes to the nearest runaway, and as they emerge at the water's edge, the hunters lying in wait, has an easy target.
