Crop Report.

U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Michigan Section for the week ending May 5, 1900, says:

The mean daily temperature was 48.4 degrees, or 1.0 degree below the normal; the average total precipitation was 0.10 of an inch below the normal; the sunshine 54 per cent of the possible amount.

Generally the week has been frosty and dry; very light showers have occurred in scattered localities and a wet snow in some others, cold drying winds prevailed during most days and heavy frosts on the last three nights of the week. Fortunately vegetation was not far enough advanced so that much damage would result; in a few cases damage to strawberries is reported, but as far as known at present no damage was done to fruit. It has been too dry for rye and clover to make much progress, although some progress is noticeable. Wheat continues in very poor condition and many farmers are plowing it up. The dry weather has been favorable to the spread of forest fires which have prevailed extensively and done considerable damage during the past 10 days. Field work has progressed steadily; oat seeding is nearing completion in most counties of the lower peninsula and quite generally begun in the upper peninsula; in the extreme southern counties oats have germinated nicely, but generally the weather is too cold for much growth. Pastures have improved so that considerable stock has been turned out. Preparations for corn and bean planting are well advanced in the southern counties and quite generally begun in other counties of the lower peninsula. Early potato planting has made good progress in the southern and central counties where farmers are now preparing their gardens and the ground for late potatoes. Sugar beet seeding is becoming general. Warm weather and rain are much needed in all portions of the State.

On'y the Beginning.

A young lady (matrimonially bent, apparently) left her prayer book behind her one Sunday in church instead of bringing it home with her as usual. Inside of it she had written the following effusion:

A bunch of flow'rs,
A looker two,
A little billing,
A little coo—
A little coming
And going, till
They go to church
And say, "I will!"—
And that ends it.

On looking at the book on the following Sunday she observed that someone had penciled this effusion in it:

My lass, you're wrong—
You surely are;
You worked that rhyme
Just one too far,
It ends right there—
Oh, no, it don't!
For coming home
She says, "I won't!"—
And that begins it.

Postal Frauds in Cuba

Havana, May 7.—Charles F. Neeley, formerly Treasurer of the postoffice department in Cuba and now in custody in New York, is alleged to have embezzled \$36,000 of government funds. During the last four months, it is charged, the shortage in the aggregate has never fallen below that sum, and that prior to the beginning of the year the average was much higher.

It is also charged on authority believed to be trustworthy that since July of last year the government has been defrauded of nearly \$100,000 on stamped paper alone. The culprit or culprits are believed to have received monthly \$28,000 and to have accounted for only \$16,000.

The news of the arrest of Neeley in Rochester, N. Y., was the first intimation to the public here that alleged frauds had been discovered. Officials however, had been investigating for some time through the agency of Colonel Burton, the Inspector General. The Colonel found affairs so seriously involved that he decided to go to Washington at once and make a personal report to the government. He sailed this morning on the United States transport Ingalls for Fortress Mouroe.

It is believed the alleged frauds will involve other officials here, and more

CONVENTION DATES.

June 19—Republican National Convention at Philadelphia.

July 4—Democratic National Convention at Kansas City.

May 21—Republican Congressional Convention at Standish.

THE Illinois republicans nominated Judge Richard Yates, son of Ex-Gov. Dick Yates, for governor Wednesday.

JUDGE WIESE, of the Ingham county circuit, has denied the application for a new trial for Gen. Arthur F. Marsh.

WILLIAM C. ENDICOTT, secretary of war under the first Cleveland administration, died at his home in Boston last Sunday, aged 73.

THE Nicaraguan canal bill has passed the House by an overwhelming majority, but unless the senate acts—and it probably will not—the whole thing will simply amount to an expression of opinion by the country.

THE trial of Col. Eli Sutton was resumed at Lansing Monday afternoon and will probably be completed without further interruptions. It appears to be the intention of the defense to prove that Sutton did not meet White and Marsh on the days the prosecution claims the military stool was planned and executed. Their success remains to be seen.

PUCK is bound to keep up its reputation as a funny paper. It is booming Richard Olney for the democratic presidential nomination, notwithstanding that Mr. Olney's environments are such that he could not secure a single vote at the Kansas City convention.

A NEW YORK court has decided that it is illegal for labor unions to grant strikes pay to its members. In other words it is illegal (?) for labor societies to help their brothers who are trying to get fair play, by furnishing them a little money with which to keep alive. This is a fair example of the oppression by the courts which is becoming much to frequent. The idea of making it a crime to keep a man and his family from starvation is something new in America.

THE law faculty of the University of Michigan proposes to set apart a day during the latter part of this month which will be observed as Cooley day, in memory of Thomas B. Cooley, who was connected with the department during the first thirty years of its existence. The program for Cooley day will consist of an introductory address by Dean Harry B. Hutchins, an oration by Justice Claudius B. Grant, of the Michigan Supreme Court, and a poem by one of the students of the department. It is the intention to make Cooley Day an annual event.

THE amiable old Free Press is all over the violent fright it suffered four years ago from the fear-silver agitation and is now daily furnishing evidence that it can stare the money issue right in the face without having its teeth chatter or showing any other signs of throwing fits. It is apparently not only getting ready to swallow Bryan for the presidency but wants Towne for the running mate. In connection with this subject it says: Discussing this matter from a purely political standpoint there is a question as to whether a hard money Democrat should not make the running with Bryan. But this is to be thought of. If the democratic plat-

and a man like Towne can draw largely from the other side. This forces the conclusion that his nomination can do no harm and from an anti-administration standpoint, may do the greatest conceivable good.

WHY AMERICANS EXCELL.

The London Times is publishing a series of articles upon American engineering competition. That paper sent an expert investigator to this country, and he is now warning English manufacturers that they must bestir themselves or they will lose their supremacy in departments where it was once least disputed.

This expert rates the manufacturers and workmen of this country above those of England. The Americans employers excel "In scientific organization, in economy of effort, in the use of machinery, and in training workmen." The difference between the workmen of the two countries is, he says, "the difference between the mechanical discipline of our soldiers and the reliance upon individual training and intelligence which is now recognized as necessary in other armies." According to this expert English workmen who go to America often find themselves uncomfortable there. "They are required to show mental alertness to which they are quite unused, and find it necessary to do their best instead of conforming to the restrictive rules of the trades union which requires them to do no better than the average incompetency." This observer says, as others have said before him, that "the Americans are never content while anything is done by manual labor which can possibly be done by machinery." To this, primarily, he ascribes the fact that the trades union system is not so troublesome in United States as it is in England. That the manufacturers of this country are less hampered by trades union regulations and restrictions than are those of England cannot be denied. To that comparative freedom, coupled with their own energy any skill, the American manufacturers of iron and steel products owe their ability to compete successfully anywhere with foreign rivals.—Ex.

The Parted Bang.

In the matter of hair-dressing, the side-parted pompadour is something entirely new and promises to be quite the rage. It is odd, it is pretty, it is effective, and breaks the monotonous roundness of the pompadour. The parting on the side extends only about three inches back at most, then the sides are brushed in a picturesque fashion, up and sideways, held in position by a small side-comb. This style is suitable for almost any shape of face.

So much talked about a new style of coiffure ought to bring some results. Certainly the stuffed pompadour has lost every title to distinction since its use has become so common, and now the coil low on the nape of the neck is in contemplation; in fact it is seen here and there. The hair is parted in the middle and brushed low over the forehead in a soft loop at either side and back from the temples with a partially curled fluffiness which gives a broad effect to the face.

THE REPUBLICAN

County Convention was Largely Attended and Proved a Lively Contest.

BLISS ENDORSED -- GOVERNOR.

The Congressional Delegates Stand one for Crump and Two Against.

M. Butts of Whittemore is the New County Chairman.

The republican county convention was called to order by C. S. Pierce, chairman of the county committee, at 11 o'clock yesterday forenoon, postmaster B. F. Oaks, of East Tawas, was called to the chair as temporary chairman, and Judge Connine, of Oscoda, was elected temporary secretary. Ed Ely of Oscoda and B. W. McCausland were elected tellers. Chairman Oaks appointed the following committees:

Credentials:—J. G. Dimmick of East Tawas, Maynard Butts of Burleigh, and J. H. Nisbet of Tawas City.

Permanent organization and order of business:—M. J. Connine, Oscoda; J. E. Dillon, East Tawas; P. E. Shien, Tawas City.

Resolutions:—G. A. Prescott, Tawas City; Henry N. Loud, AuSable; John Preston, Tawas.

A recess of 15 minutes was taken after which the committee on permanent organization reported in favor of making the temporary offices permanent, and the committee on credentials reported full delegations from all townships. Both were adopted.

The first matter taken up after dinner was the report of the committee on resolutions, which were devoted to an indorsement of President McKinley and his administration, and Senator McMillian and Burrows. Also instructing the delegates to the state convention to support A. T. Bliss for the nomination of governor.

Delegates to the state convention were then elected as follows.

- M. J. Connine, Oscoda. C. W. Luce, East Tawas. George A. Prescott, Tawas City.

The contest of the day came on the election of delegates to the congressional convention, and until the ballot was cast no one dare claim how the convention stood. The Crump supporters were using every effort, the Anti-Crump were equally busy. The contest came when Henry N. Loud was named by the anti and J. E. Dillon by the Crumpites. Loud won by a vote of 19 to 17. The next test was Mr. Dillon against B. M. Long, and Mr. Dillon won by the same vote.

J. M. Walker was elected the third delegate by the same vote. It is understood that the delegation stands one for Crump and two against, but whether they are for Dufoe or not is questioned. Delegates to the senatorial convention are as follows:

- A. Walsh, Oscoda. Fred Yockey, AuSable. Ed. Ely, Oscoda. J. H. Nisbet, Tawas City. M. Butts, Whittemore. P. E. Shien, Tawas City.

The following gentlemen will attend the representative convention: Fred E. Hess, Whittemore. John Doyle, AuSable. John Anderson, Oscoda. Will G. Ars, Sherman. W. W. Ramage, Tawas City. H. A. Brown, AuSable. S. M. Gardner, Oscoda. B. W. McCausland, Alabaster.

A new county committee was elected with Maynard Butts of Whittemore, chairman, and Maru J. Connine, of Oscoda, secretary.

Decoration Day.

There will be a supper given at the Hurlburt building, Friday evening, May 18, for the purpose of raising money to purchase flowers to decorate the soldiers graves in the Tawas City cemetery. Supper 15 cents, ice cream and cake 10 cents. Supper served from 5 to 8 o'clock. All are cordially invited to attend.

High Water Advertising Mark.

The New York Herald of April 17 printed an editorial statement that on the previous day (Sunday, April 16) its paid advertising reached the high water mark in that journal's history. "The Chicago Tribune" on that same day, last Sunday, April 16, printed not only more advertising than any other newspaper, but what is believed to be the greatest amount ever printed in a single issue of any regular main edition of a newspaper. Leaving out of account the two-by-two columns of advertising printed by the New York Herald on that day in the special section devoted to the interests of Brooklyn and New Jersey supplements, 71,823 square lines of advertisements, including those supplements it claims 88,700. "The Chicago Tribune" printed that day 88,450 square lines of paid advertisements. The comparison should be made in lines of agate measure, because the columns of "The Tribune" are longer and contain 865 agate lines while those of the New York Herald contain only 288 lines of agate each. For the four Sundays ending April 16, the number of columns of advertisements in the New York Herald, according to its own claims and including its Brooklyn and New Jersey supplements, was 1,000. The Chicago Tribune, on the other hand, during the same period, printed 1,000 columns of advertisements.

THE "NECESSARY" MAGAZINE

The best-informed men and women in the world use the AMERICAN MONTHLY REVIEW OF REVIEWS to keep well informed, and call it the "necessary" and "indispensable" magazine. In the busy rush of to-day ambitious men and women must know about the important questions of the month, and not only this, they want to know about them at the right time. When the whole country is puzzled over the gigantic combination of trusts, a well-informed article is printed in the AMERICAN MONTHLY, giving the facts, and its editor discusses the theory; when the Dreyfus affair is in everyone's mouth, the best story of Dreyfus and the great case comes out in this magazine.

Every month, in "The Progress of the World," Dr. Albert Shaw gives a comprehensive picture of the world's history during the previous thirty days. In the departments, the valuable articles and books that have been published during the past month are reviewed and quoted from, so that the readers of the AMERICAN MONTHLY can get the gist of them. In every issue nearly a hundred pictures are printed, including the portraits of the men and women who are making the history of the month.

To be thoroughly well informed helps any man or woman in his or her work. A subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS represents an investment for the best kind of profit, as well as entertainment. One subscriber has just written: "Count me a life subscriber, and when you send me a number beyond the limit of my subscription and secure no renewal from me, consider it a notice of my death."

The fullest account of the personality of the author of "Lorna Doone" that has been published on either side of the Atlantic is given by Mr. R. W. Sawtell, in the American Monthly Review of Reviews for May. Mr. Sawtell tells of Blackmore's home life and habits. He sketches the author as he appeared to the very few who in later years succeeded in penetrating that strange reserve which so long remained a barrier between Blackmore and his contemporaries.

The new steel Gale is the best plow on the market. For sale by John W. King.

Quack doctors must adopt some other line of business if they desire to remain in Michigan, the supreme court having decided that also-called doctors who have no diploma from a recognized medical college, must undergo a rigid examination before they will be allowed to practice in the state. It is claimed that there are 780 "doctors" now holding forth in the state, with thousands of people daily under their care, and most of them will have to seek some other calling or emigrate.—Ez.

Remember, Friedman will sell you goods cheaper than any merchant in the state.

What is the proper reply to the every day remark, "I beg your pardon." There seems to be a large number of replies, varying according to the class or statute of the replier. A correspondent has assorted and catalogued them as follows—The very polite: "My fault I'm sure." The polite: "Don't mention it." The average: "All right." The genial: "No harm done sir." The genteel: "Granted." The plebian: "Why don't you look out?" The lowest ten: "Where yer shavin'?"

It may not be generally known that one can use the postoffice for messenger service to good advantage. All you have to do when your errand is within one mile of the office, is to write out your order, affix thereto in addition to the regular postage, a special delivery stamp, and drop it into the office. Usually within 15 minutes from mailing, the letter is in your hands.

A fashion note says belts, gloves and neckties of rattlesnake skin will be worn by women this spring. We knew the poor rattlesnake would have to come to it sooner or later. It is about the only varmint left that women didn't wear. Think of women being arrayed in a silk worm dress, a seal skin sacque, ostrich feather hat, goat skin shoes, whale bone stays, kid skin gloves, horsehide belts, tortoise shell combs, fish scale trimmings, stuffed canary birds, clam shell buttons, Spitz dog muff, mink tail collar-ette, alligator hide purse, and now a rattlesnake tie! Solomon in all his glory was not such a menagerie as one of these—and yet we love them no matter what they wear.—North Branch Gazette.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done me so much good I call it the savior of my life," writes W. R. Wilkinson, Albany, Tenn. It digests what you eat. Dr. G. S. Darling.

The girl who is courteous to a young man is in love with him; the preacher who goes after the devil is sensational; the newspaper that gets the news first is a yellow journal; the young man who stands upon principle is a prig; the man who is considerate for a candidate has sold out to him; the fellow who is ambitious is trying to be smart; the man who tries to avoid all these things and be a jolly good is denominated as a happy go
