Proof That the Ship Subsidy Project is a Private Snap.

If any evidence were needed to show that the ship subsidy bill is a private rather than a public project the maintenance of its active and energetic press bureau ought to be sufficient to establish the fact beyond question. The governor of Maine has declared that the ship yards of his own state were never so prosperous as now. Reliable commercial reports have shown the same to be true of other Atlantic and Pacific shipyards. James J. Hill is testifying that he is having vessels built in this county because he can get them cheaper here than abroad. We have evidence from South Africa that goods are bought here rather than England because freight rates are lower. Indeed, all the facts in the case seem to be dead against the principal argument advanced by advocates of the bill. Experts in law and men well acquainted with the shipping business here and abroad have exposed in full the effects the measure will have if it becomes a law, and have shown conclusively that millions are to go to a few established lines, without advancing in any way the alleged ends of such legislation.

Yet a press bureau which employs a considerable number of men, which requires the service of legal talent that is by no means cheap, that pays large sums for the compilation, printing and distribution of cunningly devised misformation, and which gives every evidence of being busy with the telegraph another appliance which cannot be utilized without the footing of long bills is zealously endeavoring to obscure every issue of fact and to refute logical deductions from those facts. There is no record anywhere of an appropriation having been made by congress to defray the expenses of such a propaganda. Indeed it would be an unprecedented thing for the government to undertake, in so open and formal a way, the defence of its prospective actions. If the government is not now footing these bills, they are being paid out of respective benefits. In other words, the cost is being met by those who expect to profit largely by the provisions of the bill when it shall have become a law. The admission of the necessity for such methods is, on its face, a confession that, in ordinary course of disinterested discussion, the subsidy bill could not hold its own. It is a confession that special pleading is a necessary precedent to the success of the scheme. It proof that the whole thing is an attempt to utilize the taxing power of the government for private ends, for the enrichment of the few at the expense of the many.—*Evening News.*

Brought Good Fortune.

A small item in his own paper lately brought amazing good fortune to Editor Chris. Reitter, of the Saginaw (Mich.) Post and Zeitung. He and his family had the Grip in its worse form. Their doctor did them no good. Then he read that Dr. King's New Discovery for Consumption, Coughs and Colds was a guaranteed cure for La Grippe and all Throat and Lung troubles. tried it and says: "Three bottles cured the whole family. No other medicine on earth equals it." Only 50c and \$1.00 at G. S. Darling and J. E. Dillon drug store. Trial bottles free.

Cut this out and take it to Darling's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

It Griates the Globe.

The fame of Bucklen's Arnica Salve, as the best in the world, extends round the earth. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils; Ulcers, Felons, Aches, Pains and all skin Eruptions. Only infallible Pile cure. 25c a box at G. S. Darling and J. E. Dillon's drug store.

Rich in Minerals.

No section of the United States has been so neglected in the distribution of valuable mineral supplies. Where iron ore of one sort is lacking another is given; where iron and coal are denied, and such regions are few in the United States, there is stone or clay or the precious metals. The mining districts of the east are, broadly speaking, controlled by the general trend of the Appalachian mountains. On the east side of these mountains, from the Hudson river to Georgia, there extends a more or less continuous line of magnetic iron ore deposits. This is paralleled by a zone of lower grade gold ores and by another of copper ores. West of these regions are found the brown hematites, most valuable in Alabama, Tennessee and Virginia. Passing to the interior basis of the continent we find the eastern and central part underlain by vast fields of coal. The metal deposits appear in groups. One such group contains the magnificent copper and red hematite iron ore deposits around the head of Lake Superior. Another group contains the lead and zinc and red oxide of iron of Missouri.

In the western part of the United States the grouping of metals is most striking, as it assumes the form of a series of irregular bands or belts extending from north to south and corresponding to the longitudinal trend of the mountain systems. Passing westward we first note a sharply defined gold belt found in New Mexico, Colorado, Wyoming and Montana. West of this, and extending through New Mexico, Utah and Western Montana, is a line of silver lodes. A second line of silver mines stretches from Mexico to Idaho, through Arizona and Nevada, while a third chain skirts the eastern slopes of the Sierras.

The western foothills of the Sierras are so marvelously rich in gold veins and placer deposits as to be known to all the world, while shortly farther down into the valley of California is a copper belt. The region of the coast ranges affords quicksilver and iron.—*Leslies Weekly.*

Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure Constipation and Sick Headache. Only 25c at G. S. Darling and J. E. Dillon's drug store.

The Use of Butter.

No dietetic reform would be more conducive to improve health among children, and especially, to the prevention of tuberculosis, than an increase in the consumption of butter, says an exchange. Instead of restricting a child's consumption of butter, encourage it. Let the limit be the power of digestion and the tendency to biliousness. Most children may be allowed to follow their own inclinations and will not take more than is good for them. The butter should be of the best, and taken cold. Bread, dry toast, biscuits, potatoes and rice are good vehicles. Children well supplied with butter feel the cold less than others, and resist influenza better. They do not "catch cold" so easily.—*Exchange.*

Beat out of an Increase of His Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by Dr. G. S. Darling druggist.

For sale or exchange, 40 acres of land. Close by corporation limits of Tawas City. Twenty acres improved. Good buildings and a fine young orchard. Apply M. Murphy city.

Matrimony.

The following appears in a recent issue of one of our exchanges and is worthy of reproduction.

Marriage, according to Webster, means joined in wedlock; the uniting of man and woman according to the laws of the land. But going before a magistrate or a regularly ordained minister and swearing to take this woman to love, honor, cherish and respect, for richer, for poorer, for better for worse, and to take this man to love, honor, cherish and obey, that is not marriage, it is only the law of the land.

But marriage is mutual reciprocity between man and woman. It is love for love, heart for heart, soul for soul. That is marriage, and when vows of love and fidelity are pledged between man and woman in good faith, then and there is marriage performed; then the great God unites them in holy wedlock and stretches forth his unseen hands. He blesses that union and there can be no marriage without such a blessing. The soul is the only divine thing about us, and through love was the soul created and love is the soul. Such parties have gone to the land of matrimony.

What a wonderful being is woman. By her love she can take man from the slums of degradation and aid him to ascend the dizzy heights of fame and glory. She can take him from obscurity and make him a king among men; and she can take him from his pinnacle by her cussedness and disregard for the wishes of her husband that if he knew she went to heaven he would want to go to the other place; Such is not a marriage, it is a concubinage; they are not man and wife, according to holy writ.

The Mother's Favorite.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by D. S. Darling druggist.

Western rates Reduced.

Greatly reduced one way rates will be in effect from Chicago, Milwaukee and Manitowee via Wisconsin Central Railway to points in Minnesota No. Dakota, Montana, Idaho, Oregon Washington and British Columbia each Tuesday, commencing February 12th and continuing until April 30th.

ORDER OF HEARING.

STATE OF MICHIGAN, 18 S.
County of Iosco

At a session of the Probate Court for said County, held at the Probate office in the City of Tawas City on the 19th day of January in the year one thousand nine hundred and one Present, Hon. A. R. Weir Judge of Probate.

In the Matter of the Estate of Henry P. Smith, deceased.

On reading and filing the petition, duly verified, of Henry B. Smith one of the heirs-at-law, of said deceased, praying that said court adjudicate and determine who are or were at the time of his death the legal heirs of said deceased, and entitled by the laws of this State to inherit said Real Estate, and the share or portion thereof that each of said heirs was entitled to at that time, and the right, title and interest that each of them or their heirs or assigns may now have therein.

Thereupon it is Ordered, That Saturday, the Sixteenth day of February next, at 10 o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden in the Probate office, in Tawas City and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is Further Ordered, that said petitioner give notice to all persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TAWAS HERALD a newspaper printed and circulated in said County, three successive weeks previous to said day of hearing.

A. B. WEBB, Judge of Probate.

An electric tower 391 feet high will be the centerpiece of the Pan-American Exposition.

ALL civilized nations of the world unite in extending sympathy to Britain in her hour of sorrow.

UPWARDS of one hundred international, national and state conventions will be held in Buffalo and Niagara Falls during the coming summer

AFTER a reign of nearly 63 years, Queen Victoria, of England, died Tuesday evening at the advanced age of nearly 82 years, at Osborne, Isle of Wight. By her death Prince Albert Edward, of Wales, became King of England, and known as King Edward VII.

WITHOUT sharing in the wild denunciations of certain newspapers, which are almost as disgraceful as the things they reprobate, it may be asserted that there can be no doubt that the hazing at West Point has gone beyond all bounds. The fighting rules there alone would disgrace any institution in the country.

LAST spring an agent took order from the officers of school district No. 3, of Huron township, Wayne county, for a school chart. That was the last heard of man or chart until a few days ago, when each member of the board who signed the order received a notice from a bank notifying him that it held his note for \$30.

It has been generally believed by those engaged in dairying that cows could be milked by a mechanical milker. A Glasgow, Scotland, firm claims to have a machine which will do the work, and wants to exhibit it at the Pan-American Exposition at Buffalo next summer. The milking machine is said to be constructed on the pneumatic system, with valves, suction tubes, etc.

Nobody would entrust the making of his shoes to a person who should be known to be without any experience as a maker of shoes; yet we intrust the far more difficult and vastly more important work of making our laws to men who are obviously ignorant not only of legislation matters, but also of the studies that are essential to a comprehensive knowledge of constitutional government.—Philadelphia Record

THERE is sadness in store for cigarette smokers if Rep. Gordon's bill should become a law. The bill practically prohibits their sale by requiring an annual license fee of \$200 and restricting purchases by retailers to original packages, the dimensions of which are prescribed and which would furnish stock enough for the entire year. It is figured that under this bill only one or two dealers in the largest cities could afford to handle cigarettes.

THEY have a window tax in Great Britain which is unpopular with taxpayers, but those who pay it have the satisfaction of knowing that it goes to defray the cost of government and of the protection afforded to life

and property. The window tax in this country is not paid the government. It is abstracted indirectly from the pocket of the taxpayer and crammed into the pocket of the glass trust. The people not only have to pay for the cost of government, but government compels them to pay extra taxation for the sole benefit of the Trusts.—Ex.

JAMES W. BRADBURY of Maine, who died at his home in Augusta the other day, at the age of 98 years, was the oldest statesman in the country. He was elected to the United States senate in the forties, and was an editor more than half a century ago. Hannibal Hamlin, who was elected vice president on the ticket with Lincoln, and who lived to the age of 82, died some nine years ago. The venerable Galusha A. Grow, congressman at large from the state of Pennsylvania and now 78 years of age, is undoubtedly the patriarch among American statesmen.

Supreme Court Relief.

The necessity of relief for the supreme court is generally recognized. The court is at present far behind with its work. It is now writing about four times as many opinions as it did when there were four judges instead of five to do the work. An overworked court cannot long remain a satisfactory tribunal for the final adjustment of litigated questions, and in some form the relief must come.

The proposed measure seems to be the most economical and at the same time the most reasonable that has been suggested, and it is believed that if fully understood it would be unanimously indorsed.—Lansing Journal.

About The Agricultural Society.

It is not our desire to enter into any newspaper controversy over the agricultural society with Bro. Jackson, but there are a few words that we wish to say at this time relative to his remarks last week. It is not true that the people of this city or Tawas township desire to monopolize this association, as there is but very little honor and no revenue to be derived therefrom, in the present condition of the association. Through the bad management and neglect of the officers (some of whom came from East Tawas) the society was plunged into debt, and the interest in the society badly wrecked. The premiums and indebtedness was not paid owing to lack of funds, and exhibitors became disgusted. The officials from East Tawas, are probably no more at fault for this condition than those from other places, yet this was the condition of affairs. Many efforts were made to find out the condition of the society and what property it owned but the records do not show that it was ever done. The most complete record of the societies indebtedness appears on the minutes of the annual meeting of 1896, at which time there was said to be claims against the society for \$927.02, and interest. This does not include out standing orders. The above amount with interest due would reach about \$1,200.

Since that time, notwithstanding the efforts of some to make each fair a failure, the society has been gradually improving financially. At the present time there are practically no outstanding orders, and the back indebtedness has been reduced to \$950, and there are revenues now in reach which will reduce this amount nearly \$200 before the next fair.

As to the Gazette editor's remarks in his last issue, that the small attendance at the agricultural society is a marked contract with a few years ago when from 40 to 75 would turn out. A careful reading of records fail to show such a time. The largest attendance which the records show is when Au Sable came down and attempted to have the fair changed to that city, when 37 were present. When Mr. Jackson was elected secretary in 1891, there were just 13 votes cast according to his own record. The records also show that the average attendance at the annual meeting for the past ten years has been but 20.

The position taken by Mr. J. and a few others is to be regretted as it does much to injure the success of the society, and are wholly unwarren-

ted by facts. To illustrate, Had East Tawas been represented by one member at the recent meeting they would have elected the treasurer for the ensuing year. Notwithstanding that a majority of the members present at that time reside in Tawas City, a citizen of East Tawas lacked but one vote of being elected, and furthermore it would have required but little effort for that city to have secured any office in the society, had had they so desired. We do not believe that the sentiment expressed by the Gazette is that of the majority of the people of East Tawas. This habit of keeping alive factional feeling between the citizens of the Tawas or any other portion of the county relative to many things is what retards our more rapid advancement in many directions, and should not be tolerated by the by the citizens of either city. What helps one town cannot fail to benefit the other. If you can say no good of any institution say nothing, providing the institution is worthy or can be made worthy or beneficial to the community.

The success of the county fair should not depend upon how many dollars the exhibitors are able to carry away in premiums. Our county would be vastly benefited if every person who has an article worthy of exhibition would exhibit it, even if not a dollar was paid for premiums. And further the exhibitor would be benefited much more than the few paltry dollars he might draw would benefit him, if he has any interest in the future development of Ioseo County.

It is to be hoped that all will quit growling and unite in making the next fair a success both as to exhibits and finances.

Cut this out and take it to Darling's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

Justice W. B. Kelly has fitted up a very neat office adjoining the post-office. State Tresspass agent Shein occupies a portion of it.
Such little pills as DeWitt's Little Early Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels Dr. G. S. Darling.
There is a balance of \$3,543 in the state fair treasury. Kalamazoo and Jackson are candidates for the next state fair, but Grand Rapids will make a strong push for it.
Odd sizes in underwear will accumulate during the year, we are closing them out at way down below cost.
C. H. PRESCOTT & SONS.
If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price 25 cents. Samples free at Darling's drug store.
While at work at the U. & M. shops last Saturday, Reno Gaul, of this City, had the misfortune to allow a 1500 pound casting to fall on the toes of one of his feet. The amputation of two toes was found necessary.
For sale or exchange, 40 acres of land close by corporation limits of Tawas City Mich. Twenty acres improved. Good buildings and a fine young orchard, Apply M. Murphy, city.
Baldwin Tent K. O. T. M., and Baldwin and Easter Morn Hives, L. O. T. M., of East Tawas, held a joint installation of officers Wednesday evening at which a most enjoyable social time was reported.
When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of havine taken cold are noticed. It cures quickly and its early use prevents consumption. Dr. G. S. Darling.

N. C. Hartingh has been attending Supreme Court at Lansing this week.
The Firemen of East Tawas have fitted up club rooms in the city hall. They will give a banquet next Monday evening.
Mr. and Mrs. E. L. King, of East Tawas, are the happy parents of a fine son, who arrived at their home last Saturday.
Mrs. E. D. Benedict was called to Amherstburg, Ont., yesterday by a telegram announcing the serious illness of her mother.
State Land Commissioner Wildey has been in this locality several days this week, and in company of Tresspass Agent Shien, has been looking over state lands.
Rev. H. F. Shier, has resigned as pastor of the East Tawas M. E. church and has accepted the position as cashier with the H. M. Loud Sons' Co., of AuSable.
For sale, 100 acres of land one and one half miles north of Alabaster. 35 acres improved, with good house, barn and young orchard. Will sell improved and wild land separate. Inquire of James McCue Tawas City.
Representative Sharpe has introduced a bill in the legislature to establish a state normal school at East Tawas, and to make an appropriation for same. We would all like to see such a bill become a law, but do not expect too.
The examination of Philip Hyke and Elizabeth Burchan, charged with arson and robbery, was held before justice Kelly Monday and the defendants were bound over to circuit court for trial. Bail was placed at \$300 each, which has not as yet been furnished.
Next Sunday evening, at 7.30, Rev. A. C. Kay will deliver a lecture at the East Tawas Presbyterian church on the late Queen Victoria her reign, her influence and christian character. Several incidents will be told illustrating the great goodness of the great heart of this great Queen. All are invited.
Pepsinpreparations often fail to relieve indigestion because they can digest only album in our foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat Dr. G. S. Darling.
The Alpena district B. Y. P. U. will hold its annual rally at the Hemlock Road Baptist church February 7th and 8th. Delegates from all the B. Y. P. U. societies of the association are expected to be in attendance. All are cordially invited to attend and much spiritual good is promised all who aid in the success of the meeting.
But one American girl has ever married a King, and she, a New England woman now a widow, is living in a royal palace in the country of her adoption, almost lost sight of by her American sisters and friends, The romance of this fascinating, gifted American girl, who won the hand and heart of a king, one of the prettiest of love stories, will be one of the features of the March Ladies' Home Journal.
Concerning Newspapers.
Not by any means do the great majority of newspaper readers understand or appreciate the fidelity, application, discrimination and alertness necessary to produce a successful newspaper, but in the main they appreciate it when they receive it.
No one will ever print a newspaper to suit everybody, and they are inexperienced publishers who expect it. He succeeds best who shapes his course to a well formed standard, who asks no advantages, but is willing to do honest work in fair field, with no unmerited favors to dispense and with no unworthy obligations to meet. —Indianapolis Press.
Western rates Reduced.
Greatly reduced one way rates will be in effect from Chicago, Milwaukee and Manitowee via Wisconsin Central Railway to points in Minnesota No. Dakota, Montana, Idaho, Oregon Washington and British Columbia each Tuesday, commencing February 12th and continuing until April 30th.
For detailed information inquire of nearest ticket agent, or address H. W. Steinhoff, District Pass Agent, W. C. Ry., Saginaw, Mich., or Jas. C. Pond, Gen'l Pass Agent, Milwaukee, Wis.

RESOLUTIONS.
At a regular meeting of St John's Commandry, No. 92, K. of St. J., held at East Tawas, Thursday evening, Jan. 17, the following resolutions were adopted.
WHEREAS, It has pleased Almighty God in his infinite wisdom to call from this earth, after months of intense suffering, Brother Peter Mousette, who was one of our charter and most highly respected members, and whom we have a number of times honored with the highest office in our gift, and which he has filled with honor and dignity to himself and credit to ourselves. We ever found him a true friend and brother, and we will long remember him for his kind and cheerful ways and genial companionship. And while we mourn his loss, yet we feel that our loss is his eternal gain, and we bow in humble submission to the Divine Ruler who doeth all things well. And may his end be ours, without fear, fully prepared and willing to meet his God.
We offer to the bereaved family, thus bereft of a kind husband and father, our sincere sympathy in this, their hour of affliction. And that our charter be draped in mourning for a period of thirty days, and that a copy of this be given the family of our deceased brother, and be published in the TAWAS HERALD Iosco County Gazette and Knight of St John.
ALBERT S. WHEELER,
JAMES LABERGE,
JAMES BOLIN,
Com. mittee.

Coming Wars Will Be For Trade.
The wars of the new century are to be fought for trade and commerce, or to satisfy human passions are things of the past. The struggle for supremacy among nations, like the struggle for leadership among individuals, is now actuated by an ambition to be first in wealth, for in this utilitarian age wealth means power and control. The nation that stands foremost in this struggle is the opening of the new century is the United States. All of its great competitors in Europe regard with amazement its uninterrupted advance to the front rank as a producer and seller, Germany especially, which has become an aggressive leader in the fight to control the world's trade, regards with suspicious eyes the young giant across the Atlantic.—Leslie's Weekly.

Kodol Dyspepsia Cure You are Invited.
Digests what you eat.
It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion. Price 50c and \$1. Large size contains 2 1/2 times as much. Book about dyspepsia mailed free. Prepared by E. C. DeWitt & Co., Chicago.

DR. G. S. DARLING.

ORDER OF HEARING.
STATE OF MICHIGAN, s. s.
County of Iosco.
At a session of the Probate Court of said County, held at the Probate office in the City of Tawas City on the 17th day of January in the year one thousand nine hundred and one present, Hon. A. R. Weir Judge of Probate.
In the matter of the estate of Albert W. Rikely, deceased.
On reading and filing the petition, duly verified, of Charles A. Rikely, one of the heirs-at-law of Albert W. Rikely, deceased, that said court adjudicate and determine who are or were at the time of his death the legal heirs of said deceased, and entitled by the laws of this state to inherit said real estate, and the share or portion thereof that each of said heirs was entitled to at that time, and the right title and interest that each of them, or their heirs or assigns may now have therein.
Thereupon it is ordered, that Saturday the 9th day of February next, at 10 o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased, and all persons interested in said estate, are required to appear at a session of said court, then to be holden in the Probate office, at Tawas City and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is further Ordered, that said petitioner give notice to all persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TAWAS HERALD a newspaper printed and circulated in said County, three successive weeks previous to said day of hearing.
A. R. WEIR,
Judge of Probate.

THE FARM CORNER.

Newsy Items Gathered From Many Sources.

AIM IN ROAD BUILDING.

In road building the main object is to get the greatest length of the best road for the least money.

The best road will have the location which will give the best drainage and the easiest grades and will serve the most traffic.

The best road will have the design and construction which will give a perfectly drained bed of dry earth, supporting a smooth and water tight surface.

This will enable it to shed water with least delay; to endure frost with least change; to carry traffic with least wear; to carry heavy loads with least effort; to carry light loads speedily with least jolt.

The best location and design of a road can only be made after a thorough survey and a careful location by a civil engineer who has had experience in designing and building roads.

The best construction of a road can only be obtained under skillful supervision, by correct information of the drains and of the roadbed, and by careful selection of the proper materials and by close and constant attention to the manner in which these materials are prepared, placed and consolidated.

LIME AND EGG SHELLS.

There are many hens that are in no manner provided with oyster shells. It true, however, that oyster shell being sharp assists in grinding the food. Carbonate of lime is insoluble, and the lime for the egg shells must consequently come from that which can be digested and conducted to the eggs through the blood. As nearly all kinds of food contain lime in a soluble form, by combination with vegetable acids, as well as in the form of inorganic salts that are soluble, the process of covering the eggs with shells goes on without the aid of substances that are insoluble. When a hen lays eggs with soft shells the cause is due not so much to lack of lime but to the condition of the hen, as she is then, as a rule, in an over-fat condition. To this cause may be traced all the eggs with soft shells.—*Farin and Fireside.*

KILLING WEEDS.

Occasionally a farmer is heard to ask how weeds can be killed, but he does not realize that if by some rapid process they could all be dispatched, new legions would fill their places at once if the conditions which they enjoy remain. What farmers need to comprehend is that without some radical mistake in the management of their lands the daisies would never have gained such a foothold. All plants, including weeds, settle and thrive where the competition for life is such that they can enter into it and prosper. A good stand of grass leaves no room nor any hope for weeds. It is not in well tilled fields that Canada thistles flourish but in neglected pastures and by the roadsides. In the contest with the best agricultural practice they cannot prevail. It is in the untilled plains of the West, or in the tilled regions where there is mile after mile of plowed land producing only eight or nine bushels of wheat to the acre year after year without any rotation, where the Russian thistle is a natural intruder.

The remedy for weeds is to keep the land busy with a good crop on it, and this means that the farmer must give persistent and connected thought his business.—*Garden and Forest.*

HOW TO MAKE CORNSTALKS USEFUL.

From recent inventions and investigations regarding the cornstalk it would appear that this once wasted product is likely to be of such value as to pay for the cultivation for itself alone, leaving the grain it supports as clear profit. According to results of

experiments made by the United States Agriculture Department, the following new uses of the plant have been developed:

A packing for warships; a high grade of writing paper; the basis for a smokeless powder and a cattle food made by grinding the dry corn stalks, leaves and tops to a powder and mixing it with cheap molasses. This new food is pressed into cakes under a hydraulic press and can be shipped as easily as bricks or cordwood. For feeding it is broken up and mixed with water. Actual test have been made and samples have been sent to agricultural stations in Europe. The reports from all sources are very encouraging. This food will be particularly valuable for our cavalry in the tropics, and the food cakes can be made at a minimum cost in Cuba and the Southern States, where thousands of tons of low grade molasses go to waste annually. The cost of making the food cakes under favorable conditions would be from \$10 to \$12 a ton, and their value on a nutritive basis would be from \$22 to \$25 per ton. It can be made perhaps as cheaply by using corn molasses, glucose, or the refuse from sorghum syrup mills for sweetening.

CALVING TIME.

Nearly all dairymen who gives dairy work close attention, and thereby render it profitable, have long since discovered that the ancient practice of making the spring of the year the invariable calving time for milk cows is a back number. A large proportion of the cows kept for dairy production are now bred to calve in the fall, and the reasons for this are many and potent. It brings the cows fresh in milk at the time when the product is highest, for one thing. Another if that along about the time next spring when the grass comes, the cows going onto the green pastures make a fresh start and are stimulated to increased production at a time after calving when with spring calves the production would be beginning to fail. It is better for the calf, too, if it is to be raised, for it can be fed on skim milk, properly supplemented with corn meal during the winter and go on pasture next spring and summer and be further along and better able to resist the flies. Everything is in favor of fall calving, and there are no substantial reasons against it. Major Alvord declares after a careful investigation of the subject that he regards a cow as 25 per cent more productive when she comes in fresh in the fall than the same cow would be if she came in in the spring. This is a percentage that every dairyman can well afford to strive for.

A good many dairymen now have calves coming every month in the year. This has a certain advantage with respect to the creaming and churning quality of the milk. As most people know, the milk of cows that have been long in milk is more difficult to separate and that it churns with more difficulty. The milk of a cow long in lactation, however can be made both to cream and churn more readily by mixing it with the milk of a fresh cow. For this reason it is a good thing to have cows coming in fresh all the year around. The old practice of exclusive spring calving, however, is about the worst that can be pursued with a dairy herd.

A Deep Mystery.

It is a mystery why woman endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phebe Cherley of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 73 years old. I am now able to do all my household work." It overcomes Constipation, improves Appetite, gives perfect health. Only 50c at G. S. Darling and J. E. Dillon's drug store.

A FAMILY HOG.

What breed of swine is considered most economical and satisfactory for a farmer to keep who intends them solely for the use of his larder, for bacon, lard and ham?

For the purpose above named, we think the Berkshires will best fill the bill. They are naturally a nervous, active hog, and all ways on the lookout for something to eat. They are great foragers, and unless fat can run like a deer; these characteristics cause them to sandwich more streaks of lean through the fat than almost any other hog, except Tamworth, which is strictly a bacon hog. So when ham, shoulder, bacon and lard are the essential things required, it is hard to improve on the Berkshire. They have excellent hams and shoulders, and the side meat is almost equal to the Tamworth. What there is of the Tamworth ham is good, but there is not so much of it. They are a tall, long, narrow hog, and very deep up and down. They are built behind like a Jersey calf—very narrow and pointed. The Berkshire has great broad hams, and while its build does not differ so much from the Poland-China and Duroc-Jersey as it does from the Tamworth its good meat is put on by the activity of the animal. Good meat well streaked with lean can also be had from the Poland-China and Duroc-Jersey by making the most of their living of nitrogenous food, such as pasture, shorts or middlings, with very little corn, and plenty of fresh water and exercise, with clean surroundings. This is also necessary for any other breed in order to produce the best pork. They should be fed plenty of corn the last three weeks of their life, to harden the fat already accumulated. The corn will add a little extra fat, but not enough to hurt.—*County Gentleman.*

A Prominent Chicago Woman Speaks.

Prof. Roxa Tyler, of Chicago, Vice President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I never will be without this splendid medicine again." For sale by Dr. G. S. Darling druggist.

A Card.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warrented Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.

NERVOUS, DESPONDENT, DISEASED AND WEAK MEN.

Cures Guaranteed or No Pay.

YOUNG or MIDDLE-AGED MEN—You may have been the Victim of Self Abuse when young. Later Excess or exposure to blood diseases may have completed the work. You feel the symptoms stealing over you. You dread the future results. You know you are not a man mentally and sexually. Why not be cured in time and avoid the sad experience of other wrecks of these seasons. Our NEW METHOD OF TREATMENT WILL CURE YOU AFTER ALL ELSE FAILS.

Emissions, Varicocele and Syphilis Cured.

WM. E. PARSONS WM. E. PARSONS

Before Treatment. After Treatment.

"At the age of 15 I commenced to ruin my health. Later on as 'ONE OF THE BOYS,' I contracted a serious blood disease—SYPHILIS. I was weak and nervous, despondent, pimples, swollen eyes, bone pains, ulcers, hair loose, sore tongue and mouth, drains in urine, varicocele—I was a wreck. I was in the last stages when a friend recommended Dr. Kennedy & Kergan. A dozen other doctors had failed in curing me. Drs. K. & K. cured me in a few weeks by the New Method Treatment. I would warn similar diseased men to beware of Medical Frauds. Drs. K. & K. are reliable, honest and skillful physicians."

W. E. PARSONS.

We treat and cure—Varicocele, Syphilis, Emissions, Gleet, Stricture, Nervous Debility, Urinary Discharges, Kidney and Bladder diseases, 16 years in Detroit, 200,000 cured. No cure No Pay. Write for Question Blank for Home Treatment. Books Free.
