That your money will buy, and that is what you get when you trade with us.

Shoes, Rubbers, Hats and Caps, Gents' Furnishings, Etc., Etc., Etc.

### James LaBerge,

EAST TAWAS, MICHIGAN.

### BANDS FOR PAN-AMERICAN.

Their Music Will Be a Great Feature of the Exposition at Buffalo.

Arrangements have already been made for the appearance at the Pan-American Exposition of some of the most famous bands of the American Continent. Throughout the season, from May 1 to Nov. 1, concerts will be given daily in various parts of the Exposition grounds by these bands, and the variety of musical entertainment thus afforded will be a notable feature of the Exposition. Prominent among the organizations engaged is Sousa's Band, which is known wherever there are lovers of music and whose success in the rendition of military music has been remarkable.

The most notable achievement in the history of international events was perhaps the triumphal tour made by Sousa and his band through Europe, extending from April to September, 1900. It was 22 years since an American band had been heard on the European Continent, and so emphatic was the success of the American conductor and composer that the tour became a series of ovations throughout France, Germany, Belgium and Holland. It was the official band at the Paris Exposition.

The Mexican Government Mounted Band has been engaged to give concerts during the Exposition. Fanehill's Seventy-first Regiment Band of New York has been engaged for a series of concerts during the season. This band has also a great reputation for its rendition of military music, and it followed Sousa's Band in the concerts at Manhattan Beach.

Canada will be represented by several bands, among them the famous Thirteenth Regiment Band of Hamilton, which is the crack band music organization of lower Canada.

The Elgin Band of Elgin, Ills., which stands very high in that state, has also been engaged.

Another well known band is the Carlisle Indian Band, which made a great hit in Washington and New York City.

When the Ancient and Honorable Artillery of Boston made their recent notable tour in Europe, they were accompanied by the Salem (Mass.) Cadet Band, which contributed much to the success of the tour. This band will also be heard at the Pan-American Exposition.

The Brooks Chicago Marine Band, E. B. Brooks conductor, which is considered by many the best in Chicago, will be heard.

Another band engaged is the Ithaca Band of Ithaca, N. Y., which is backed

FIGURE OF HOSPITALITY FOR TRIUMPHAL BRIDGE.

by E. N. Truman, one of the wealthy men of that section. It has achieved a great reputation in the central part of New York State.

The Boston Ladies' Military Band, which has been before the public for two or three years and made a pronounced success, has been engaged. It is spoken of highly by musical people in Boston.

Besides these bands from other portions of the United States, the best bands of Buffalo have been engaged for the Exposition, including the well known Seventy-fourth Regiment Band and the Sixty-fifth Regiment Band, which saw service at Camp Alger during the Spanish-American war.

Another band of Buffalo is Scinta's Band, a strong organization.

These local bands have been strengthened to the number of 33 men each, and the leaders claim to have put them in a very fine condition, so that Buffalo need not be ashamed of the performances they will give during the progress of the great Exposition.

This is not a complete list of the bands which will be heard at the Pan-American, but simply shows the character of the entertainment to be provided.

### Minerals at the Pan-American.

Minerals will be fully represented, comprising every production, both useful and ornamental, mined from the earth. All parts of the United States and every country, of South and Central America, Canada, Mexico and the islands of the sea will contribute specimens for the exhibit. All kinds of machinery used in manipulating ores will be exhibited. The great advantages that the Americas have over the rest of the world in the wealth of their

minerals in connection with climatic conditions, accessibility, etc., will be clearly illustrated. While the exhibits will be under the auspices of the various Governments, many individuals and mining companies will be represented by individual displays, representing their special interests.

### Mexican Appointment.

The Mexican ministry of fomento (encouragement) has appointed as Mexican representative of the Pan-American Exposition Engineer Albino R. Nuncio, who was until his appointment chief of the second section in the aforesaid ministry.

### A COMMON MISTAKE.

#### High Flavor at the Expense of Keeping Quality.

The following paper was read by M. Sondergaard at the Minnesota butter and cheese makers' meeting: All butter, even the very finest, is more or less apt to lose its delicate flavor and by this some of its value, for every day it gets older. The keeping quality of butter is therefore a very important matter to dealers as well as consumers. It is a fact that butter with a high flavor has for a good many years been the leader in the American butter market. Close study, however, proves that the demand has been moving constantly in the direction of a milder, sweeter and more delicate flavored article. Whether now this movement of the demand is due or not to the fact that butter with a comparative high flavor proves to be a better keeper, one thing is sure, that a number of creameries and dealers also have already established a reputation by this grade of butter. It is very evident, providing the milk is right and all other processes are correctly carried out, that flavor in butter depends largely on the degree of acidity of the cream when churned. Yet the species or kinds of bacteria, the mission of which is to carry out the fermentative changes, are surely factors of no less importance in obtaining a high or mild flavor. The science of producing a certain desired flavor is first to develop the desired bacteria for a starter and then to protect them against all the undesirable ones by attending strictly to cleanliness and regulating the temperature. Whether it is certain bacteria or a chemical process that gives butter made from ripened cream its delicate aroma, one thing is known, that as soon as the lactic acid bacteria have produced a certain quality of lactic acid, the butters do not die, but simply discontinue their action. This is the danger point in the ripening process. From now on there is nothing to keep the undesirable bacteria in check, and as some of these foreign organisms develop very rapidly it requires but little to affect the butter by giving it a strong or unclear flavor.

This illustrates clearly why it is so dangerous to ripen cream above its proper degree in order to gain a high flavor. It also gives us an idea of why butter with an abnormally high flavor in most cases turns rancid in a few days. The undesirable bacteria having just commenced their action in the cream, continue their work of destruction in the butter. We learn not only from experience gained in our dairy schools and a few creameries, but also from what has become customary in other countries, that by taking up the Pasteur system we would be able to produce a much healthier, more uniform and especially a better keeping quality of butter. What holds us back is not a lack of knowledge of the result, nor is it because our creamery industry or our butter makers are not up to the high level of other countries, but merely because the present demands of the American butter market do not favor the mild flavored butter made from pasteurized cream. When the Danes, some ten years ago, started to pasteurize, they then met with the very same trouble in the English market. However, before a year had passed, the English people were willing to pay a premium on pasteurized butter on account of its better keeping quality and more uniform grade all through.

### An Ideal Guernsey.

My Lady Baltimore 7529 (sire Lord Baltimore 496, dam imported Emerald 11 1994) is illustrated herewith. She is mentioned in Hera Register, October, 1899, as having taken first prize at the Illinois state fair. It would

MY LADY BALTIMORE.

be difficult to find more beautiful or typical representatives of the Guernsey breed, and their records at numerous state fairs show how highly they have been esteemed by the various judges who have passed on them. My Lady Baltimore is exceedingly gentle and kind, of excellent dairy qualities, and is a farmer's favorite cow.

### RAINBOW CITY.

#### Pan-American Exposition Aglow With Beautiful Colors.

Perhaps nothing has been more talked about than the color scheme of the Pan-American. It was a daring thing to attempt to array in colors the extensive buildings of this Exposition, for scarcely any precedent existed for such an undertaking, and to attempt it and fail would be disastrous indeed. It was out of the question to duplicate the White City at Chicago. Something absolutely new must be devised for the Pan-American at Buffalo. Happily the Spanish renaissance architecture furnished the hint for the solution of this problem, and now that it has been solved and the color scheme is seen to be so well adapted to the purposes of exposition architecture it is realized

FIGURE OF HEROIC MUSIC.

that a new discovery has been made. With the buildings arrayed in colors which will harmonize with the general scheme of the Exposition and please rather than offend artistic taste, the Rainbow City cannot fail to become popular in a degree scarcely hoped for by those who planned its construction.

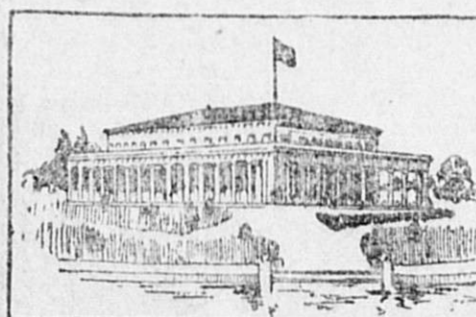

The Director of Color, Mr. Charles Y. Turner, N. A., of New York City, studied the requirements of the situation and in his studio in New York by means of models carefully worked out the designs and drawings for the mural decoration. The experts experimented with paint and obtained an article that may be used without fear that it will lose its staying qualities before the Exposition is over. The test already made shows that the paint after being once applied to the staff is going to hold its color well.

### Shall We Keep on Skimming?

Go where one will among farmers milking from 5 to 30 cows, and if a separator is not already on the farm the whole family can frequently be found discussing the great question of whether it will pay to have one or not. Of course all the agents and other interested parties will tell us that it will pay and pay big to have one, and a good many who never saw a separator will, but what we would like to get at is, How do those using separators feel about it? And we should esteem it a great favor both to ourselves and our readers if those who have had experience with these costly machines would let us know just what they think about them and how small a number of cows in their judgment they would advise buying one for. A writer in an exchange has figured the matter out in a very practical manner, and we copy the same as follows: With ten good cows nobody who makes milk into butter can afford to be without a separator, for it will save 250 pounds of butter in a year, said an expert dairyman of the western states not long ago. The cost of the separator will be \$125. The interest on that at 6 per cent would be \$7.50. His machine cost \$3 for repairs in five years.—Prairie Farmer.

### The Ohio Building.

The Ohio State building has a prominent place at the Pan-American Exposition to be held in Buffalo next summer. The design is plain Grecian

OHIO STATE BUILDING.

Doric, the beauty of which lies mainly in its classic proportions and commanding position. It is designed exclusively for social purposes and will be the rendezvous of Ohio visitors to the Exposition.

### A Widow's Love Affair

Receives a setback, if she has offensive breath through constipation, flatulency or stomach trouble, but Dr. King's New Life Pills always cure those troubles; clean the system, sweeten the breath, banish headache; best in the world for liver, kidneys and bowels. Only 25 cents at Dr. G. S. Darling's or J. E. Dillon's drug store.

### Remarkable Cures of Rheumatism.

From the Vindicator, Rutherfordton, N. C.

The editor of the Vindicator has had occasion to test the efficacy of Chamberlain's Pain Balm twice with the most remarkable results in each case. First, with rheumatism in the shoulder from which he suffered excruciating pain for ten days, which was relieved with two applications of Pain Balm, rubbing the parts afflicted and realizing instant benefit and entire relief in a very short time. Second, in rheumatism in thigh joint, almost prostrating him with severe pain, which was relieved by two applications, rubbing with the liniment on retiring at night, and getting up free from pain. For sale by, Dr. G. S. Darling.

Like Oliver Twist, children ask for more when given One Minute Cough Cure. Mothers endorse it highly for croup. It quickly cures all coughs and colds and every throat and lung trouble. It is a specific for grippe and asthma and has long been a well known remedy for whooping cough.

### Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It is absolutely guaranteed to cure coughs, colds, lagrippe, bronchitis and all throat and lung troubles. Price 50 cents and \$1.00. Trial bottles free at G. S. Darling, and J. E. Dillon East Tawas.

J. H. BOTZ, D. D. S.,

Dentist of East Tawas Mich., will be in his East Tawas office, Friday, Saturday and Monday of each week. Office next door to Emery's Photo Gallery, EAST TAWAS, Michigan.

American exports of bicycles were more than \$7,000,000 in 1898, only \$4,820,000 in 1899 and a trifle over \$3,000,000 in 1900.

Two of Michigan's best known and most highly respected citizens have died this week. Hon. Charles S. May of Kalamazoo, and Hon. George B. Willard, of Battle Creek,

Possibly Japan and Russia may be about to go to war, but so long as the rumors to this effect come from London instead of from the Orient, cautious people will accept them with several grains of allowance.

As usual, the optimistic British reports that the Boers were going to pieces have been followed news of warm engagements ending, as always, with the capture of a certain number of British.

Asked whether he thought the Filipinos capable of self-government. Ex-Speaker Reed said: "I think every people is capable of self-government. It may not be the kind we have or want, but it is the kind that is satisfactory and sufficient for them."

Next Monday is the day on which every American citizen should go to the polls and vote for the best men regardless of party affiliations. Municipal affairs should be of the utmost importance to every man, and should be above party politics. The man who will vote his party ticket in local affairs regardless of whom the nominees are has no right to complain when poor officials are chosen.

In the City of Mexico next October will be held a Pan-American congress. The United States and many South American countries have signified their intention of participation. This will be an opportunity for the United States to show, through its delegates, a friendly feeling for the Latin American countries. The nations of the states since the Spanish American war.

A poet who recently died in the metropolis, was a Tammany leader and a saloon keeper. Some weeks ago another Tammany politician who died was found to be a woman. If there is any other municipal organization in the world that can present a more bewildering variety of characters, from multi millionaires down to hoboes and gold-brick men, than Tammany hall, we should like to know its name.—*Syracuse Herald.*

The unique project of photographing the entire route of Sheridan's ride, from Winchester, Virginia, to Cedar Creek, as it is today, has been carried out by The Ladies' Home Journal, and the result will be shown in a picture story of fourteen photographs. Sheridan and his aides on horseback, from historical pictures, have been introduced into each picture, so that the ride of 1864 is shown as if it were taken today through that country, which, in reality, has changed but little.

Among the papers of the late Grant Allen was found an article on "The British Aristocracy." It is probable that he did not care to place himself before the English reading public in the position of entire frankness which he had assumed while writing this article, and that consequently it was held until after his death for publication. It was secured through his son for The Cosmopolitan and it appears in the April number. Certainly no Englishman has ever so handled the subject without gloves as Grant Allen; and no one was better equipped to do the subject justice.

A space writer for the Chicago American announces a revival of the scheme to join Lakes Michigan and

Huron by a canal between the Maple and Bad rivers, through which a ship waterway from Grand Haven to Bay City would be possible. He says that the Interstate Canal Co., with a capital of \$6,000,000, in which Saginaw and Detroit capitalists are interested, are ready to file articles, and that the legislature will be asked to grant a renewal of the franchise given the old Saginaw & Grand River Canal Co., in 1849. Federal aid is also to be invoked, according to the story

### YOUR CANDIDATES.

The republicans of this city have named the following candidates for city and ward officers.

Mayor—N. C. Hartingh.  
Clerk—Edgar A. Crandall.  
Treasurer—Thomas Davidson.  
FIRST WARD.  
Supervisor—No Nominator.  
Alderman—Ernest Brown.  
Constable—Robert A. Howey.  
SECOND WARD.  
Supervisor—G. L. Corville.  
Alderman—George Hadwin.  
Constable—William Myles.  
THIRD WARD.  
Supervisor—William W. Ramage.  
Alderman—Wallace Brown.  
Constable—Frank Martin.

DEMOCRATIC.  
The democrats have made the following nomination for city officers.

For the office of treasurer they made no nomination, for the reason that it is generally conceded that Treasurer Davidson has given the best of satisfaction, in that he has made the best collection of taxes had for years, and that in the face of many difficulties.

Several changes have been made in the charter of East Tawas, by special act of the legislature one of which does away with the ward supervisors and give the mayor the authority to appoint a city assessor, and makes the alderman whose terms first expire members of the board of supervisors. The only ticket in the field this year is the republican and the following are the nominees:

Mayor—E. M. Schlechte.  
Clerk—Wilfred Grise.  
Treasurer—No Nomination.  
FIRST WARD.  
Supervisor—Henry Gale.  
Alderman—A. W. Lowe.  
Constable—Daniel Ross.  
SECOND WARD.  
Supervisor—W. H. Murphy.  
Alderman—Carl Stormer.  
Constable—E. B. VanHorn.  
THIRD WARD.  
Supervisor—M. Murphy.  
Alderman—A. J. Greeney.  
Constable—Jacob Piersisti.

Several changes have been made in the charter of East Tawas, by special act of the legislature one of which does away with the ward supervisors and give the mayor the authority to appoint a city assessor, and makes the alderman whose terms first expire members of the board of supervisors. The only ticket in the field this year is the republican and the following are the nominees:

Mayor—C. W. Luce.  
Clerk—G. N. Benton.  
Treasurer—Phineas Smith.  
Justice—George E. Oaks.  
Aldermen—W. O. Emery, J. G. Dimmick and W. H. Warren.  
Constables—John Sims, Theo. Hiltz, and Chancy Livingston.

TOWNSHIP.  
Township, has two tickets in the field under the heads of republican and people's. The republican nominees are:

Supervisor—Malcomed McLeod.  
Clerk—Thomas W. Conklin.  
Treasurer—Lafayette Colby.  
School Inspector—George McKeuzie.  
Highway Com.—Jacob Bellingier.  
Justice full term—John Preston.  
Member Board Review—Norman Marchison.  
The people's ticket is composed of the following:

Supervisor—George C. Anghuetz.  
Clerk—R. W. Tompkus.  
Treasurer—Peter C. Goldie.  
School Inspector—Charles W. Furce.  
Highway Comm.—Joseph Blast.  
Justice full term—Henry L. Drake.  
Member Board Review—Christian Goedecke.

RENO.  
Township has two tickets in the field this spring. The republican nominees as follows:

Supervisor—Chas. E. Thompson.  
Treasurer—Benjamin Charters.  
Clerk—Benjamin Corbett.  
Highway Commissioner—Thomas Jackson.  
Justice of the Peace—Chas. J. Poole.  
" " " 3 years—Alex. Anderson.  
" " " 1 year—William Vance.  
Member Board Review—Mark Robinson.  
School Inspector full term—Lorne Lindsay.  
The other is known as the People's ticket and is as follows.

Supervisor—Thomas Jackson.  
Treasurer—William Charters.  
Highway Commissioner—Joseph Lindsay.  
Justice full term—Neil McDougald.  
" 3 years—Arnold Dozier.  
" 1 year—Alfred Waters.  
Member Board Review—George Charters.  
" 1 year—William Latter.

GRANT.  
The township ticket in Grant is as follows.

Supervisor—Thos. G. McCausland.  
Clerk—Thos. F. Robinson.  
Treasurer—Benjamin W. McCausland.  
Highway Commissioner—Wm. Oates.  
Board of Review 2 years—John A. McDonald.  
School Inspector—Wm. H. Casey.  
Overseer of Highways district No. 1—Thos. F. Robinson.  
Overseer of Highways district No. 2—John Smith Sr.  
Justice full term—John E. Johnson.  
" 3 years—John H. White.  
" 2 " —Benj. C. Rice.

BALDWIN  
Township republicans have nominated the following ticket:

Supervisor—John Sullivan.  
Clerk—F. Frasier.  
Treasurer—Sven Pierson.  
School Inspector—Wm. B. Benedict.  
Highway Com.—William E. Benedict.  
Justice for 3 years—Oscar Ailstrom.  
" 4 " —Nels Polson.  
Board of Review 1 year—Henry Grabow.  
" " 2 " —Ignatz Lavitiska.

The opposition ticket is known as the People's ticket and the following are the candidates.

Supervisor—Martin V. Saunders.  
Clerk—Hans Carlson.  
Treasurer—William Karziski.  
School Inspector—George Zacharias.  
Highway Com.—Thomas Glendon.  
Justice for 3 years—Ferdinand Bishop.  
Board of Review 2 year—Ferdinand Shultz.

PLAINEFIELD  
Township has two tickets, the union and people's. The union ticket is:

Supervisor—R. K. Strubbe.  
Clerk—Edwin Nunn.  
Treasurer—Robert Boyer.  
School Inspector—Seth McKeen.  
School Inspector 1 year—Eddie Smith.  
Highway com.—Eugene Nunn.  
Justice—Henry R. Buck.  
" 2 years—Eli Graves.  
Member Board of Review—Fred Humphery.

On the people's ticket the nominees are as follows:

Supervisor—Leander Gardner.  
Clerk—Henry R. Buck.  
Treasurer—School Inspector—Lewis Nunn.  
" 1 year—Milton E. Kyes.  
Highway Com.—Rinaldo Allen.  
Justice—Thomas Staples.  
" 2 years—Edward V. Esmond.  
Member Board of Review 2 years—John Love.

SHERMAN  
Township has two tickets in the field this year, the People's Union and the Township. The nominees on the people's Union are.

Supervisor—John Jordan.  
Clerk—William G. Arn.  
Treasurer—John Schneider.  
Highway Com.—Albert Scherrett.  
School Inspector—R. C. Arn.  
Justice—Robert Wikins.  
" to fill vacancy—Anthony Droeger.  
Member Board of Review—Wm. Dragger.

On the township they are as follows.

Supervisor—Albert Drager.  
Clerk—George Schroeder.  
Highway Com.—Randson H. Goodwin.  
School Inspector—Andrew McIvar.  
Justice—John McNally.  
Justice to fill vacancy—James Norrir.  
Member Board of Review—John McGrady.

Tax Homesteads.  
A case of considerable interest was decided by Judge Sharpe on Monday. The Sage Land & Improvement company, who own about one third of the lands in Hill township, objected to the payment of their 1898, taxes on the ground that by the action of the auditor general in deeding over to the state and removing from the assessment roll of the township over seven thousand acres of land, the company was called upon to pay more than their fair share of taxes. That such action of the auditor general was void and rendered the whole tax roll of 1898, invalid. The judge held the action of the auditor general in deeding over these lands as homestead lands to be void but also held that as he acted in good faith and no fraud or improper conduct on the part of the officers was shown the taxes were a valid lien on the lands of the company, and rendered a decree for their collection. The company will no doubt appeal and as this is the first time this question has been raised, the decision of the supreme court will be awaited with much interest.—*West Branch Herald Times.*

RENO NEWS.  
William Allen, who has been very ill, is convalescent.  
James Charters lost one of his matched team last Tuesday.  
A Mr. Parker, of Ohio, has purchased Frank Horton's farm.  
Benjamin Charters, who was seriously injured by a run away team, is slowly recovering.  
Owing to the sudden thaw and heavy rains the water has been the highest ever known here.  
Emma, wife of Daniel Degrow, died at her home in this township, Sunday, March 17. The deceased was born in England, in 1842, and immigrated to Canada in 1861. She was married to Mr. Degrow when 23, years of age, and the family came to this township fourteen years ago. She was the mother of nine children, seven of whom survive her. She had won the respect of all with whom she became acquainted, being a loving wife, affectionate parent and hospitable neighbor. Owing to the unfavorable weather the funeral services were postponed until Sunday, March 31, at 2 o'clock p.m. Rev A.C. Kay, is expected to officiate.

Benjamin Richards.  
was born in Bridport, Dorset, England, Mar. 21, 1825. He was apprenticed to the tin smithing trade when a young man, and he became proficient in his chosen work.  
Early in his 20's he married Miss Phoebe Powell, and she has stood by his side in all the varied events of the 53 years that have come and gone.

In 1854 Mr Richards became possessed of the new world fever, and in the Fall of this year he left his wife and three little ones Robert, Eliza and James, and he sailed for America, alone. The following Spring he sent for wife and family, and in April they too "came over." The first residence place was Lansingburg N. Y., where they remained for a time and then went to London, Canada. There they resided only a year and then returned to Lansingburg, from which place they came to Alpena about the year 1866, and Mr. R. worked in the tin shop connected with F. N. Barlow's hardware store. Six years later he started a hardware business of his own, and continued it at Alpena for two years, and then, in 1874, he came to East Tawas and opened a hardware establishment in what is now known as the Sims block. Later he bought the corner where now stands the hardware store of Richards Bros., and a large frame block was erected, but this was consumed by fire about six years ago, and the present brick structure took its place. The hardware business was turned over to his sons about 18 years ago, and Mr. Richards in company with J. H. Schmeck opened a bank here, but a few years later he sold his interest to his partner and moved back to Alpena, where he engaged in the dry goods trade for about six years, then returning to East Tawas about eight years ago he erected the fine residence he has occupied since. He again took an interest in the hardware business here, and until a month or so ago he retained that interest.

During his residence here, Mr. Richards has always taken great interest in the rise and progress of our city, and several structures, both for business and residence, stand to his memory. He also took some interest in our educational and political affairs, and for several years he was a member of our board of education, also our supervisor for several terms, and he was county Treasurer for one term in the early 80's. He was always faithful to every trust.

Mr. Richards loved nothing more than the church, and he was a faithful and consistent member and supporter of the Methodist society for upwards of fifty years. He was a Mason member of Alpena Chapter R. A. M. and of Baldwin Lodge F. & A. M. of East Tawas.

The first and only time Mr. R. returned to his native home in England was 16 or 17 years ago, when he was there with his wife and daughter Sarah, he remaining only a few weeks.

The golden wedding of Mr. and Mrs. Richards was celebrated January 23, 1898, and a large number of their friends were called in to do honor to the occasion.

Of the family, there are eight living, and two died in childhood. Those living are: Robert Richards of AuSable, James, William, and Fred, of this city, Mrs. N. Robinson of Bay City, and Misses Eliza, Sarah, and Blanche, also of East Tawas.

While the bereaved wife and family, and many friends will mourn Mr. Richards' demise yet his three-score years and ten, plus six, put him beyond the allotted age of man, and the inevitable will of the Creator should be meekly submitted to.—*Gazette.*

The D. & M. experienced several bad washouts along the line this week. The worst was just below Emery Junction, on the Prescott division, where about fifty feet of track was washed out.  
The May Woman's Home Companion will contain a short story by Lillian Bell, which is based upon the amusing experiences of a family in attempting to deal with the servant-girl problem, "With Mamma Away" It is illustrated by Irving R. Wiles.  
Mrs. B. J. Dennis announces that she will be home from Detroit next week and open her store in East Tawas with one of the largest lines of millinery goods ever offered the ladies of the Tawas. Her Easter opening will be Wednesday and Thursday of next week.  
The hog is the mortgage lifter, the sheep the farm fertilizer, the cow the barn builder and the hen the grocery bill payer. This quartette, with a man and a woman not afraid of the work in caring for them, and a few acres of sugar beets, will insure prosperity on any farm.  
Mrs. M. D. Huribert has moved her millinery store to the building formerly occupied by her on the east side of Lake street. The rooms upstairs have been nicely fitted up and she will occupy same as residence, while the first floor will be devoted to the store. Mrs. H. will have something to say to our lady readers next week relative to spring millinery. It be will to your interest to watch for it.  
A cup of hot coffee is an unfailling barometer, if you allow a lump of sugar drop to the bottom of the cup and watch the air bubbles arise without disturbing the coffee. If the bubbles collect in the middle the weather will be fine; if they adhere to the cup forming a ring, it will either rain or snow, and if the bubbles separate without assuming any fixed position, changeable weather may be expected.—*Ec.*  
Blind from his birth, Chas. Bacon, aged about twenty-two years, this week for the first time looked upon his mother and the other members of the family, the sight of one eye having been received as the result of an operation performed at Ann Arbor. The young man is an accomplished piano tuner, having received his instructions at the school for the Blind at Lansing. It is expected that another operation will result in sight being given both eyes.—*Oscoda Press.*  
The stomach controls the situation. Those who are hearty and strong are those who can eat and digest plenty of food. Kodol Dyspepsia cure digest what you eat and allows you to eat all the good food you want. If you suffer from indigestion, heartburn belching or any other stomach trouble, this preparation can't help but do you good. The most sensitive stomachs can take it.

**The Death of Mrs. Nisbet.**  
Gloom was again cast over our city by the announcement of the death of Mrs. Nisbet, wife of the late William Nisbet, which occurred at the family residence early Thursday morning. Mrs. Nisbet was ill on her arrival from Bay City with the remains of her husband, and pneumonia set in which resulted in death.  
The deceased was born in Beverly, Ont., October 2, 1837, her maiden name being Sophia Patterson. She was united in marriage to Mr. Nisbet in December 1863, and was the mother of five children, two of whom James H., of this city, and Mrs. Margaret McCombs, of Bay City, survive her. She was highly respected by a large circle of friends, and the children, whom are thus called to meet this second sad affliction within the short space of two weeks—the father died on the 15th inst.—have the sympathy of all.  
The funeral will be held from the residence at 2.30 Monday afternoon, and will be conducted by Rev. Dr. Smith, of Bay City.

**Communication.**  
McIvor, March 26, 1901.

**EDITOR HERALD,**  
Dear Sir:— Please allow me space in your columns for a word. It is with much satisfaction that the taxpayers of Sherman township have in giving their support to the present township officials for another term, while all young men, they have proven to be efficient officials, and have placed our town in the best financial condition it has been in years. The improvement is one that is most pleasing after what we have experienced in the past. That Messrs. Jordan, Schneider and Arn will be reelected next Monday, there should be no question.

**TAXPAYER.**

**Good Cough Medicine For Children.**  
"I have no hesitancy in recommending Chamberlain's Cough Remedy," says F. P. Moran, a well known and popular baker, of Petersburg, Va. "We have given it to our children when troubled with bad coughs, also whooping cough, and it has always given perfect satisfaction. It was recommended to me by a druggist as the best cough medicine for children, as it contained no opium or other harmful drug." Sold by, Dr. G. S. Darling.

**FOR SALE CHEAP.**  
A quantity of first class timothy hay. Also first class seed peas, oats and potatoes. Inquire of, REUBEN WADE, Hemlock Road, or by mail, Tawas City, Mich.

**An Honest Medicine For LaGrippe.**  
George W. Waitt, of South Gardner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's cough remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me, congratulate the manufacturers of an honest medicine." For sale by, Dr. G. S. Darling.

**A CARD OF THANKS.**  
It is with hearts overflowing that we extend to the many friends and neighbors our most sincere appreciation of the many kind acts extended us during our sad bereavement in the loss of our husband and father. To Mr. and Mrs. Hall, at whose home home his sickness and death occurred we feel that special thanks are due, as they seemed to be friends from heaven, in our sad hour of affliction.  
MRS. WM. IRISH AND CHILDREN,  
MR. and MRS. WM. O'BRIEN.

Mrs. C. E. VanDeusen, of Kilbourn, Wis., was afflicted with stomach trouble and constipation for long time. She says, "I have tried many preparations but none have done me the good that Chamberlain's Stomach and Liver Tablets have." These Tablets are for sale at Darling's drug store. Price, 25 cents.

For sale or exchange, 40 acres of land close by corporation limits of Tawas City Mich. Twenty acres improved. Good buildings and a fine young orchard, Apply M. Murphy, city.

**A Card.**  
We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Waranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.

GOOD DAIRY BREEDS.

WHAT THE GEORGIA EXPERIMENT STATION HAS LEARNED.

Further Evidence Against the Utility of Scrubs—Points Indicating the Most Desirable Qualities—General Purpose Cows.

The Georgia experiment station has issued an interesting bulletin on practical dairying. Any one of the three or four prominent dairy breeds, says the bulletin, will give better satisfaction, better results and larger profits than the nondescript known as the scrub cow.

GEORGIA MILKER.

fat, and not so churnable as the milk of the two former. When no longer profitable for the dairy on account of age or individual defects, she fattens kindly and makes a large return in good beef.

There are some dairy farmers who prefer what is called a "general purpose cow," or an animal that will yield a fair quantity and quality of milk and will fatten well at the close of a milking period, or when no longer desired for dairy purposes.

In commencing the business of dairying it is well for the farmer to decide promptly the particular line of work he will follow. It is by no means necessary to start with a herd of none but pure bred animals, but it is highly important to have at the head of this herd a pure bred bull and two or three pure bred cows.

The head should be rather small, but proportionately long, with a narrow muzzle. The eyes should be small, but with a bright and intelligent look.

The neck should be long, slender and with a graceful taper toward the head and with no loose skin below. The shoulders should be thin, and the forequarters light; the hindquarters should be large and open or "loose jointed," the back straight, and broad across the pelvis.

The udder should be broad, square and capacious and stretching forward, but not fleshy, low hung nor too high. The "milk veins" should be large and prominent, and the teats large and set well apart from each other. The skin should be loose and thin, and the hair soft and fine.

An individual cow of any breed may be deficient in one or more of the above points and yet prove to be an excellent milker, but if one conforms in all the points she can hardly fail to be a superior animal, and such close conformity is proof of careful previous breeding and a guarantee that her offspring will be like herself if the cow be properly mated. It may be also added that a so called "scrub" cow may be all that could be desired as a dairy animal, even equal to a thoroughbred, but there will be no certainty that her offspring will partake of the same character.

Prepotency, or the power to transmit certain qualities to the offspring, is one of the results of a long course of careful breeding, and this power resides chiefly in the male parent; hence all efforts to improve the common stock of the country should be guided by the rule that the bull should be a thoroughbred, registered animal and the cow should be the best of its kind.

UNSALTED BUTTER.

A Study in Weight and Market Prices.

There is in the large cities a limited trade in fresh butter, and this demand is known as the Jew trade, says The Creamery Journal. The price is a little higher than the price of salted butter, but one must have the market secured in advance to be safe in shipping that grade of butter.

Suppose it takes seven pounds of salt to salt 100 pounds of butter. This is an extra investment of 7 cents at least. Suppose three pounds of this salt remain in the finished product. When butter is netting 22 cents, this means 66 cents received for the salt and an investment of but 7 cents to get it.

This was discussed at the Wisconsin dairy convention last winter, and Professor Well said that sometimes the weight was increased by salting the butter and sometimes not. He thought that if well drained the salt would make a slight increase. Mr. Amend made a strong point, saying that he sold much of his butter unsalted and worked it about half as long as when he salted it.

These reports enable us to get pretty near to the bottom facts. If unworked butter is salted and worked, it will generally shrink a little if the same apparent moisture is left in. If butter which has been worked to a finish is salted and worked, there will be a small increase in weight, for the little moisture left in the finished unsalted butter will dissolve the salt, and there will be little surplus moisture to be expelled.

There are some dairy farmers who prefer what is called a "general purpose cow," or an animal that will yield a fair quantity and quality of milk and will fatten well at the close of a milking period, or when no longer desired for dairy purposes.

In commencing the business of dairying it is well for the farmer to decide promptly the particular line of work he will follow. It is by no means necessary to start with a herd of none but pure bred animals, but it is highly important to have at the head of this herd a pure bred bull and two or three pure bred cows.

The head should be rather small, but proportionately long, with a narrow muzzle. The eyes should be small, but with a bright and intelligent look.

The neck should be long, slender and with a graceful taper toward the head and with no loose skin below. The shoulders should be thin, and the forequarters light; the hindquarters should be large and open or "loose jointed," the back straight, and broad across the pelvis.

The udder should be broad, square and capacious and stretching forward, but not fleshy, low hung nor too high. The "milk veins" should be large and prominent, and the teats large and set well apart from each other. The skin should be loose and thin, and the hair soft and fine.

An individual cow of any breed may be deficient in one or more of the above points and yet prove to be an excellent milker, but if one conforms in all the points she can hardly fail to be a superior animal, and such close conformity is proof of careful previous breeding and a guarantee that her offspring will be like herself if the cow be properly mated.

Prepotency, or the power to transmit certain qualities to the offspring, is one of the results of a long course of careful breeding, and this power resides chiefly in the male parent; hence all efforts to improve the common stock of the country should be guided by the rule that the bull should be a thoroughbred, registered animal and the cow should be the best of its kind.

RIPENING CREAM.

A Simple Explanation of an Interesting Process.

The educated housekeeper knows very well that good bread cannot be made without the use of yeast to cause the sponge to get light—to rise, as we say, says a writer in The Practical Farmer. This she does by adding yeast to the sponge, and the effect of this yeast is due to the existence in it of a vast number of minute organisms which inoculate the sponge, and these, growing in the sponge, produce a gas in it, by which the sponge is filled with a vast number of little cavities or cells, in which the yeast has produced the gas by which the sponge is swollen and, as she says, is raised.

Now we can by a similar inoculation of the cream ripen it for the churn by means of the growth in it of a countless number of minute germs, which, as it were, fill the cream with exceedingly small specks, so that when it is stirred it has a shiny appearance, as we say, like satin; and when in this condition the churning is done, the small particles of butter separate and by cohesion gather together and form little pellets of butter, and these, adhering together by the dashing together of them in the churning, increase in size until lumps of butter form.

It is most convenient to stop the churning when these pellets are of the size of buckshot or sweet peas, and this is the reason that when the butter is in this form the buttermilk is more easily washed from it and the butter may be gathered in a pure state. This we call the philosophy of butter making. It is the wisdom, in fact—for this is the meaning of the word philosophy—of churning. It saves labor and it leaves the butter in the best condition for gathering and washing it free from the buttermilk, which otherwise would quickly cause decomposition of it, and this would produce the strong, disagreeable odor and flavor of rancidity in it.

When you are bilious, use those famous little pills known as DeWitt's Little Early Risers to cleanse the liver and bowels. They never gripe.

There is no witchery about this; it is a plain, simple effect of certain causes.

Winter Butter. You cannot produce first class winter butter unless you churn often, says George E. Newell in The American Cultivator.

To churn every other day is better than once in three days, while to put it off till every fourth day is execrable practice, and yet a vast amount of butter manufactured on the latter plan is marketed every winter, much to the disgrace of the dairy trade.

It is found primarily in country stores, where it has been exchanged by small dairymen at a second rate price for groceries.

The tradesman ship it in lots to the city market, where all the way through, whether it ends in the larder of a baker or on the table of the poor workman, it is classed as inferior and sells for a low price.

And yet the original material from which this butter was made was as good as that which is employed in turning out the 25 and 50 cent article.

The inferiority of quality and consequent loss to dairymen follows because they ignore the right principles of butter making.

Suppose that a farmer, after raising a fine crop of potatoes and digging them, should allow the tubers to lie a day or two in the sun before storing them in the root cellar? Could he expect to sell the green, bitter vegetables for full market quotations? Most certainly not, and even the most obtuse are thoroughly well aware of this fact.

And yet those who use common sense in this respect with inconceivable folly will spoil good cream and butter by wanton neglect, as outlined above.

This could all be obviated by churning cream when it is fresh and pure, i. e. slightly matured, but not bitter, and manufacturing it into butter according to modern principles.

Cream should all be secured from the milk in at least 24 hours, and then the cream should be matured and churned within the next 24.

This can be done usually by keeping it at a temperature of between 60 and 70 degrees.

Strikes a Rich Find.

"I was troubled for several years chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50 cents. Satisfaction guaranteed by G. S. Darling or J. E. Dillon druggist.

Western rates Reduced.

Greatly reduced one way rates will be in effect from Chicago, Milwaukee and Manitowish to Wisconsin Central Railway to points in Minnesota, No. Dakota, Montana, Idaho, Oregon, Washington and British Columbia each Tuesday, commencing February 12th and continuing until April 30th.

For detailed information inquire of nearest ticket agent, or address

H. W. Steinhoff, District Pass Agent, W. C. Ry., Saginaw, Mich., or Jas. C. Pond, Gen'l Pass Agent, Milwaukee, Wis.

A Horrible Outbreak.

"Of large sores on my little daughter's head developed into a case of scald head," writes C. D. Isbill of Morgantown, Tenn., "but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for eczema, tetter, salt rheum, pimples, sores, ulcers and piles. Only 25 cents at Dr. G. S. Darling or J. E. Dillon druggist."

TAKE NOTICE.

All parties working on the D. & M. R. R. owing me newspaper and saloon accounts who do not come and settle with me on or before April 1st 1901 will be sued or garnished. Also, all others who do not settle with me inside of 30 days I am going to place their accounts in attorney's hands for collection.

M. MURPHY.

When you are bilious, use those famous little pills known as DeWitt's Little Early Risers to cleanse the liver and bowels. They never gripe.

DeWitt's Little Early Risers to cleanse the liver and bowels. They never gripe.

Kodol Dyspepsia Cure
