SELECTIONS

SHAKESPEARE FORGERIES.

Remarkable Book Sold by Auction as a Curiosity.

Among the thousands of books that formed the library of Mr. E. J. Stanley, M. P., and are now undergoing dispersal in an eight days' sale at Sotheby's was one precious product of the ingenuity of that arch forger of Shakespeare, Samuel William Henry Ireland, and it was sold the first day. It is the quarto volume which deceived the world when it was published in 1796 under the title of "Miscellaneous Papers and Legal Instruments Under the Hand and Seal of William Shakespeare, Including the Tragedy of 'King Lear' and a Small Fragment of 'Hamlet,' From the Original MSS. In the Possession of Samuel Ireland of Norfolk Street."

In the book world the reign of the rogue is but a span, but the inventive Ireland's was rather long drawn out, and Boswell on his deathbed, kissing the forged manuscripts and believing his lips to be sanctified by the process, was not the only great man who was taken in by the swindle. This book is not only interleaved with manuscript copies of the original forgeries, but is also preceded by an account in manuscript signed by Ireland of the suppression, on the discovery of the forgeries, of the original issue of folio.

Ireland's success is but a record of human credulity. Young Ireland was first tempted by his father's unintelligent enthusiasm for Shakespeare to forge an autograph of the poet on a carefully copied old lease. His audacity grew with the growing credulity of his dupes, and ere long locks of hair, private letters, annotated books, etc., were plentifully produced, and all inquirers were put off with lying explanations. Boswell, Wharton, Dr. Parr and hundreds more were deceived, but those like Malone, really qualified to judge, denounced the imposture from the first.

Ireland's audacity now reached the folly of producing a deed of Shakespeare's bequeathing his books and papers to a William Henry Irelande, an assumed ancestor. A new historical play was announced, entitled "Vortigern," and carefully concealed until its production by Sheridan at Drury Lane, but it was vapid and un-Shakespearean and was hopelessly contemptible. The old man now began to smell a rat and demanded an explanation from his enterprising son. It was forthcoming in the form of the confession in manuscript affixed to the volume sold the other day. "In order," one reads, "to further obliterate as much as possible every vestige of Shakespearean production I further committed to the flames the complete impression of the present reprint, reserving no more than the annexed copy," which as a literary curiosity consequently ranks unique. It was bought by Mr. Jackson for £122. —Pall Mall Gazette.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in the drugstore business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by Dr. G. S. Darling.

A Great Memory.

What memory can do is illustrated in the case of a New York tailor who cannot read or write. He is probably the most widely known man in his business, as for many years he has done business with New York's firemen and policemen. Almost every man of these two bodies has dealings with this tailor, and each month between the first and tenth days he visits every station house and engine and truck house to collect his dues. It is said of him that in all the years he has dealt with the firemen and policemen he never was known to make a mistake of a cent, although all his records of transactions have been kept in his head.

Notice To Wheelmen.

There's positively no need to endure discomfort by reason of chaffing, sunburn, insect stings, sore and perspiring feet or accidental bruises. You forget these troubles in using Bucklen's Arnica Salve. Infallible for pimples, blotches, skin eruptions and piles. Sold by G. S. Darling and J. E. Dillon. 25 cents.

A PHENIX GIRL.

What the Little Miss Did When She Saw the Snake.

An incident occurred recently near this city in which a 15-year-old girl displayed wonderful presence of mind and illustrates the value of good judgment and self possession in all everyday affairs of life as well as on extraordinary occasions, when the house takes fire or two trains try to pass on the same track.

In a ranch home not far from town lives a family which at the time mentioned had in its employ a nurse to wait upon the lady of the house, who was in delicate health, and the girl referred to, whose duties were to wash the dishes and attend to the minor household affairs.

One afternoon, when the head of the house was away from home, the three women were sitting in a room together, when the girl noticed a snake of considerable size coiled up in a clothes rack, or shelf, some distance above the floor, craning its neck out and waving it to and fro in regular snake fashion. The girl knew the impressionable condition of her mistress and the possible effect upon her of any undue or sudden excitement. Her quick remembrance of this fact and her rapidly evolved plan of action are proof of her self possession.

She knew the prevailing weakness of women to scream when anything unusual occurs and therefore knew she could not even take the nurse into her confidence at once in the matter of the discovery of the snake without great danger of precipitating the climax she desired to avoid, so she quietly said to her mistress, "I think I heard your husband calling you out at the gate." The lady of the house at once withdrew, and as soon as she left the room the girl cautioned the nurse to make no outcry and, seizing the nearest club, went after the reptile in a manner that put him out of business in short order. The nurse, of course, could not restrain a little demonstration when she first saw the snake, but she choked herself in short order, and by the time the mistress of the house returned to tell the girl she must have been mistaken about the call conditions in the room had resumed their usual serenity, and the girl admitted that she must have been dreaming when she fancied she heard the alarm outside.—Arizona Republican.

Common Sense in Training.

In training the Columbia boys I exercise only general supervision over their diet. I let them eat all the plain food and drink all the water they want, and when they come in from a spin on the river they all take a plunge off the float, streaming with perspiration as they are. "Why, Mr. Hanlan," I am asked, "is it not very injurious for the boys to go into the water when they are so heated?" "Not at all," I answer. "My experience has been that if a person's health is sound, with skin in good working order, the plunge, which closes the pores, conserves strength and weight."

I have also been often asked if the great exhaustion some of the boys show after a race does not mean a severe and harmful strain upon the heart. Twenty-five years ago this was true, since then the power of rowing was put forth chiefly from the upper part of the body. But now every muscle, from those of the feet and ankles to the tendons of the neck, does its part, and nowhere is there undue strain. The boys recover in a few seconds from their efforts, and there are no permanent effects.—Edward Hanlan in Leslie's.

Tallest Skyscraper Yet.

Plans are being drawn by Architect Koch for a 40 story building to be erected by John A. Butler. The building, which will be located at the northeast corner of Third street and Grand avenue, will cost in the neighborhood of \$5,000,000. The material will be iron and marble, it being Mr. Butler's intention to secure beauty and substantiality, regardless of expense, which, he asserts, will be quite a secondary consideration. The floors will be of tile and mosaic work, and the walls will be finely frescoed. Work will begin without delay, and it is expected the structure will be completed in about three years. The first 20 stories of the proposed block will be devoted exclusively to offices, eight floors will be divided into apartments for families, while the top ten floors will be built for hotel purposes.—Milwaukee Sentinel.

Heartburn.

When the quantity of food taken is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be removed. For sale by Dr. G. S. Darling.

'Phone No. 68.

Hon. John W. Champlin, ex-chief justice of the Michigan supreme court, died at his home in Grand Rapids Wednesday.

Gov. Bliss has named October 15 as the date of the special election for the Tenth Congressional district to elect a successor to the late Congressman Crump.

Christian Science is said to be making great strides in England where it has become a fad. However the government has not tried absent treatment on the Boers.

The congressional fight in this district will now begin in earnest as the date of the special election has been fixed and the congressional and county conventions will soon be called.

The Spanish-American war has produced 45,710 applications for pensions, which is more than the number of soldiers in the field during the whole war. Evidently Uncle Sam is a good provider.

It must wring Sampson's aristocratic soul to think that a mere laborer in the Naval service should have so slandered Admiral Schley. Between gunner Morgan and Maclay the Navy is clearly going to the dogs.

Never mind, if the American soldier isn't as well groomed as the European, he can fight a long sight better and that is a good deal more to the purpose. Buraishing brass buttons isn't the sum and substance of his life.

The August number of the Woman's Home Companion is chiefly devoted to fiction. It contains seven short stories by leading writers. It is capital magazine for a hot afternoon in a hammock or to take with you to read on a journey.

George L. Lusk, of Bay City, has withdrawn from the congressional race, and from politics in the future. He says a young man who wishes to make a success has no business to go into politics, and in the future he will attend strictly to his private business.

After a great deal of diplomatic quibbling our minister to Turkey has succeeded in persuading the sultan to pay a debt he has long owed America. The correspondent, detailing the characteristics of our minister which contributed to the result, mentioned most prominently his appreciation of oriental pictures and his remarkable ability as a host. Perhaps he drugged the sultan's wine.

Attorney General Oren has given State Game Warden Morse an opinion on the standing of the game law passed at the last session of the legislature, which was signed by the governor in a different form from that passed by the legislature. The attorney general holds that section 10, which relates to the open season for quail, is invalid, but that the remainder of the act will stand. This leaves quail under the provision of the old law.

One of the leading newspapers of Philadelphia estimates the increased cost of fuel to the American people in consequence of the thorough combination among the railroads and other financial interests which control the production and transportation of anthracite coal, at more than \$4,000,000 a month. That is to say the saving which might be counted upon if there were effective competition in the mining and distribution of the only kind of coal desirable for domestic use in stoves and furnaces would be about \$50,000,000 a year. Yet there are men who try to convince themselves that the fruits of monopoly are low prices to consumer and the promotion of the general welfare!—Cleveland Leader.

If the people of Tascoc county desire to confer an honor on a man who has done much for the advancement of our county, in many ways, there will be no question as to Hon. Temple Emery's ability to secure the delegation from this county to the coming republican congressional convention. As to his final nomination by the convention the chances are very flattering as there appears to be a strong inclination on the part of that party to go outside Bay county for their nominee this year. Mr. Emery would be a credit to his party as their nominee.

Maclay Must Answer In The Courts.

Edgar Stanton Maclay's alleged "History of the Navy" promises to open an interesting investigation. From the hour of the battle of Santiago there was an apparent disposition on the part of certain persons high in the navy to leave Schley outside the honors and to load them upon Rear Admiral Sampson. An indignant public resented this, because it did not seem fair to ignore a man who had participated in the fighting in order to honor one who could barely get in sight of the finish. As soon as public opinion took up cudgels for Schley, an attempt was made to throw discredit upon him. He was accused of cowardice and recklessness which imperiled the fortune of the day by swinging his ship, the Brooklyn, out of the direct line of pursuit to avoid coming to close quarters. By so doing it was alleged that he came near cutting down the Texas, and when remonstrated with by one of his officers he remarked: "Let the Texas look out for herself." The facts are that when the Spanish cruisers came out, the Brooklyn was lying off the mouth of the harbor and headed toward the east. The Spaniards made their dash toward the west, and the Brooklyn had to turn to the pursuit. It rested with the commander to decide whether the turn should be made toward the right or seaward side, or whether it should be made to the left or landward side. The order was turned to the right.

This maneuver gave Schley's enemies a chance to insinuate that he was afraid to attack the Spaniards at close quarters. The insinuation is utterly discredited by the subsequent successful pursuit: by the fact that 58 per cent of the shots which struck the Spanish ships were fired from the Brooklyn and that 54 per cent of the damage inflicted on the American fleet was sustained by the Brooklyn. Such being the case it does not matter which way the Brooklyn turned to come about. The important fact is that she did come about, she did successfully lead the chase, she did get hit oftener than any other ship in the fleet, and she did bear the brunt of the fighting. George H. Ellis, chief Yeoman of the Brooklyn, was the only American killed, and he was standing beside Schley when he was shot.

Maclay's bitter and unwarranted attack was entirely out of place in any history, and the fact that the author holds a position in the navy while preparing such histories raises the suspicion that the attack was inspired. Schley will appeal to the courts, and the investigation which will result will not be in control of the men who have been trying to discredit him before the American people.—Evening News.

The Value of Little Things.

Little things are the things that are apt to be forgotten in the hurry and bustle of life. Yet it is a true saying, which is often repeated by business men that success is made up of little things. It is a little thing in dress that makes a man appear well or ill dressed. It is the little business dealings which make the man's reputation for honesty and good judgment. It is the little things in social life which make a man agreeable or offensive. So it is and should be, the little things which make up a man's good citizenship. Little things in good citizenship are neglected sorely. There are many little things which can be taken up by men in every day life, which in the aggregate would tend to improve the town and permanently benefit it more than any sudden spurt or crusade will ever do. The man with his eyes open will find opportunities under the reach of his influence in which he can change the current, even in a very small circle, to better channels for various interests of the town.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. Dr. G. S. Darling.

World-Wide Solace.

"More than two millions of acres of land," declares the New York Tribune, "are used in producing the annual crop of tobacco, and more than three quarters of a million of tons of the leaves are puffed away into nothingness in every recurring twelve months.

"There's an old phrase often quoted. 'The world went well then. Did it really go as well and as smoothly before Columbus crossed the Atlantic as it has been going since cigars and pipes and cigarettes came into so extensive use? Four centuries ago, and in the many ages anterior to the adventurous voyage of the great Genoese, no human being outside of the dusky tribes of the new world had ever heard of a plant which has become one of the most cherished solaces and delights of scores of millions of smokers.

"The epicures of olden Greece and ancient Italy spent fabulous sums upon luxurious feasts, but never dreamed that that the dinners of thousands of years later would be crowned by clouds of fragrant vapor."

Learn To Save.

Helpless poverty is the most crushing affliction that can come to a family, and is the affliction most easily avoided. The man who starts out right will never be poor in the extreme sense, no matter how limited his income or how circumscribed his opportunities. Let him lay down the rule for himself that he will invariably spend less than he makes, then he is safe. Country people rarely suffer such extreme poverty as we find in the great centers of population. The farmer's boy is instinctively saving and careful. He sees all about him examples of husbandry. The bees, the ants, and the squirrels all provide carefully for a rainy day. Man alone violates this natural instinct, and he violates it more generally in the luxurious life of the city than in the plainer and simpler life of the country.—Parish Visitor.

Weekly Climate and Crop Bulletin.

U. S. Department of agriculture, climate and crop bulletin of the weather bureau, Michigan Section, for the week ended July 20, 1901.

The mean daily temperature for the week ended July 20 was 75.3 degrees, or 5.9 degrees above the normal, the average total precipitation was 0.20, or 0.32 of an inch below the normal; the sunshine averaged 81 per cent of the possible amount.

The week has been exceptionally hot, almost cloudless, and, in most sections of the State, practically without precipitation; moderately heavy showers occurred in the extreme southeastern portion of the lower peninsula, which brings up the average rainfall for the state; practically no rain fell in the upper peninsula and northern counties, and the average amount in the remaining counties is about one tenth of an inch. The weather has been very favorable for haying and harvest work, but too dry for most growing crops. Early potatoes and pastures have suffered the most. The early potato yield has been considerably shortened by the excessively hot weather of the past few weeks; late potatoes are much in need of rain.

Beans have made good progress but would be benefited by more moisture; corn and sugar beets have made fine growth, although corn has rolled somewhat during the middle of the day; both would be benefited by rain.

Haying is mostly finished in the lower peninsula and the cut quite generally well secured. Wheat, rye and barley harvest have made rapid progress and have also been generally well secured. Oats have matured rapidly in all parts of the state and their harvest is now quite general in the southern counties. Rye is fairly good crop, but the oat yield is somewhat short.

The hot, dry weather has shortened pasturage very rapidly and been very detrimental to the berry crop. Apples continue to drop considerably.

A Good Cough Medicine.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by Dr. G. S. Darling.

A COUNTRY COURTSHIP.

How Jim and Mandy Courted Each Other.

He came in the early twilight. When he knocked, she opened the door and pretended to be surprised at seeing him.

"Be it you, Jim?"
Jim admitted being "it" by a curt "yes" and followed her into the parlor. He sat down on a chair without leaning back, placed his hat in his lap and clasped his hands over his knees. She sat on the far side of the room, with her hands lying idly one in the other. After a lapse of 14 minutes he opened the conversation:

"Fokes well?"
"All 'cept pap. He's down with roomytiz."

"Another long and omlous silence, perhaps 20 minutes."

"Goin' t' begin harvestin' t'morrer," he said.

"Dew tell! Must hev airy crops," from her.

"Then the clock had the floor for another 17 minutes."

"Hoss is sick," she said.

"Waal, I'll be darn! Which un?" exclaimed Jim.

"Bay mare."

"Ep'zooticks?"

"Ep'zooticks."

After this outburst nothing was said for 30 minutes.

"Goin' t' th' singin' skule Saturday night?" queried Jim.

"Nobuddy axt me," she said.

"I axes you," said Jim bravely.

"I'll go," she said.

Twenty-five minutes elapsed.

"Ole Boss hed a kaff," said Jim, brightening.

"Law me!" she said.

Twenty minutes passed. Then Jim unlocked his hands, put on his hat and stood up.

"Goin'?" she asked.

"Goin'," he said and walked out on the porch. She followed him to the door, and they both stood thus in silence for ten minutes.

"Must be after 9," he said.

"Must be," she said.

"Good night, Mandy," he said.

"Good night, Jim," she said, and shut the door as he walked out of the yard.

And yet this is the twentieth century.—Cleveland Plain Dealer.

Stuck to It.

Barnes—Synnex will have it that all marriages are unhappy marriages.

Howes—What nonsense! But it's like him. I'll bet he'd go so far as to say that even the marriage of Adam and Eve was no exception to the universal rule.

Barnes—I mentioned Adam and Eve, and he said that he hadn't the least doubt that the trouble they got into began by twitting each other on their past lives.—Boston Transcript.

Hopeless Case.

He—I have been in the next room asking your father for your hand in marriage.

She—What was the result?

"Did you hear any noise while I was in there?"

"Gracious! I should say so!"

"Well, I suppose you've heard that silence gives consent."—Yonkers Statesman.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following la gripe. I took One Minute Cough Cure and recovered my health."

Mr. E. H. Wise, Madison, Ga.

Tompkins, Vine, Mich.

C. H. Prescott, jr. and family, of
Cleveland, will arrive today for a few
weeks at their summer home.

Miss Maggie Fitzpatrick, of Battle
Creek, is the guest of her sister, Mrs.
R. D. Culter, of East Tawas.

Four persons were baptised at Sand
Lake last Sunday. They united
with the Baptist church at Reno.

Frank B. Stickney, and children
have been the guests of friends at
Rose City and Lupton this week.

James LaBerge has one of the
finest line of summer Oxfords for
ladies ever shown in the Tawas.

Prof. A. A. Ellsworth entertained
one of his old school friends, Mr.
Fuller, of Howard City, last Sunday.

Will Katterman went to Detroit
Wednesday to aid in the reception
of M. Cadillac, at his big celebration.

John Fitzgibbon, of Mousoula,
Mont., an old Tawas City boy, is
visiting his mother and sisters of this
city.

G. S. Darling has the finest line of
carriages and buggies ever brought to
Iosco county. They are the Duran-
Dort.

Mr. and Mrs. Will Walt, of Sagi-
naw, were the guests of Mr. and Mrs.
Suple Brabon and family last Sun-
day.

Mrs. W. S. Wharton was called to
Berch Run this week by a telegram
announcing the serious illness of her
mother.

Dr. Robert Patterson, of Cassop-
olis, has been the guest of his brother,
James Patterson and family for the
past week.

If we should criticise in others only
those things which we could do better
than they, there would be but little
fault finding.

W. W. Watson representing the
Detroit Journal is in the city solicit-
ing new subscribers. He reports ex-
cellent success.

Ten deaths were reported from
Iosco county to the secretary of state
during the month of June. One
occured in this city.

Don't forget YEAST FOAM when
you order groceries to morrow. It
makes the best bread. Try sample
left at your house today.

Frank Duplaunty, of Whittemore,
took a crew of 25 or 30 men up to
work on the Harrisville extension of
the D. & M., last Monday.

The fifth Michigan infantry,
known to fame as "Kearney's
Devils," will hold their annual
reunion at Reoneo Sept. 18

Mrs. W. H. Murphy and son
Howard arrived home from a visit
with Mrs. E. D. Schermerhorn, at
High land Station, Wednesday.

Capt. Ocha of L. S. S. No. 10,
spent a couple of days in town this
week, coming up with his fine naph-
tha launch.—Grand Marais Herald.

Mr. and Mrs. John Campbell re-
turned Thursday to their home in
Herricksville, Ont. after spending a
few days with relation in this city.

Mr. and Mrs. H. E. Hill, of Bay
City, are visiting Mrs. H's parents,
Mr. and Mrs. John Hern, and other
relatives and friends in the vicinity.

M. E. Friedman has erected a
wind mill on his lot to be used in
pumping water from the river to his
house for laundry and lawn sprinkl-
ing purposes.

Dr. C. F. Thompson, of East
Tawas, left Saturday for Chicago,
from which place he will go to the
Pan-American. He will be absent
about ten days.

Rev. and Mrs. D. Q. Barry and
son Archie left Wednesday for Chi-
cago, where they will spend week's
vacation, attending the international
B. Y. P. U. meeting.

We received a pleasant call Tues-
day from Editor Ireland and Ben
Hayes, of the Standish Independent.
They are enjoying a few day yacht-
ing trip on Saginaw Bay.

When you want a modern, up to
date phisictry Chamberlain's Stom-
ach and Liver Tablets. They are
easy to take and pleasant in effect.
Price, 25 cents. Samples free at Dr.
G. S. Darling's drug store.

Some people are content with being
up to date, but there are others who
borrow trouble two or three years
ahead.

Joseph Laflor, of AuSable, is
boarding with Sheriff Johnson for 20
days. He was convicted before Jus-
tice Harmon of stealing a cap.

Rev. and Mrs. Wm. Coulcher and
children left yesterday for their
home in Nebraska, after an extended
visit with relatives and friends here.

Gladys Nickerson, aged 16 years,
of Lupton, was drowned in a small
lake near that place Saturday while
boating.

For the Arbeiter Bund excursion
from Alpena to Saginaw, W. S.
August 4, 1901, the D. & M. will
sell round trip tickets \$1.10. Children
half fare.

Miss Beryl Hurlbert, who has
been in charge of her mother's mil-
linery store at AuSable, is home for
several weeks, the store being closed
until September 1st.

The farmers throughout the
county are eyincing an unusual
amount of interest in the coming fair
and everything indicates that it will
be the best in several years.

George L. Cornville left Wednes-
day for a visit at the Pan-American.
He was joined at Detroit by Mrs. C.
Before returning they will also visit
Mr. C's old home in New York.

Northern Light Hive L. O. T. M.
gave the members of Grip Tent K.
O. T. M. a pleasant surprise at the
lodge rooms last Monday evening.
Ice cream and cake were served.

For the race meeting at Bay City
August 6th to 9th, the D. & M. will
sell tickets at one and one third fare
for the round trip. Dates of sale
Aug. 6, 7. Limited to return Aug-
ust 10.

The executive committee of the
Northeastern Maccabee Association
met at Lincoln last Friday evening
and decided to hold the third annual
picnic at Tawas Beach, Thursday
August 15.

John Earns, the boy from Reno
who was arrested on charge of steal-
ing a cow, has been sentenced to the
reform school at Lansing until he
is 18 years of age. County Agent
Bisbee will take him down today.

Those famous little pills, DeWitt's
Little Early Risers compell your
liver and bowels to do their duty,
thus giving you pure, rich blood to
recuperate your body. Are easy to
take. Never gripe. Dr. G. S. Darling.

A naturalist says that every time a
farmer shoots a hawk he throws a \$50
bill into the fire, for, though the
bird takes an occasional chicken, it
destroys at least a thousand rats,
mice, and moles every year.

Jos. R. Staats left Wednesday for
Calumet, where he goes to take
charge of a large planning mill at
that place. Mr. Staats will remain
there until fall, providing his health
will permit.—Grand Marais Herold.

A band tournament is to be held at
West Branch September 4, 5, 6, and
just about the biggest time ever seen
in those diggings is anticipated by
the townspeople, who have already
begun to make arrangements for the
event.

The attractions at the fair Sept. 25,
26, 27, will be the best ever offered,
and will include the most daring feats
by one of the best known and most
successful company of balloonists in
America. If no other attractions
were offered, this in its self would be
worth the admission.

The usual services at the Presby-
terian church next Sabbath, Rev. E.
O. Southerland, minister. Morning
subject, "The Unfailing Source of
Strength for the church." Evening
subject; "Loss through disease," or
"The negative element in sin," the
second in a series of evening sermons
on "Salvation."

Quite a number who were in ar-
rears have sent in the price of their
subscription to the HERALD the past
week, and some have also paid lot
only for the present year but for 1902
as well, showing the confidence they
have in us and their liking for the
paper. We fully appreciate their
kindness. There are yet many whom
we have not heard from.

"I wish to truthfully state to you
and the readers of these few lines
that your Kodol Dyspepsia Cure is
without any question, the best and
only cure for dyspepsia that I have
ever come in contact with and I have
used many other preparations." John
Beam, West Middlesex, Pa. No
preparation equals Kodol Dyspepsia
Cure as it contains all the natural di-
gestants. It will digest all kinds of
food and can't help but do you good
Dr. G. S. Darling.

A newspaper in one of our neigh-
boring towns had a notice of a "rag
sewing bee" and either by mistake or
permeditated willfulness the composi-
tor made "chewing bee." The editor
got an excellent sample of what that
kind of a function is like the day
after the paper came out. His wife
was president of the society.

On her down trip Monday the
steamer City of New Baltimore struck
a "dead head" in the Saginaw river
near Carrellton, causing a leak. The
boat was run into shallow water and
the passenger, about 30 in number,
were taken off by a tug. The boat
sank and it will be several days be-
fore she can be raised and repairs
made.

John McInerney, of East Tawas,
is the possessor of a bantam rooster,
which probably has few equals. His
royal highness has succeeded in
coaxing a brood of young chickens
from their mother and has assumed
full charge of them, even to the ex-
tent of hovering them under his
wings at night. Another peculiarity
is that he clucks like a hen.

The beet sugar factories and the
plant of the North American Chemi-
cal Co., of Bay City, are said to be
driving the fish out of the Saginaw
river and affecting the catch in the
bay. Every season during the cam-
paign of sugar making tons of lime
and barrels of acids are emptied
through great sewers into the river.
They seem to burn up the fish.

Edwin Rawden, a graduate of the
law department of the U. of M., has
been looking over the Tawasess this
week with a view of locating here for
the practice of law. He was most
favorable impressed with the location
and informs the HERALD that he
will undoubtedly locate in one or the
other of our cities. He returned to
his home in Ann Arbor Wednesday.

Kenneth Anderson, son of Mr. and
Mrs. Alex. Anderson, of Reno, was
killed last Saturday while at work in
the mill of the Northwestern Cooper-
age Co., at Ecanaba. The young
man was about 22 years of age and
has been away from home for several
years, making only occasional visits
to his parents. His remains will be
brought to Whittemore for inter-
ment.

Are you arranging to make an ex-
hibit at the fair, Sept. 25-27? If not
do so at once. This is the time when
you have an opportunity of aiding
in making the fair a success by mak-
ing the list of entries one that will be
a credit to the county and at the
same time effectually demonstrate
to the "kickers" that there is yet
interest enough left in the county to
have a successful fair.

The Alpena News tells of some
house to house salesmen who have
been "taking in" the ladies of that
city by selling dress goods patterns.
One lady paid \$5.00 for a piece of
cloth and on investigation found
that she could have got the same
thing from any merchant in the city
at less than half that money. If these
"fakers" struck Tawas we hope
some of our ladies will set the dog on
them.

Don't be a grumbler. Some people
contrive to get hold of the prickly
side of everything, to run against all
the sharp corners and find out all the
disagreeable things. Half the
strength spent in growling would
often set things straight. You might
as well make up your mind to begin
with, no one has ever yet found the
world as you would like it, but you
are to take your share of troubles and
bear them sturdily. You will be
very sure to have burdens laid on
you that belong to other people un-
less, you are a shirk yourself.—Ee.

During last May an infant child of
our neighbor was suffering from
cholera infantum. The doctors had
given up all hopes of recovery. I
took a bottle of Chamberlain's Cholice
Cholera and Diarrhoea Remedy to
the house, telling them I felt sure it
would do good if used according to
directions. In two days time the
child had fully recovered. The child
is now vigorous and healthy. I have
recommended this remedy frequently
and have never known it to fail.—
Mrs. Curtis Baker, Bookwalter,
Ohio. Sold by Dr. G. S. Darling.

L. H. Braddock, manager of C.
H. Prescott & Sons' hardware de-
partment, left Monday for his home
at Ithica. When he returns he will
be accompanied by Mrs. Braddock,
he having been united in marriage
Wednesday, to Miss Laura Brown, of
that city. The bride is a sister of
Mrs. Thomas Hafer, nee Beasie
Brown, who will be remembered as a
former teacher in our city schools.
The HERALD joins Lew's many
friends in extending congratulations.

The Tawas Bay Insurance Agency
is now owned by Blackburn & Co.,
and the office is in charge of Miss
Blanche Richards. The firm is com-
posed of Mrses. Blackburn, Rayburn
and Prince, of Alpena, and G. A.
Prescott, of this city. This company
is thoroughly reliable the extensive
business will receive the most careful
attention.

The foreign mantis is a candidate
for human frienship and is bidding
for a high place in arboricultural
circles in this country. He is an
insect eating insect, and has no use
for the tender leaves, shoots, blossoms
and fruits excepting as a hunting
ground, where he pursues and de-
vours other insects that destroy these
things. Therefore forestry and fruit
people are cultivating the mantis.
He is not all uncommon in France
and Germany, where he is highly
appreciated, but he has only recently
been imported into this country,
having come as a stowaway in some
nursery stock. He preys on all insects
except ants, and his favorite diet is
grasshoppers, spiders and caterpillars.

In a profitable dairy cows must be kept clean and in proper condition. Curry regularly. Cows should never be milked outdoors when raining, as the dirty water runs off the cow and would likely drop in the milk pail, says a Maryland dairymaid in Farm and Home. When cows are driven from the pasture under cover to be milked, they should be wiped dry before milking. Whether the cow is wet or not the udder should be wiped clean to remove dirt or loose hair, which too often falls into the milk.

Milk should be strained through a sieve into clean, cool crocks. Milk should never be strained into freshly washed crocks, or into crocks that have not been washed. Crocks should be scalded thoroughly and washed and set in the open air. Cream should be skimmed as soon as in a skimming condition. Set cream in a cool, clean, well aired jar, not in a freshly washed, dirty or hot receptacle. Do not put off churning too long or the cream will spoil, especially in summer.

Keep the churn well aired when not in use. Wipe the churn carefully with a clean cloth, then put in the dasher and pour in boiling water, dash around until wet all over the inside, let stand five minutes, then draw water off, put in the cream as soon as water is drawn, and churn until done. When cream is hard to churn, a cupful of boiling water is often helpful. Wash butter thoroughly and get all the milk out.

The print should be put in a pan to scald with boiling water and then put in cold water. Then stamp the butter and set it in a cool place. The cellar, pantry, springhouse or wherever the milk is placed should be free from all dirt. Fish, cooked cabbage or anything with a perceptible odor, should never be kept near milk, butter or cream. The covers of milk, butter or cream receptacles should be kept scrupulously clean and after being washed aired in the sunlight. Never use milk from an unhealthy cow.

Best Time to Freshen Cows.
There is no room for further discussion of the question as to whether it is more profitable to have cows freshen in the spring or in the fall, says Hoard's Dairyman. It has been tried too often and under too widely differing conditions, and without exception, so far as we are advised, the cow that freshens in the fall will yield more milk in 12 months, and the milk and its products are worth more money. The best plan of all probably is to have cows freshen at different times in the year—say three-fourths of them from September to January and the others at intervals throughout the balance of the year.

Waldo F. Brown in Prairie Farmer has the following to say about cement floors: I write from the standpoint of experience on this subject, as it is now about ten years since I put in my first stable floor of cement, and I had been watching and inspecting cement floors in stables for several years before laying mine. There is no comparison for durability between a cement floor and wood floor, as I believe the former will last without repairs for 100 years if made of the best material and properly laid down, while I have rarely been able to get a plank floor that would last ten years, and unless made of the best oak lumber it usually begins to give way in half that time. There are other advantages in the cement floor besides its durability, one of which is that by its use all of the liquid manure is saved, and another and still more important is that there will be no foul odors in the stable with this kind of a floor, for the cement will not absorb a particle of urine, and if cleaned as it should be every day and a little fresh bedding added the air of the stable will remain pure and sweet. What I say applies only to floors made of portland cement.

Farm Fences.
Bad fences have been a trouble to every rural community from the earliest history to the present day. Neighborhood rows and feuds and aggravating litigation and even bloodshed have resulted from defective fences. Wood fences, whether of rails, poles or boards, are a standing menace to the public peace wherever they exist, and but little better is a wire fence that does not effectively serve its purpose. There are nowadays a large number of patterns of wire fences ready made and sold in rolls ready to be unrolled and nailed to posts. Some of these are good, and some are better, and some are almost perfect. A really good wire fence may cost more to begin with than a wooden one, but on account of its durability alone it is far cheaper.

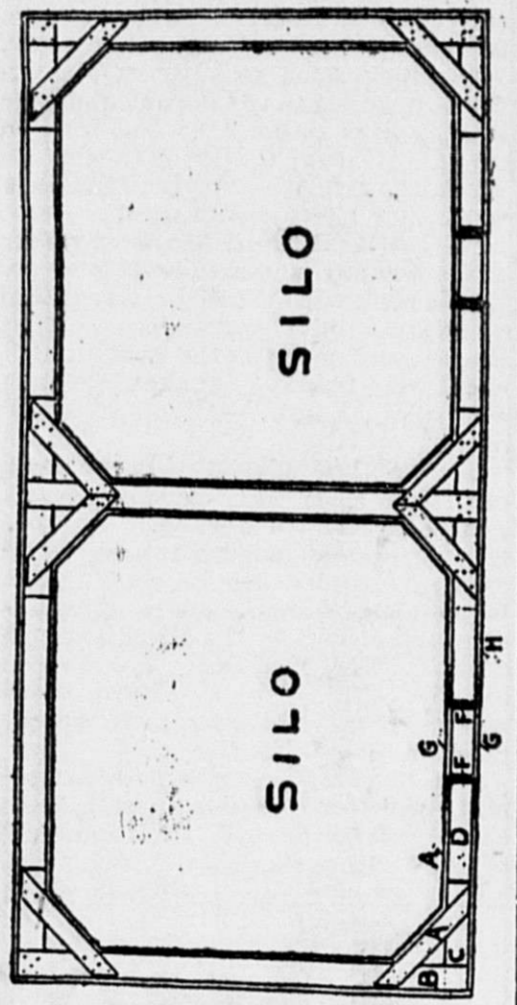

Dark Stables.
Dark stables are as injurious to cows or horses as a dungeon is to a man. It is the basement bars for milk cows that have developed tuberculosis to such an alarming extent. In the southwest there is no necessity for basement barns, and as far as we know they do not exist, says Farm and Ranch. But we have seen many stables that were almost as dark as Egypt on a cloudy day. These may not be so bad as basements, but they are bad enough. Sunshine is nature's great vitalizer and disinfectant, and men and animals should have it in large quantities.

RECTANGULAR SILO.

Suitable For a Small Number of Cows—Contains Two Pits.
The plans here shown are from Hoard's Dairyman and represent a rectangular silo with two pits suitable for a small number of cows or for use during the summer drought.

In this style of silo the pits may be made of any required size and their number added to at will. The tie across the corners so increases the angle that it offers but little more resistance to settling than a straight wall.

Make a foundation wall coming up above the surface sufficiently so that

LINES SHOW LINING AND SIDING.

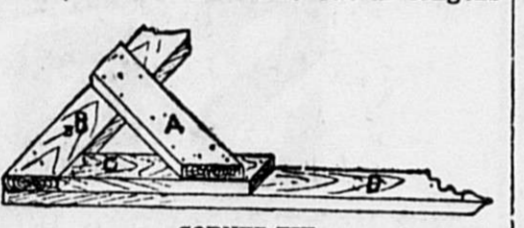

the ground may be graded to carry all water from rains and melting snow away from the building. On this foundation lay the first frame, which may be doubled if desired and secured by bolts set in the wall. At each corner of this frame and in the middle set up blocks 19 inches long and on these build the next frame, setting it exactly above the first. On this second frame set up other blocks upon which to build the third frame, making these blocks long enough to space these frames two feet from centers. Continue on in this way, adding frame above frame, increasing the distance between, until at the top they may be four feet or even more apart. These frames for pits not exceeding 14 feet on a side may be made of 2 by 8 inch stuff. Above 14 feet use 2 by 10. Use spikes freely.

When the third frame is in place, commence to stay lath and brace. If the outside is to be covered with clapboards, drop siding or ship lap, nail on one inch furring strips. This will leave a space for circulation of air from top to bottom in summer and prolong the life of the silo. Use building paper under the siding.

Finish the interior with two thicknesses of boards, with best quality of tarred building paper between them. The first course of boards may be of cheap lumber and should be put on diagonally, each board constituting a bay. The second lining should be free from sap and loose knots and made of narrow boards. We do not consider matching necessary, but many use stuff that has been tongued and grooved.

Leave openings for taking out the silage where most convenient.

These openings are not closed with doors, but with boards cut in lengths

CORNER TIE.

to fit and put in as filling progresses, two thicknesses with paper between, same as the lining. Doors hung with hinges may be used on the outside.

The carrier goes in at the door in the dormer, and a shoot turns the silage into either pit as desired.

Care of Pasture Lands.
William Ernst of Nebraska says in Prairie Farmer: When I came out west, it did not take many years to find out that it was more profitable to pasture the grass around me than to burn it in the fall. This pasturing of the grass was done so successfully that none was left to burn or to pasture. Finally I was compelled to break up the land and farm it. I raised large crops of small grain, but soon saw that it was a money losing game and tried to seed my land back to grass. I found it very difficult to get tame pastures to stick, and if by accident I got a good stand of timothy or clover the latter would not last, and the former after a good crop or two would get what I called sod bound and would not produce a load of hay to the acre. I know now why the timothy did no good after a year or two. It was because we pastured it to the roots, thinking it economical to let stock eat the last spear of grass that showed up in the fall. Land having by that time advanced in price, I could not afford to own pastures of that kind, and so I overstocked it to make both ends meet. I made up my mind to own less and better stock, and this change in no time made a great improvement in my pastures. I soon saw that a growth of grass covered the pastures in dry weather when all the range in short pastures was burned.

Injury to Stifle.
Mix one ounce of acetate of lead and two ounces of opium with one quart of water. Bathe the injured part well three times a day with a little of the above lotion. Keep the animal in the stable so that it cannot move around.

FARM AND GARDEN

HAYSTACKING DERRICK.

How to Build It and to Handle Hay Successfully.

But few of the farmers in this section who have several acres of clover or timothy for hay have sufficient storage room for it. A part often must be stacked or ricked off of shelter. Quite a number use a derrick to aid in this work, writes J. M. Jamison to the Ohio Farmer. The accompanying illustration shows the style of derrick in general use. I give the dimensions of the one I have used for three years.

The pulleys, fork and rope are the same that are used in the barn, making the working cost of the derrick very light. The base of the frame is 8 feet square, 10 feet high and 5 feet square at the top. The pole is 24 feet long, but should be at least 30 feet. The long arm is 17 feet, long end 13 feet,

DERRICK FOR STACKING HAY.

short end 4 feet, long brace 15 feet, short one 4 feet, end of long arm 28 feet high, but should be 35 feet.

The pole has a hole bored through it about three feet from the ground, through which is inserted a strong iron bar to turn the arm of the derrick over the rick when loaded and drawn up. The pulley at the lower side of the frame should be so placed that it will aid in turning the arm of the derrick over the rick. The trip rope to the hay fork does not show in this illustration.

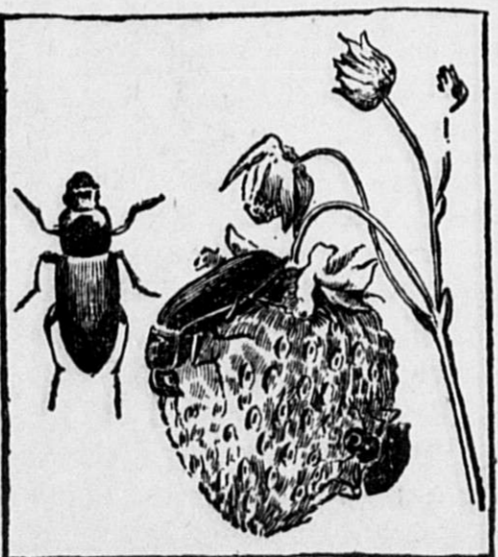

I use the derrick to rick clover hay and find that to handle the hay successfully with the fork it should be put up in large cocks and allowed to stand till it settles. A small haycock for stacking with a derrick is a nuisance. To be able to build these large cocks without too much carrying of the hay I rake the clover with a sweep rake 20 feet long, teeth six feet long, drawn by two horses. Two rakes make one good cock. In hauling to the stack I use this sweep rake and haul two or three cocks at a time. In this way I can keep the stackers going. This year I shall try stacking from the windrow by using sled and hay slings, two or three slings to a sled. If this will work, and I feel sure that it will, it will save the labor of cocking.

In ricking clover hay with a derrick the ricks should be made long and narrow and as high as possible. It takes no more material to cover a high rick than a low one. A rick with a bulge requires too much cover to protect it. Hence the sides should be nearly straight till necessary to draw in for the top. With the aid of the derrick the only hard work necessary is that of the trammers and stackers. It needs a man to set the fork, a man to revolve the derrick on its pivot and two men on the stack. Boys can ride the horses to haul in the hay and the horse that works the fork.

By making runners of the lower part of the frame this derrick can be drawn to different parts of the field and from one field to another over level land without taking down the poles.

The derrick should be put together with bolts, so that it can be taken down and stored in shelter when not in use. If not taken down, it makes a good weather vane, but not an attractive field ornament.

Beetles Eat Berries.
In Ohio ground beetles have been destructive to strawberries in the same field for three successive seasons. They enjoy a diet of the seed, varied also oftentimes with the delicious pulp. Evi-

GROUND BEETLE AND FRUIT ATTACKED.

dence is to the effect that they are capable of ruining a whole crop in a few days.

Professor Slingerland of the Cornell (N. Y.) station suggests as remedies to keep the strawberry patch and nearby fields as free as possible from ragweed, whose seeds are favorite food for the beetles; also the use of a bright trap lantern set in a pan of water and kerosene, but he concludes that "a sure, practicable, although laborious, method is to 'hand pick' or collect the beetles from their hiding places during the day under lumps of dirt or just beneath the surface of the soil near the base of the plants. The removal of the much would facilitate this in many cases."

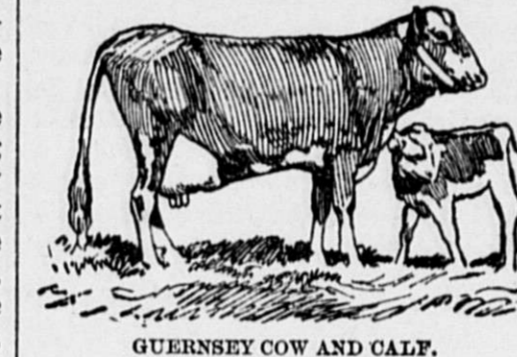

MOTHER AND SON.

Two Handsome Specimens of the Guernsey Breed.

The Guernsey cow Dolly's Ada, 9289, and her bull calf, Rufus of Homesteads, 6905, whose portraits are reprinted from Hoard's Dairyman, are members of Old Homestead herd, property of L. V. Axtell, Perry, O.

Dolly's Ada dropped the bull calf by her side April 26, 1900. One day in May she gave 46 pounds of milk testing 5 2-10 per cent fat—2 86-160 pounds butter—and in one week gave 19 34-100 pounds butter on grass alone.

From present indication Dolly's Ada will make about 600 pounds of butter for the year. She would undoubtedly

GUERNEY COW AND CALF.

ly have considerably exceeded this amount had she been kept at home on the farm under natural conditions. But a campaign of nearly ten weeks at the state fairs considerably reduced her flow of milk.

This campaign was not without profit, however, as Dolly's Ada won two first and three second state fair prizes in the aged cow competition in 1900. Her bull calf won one first and two seconds.

After Mowing Grass.
Proper treatment is very important after mowing grass. Some grass is cut too closely, and then the hayrakes do so set as to dig into the turf, dislodging sets or stools that may not recover if a dry spell comes. If the horse rake teeth do not scratch the ground, it will not injure the sod.

As to cutting or feeding the aftermath, Colonel James Ward of New York state says:

"Mowing is worse than grazing. However, it is possible to have too much of a good thing. There may be such a heavy aftergrowth that it is in the way. Sometimes a too heavy aftergrowth will cause a field to be smothered by the ice in winter. The grass under the heavy matting or aftermath keeps alive all winter and requires some air. If there is a coating of ice over it, it seems to be killed to some extent by suffocation. Usually, however, in the spring grass starts much earlier when thus protected and is in better condition than that which is left uncut."

To benefit others Rev. J. I. Vernon, of Hartwell, Ga., writes: "For a long time I had a running sore on my leg. I tried many remedies without benefit, until I used a bottle of Electric Bitters and a box of Bucklen's Arnica Salve, which cured me sound and well." Sores, eruptions, boils, eczema, tetter, salt rheum show rupture blood. Thousands have found in Electric Bitters a grand blood purifier that absolutely cures these troubles. Satisfaction is guaranteed or money refunded by G. S. Darling or J. E. Dillon. Large bottles only 50 cents.

Pingree's Ambitious Projects.
"Get me another doctor, Eli!" Mr. Pingree said to Colonel Sutton when ill in London. "Get me a good one. I don't want anything to happen to me now. If they will only take care of me now, I am willing to sign a contract with the Almighty to pass away quietly and without a murmur at the end of two years. I have so much to do."—Detroit Journal.

TEACHERS' ATTENTION.

Regular examination at Tawas City, on the third Thursday and Friday of August 1901.

J. A. CAMPBELL, Commissioner.

It Dazzles The World.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest test has been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup hay fever, hoarseness and whooping cough it is the quickest, surest way in the world. It is sold by G. S. Darling and J. E. Dillon who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

Fossil Coral In Georgia.
Within the last two years several remarkable reefs of fossil coral have been discovered near Bainbridge, on the Flint river, in Georgia. One reef so found consisted of coral heads, some of them more than a foot in diameter. Between 25 and 30 species have been recognized in these Georgia reefs. Geologists say that they belong to the tertiary age.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy action. Dr. G. S. Darling.

A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion promote assimilation, improve appetite. Price 25 cents; Money back if not satisfied. Sold by G. S. Darling or J. E. Dillon, druggist.

Womens Missionary Circle meets the second Friday afternoon of each month. A most cordial invitation is extended to all to be present at any or all of the services. Seats are all free.

MORTGAGE SALE.

By reason of default in the payment and conditions of a real estate mortgage made by George Koenig and wife Johanna Koenig, April 23rd, 1898, to Karl Krueger of Tawas City, Michigan, and recorded April 24th, 1898, in Liber 13 of mortgages at page 251 in the Register of Deeds office for Iosco County, on which there is claimed to be due now the sum of Two hundred and forty one dollars and fifteen cents, and no suit at law or otherwise having been commenced to recover the same:

By virtue of the power of sale in said mortgage contained the premises in said mortgage described will be sold at public auction on the 27th day of July A. D. 1901, at nine o'clock in the forenoon of said day, to the highest bidder therefor at the front door of the court house in Tawas City (that being the place of holding the Circuit Court for said county) to satisfy said amount with interest, costs and attorney fees.

Said premises are described as the Northeast half of lot number Four (4) in Block number three (3) of the original plat of the Village, now City, of Tawas City Iosco County Michigan.

Dated April 3th, 1901.
N. C. HART NICH, KARL KRUEGER,
Atty. for mortgagee, Mortgagee.
Business Address, Tawas City, Mich.

MORTGAGE SALE.

Default having been made in the conditions of a certain mortgage, bearing date the 2nd day of July, A. D., 1895, made by Cynthia Ballard, of the township of Reno, Iosco County, Michigan, to Bertha Mills, of Whittemore, Iosco County, Michigan, and recorded in the register of deeds office in and for said county, on the 2nd day of July, A. D., 1895, in Liber fifteen (15) of mortgages on page 542, upon which said mortgage there is claimed to be due and payable at the date of this notice the sum of six hundred seven and 11-100 dollars, and no suit or proceedings either at law or in equity, having been instituted to recover the said sum or any part thereof:

Now, therefore, notice is hereby given that by virtue of the power of sale therein contained and the statute in such case made and provided, there will be sold at public auction or venue to the highest bidder, on the 16th day of August, A. D., 1901, at ten (10) o'clock in the forenoon of said day, at the front door of the courthouse in Tawas City, in said Iosco County, (that being the place where the circuit court for said county is holden), the premises described in said mortgage, or so much thereof as may be necessary to satisfy said debt and the interest thereon, and attorney's fee covenanted for in said mortgage, together with all other costs and charges, which said lands mentioned in said mortgages are described as follows, to wit: The southwest quarter of the southwest quarter of section thirty-five (35), in township twenty-two, (22) north of range five, (5) east, Iosco County, Michigan.

Dated May 18th, A. D., 1901.
FERN C. SMITH, BERTHA MILLS,
Attorney for Mortgagee. Mortgagee.
Business address, Gladwin, Mich.

MORTGAGE SALE

Whereas, default having been made in the conditions of a certain mortgage made and executed on the twentieth day of April 1899, by William Corroll and Ada Corroll his wife, of Plainfield township, Iosco County Michigan, to Maynard Butts of Whittemore, Michigan, which mortgage was recorded in the office of the Register of Deeds for Iosco County, Michigan, on May 19th 1899, in Liber 13 of mortgages, on page 285.

And whereas, the amount claimed to be due and unpaid on said mortgage at the date of this notice is the sum of one hundred seventy three dollars and 23 cents (\$173.23) principal and interest, and an Attorney's fee of twenty five dollars, as provided in said mortgage. And whereas, no suit or proceedings at law or in equity has been instituted to recover the debt secured by said mortgage, or any part thereof: Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction to the highest bidder, at the easterly front door of the Court House, in the City of Tawas City (that being the place of holding the Circuit Court for said County) on the sixteenth day of September, 1901, at 9 o'clock in the forenoon. Said premises are described as follows: All that parcel of land situated in the township of Plainfield, Iosco county, Michigan, known and described as the north-west quarter of southwest quarter of section twenty-two, township twenty-three, north of range five east, containing forty acres, more or less.
Dated June 20th, 1901.
