## GENERAL NEWS.

Items from Various Sources, of Interest to All.

One week from next Sunday is Easter.

Election three weeks from next Monday.

Teachers' examination next Tuesday and Friday.

Rev. C. W. Scott, of Hale, was in the city Monday.

E. F. Smith spent Tuesday with friends at Alpena.

Another case of small-pox developed at Turner last week.

Potatoes wanted. Call at Curry's livery, East Tawas, for prices.

There were four deaths in the state during February from small pox.

The D. & M. employees received their monthly allowance Tuesday.

W. C. T. U. medal contest at the East Tawas M. E. church tonight.

T. H. Deyarmond, of Mio, was in East Tawas, on business Wednesday.

Hal A. Granger was at Rose City and other points in that vicinity this week.

The new coal chutes at the round house are rapidly being pushed to completion.

Dr. F. C. Thompson was called to Lewiston on professional business Wednesday.

Money to loan on real estate. Inquire of Jahraus & Rawden, Tawas City and East Tawas.

Attorney Edwin Rawden was at South Branch on legal business the fore part of the week.

Opening of spring and summer millinery at Miss Owens, East Tawas, March 28th and 29th.

The schools at Alpena have been closed owing to the prevalence of small pox in that city.

C. H. Prescott & Sons have something to say to the ladies in their advertising space this week.

Miss Owens, of East Tawas, announces her Easter opening for next Friday and Saturday, March 28-9.

Court Ioseco, No. 278, I. O. F., will give an Easter ball at the East Tawas opera house Tuesday evening, April 1.

The Loud Co., of AuSable, have just put in one of the latest improved machines for the manufacturing of flooring.

Henry Kane, local agent for the McCormick harvesting machinery, unloaded his first car of machinery this week. Read his announcement in this issue.

Last Friday evening about twenty members of the Eastern Star of this city paid a fraternal visit to the East Tawas lodge, and all report a most enjoyable time.

Harry Fenberg, Detroit, has accepted a position with the HERALD. Mr. Fenberg is an experienced printer, and his assistance in the office will allow us more time to be devoted to our news columns in the future.

Alcona county farmers are believers in the money-making power of peas. Last year the crop was a profitable one for them, and the other day five car loads of seed peas arrived at Harrisville for the farmers of that vicinity.

The entertainment and supper advertised to take place at the Laidlaw school house last Friday evening, was postponed owing to the bad weather and roads. It will be held Wednesday evening next, and everybody is cordially invited to attend.

We are in receipt of a piano copy of "The Half Holiday Two-Step," a very lively march. It well deserves its phenomenal popularity. It is all the rage in New York City this season and no doubt our local pianists will soon be playing it. Published by Lyon & Healy, Chicago.

C. H. Hamilton has moved his laundry to the Brown building, and is now centrally located. Mr. Hamilton is a first-class workman and worthy of a liberal patronage.

Capt. Davidson will start to fit out the harbor tug Westcott Monday. Will C. Davidson, chief engineer, will also get his engine in readiness for the seasons work.—Grand Marais Herald

S. C. Smith, solicitor for the Bay City Tribune, was in the city the fore part of the week and secured a nice list of subscribers for the "northern edition" of that paper. Chester Armstrong is the local agent.

We have received from Kinney Monroe, a copy of the special illustrated industrial edition of the Loyal, (Miss.), Chronicle, which shows the wonderful and substantial development of that city during the past two or three years.

Abe Barkman, the hustling merchant at East Tawas, is having extensive improvements made in his store building. The work includes a new front and the rearrangement of the interior to a most modern and convenient store room.

The Junior Helpers Department of the Presbyterian church will hold an Easter sale in the Curry building on Bay street, that has recently been vacated by Dr. Wakeman. There will be Easter Eggs and maple sherbet on sale on the evening of Good Friday, March 28, and on Saturday afternoon March 29. All are invited to the "Easter Bower" for a foretaste of spring.

### For The Complexion.

The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga, says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years. Never gripe or distress. Safe thorough and gentle. The very best pills. Dr. C. A. Wakeman.

### Rockefeller's Riches.

The Negaunee Iron Herald has figured it all up. It was quite a job to do it, and several full sheets of figures went into the waste basket afterward. The sum was done on the basis of \$16,000,000—Rockefeller's annual income and it came out like this:

One thousand men, working at \$1 a day would have to work a little more than 53 years in order to handle that much money. Or to give a faint conception of that enormous pile of money we will suppose that a man was created 6,000 years ago and at that early date eight men had hired out at \$1 a day, that they worked every day, rain or shine, taking no holidays, losing no time by sickness, spending nothing for board, lodging clothes, losing no money on election bets, spending none of it in saloons or billiard halls, and keep pegging away from early dawn of creation until this date, hoarding every cent of their earnings, they would now be obliged to go out and borrow several thousand dollars in order to have as much as the Standard Oil magnate receives every year of his life.

### A CARD.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded!

JAS. E. DILLON  
G. S. DARLING, M. D.

This signature is on every box of the genuine  
Laxative Bromo-Quinine Tablets  
the remedy that cures a cold in one day

### A Citizens' Ticket.

Much dissatisfaction has been heard for the past few years over the plan of conducting the elections in our city on party lines, many believing that better material for city officials could be secured by holding non-partisan, citizens caucuses. This complaint has not been because we have had no good officials, but because of the fact that party strife has resulted in the nomination and election of men who were wholly unfitted to fill the position both for the reason that they lacked the ability and because they had no interest in the advancement of the best interests of our city, thereby handicapping those officials who were working for the advancement and improvement of our condition as a city.

Believing that better result can be secured in the nomination of a non-partisan citizens ticket at the coming city election, about thirty of the business men and others have united in signing a call for ward caucuses and a city convention to be held on next Tuesday evening, March 25, and all citizens, regardless of party affiliations, who wish to see a progressive, businesslike administration of city affairs are invited to attend and assist in placing in nomination a set of candidates who will be a credit to our city.

The desired results may be accomplished if all unite in nominating men who are capable and who have a desire to see our little city improve in appearance and condition. Party politics have no place in the government of local affairs and the quicker they are regulated to the rear the better it will be for the municipality.

Whether or not this movement will result in a three cornered race or not remains to be seen. Neither of the republicans or democrats have yet issued calls for caucuses, but there is yet plenty of time.

The citizens caucuses will meet next Tuesday evening, at 7 o'clock at the following places; the first ward, at Prescott's old store building; the second ward at the court house, and the third ward at the city hall.

The city convention, which will be composed of five delegates from each ward caucus, will be held at the city hall at 8 o'clock on the same evening.

### Could Not Breathe.

Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucous, draws out the inflammation and removes the cause of the disease. Absolutely safe. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace, J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family." Dr. C. A. Wakeman.

## Reno Rumbings,

May Sheppard is visiting at Hale.  
Bert McCormick is ill with the small pox, at Turner.  
Patrick McGarry, of South Branch, is visiting Thos. Jackson.  
William Hamilton is building a new house on his farm in Grant.  
George Arrowsmith, of Bay City, called on E. E. Odell last week.  
Mrs. B. Corbett and children returned Monday from a visit at Hale.  
Mrs. T. Dougherty and daughter attended the dance at Hale St. Patrick's day.  
Mr. Early and Miss Guest attended the dance at Prescott, last Monday evening.  
Some of our farmers have commenced plowing, which is seldom done in March.  
A surprise party was given last Thursday evening in honor of Mrs. Zelma King's birthday.  
Ab intends opening a jewelry store soon, at least, the girls say he has collected a number of rings.  
The quickest and surest way to convince a man that life is not worth living is to have him chase a cat through a back yard, in the dark, where a couple of clothes lines are swinging at just the right height. Ain't it so, Tom?

**Kodol Dyspepsia Cure**  
Digests what you eat.

## HALE HAPPENINGS.

Mr. Grimm is very low.  
A. Shotwell is removing from town to farm.  
Robert Boyer is seen about town this week.  
Ed. Colegrove visited Tawas City Wednesday.  
Mrs. C. D. Geer is visiting at Linden a few weeks.  
C. Livingstone has 10 ewes, with lamb, for sale cheap.  
Ed. Colgrove intends to build on his farm in the near future.  
The Mansfield Ball on the 17th was the best ever given in our town.  
Quarantine is lifted and Ed. Smith is once more seen upon the streets.  
Mrs. Teed has had a long seige of sickness but is somewhat improved.  
Seven cans of brook trout were planted in streams in this locality the past week.  
Esmond & Nunn, the hustling saw mill proprietors, were in Bay City two days this week.  
Wm. Charter, of Reno, is in town contracting with farmers to grow peas the coming year.  
Chancey Livingstyne has purchased the Boyer property and will build a two story hotel at once.  
Mr. Armstrong's house caught fire Sunday, but by prompt action of the pail crew the house was saved.  
A baby was left with Mrs. John Fisher, also Mrs. Jas. Morrison, on Wednesday, and all are doing nicely.  
The 17th, was celebrated for the first time, and Hale will have to widen her avenues if she is to celebrate again.  
On account of poor cement buttments, the bridge crew were obliged to quit work and left town Wednesday afternoon.

## South Branch

New ties will be laid on the D. & M. through this city.  
Charles Tompkins, of the Hemlock Road, spent Sunday with Mr. and Mrs. Blake, of Glennie.  
State trespass agents have been helping mark R. R. ties for S. B. Warren and Archie Stephens.

Mrs. H. B. Stewart spent Sunday with her sister, Mrs. Pat Powers, at the Thompson farm.  
Chris Irrie is slowly recovering under the excellent care he is receiving from his sister, daughter and Dr. Haekney of Lupton.  
The law case of Warren vs. Murry, before Judge Gurley, was decided in favor of Warren, Murry paying a fine and costs amounting to \$55.  
We learn that at Gates' camp they have a drove of 40 hogs, and the chore boy says that none of them would care to put on knee pants to meet the king of England.  
S. B. Yawger, Bert Dorsey, of Hale and Mr. Keeler, general agent for the McCormick machines, have been canvassing around here, and spent what we hope was a pleasant night at South Branch.  
Two of the lady residents of our berg went for a drive last Sunday, to enjoy the health giving zephyrs that are wafted o'er the plains from the balsamic branches of the jack pines and the scented and yellow leaves of the scrub oaks. All went as merry as a night at the club or a darky camp-meeting provided with chicken and watermelon, until the bridge across one of the branches of the AuSable was reached. These far famed waters, which have taught fishermen from all lands and of all professions to prevaricate in the matter of rainbow and speckled trout to the extent that Michigan has become a reproach among the nations, as the land of the willful, yet pleasant, Lyre, seemed to give the firey steed an attack of vertigo or locomotor ataxia, at least he refused to proceed. The ladies took their stand on the lonely banks of that river of lies and joined in a prayer for a man, and behold an angel appeared in the shop of Jerry Cox, shod in hip sandals, armed with a spear and wreathed in smiles, and at the sound of the musical basso voice of the angel the steed stepped forward and followed him across the bridge.

## Wilber and Baldwin.

John Armstrong was seen triming his fruit trees last Friday and Saturday.  
Exit mud, enters jack frost, which means better going, despite of the rough side on top.  
Nelson Johnson recently completed the bailing of 19 tons of hay and straw at Dr. Darling's farm.  
Miss Amelia Schriber, who was thrown from a buggy about a week ago and seriously injured, is slowly improving.  
Miss Augusta Grabow and Herman G. Joppich, of Wilber, were united in marriage last Wednesday, at Tawas, City, by Rev. Emmel.  
We never knew how closely a wood pile resembled a hay stack until we saw the photograph of the one at the residence of Svan Pierson.  
Nelson Johnson, the artist, is doing some splendid snap shot work lately. Nearly every residence, barn and individual becomes a mark for his unerring camera. Last Sunday he took a fine view of the interior of Zion Mission.  
Miss Helen Carlton gave a birthday party last Thursday for number of her young friends, but much to the chagrin of the little folks, nearly every old gentleman and dame was present, and the children had to play on the out side as the result.

F. A. Steffler has purchased a Corrogated cream separator, which is a new invention and vastly superior to the tin can separator, as it has a separate tank for the water and thus avoids the mixing of water with the milk. Mr. S. has the agency for this separator.

A team belonging to John Searls, of Wilber, made a lively run-away last Tuesday. Fred Steffler, who was returning from Tawas, narrowly cleared the road in time to let them pass without a collision, and when he saw the difficulty, galloped after them and succeeded in capturing them in time to prevent them from crashing into John Sullivan's rig. Fortunately no damage was done.

## A CARD.

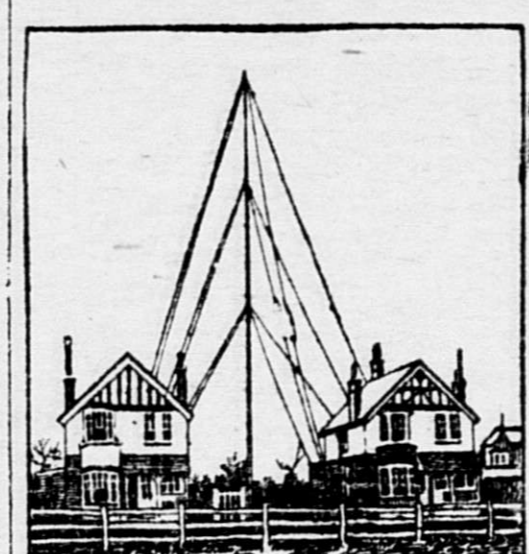

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.  
JAS. E. DILLON,  
G. S. DARLING, M. D.,  
H. A. GOODALE, M. D.

## The Farmer's Club.

We said that we hoped that the farmers would keep well posted on county affairs. For the benefit of the farmers and taxpayers we will give the population of each of our three cities, that you may all see how well they are represented on the board of supervisors. Here it is,  
AuSable, 1,185  
East Tawas, 1,736  
Tawas City, 1,228  
Do you think the mayors of these cities have any pride about them? If they had they would have invited Prince Henry to have visited them, and shown him the sights, and then taken him down to Emery Junction so he could learn how to make roads like our county road commissioners. It would have been a big advertisement for our county.  
No, farmers, they leave that all to you, and next fall will make another big round-up on you for taxes "to pay the freight." Next time we will have something to say on our county road system. Watch the HERALD and see where your money goes, and be sure and keep a good flow of milk from your mulley cow. You will need it.  
FRANK DUPLANTY, Pres.

## WIRELESS TELEGRAPHY.

Unique Institution Now in Full Swing in England.  
The Marconi Wireless Telegraph Company of London has opened at Frinton-on-Sea, in Essex, a school for the teaching of wireless telegraphy, which is, says The Scientific American, the only institution of its kind in Great Britain, if not in the world.  
The object of the school is not only to teach the would be operator how to send and receive messages, but also to impart a technical knowledge of the instruments used. Indeed after passing a course of instruction at the school the student would not only be capable of taking entire charge of an instrument on board a vessel, but of working and equipping a station anywhere.  
As all messages are sent by the Morse key, the first thing the pupil has

MARCONI SCHOOL OF WIRELESS TELEGRAPHY AT FRINTON-ON-SEA, ENGLAND.  
to do is to learn the new alphabet, and the first week is invariably spent in learning Morse until he can read and write it just as well as he can his conventional alphabet.  
Then follows a course of instruction in the various instruments, their object and mechanism being fully explained. The pupils are also taught how to repair machines, make new parts and keep them in proper working order. The pupil is expected to be thoroughly acquainted with the system in the course of a month, though some remain in the school for a period of eight weeks. By that time they would be fully competent to go abroad and build stations on their own initiative in distant parts of the world.  
After a scholar has thoroughly mastered the new alphabet and the technique of the instruments he is put in charge of the Frinton station and while in that capacity is absolutely responsible for all messages received and answered. He has also to make out a daily report to the London office and reply to all inquiries. Work commences at 9 o'clock and continues until 5:30 in the afternoon.

Charles Curry shipped six car loads of potatoes to the southern market this week.

Pretty things in Easter hats will be on exhibition at Miss Owen's opening, March 28-9.

E. V. Esmond and Eugene Nunn, of Hale, were in the city on business Wednesday.

The republicans, of Tawas township will hold their caucus tomorrow, Saturday, afternoon.

G. T. Wood, the East Tawas jeweler, has just received an elegant line of new clocks.

Money to loan on real estate. Inquire of Jahraus & Rawden, Tawas City and East Tawas.

Mrs. B. W. McCausland, of Alabaster, left Monday for a visit with her parents at Cleveland.

Don't fail to call and see Miss Owen's new spring hats on Friday and Saturday, of next week.

Miss Felcher, of Saginaw, will have charge of Mrs. Hurlbert's trimming department this season.

Mr. and Mrs. Will Wingrove, of Turner, spent a couple of days this week with relatives in this city.

Ladies, don't fail to visit the opening at Mrs. Hurlbert's millinery parlors, on Saturday of next week.

Mrs. Watterman, of East Tawas, visited her parents, Mr. and Mrs. J. C. Hawks, of Detroit this week.

Miss Clements, representing the National Knitting Co., of Bay City, has been in the Tawas this week.

Rev. E. O. Sutherland is preaching at Arenae every night this week. He reports attendance and interest good.

Mrs. Luke Murry returned last Saturday from New York state, where she was called by the sickness of her mother.

The ladies of Easter Morn Hive L. O. T. M., East Tawas, will hold a "Spinsters Convention" at the opera house, April 4.

Mr. and Mrs. Joe McGarry returned to their home at Grand Rapids Tuesday, after a few weeks visit with relatives and friends here.

Dr. N. J. McColl, the Whittemore, druggist has an advertisement in this issue, to which we wish to direct the attention of our readers.

Mr. and Mrs. C. W. Luce, Mrs. H. T. Thomas, and Miss Julia Fox, of East Tawas, went to Bay City last Friday to see and hear Maxine Elliott.

William Sinclair, of AuSable, is in the county jail waiting his examination before Justice Walker, of that city, on Monday next, on the charge of robbery.

Saturday, March 29, Mrs. Hurlbert will give her opening of Spring and Summer millinery. The display of pretty hats will be the best ever seen in the Tawas.

The celebrated Harioz wagon, the best made. For sale by.

Ralph Isbell, who has been acting as stenographer in the offices of the National Milling Co., for the past year, left for his home at Saline Sunday evening.

Joseph M. Boomer was seriously injured yesterday by a load of hay, which he was hauling, tipping over, Mr. B. landing on a log, breaking several ribs and sustaining other injuries.

When you want a policy for Fire, Life or Accidental Insurance, call on H. F. Barbour, in the Bank Block, East Tawas. Only reliable companies represented and rates as low as consistent with reliable insurance.

Peter King and Mrs. Rosa Cliff were arrested at Oscoda this week on the charge of unlawful co-habitation, and will have their examination before Justice Hennigar today. They are boarding with Sheriff Johnson.

Palm Sunday will be observed at the Presbyterian church next Sabbath morning, with appropriate music and special sermon. In the evening the pastor expects to preach a "Temperance sermon". The chorus will sing as usual. All are invited attend these services.

Last Friday evening about thirty-five friends of Mr. and Mrs. Charles Parker, of East Tawas, gave them a most enjoyable surprise, the occasion being Charley's birthday. Everybody had a good time and especially the host, who was the recipient of many beautiful presents.

Mrs. N. DuPraw, died at her home in this village yesterday forenoon, after a short illness. She was the mother of Mrs. A. W. Lowe and Miss Winnifred DuPraw. The funeral will be held from the M. E. church Saturday afternoon at 3 o'clock, Rev. E. King, officiating. Obituary next week.

Regular services will be held in the Tawas City M. E. Church on Sunday, as follows,—Morning sermon at 10.30—Subject "The Devil, his Personality, Purpose and Power!" Sunday School at 11.45 a. m. Junior Epworth league at 3 p. m. Senior Epworth league at 6.30 p. m. Evening Sermon by the pastor at 7.30 p. m.

Pr. Kinney, of St. Joseph's Catholic church, makes the following announcements for next week: Sunday, being Palm Sunday, the blessing and distribution of Palms followed by Mass, will take place at 10 o'clock. Next week, being Holy week, will be observed by special devotion on Thursday, Friday and Saturday mornings. Good Friday night a sermon, "The Passions of Christ" will be preached at 7.30.

Clark W. Aikens, general agent for the Plano Machine Co., came nearly dying last Monday, at Standish, from taking a dose of aconite to relieve cramps in his stomach. The remedy was recommended by a woodsman named Williams, who was arrested and held to await the effects of his prescription. We are glad to announce that Mr. Aikens is now on the road to recovery.

The comptroller of the currency received from the bureau of engraving and printing, and issued Monday, the first delivery of the new national bank notes known as the series of 1902. These notes will be issued only to new banks organized since January 1, 1902, and those extending or re-extending their charters. Only the denominations of \$10 and \$20 are yet ready for issue. The \$10 notes bear the portrait of the late President McKinley. Later, fives, fifties and one hundreds will be issued.

Commencing next Monday evening the Tawas City M. E. Church will conduct a two weeks Easter Revival Mission. Services will be held every night except Saturday for the week preceding and the week following Easter Sunday. Rev. H. A. Sheldon of East Tawas is expected to preach each night and an interesting song service is to precede the sermon. Meetings commence at 7.30 and are absolutely free. You are invited—"Come thou with us and we will do thee good."

Dexter M. Perry's gift of twenty acres of ground to the University of Michigan, that the athletic field may be enlarged, calls to mind that there are many wealthy men in Michigan who have given nothing to the magnificent institution of learning which has done more to spread Michigan's fame throughout the world than all of her other institutions combined. The people of Michigan, through taxation, have been liberal to this great center of education, but it has had little bestowed upon it in the way of endowment and gift in comparison with its deserts.—Saginaw News

### Whittemore.

S. W. Mitts Sundayed with us.

Ed. Hitchcock was in Prescott Wednesday.

Frank Marvin, of Turner, was in town Monday.

Mrs. Wm. Jennings is in Omer and Bay City this week.

Dave and Joe Goupell were in Bay City a few days this week.

Emery Doan and wife, of Rose City, were in town Wednesday.

Mrs. Hazard leaves next week for Flint, where she will reside.

McCull has a nice line of clocks and jewelry and sells them right.

Mr. Floyd Barnaby is home again and is working in the shingle mill.

Geo. Worley and Dan Hurford are getting their lumber to town this week.

All the latest patterns in wall paper at McColl's Drug Store, and sold within the reach of every one.

The lady who lost an L. O. T. M. pin at the depot Saturday evening can have same by calling on the finder.

Tom had a hard time getting his men together to start the shingle mill but is now making up for lost time.

Miss Mooney is hustling around selling tickets for an entertainment at her home Friday evening, for the benefit of Rev. H. G. Beaty.

There is an indication of a revival of business in our village. Many drummers are seen on our streets and a car load of contract peas are at the depot.

Our flouring mill has been idle for a couple of days the hard freeze of Sunday night bursting some of the steam pipes. Mr. Mooney is out taking orders for the mill products.

Mrs. Goodwin has been very ill for the past week, but is now improving. Her daughters, Mrs. G. A. Pringle and Mrs. John Cataline, have been with her. Miss Nellie and her son Edwin.

We are distressed to hear that C. W. Aitken, the hustling agent for the Plano Machinery Co., is danderously ill at Standish, from a dose of aconite taken by mistake. We hope to hear of his rapid recovery.

T. G. Leslie's shingle mill is running full blast and is turning out a fine quality of cedar shingles. G. D. Armstrong will ship his bolts here from Turner, which will furnish stock to keep the mill running for several months.

A certain man living near this village was out looking for a lost dog the other night and stopped at the wrong house and attempted to enter without making himself known. The guide wife, being alone, and mistaking him for a tramp, objected, and enforced her authority with a stick of stove wood. Next time make your business known, Uncle.

### W. C. T. U. Medal Contest.

The following is the program for the W. C. T. U. Medal Contest at the East Tawas M. E. church, this evening.

Vocal Solo.....	F. F. French.
(Refrain by Choir.)	
Scripture Reading and Invocation.....	Rev. H. A. Sheldon
Instrumental.....	Mandolin Club
Recitation.....	Contestant No. 1
Recitation.....	Contestant No. 2
Music—Vocal Solo.....	Jay Oakes
Recitation.....	Contestant No. 3
Recitation.....	Contestant No. 4
Music—Violin Solo.....	Beryl Hulbert
Music—Vocal Solo.....	Mrs. Bessie Funk
Recitation.....	Contestant No. 5
Recitation.....	Contestant No. 6
Music—Vocal Solo.....	F. F. French
Music—Instrumental.....	A. I. Grenney

Awarding of Prize—By vote of the audience. Admission 10 cents.

### Reduced Rates to the West.

Commencing March 1st and daily thereafter, until April 30th, 1902, the Wisconsin Central Ry. will sell settlers' tickets from Chicago to points in Montana, Idaho, Oregon, Washington, and British Columbia at greatly reduced rates. For detailed information inquire of nearest Ticket Agent, or address H. W. Steinhoff, D. P. A., Saginaw (W.S. Mich.; or Jas. C. Pound, Gen'l Passenger Agent, Milwaukee, Wis.

### Notice.

Regular teacher's examination for all grades will be held in Tawas City, Thursday and Friday March 27-28, 1902.

J. A. CAMPBELL, Commissioner.

### FOR SALE.

White Pekin duck eggs for sale, 50 cents per dozen. GRACE DAVISON, Tawas City.

### ARRESTED FOR BIGAMY!

#### Dr. John McIntosh, of this City in the Toils for having two Wives

A sensation of considerable magnitude was exploded in our city Tuesday evening by the arrest of Dr. John McIntosh, on the charge of bigamy. The complaint was made by a lady who arrived here Tuesday morning from Canada. The warrant was served Tuesday evening and the prisoner arranged before Justice Kelly and his examination set for this forenoon. In default of \$500 bail he was committed to the county jail.

The facts of the case, as learned by the HERALD are, briefly, as follows: The complaining witness, Mrs. Matilda Macarthy McIntosh, resides at Vesta, Bruce Co., Ont., and claims to have been married to Dr. John McIntosh nine years ago last July. About four years ago she claims that the doctor became involved in difficulty and left Canada to evade arrest, deserting her; that during their married life he never did anything toward her support, even using her money in riotous living.

The doctor located at Whittemore something over two years ago, and on September 16, 1900, was married in this city to Miss Winnie VanWey, Justice Kelly performing the ceremony. They resided at that place until about a year ago when they removed to this city where they have since resided, the doctor having built up an excellent practice notwithstanding the fact that he has at times drank heavily.

It was known at the time of his last marriage that he had a wife in Canada by a number of residents of this county, but nothing was done until wife No. 1, suddenly appeared here Tuesday. The first intimation the doctor had of her presence here was when Sheriff Johnson served the warrant. He has strenuously denied his guilt, even when his accuser faced him at the jail he denied ever having seen her.

The lady is well supported with evidence and appears to be here with the determined purpose of avenging the wrong inflicted upon her.

The case has, of course, been the talk of the town, and all kinds of stories are in circulation. It would make a rich morsel for the sensational newspaper, but the Herald prefers to make a simple statement of the facts as we have been able to learn them.

### Council Proceedings.

Called to order by Mayor Hartingh.

Present, Ald. Moore, E. Brown, W. Brown, and Stormer.

Minutes of previous meeting read and approved.

Following bills presented and referred to committee on claims and accounts.

C. H. Prescott & Sons lumber	\$ 4 50
" " " " oil coats and hats	6 10
W. E. Kelly justice fees	4 05

Committee reported favorably on above bills it was moved by Ald. Moore supported by E. Brown that bills be allowed and orders drawn for same. Carried all voting yes.

Moved by Ald. Brown supported by Ald. W. Brown, that the three members of the council, last elected serve as Board of Registration and also as election inspectors. Carried.

Moved by Ald. Moore supported by Ald. W. Brown that E. M. Schlechte, L. J. Patterson and W. W. Ramage serve as election commissioners. Carried.

Standing finance committee instructed to settle with City Treasurer at next regular meeting.

On motion Council then adjourned.

N. C. HAGTINGH, Mayor.  
CARL STORMER, Clerk pro tem.

### Notice of Election.

To the Electors of the City of Tawas City, Notice is hereby given that the annual city election will be held in the City of Tawas City, Iscoo County, Michigan, on

MONDAY, THE 7th DAY OF APRIL, A. D. 1902, at which election the following city officers are to be elected viz:

One Mayor, one clerk, one treasurer and one justice of the peace full term. Also one supervisor, one alderman and one constable for the first ward, one supervisor, one alderman and one constable for the second ward, one supervisor, one alderman and one constable for the third ward.

And that in accordance with a special act of the legislature of 1899, said election will be held at the City hall, in the third ward, and that the polls of said election will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and shall continue open until 5 o'clock in the afternoon of said 7th day of April A. D. 1902, and no longer.

Dated at Tawas City, Mich., March 19, 1902.

E. A. CRANDALL, City Clerk.

### REGISTRATION NOTICE.

TO THE ELECTORS OF THE CITY OF TAWAS CITY.

Notice is hereby given that the Board of Registration for the City of Tawas City, by virtue of the statute, in such case made and provided, will meet on

SATURDAY, THE 5th DAY OF APRIL, A. D. 1902, from eight o'clock in the forenoon until eight o'clock in the afternoon, of said day, at the City Hall, in the Third Ward, (in accordance with a special act of the legislature of 1899) for the purpose of completing the list of qualified voters of said city, as required by law, and at which time and place all persons entitled to the elective franchise, whose names does not appear on the register of election for the Ward in which such person resides, must register their names therein, to entitle them to vote at the general election to be held on Monday, the 7th day of April A. D. 1902.

Dated at Tawas City, Mich., March 19th 1902.

E. A. CRANDALL, City Clerk.

# A BUSY TIME HERE!

New Spring Goods Arriving Every Day.

New Dress Goods, New Silks, New Parcales, New Calicos, New Ginghams, New Waistings, New Shoes, New Suits, New Furnishings.

In fact the Big Store is Full of Newness!

You are invited to call and bring all your friends. You can spend a part of the day interestingly and profitably looking over the

New Things for Spring!

By purchasing your new, Spring Goods at our store you save from Fifteen to Twenty-five per cent, of your money, and get the best goods.

Daisy Roller Mills. TAWAS CITY, MICH.

RESTORES THE APPETITE.

Carbonic Acid Put to a Very Novel Use.

The Vienna correspondent of the New York World recently sent the following to his paper:

An Austrian doctor has discovered a means for giving sick people an appetite. The remedy consists in the application of carbonic acid at very low temperatures, between 100 and 120 degrees F. below freezing point.

Carbonic acid under certain conditions freezes to a kind of snow, and although it is so excessively cold, it can be held in the hand, because a thin layer of gas forms itself over the skin and prevents the carbonic acid snow from touching it. If the snow is rubbed into the skin, it scalds, and the skin takes the appearance of having been burned. When ether is added, the snow takes a temperature of 140 degrees F.

Carbonic acid, which can be bought everywhere, is put into a bag of strong brown holland, is tied up and laid upon the stomach. It melts very slowly and retains its extraordinary temperature during several hours.

Though most patients like to feel the bag on the stomach, a large layer of cotton wool can be inserted between the skin and the bag, which should be applied half an hour before meals. After five days' treatment the patient should begin to have a good appetite. Those who know the miseries caused by the inability of sickly children or consumptive persons to take nourishment will understand the importance of this discovery.

Mowing Under Water.

As is generally known, the water hyacinth and certain varieties of grass grow so luxuriantly in many southern lakes, bayous and rivers as to seriously obstruct navigation. A Pennsylvania inventor, after having had the problem brought to his attention, devised a "water mower," which appears to be quite effective in destroying these water plants. The apparatus weighs about seventy-five pounds and is attached to the side of a rowboat. The cutter bar is carried in a horizontal position about a foot below the surface of the water, the knife being driven from the end with a vibrating lever or sway bar. It is operated by hand.

Temperature of the Sun.

Professor Charles Wilson has announced to the Royal society a new determination of the temperature of the sun, which, with due allowance for slight unavoidable errors, is placed at 6,200 degrees centigrade (11,192 F.). If the probable absorption of the sun's radiated heat by its own atmosphere is allowed for, the mean temperature of the sun's body is placed at 6,000 degrees centigrade. Professor Wilson started his calculations almost ten years ago.

Snapshot X Ray Apparatus.

An X ray photograph can now be taken in one second, instead of the tedious and exhausting exposure of from half an hour to sometimes two hours. This is the invention of Dr. H. P. Pratt of Chicago. One of the greatest features of the new discovery is the aid it gives the surgeon in critical cases, when a patient is very ill or nervous, and long exposures frequently resulted badly.

Lunar Volcanic Activity.

The unsolved problems of astronomy are legion. For instance, we do not yet know whether the nearest of all celestial bodies, the moon, is absolutely dead and abandoned or not. Within three months past one astronomer, M. Charbonneau de Meudon, has seen, as he and his assistants aver, an active volcano on the moon, with clouds of dust or vapor floating over it.

Bones and Character.

Strength of bone structure is said to be allied to honesty and reliability of mind. The prominent bones in Lincoln's face and body are cited to prove the bone honesty theory. The physiognomists say that large men whose bones bear a full proportion to the other parts of their bodies will be found to be decided, firm, honest and enduring.

A New Rifle.

A new rifle has recently been tested at the Thames range, in England. The striker is almost entirely concealed within the bolt. It receives its energy from a hammer operated by a flat spring, both hammer and spring being within the lock. Unlocking the bolt cocks the gun. The rifle's action is very rapid.

Health Giving Scents.

All the citrine scents—bergamot, neroli, orange flower water—are refreshing and in a degree stimulating if properly prepared. To make a lasting perfume some animal base is essential—musk, civet or ambergris. If the base is too strong, it makes the flower scent curiously irritating.

Mirror as Railroad Adjunct.

A patent was recently issued to Lewis B. Clark, track foreman at the Belle Mead yards of the Consolidated road at New Haven, Conn. He is a civil engineer and has made an instrument for aligning the gauging tracks by an ingenious arrangement of mirrors.

Stockings of Paper.

Paper stockings are shortly to come on the market. The paper, it is said, is twisted into a sort of twine, roughened on the surface to present a soft and woolly appearance and then knitted into hose.

Complexion and Iron.

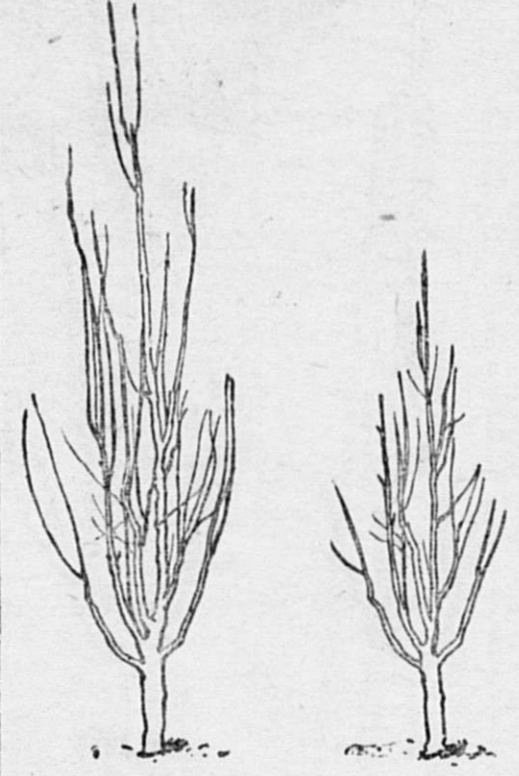

M. Floresco finds that there is a relation between the amount of iron in the liver of animals and the color of skin and hair, the dark having twice the amount of that of white animals.

FRUIT AND FLOWERS

DWARF PEAR TREES.

Proper Trimming, Spring Medicine and Cultivation Give Good Trees.

The picture shown presents in a condensed form the idea of a Rural New Yorker correspondent on the way to trim dwarf pear trees, and in regard to it he says: The tree is a fair average shaped specimen on the outside row of our three-year-old Duchess orchard. It is not a particularly shapely tree compared with others in the same orchard, but it shows the method of pruning sufficiently clearly. As you will notice, we are great believers in thorough cutting back—not once in awhile, but every season regularly. Each year from

BEFORE TRIMMING. AFTER TRIMMING.

one-half to two-thirds of the new growth is clipped off, our endeavor being to obtain a low, compact, evenly balanced tree.

Of course considerable judgment is necessary in this heading back process if one wishes a shapely orchard. Some limbs must come out entirely; some must be cut far more than others, according to the nature of each individual tree. In fact, the tree pruner or the physician who treats all patients exactly alike or according to any formal set system of laws is the very man to avoid in the orchard or in the sick-room. General principles are all right as a basis, but each individual, be it tree or person, needs treating according to circumstances. What is good for one may not be good for another.

These photographs are not intended as the model upon which all orchardists should pattern, but rather as a suggestion of a general underlying principle, as that principle appears to us. We usually do this pruning in the spring, any time before growth starts.

We also give the trees a good dose of "spring medicine" regularly every year, so that they may make sufficient new growth to give us a pruning job the following season. This medicine consists of several forkfuls of good stable manure, applied externally around each tree just previous to plowing time. This and subsequent cultivation make healthy growth, desirable trees and a constant supply of material upon which to exercise the pruning shears. Stimulate growth; then cut it off. That's dwarf pear principles in a nutshell.

A Satisfactory Begonia.

In March I secured a four inch slip—hardly a slip, as it had a few roots of the Purity begonia—and potted it in rich dirt in a small can, says an American Agriculturist writer. After a few days it began to grow and was soon large enough to report. This was carefully done, the plant being removed to a can, quart size, that was filled with rich dirt. In a few weeks it outgrew this can, and at the next repotting it was put into a paint keg. Charcoal was put in the bottom, as in the cans, and rich dirt from a decayed straw pile was the potting material.

By June 26 it measured 18 inches in height, 18 inches in width, had leaves four inches in diameter and was loaded with pure, waxy blossoms. The leaves are a pretty green, veined beneath with red, and the stems are red. The leaves are smooth; hence it is an easy plant to keep clean, and for us it has been entirely free from insects. The foliage is thick and healthy, so it is a pretty plant when not in bloom. There have also been four rooted slips and three slips without roots taken from the plant. Now more rooted slips could be taken without injury to the plant.

A Wrinkle With Potted Plants.

Watch your plants, and if they do not look quite right just carefully turn the pot down, striking the rim against some object by a quick rap, holding the plant and earth in the other hand, and you may be greatly surprised at what you find. Often the writer has found worms and insects sucking the life of the plant day by day. Never allow the pots to stand in the sun without being protected either by cardboard or by sinking them in a box of sand. Nature is never so unkind as to submit roots to a baking process.

Praise For the Bleeding Heart.

Too much praise cannot be given the well known Bleeding Heart (Dicentra spectabilis) as an all round plant. One of the first herbaceous plants to bloom in spring, it is invaluable in mixed borders of similar plants or planted in solitary beds to be filled later with summer plants. To many a bed of it would be more attractive than of tulips or hyacinths and would be more useful, for there is no more graceful, lasting and adaptable cut flower for vases.—Meehan's.

THE CARE OF PLANTS.

Watering—Remedy For Green Fly, Shading Begonias and Ferns.

Syringe care for plants and roses at least once every two days with clear water. Tepid water about 45 to 50 degrees is best to use. Fuchsias will also require frequent syringing with clear water, especially on the underneath side of the foliage. Give genestas and azaleas plenty of water at the roots. The azaleas should be syringed daily. Palms (ficus), dracaenas (cordylines), etc., should have their foliage sponged once every week or two.

Easter lilies are very subject to aphids or green fly. Examine the tips of the growth frequently and use a little dry tobacco dust or tobacco water as a preventive or remedy for these pests, as they are hard to eradicate if they once get possession of lilies and similar plants. Water all plants early in the day and retain as moist an atmosphere as possible where the plants are growing.

Begonias and ferns are especially happy in a south window until about Feb. 1, when the sun becomes so powerful that the curtain must be drawn from 10 in the morning until about 3 in the afternoon or they will be seriously burned.

Always have the water lukewarm for the reason that a large number of our house plants come from the tropics. Give them a very generous soaking, not all at once, but wait five minutes between waterings, and you will be surprised to see how much some of the plants will take up.

I always water twice and sometimes three until the saucers are full, then give them a grand rest for three or four days until the surface earth is dry to touch.

Try to keep the temperature as even as possible, about 70 degrees during the day and not lower than 50 or 60 degrees at night.

The Philadelphia Rambler.

The Philadelphia Rambler is another climbing novelty among roses, said to be a great improvement on the original Crimson Rambler and the result of a cross between Crimson Rambler and Victor Hugo, the latter being a hybrid remontant, producing flowers of rich, flaming crimson. It is said to have all the best characteristics of the older Rambler without some of its faults. For instance, so far it has not developed the same tendency to mildew which the old Rambler sometimes shows. The flower of the new variety is larger and more double and durable and the color more intense and persistent, not fading nearly so quickly as do the flowers of the famous old Rambler. It is hard to realize that the good old Crimson Rambler is liable to be displaced within a short time, yet such is likely to be the case, in the opinion of a writer in Gardening.

Why We Protect Shrubs.

A writer in Country Life in America tells that the necessity of winter protection is mainly as follows: First, to prevent excessive depth of frost at the roots; second, to shield the semifrozen branches from the sun's rays; third, to prevent thawing during temporary warm spells; fourth, to retard premature activity in spring where late frosts are liable.

A New Use For Seaweed.

A culinary journal has an article on seaweeds which would appear to open up great possibilities to the pickle manufacturer, says The New Century. It seems that seaweed is a most excellent article of diet and most beneficial in its action on the blood, which it purifies. It will cure nervousness and is good for rheumatism and gout. After eating seaweed the pores of the whole skin are stimulated, so that they open freely, while the iodine and sulphur contained in the seaweed escape.

Cosmic Dust.

It has often been claimed that the presence of nickel in dust is a sufficient criterion to distinguish it as of cosmic rather than terrestrial origin. It has lately been shown that nickel is found in soot, and hence that nickeliferous dust may be terrestrial. Gallium also is found in all aluminous minerals, in many fine dusts, in many iron ores, in soot and in atmospheric dust.

Cinematograph of Tidal Wave.

A cinematograph picture of the Severn bore, believed to be the first moving picture of a tidal wave, was exhibited by Dr. Vaughan Cornish at a meeting of the Royal Geographical society. The photograph is clear and sharp, and the peculiar motion of a tidal bore was accurately produced. The film is 150 feet long and contains 2,400 individual pictures.

Practically Starving.

"After using a few bottles of Kodol Dyspepsia Cure my wife received perfect and permanent relief from a severe and chronic case of stomach trouble," says J. R. Holly, real estate, insurance and loan agent, of Macomb, Ill. "Before using Kodol Dyspepsia Cure she could not eat an ordinary meal without intense suffering. She is now entirely cured. Several physicians and many remedies had failed to give relief." You don't have to diet. Eat any good food you want, but don't overload the stomach. Kodol Dyspepsia Cure will always digest it for you. Dr. C. A. Wakeman.

To Cure a Cold in One Day.
