

TAWAS HERALD.

NUMBER 25.

TAWAS CITY, MICHIGAN, FRIDAY, JUNE 20, 1902.

VOLUME XIX.

OUR CELEBRATION.

A Good Time Arranged for in this City on the Fourth.

While it is not claimed that Tawas City will have the "biggest" Fourth of July celebration on earth, every arrangement has been completed for a good time and a fine celebration, and no one will miss it by coming to Tawas City for this occasion. The executive committee met last Monday evening and completed the arrangements by naming the various sub-committees and arranging the program.

The day will be ushered in by the booming of the cannon, which will be in charge of M. Murphy.

The yacht races, open to all boats owned on Tawas Bay, will be started at 10 o'clock. The first prize will be a fine U. S. flag, \$3.00 to second, and \$2.00 to third. The committee in charge of this race is, John M. Waterbury, Elmer Whittemore and William B. Kelly.

In the afternoon, beginning at 1 o'clock, will occur the games and sports. The ball game will commence at 2 o'clock. Liberal prizes have been provided for these features. John A. Mark, Joseph W. Minor, Thomas E. Garber and J. E. Chase are the committee in charge of this portion of the program.

What will undoubtedly be the most elaborate display of fire works ever witnessed in the Tawas, have been provided for the evening, and will be fired from a platform erected on the beach, opposite the court house. The committee in charge are: George W. Mount, A. W. Lowe, Fred Marzinski, W. F. Whittemore, and William W. Ramage.

Every effort will be made to make this a day of genuine enjoyment, and a cordial invitation is extended to the people of the surrounding country to join with us in a proper observance of our Nation's Birthday.

Give the Merchant a Rest.

There is seldom a week passes, and hardly a day, when citizens who are engaged in business are not called upon to contribute something for charity's sake. It is always the merchants who are called upon to shoulder this gratuitous giving. Some people seem to think that they who are in business can pick up dollars anywhere and ought to contribute willingly and liberally every time they are asked. As a rule dollars are no more plentiful with business people than with any other. Just remember that they have troubles of their own. Beg your money for a while of the land owners and retired men who have plenty of money drawing interest. The business men would appreciate the change.

Leads Them All.

"One Minute Cough Cure beats all other medicines I ever tried for colds, croup, throat and lung trouble," says D. Scott Currin of Loganton, Pa. One Minute Cough Cure is the only absolutely safe cough remedy which acts immediately. Mothers everywhere testify to the good it has done their little ones. Croup is so sudden in its attacks that the doctor often arrives too late. It yields at once to One Minute Cough Cure. Pleasant to take, Children like it. Sure cure for grip, bronchitis, coughs.

Teachers Attention.

Fellow Teachers:—The examinations in reading for this year will be based upon the following selections:

August, 1902—"Merchant of Venice."—Shakespeare,
October, 1902—"The Deserted Village."—Goldsmith.

J. A. CAMPBELL.

Ready to Yield.

"I used DeWitt's Witch Hazel Salve for piles and found it a certain cure," writes S. R. Meredith, of Willow Grove, Del. Operations unnecessary to cure piles. They always yield to DeWitt's Witch Hazel Salve. Cures skin diseases, all kinds of wounds. Accept no counterfeits.

TENTH ANNUAL

Commencement Exercises of the Tawas City Public Schools.

On Friday evening, June 27, 1902, the tenth class to be graduated from our public schools, will receive their diplomas. The class has six members—five young ladies and one young man—as follows:

LENA B. REDHEAD, MILDRED SHAVER,
WILL D. MYLES, ROSE McDONALD,
EFFIE JACOBS, LAURA E. THOMAS.

The class has chosen as its colors, pink and green, and have adopted as their motto the simple word "Excelsior," which contains a whole sermon.

The exercises will be held at the high school room, and the program is as follows:

March,	MISS HALLIE WILCOX
Invocation,	REV. SUTHERLAND
Piano Solo,	MISS TERESA SHAVER
Salutatory,	EFFIE JACOBS
"Value of a Hitching Post,"	LAURA THOMAS

"Whither?"	ROSE MACDONALD
Valedictory, "Excelsior,"	LENA REDHEAD
Piano Solo,	MISS ELSIE MOUNT
Presentation of Diplomas,	G. A. PRESCOTT
Class Song	
Benediction,	REV. WATERBURY

The Baccalaureate sermon will be delivered by Rev. E. King, at the M. E. church, next Sunday evening, June 22.

Resolutions of Condolence.

The following resolutions have been adopted by Grip Tent, No. 455, K. O. T. M., of this city:

WHEREAS: Death has so suddenly invaded our ranks and taken from us our highly esteemed brother, Sir Knight Henry A. Watts, therefore be it

RESOLVED: That, while we must submit to the inevitable, we deeply mourn so sudden a separation from our beloved brother, and the cutting off of so noble and useful a life. And be it further

RESOLVED: That in the death of Sir Knight Henry A. Watts, the community has lost an honest and upright citizen, and one who was respected by all who knew him. Be it

RESOLVED: That as a Tent extend our heartfelt sympathy to the family in their affliction, in the loss of husband and father, and we commend them to the mercy of Him who forgetteth not our sorrows, and leaveth us not in our dark hour of distress. Be it further

RESOLVED: That our charter be draped in mourning for a period of thirty days, and that a copy of these resolutions be sent to the bereaved widow, and also be spread at length on the records of this Tent, and a copy sent to the Tawas Herald for publication.

Climate and Crop Bulletin.

U. S. Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, Michigan section, for the week ending June 16.

The mean daily temperature for the week was 62.4 degrees or 3.3 degrees above normal, the average rainfall was 0.92 or 0.17 of an inch below the normal, the average sunshine was 53 percent of the possible amount.

Most of the week has been cool, frequent showers have continued as in

the preceding week and there is much need of drier weather. The rains have greatly interfered with field work in all counties, delaying bean and late potato planting and retarded cultivation. The week was characterized by severe hail, wind and rain storms that did considerable damage to property and crops, but their damage was not general or extensive.

Wheat, rye, oats, barley, meadows and pastures have made good growth and are in good condition; wheat is more promising than in former years and as yet there is practically no complaint about Hessian fly. Meadows promise a good yield and with a few days of dry, ripening weather, hay in the southern counties will soon be cut.

Corn, although germinated nicely, has made poor growth on account of cool, wet weather and is becoming quite weedy because the ground is too wet to cultivate. Early potatoes are doing well; late potato and bean planting is well along. Sugar beets have made a good stand and are being thinned as rapidly as weather permits. Buckwheat seeding will be general this week if weather permits.

Cherries and plums will yield only moderately, but the prospects for apples, peaches and pears are good.

Spring Fever.

Spring fever is another name for biliousness. It is more serious than most people think. A torpid liver and inactive bowels, means a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R. M. Everly, Moundsville, W. Va. "They do me more good than anything I have ever tried."

The SPORTING WORLD

Baseball Warfare.

From a viewpoint of baseball warfare the years of 1901 and 1902 have few equals. The original differences between the National and American leagues, the dealings with contract jumpers, the internal dissensions in the National and, lastly, the Lajoie case form a series of entanglements sufficient to ruin a game having less stability and popularity than baseball. But the grand old game still is "ace

NAPOLEON LAJOIE.

high" in the hearts of old and young America alike, and now that personal and official differences have for a time subsided the players are doing their best to earn their salaries.

Probably the most talked of man in the ball tossing sphere at present is Napoleon Lajoie, whose sensational ability as an all around player has won him the title of "greatest of ball players. Lajoie is undoubtedly the hardest, safest hitter in the business, and his batting average usually ranks above the 400 mark. His compulsory retreat from the camp of the Philadelphia Americans was a decided disappointment to Quakertown "fans," and, although Colonel John I. Rogers has the satisfaction of seeing the star unable to play in Philadelphia, the National has benefited but little owing to Napoleon's success in evading the clutches of the older organization. Lajoie says he will not go with the National under any consideration, and the benefits from Colonel Rogers' vigorous legal battle are not very important. However, the colonel knows his own business best.

The Return of Elkes.

Harry Elkes, the pace follower, recently arrived in this country from Europe. He was beaten in all three of his races in France. Once he fell, and twice he had trouble with his pacemakers. He brought with him Basil de Guichard, the amateur champion pace follower of France. Guichard is a clean cut, handsome little chap. He was selected by the committee to represent France in the international championships, when it was discovered that he was not a Frenchman at all. He was born at Denver, his parents being on a visit to this country. He was taken to France when five years old. He has always ridden with a small American flag about his waist, and this led to an investigation, which showed that he was born in this country.

Jack Law's Career.

Jacob Law, the new first base man of the Buffalo team, began playing ball at Mansfield, O., in the Interstate league. After remaining with that team three years he went to the Minneapolis team in the Western league, from which club Manager Stallings secured him. Jack says he has played every position from surveyor of bats to first base. He was a hit at short-stop and did well in the field, but he is at home on first base, the position he will play for Buffalo this season.

O'Day and the Gate.

Umpire Hank O'Day can never forget the game the Pirates won from Louisville which he was umpiring when McCarthy drove a ball through the players' gate in right field and a small boy locked the gate. Every time Hank goes to Pittsburgh he casts a look at that gate, and if it is open he orders it closed. He discovered it open in the fifth inning of a recent game and stopped play until some one pulled it shut.

Athletic Divines.

"Stuffy" Place is not the first divinely student who has made his mark in University of Chicago athletics. Fred Merrifield was captain of the baseball team of 1900, and Flanagan has withstood many a football onslaught.

A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant, of Merry Oaks, N.C. "After I had tried many doctors and medicines to no avail. One of my friends persuaded me to try Kodol. It gave me immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid.

This section was visited by a real cloud burst last Saturday night, when about four inches of water fell in an hour and a half. Great damage was done to crops, especially on the low lands.

Invention of Horseshoes.

Iron horseshoes permanently fixed to the hoofs were introduced in the fourth century of the Christian era. On the grassy plains of Asia and on the open ground elsewhere shoes were not needed, but the Romans soon found that their paved roads wore the hoof away and often lamed an animal when his services were the most needed. They could devise no better remedy, however, than leather soles and bags to protect the hoof, though there is reason to believe that they had an iron shoe which they put on and took off at pleasure. Some writers are of the opinion that the later Romans had learned to nail the shoe under the hoof, but it seems possible that the crescent shaped horseshoe of modern times was first invented in some part of Asia.

The report of crop conditions which was mailed to the U. S. Agricultural department at Washington this week for Iosco county shows the best condition of any for the past ten years.

Parents who allow their boys on the streets late at night, when they ought to be at home and in bed, will censure some one for leading them astray, when the blame rests with them alone.

The severe storm of last Saturday evening did much damage to growing crops and highways in Baldwin and Wilber township. It was the heaviest rainfall known in this locality in many years.

Thomas E. Garber, who has been in the Northwest for the past two months, arrived home last Sunday evening.

Tom is as brown as a berry and weighs several pounds more than when he went away.

Attorney Edwin Rawden arrived from Ann Arbor Tuesday, accompanied by Mrs. R. and the little ones. His vacation seems to have agreed with him as he is much more portly than when he went away.

Mr. and Mrs. J. E. Dillon, of East Tawas, attended the commencement exercises of the U. of M., at Ann Arbor, this week. Their son Will was one of the graduates of the pharmaceutical department.

Dr. Merritt, who succeeds to the dental practice of Dr. Botz, at East Tawas, has arrived. The doctor comes most highly recommended as an expert in his profession. He makes a specialty of bridge work and gold filling.

Much interest is being manifested in the yacht race which will be held on the Fourth. There is much question as to which is the fastest boat on the bay, and each will be sailed to win. This race will be one of the attractions of the celebration.

Dr. G. H. Tiffany, recently of Harrisville, has located at East Tawas, and occupies the office formerly used by A. E. Sharpe. The doctor comes highly recommended as a successful physician. Read his card which appears in this issue.

Rev. A. G. E. Emmel, of the Emanuel Lutheran church, left last Sunday evening for a month's vacation. On his return he will be accompanied by a Mrs. Emmel. His many friends will unite in extending to him and his bride a hearty welcome.

John A. Mark went to AuSable last Saturday with the Junior Base Ball Club, of this city, where two games were played with the juniors of that city. Our boys were defeated in the forenoon by a score of 7 to 20, and won in the afternoon by 16 to 15 for their opponents.

Compressed Air Sprayers, for spraying potatoes and fruit trees, at a quarter off for the next 30 days. They go at \$3.75 and \$4.75. I also sell cream separators with capacity for 1 to 15 cows. Inquire of Frank Fisher, 1 1/2 miles south of Vine, or address Tawas City.

The new whiskey tabloid has not struck Tawas yet, but when it does it may prove a great blessing to the take-a-nip-on-the-sly husband. He can tell his wife it is something the doctor gave him for his liver and take a condensed highball at stated intervals in her sympathetic presence.

G. W. Elliott, who is working near South Branch, for Gates, took advantage of the excursion last Sunday and spent the day with his family. He informs us that Gates is building two and one half miles of railroad and a new set of camps for use in his lumbering operations next winter.

An exchange remarks that the gasoline season is at hand and accidents may occur, and to remember that if you have a gasoline fire, throw flour, meal or sand on it—never use water. Flour, meal or sand will put a fire out, but water only spreads it. Now fix this in your mind so it will come handy should you need it at any time.

The old steamer Metropolis which for years was on the "shore route" between Bay City and Alpena, was burned to the water's edge at Toledo last Friday. The boat was built in 1868 and for years was considered one of the finest on the lakes. Thus another familiar old land mark, (or rather, water mark,) on the shore has passed out of existence.

Married, at the home of the bride's parents, Mr. and Mrs. P. C. Goldie, of the Meadow Brook farm, in Tawas township, at high noon Wednesday, Miss Laura A. Goldie, to Pearly P. Pendergast, of Hutchinson, Minn., Rev. Sutherland, officiating.

The many friends of the bride in this vicinity will unite in wishing her and her husband happiness and prosperity.

The supreme court this week set aside the conviction of James H. Gillingham, who was convicted in the circuit court for this county on the charge of using a net of smaller mesh than the law specified, and ordered a new trial. In his defence, Gillingham contended that the mesh of the net was of the required size when manufactured, but that it had shrunk. The supreme court hold that the legislature, in fixing the size of the mesh of fish nets, intended to fix the size as manufactured and not as used.

A Memorial.

To the Worshipful Master, Wardens, and Brethren of Tawas City Lodge No. 302, F. & A. M.:

Your committee to whom was assigned the duty of drafting resolutions of respect to the memory of Brother Webster, have had the same under consideration, and report as follows:

Brother Webster was one of the first settlers of this county, and became a member of our lodge during the first years of his residence here. He was a good man and a very zealous Mason.

"His work was always on the square." He was a man of integrity and rugged honesty. He became Master of our lodge in 1890, and filled the chair with credit to himself and honor to the fraternity.

Worshipful Brother William M. Webster died at his home in Grant township, March 4th, 1902, having passed the allotted age of three score and ten. He was borne to his last resting place by the members of the fraternity that he loved so well.

They placed the evergreen at his grave as an emblem of his faith in the soul's immortality. He died in the firm belief and hope in a life "beyond the river." While we drop a sympathetic tear over the grave of our deceased brother, let us cast around his failings, —whatever they may have been,—the broad mantle of Masonic charity, and not withhold from his memory the commendation that his virtues claim at our hands. We leave him with One who has done all things well.

Your committee ask the adoption of this report; that it be spread upon our records; that a copy be furnished the family of our deceased brother, and as a further mark of our esteem for him, that our lodge room be draped in mourning for thirty days.

All of which is respectfully submitted.

L. B. SMITH,

JOHN HUSTON,

Committee.
