## Crop Report.

The following report was issued from the secretary of state office last Saturday: The month of July was remarkable for the continued rainy weather which prevailed. In the upper peninsula the precipitation was normal but the lower peninsula it was considerably above the normal, the departures varying from 2 to 4 inches. Not only was the rainfall at times excessive but it continued from day to day materially damaging hay and wheat and prevented the proper cultivation of growing crops. The temperature during the month was normal.

Owing to the wet weather which generally prevailed during July it was very difficult to harvest the wheat crop; in some localities it was not all out at the end of the month. The ground was so wet in many places that it was impossible to harvest the grain with a binder. In some cases wheat secured before any damage was done but in most of the counties much injury resulted so that the quality will be poor. Wheat grew not only in the shock but standing in the field. Some varieties were damaged more than others and on the whole there is considerable wheat that will be fit only for food for stock. The yield this year promises to be very good considering the conditions which have affected the crop. The cool, wet weather was favorable for the growth of straw and the development of the berry and had the favorable weather been prevalent during harvest time a large crop of excellent quality would have been secured. Very little damage was done by the Hessian fly.

The average estimated yield is, in the southern counties 16 bushels, in the central counties 18 bushels, in the northern counties 17 bushels, and in the State 17 bushels, while one year ago the estimated average yield per acre was, in the southern counties 9 bushels, in the central counties 13 bushels, in the northern counties 14 bushels, in the State 11 bushels. The per cent of plowing done for wheat in the southern counties is 11, in the central counties 8, in the northern counties 7, and in the State 10.

The condition of corn varies greatly throughout the State. On high land of a sandy or gravelly nature the crop has made good growth. On low ground and heavy soil much damage has been done by the wet weather. Farmers have been unable to cultivate properly which has in a measure retarded growth. With favorable weather later in the season conditions may change for the better so that the crop will be up to the average. The condition of corn as compared with an average is, in the southern counties 67, in the central counties 59, in the northern counties 72, and in the State 66.

The oat crop has made a great growth this year. Many fields were badly lodged making harvesting difficult together with some loss of grain. With a week of good weather the crop will be secured and undoubtedly yield more than the average. The estimated average yield per acre in bushels is 38 in the southern counties, 37 in the northern counties, and 37 in the State.

The condition of potatoes like that of corn varies much. In some counties the crop is considerably better than the average while in other localities it is corresponding poor. As a result of the wet weather the average will be shortened since potatoes have drowned out in many places. The condition of potatoes in the counties is 77, in the central counties 70, in the northern counties 91, and in the State 78.

Probably no crop has been damaged more by unfavorable climatic conditions than beans. Many fields intended for beans were never planted; in other fields, where it was possible to plant, the beans have never been cultivated so that it will be necessary to abandon the crop. On light soil the prospect is good, but under other conditions it is very poor. The condition of beans in the southern counties is, compared with an average 70, in the central counties 69, in the northern counties 86, and in the State 72.

The condition of the sugar beet crop throughout the State is reported to be favorable. Cultivating and weeding have been retarded considerable and made rather expensive yet prospects are fair at present time. The condition of sugar beets, as compared with an average, is in the southern counties 81, in the central counties 83, in the northern counties 89, and in the State 83.

The condition of clover, as compared with an average, is in the southern counties 103, in the central and northern counties, and in the State 104.

The condition of pastures as compared with an average is, in the southern counties 105, in the central counties 107, in the northern counties 99, and in the State 105.

The prospect for apples at the present time is very good. Wet weather made it impossible to spray as much as is necessary so that some of the fruit is scabby.

The crop of peaches is good in fruit belt except in the extreme southwestern part of the State.

## Judge Durand.

The Detroit Free Press comes out openly in support of the democratic state ticket, and pays the following tribute to the magnificent man who heads the ticket:

"The nomination of Judge Durand will prove an inspiration to the advocates of good government in Michigan, whether they be Democrats or Republicans or independents. There is a man of full gubernatorial caliber! If the entire citizenship of the state of Michigan had been at the disposal of the convention it could not have made a more felicitous choice. Judge Durand has served his state with honor on the supreme bench. His abilities as a jurist are unquestioned. His personal integrity has not and cannot be impeached. His character is beyond reproach. Even in the older and more luminous days of her political history Michigan produced no public man of a higher type.

"There can be no excuse for the failure of any voter, who is dissatisfied with existing political conditions in this state to support the candidacy of George A. Durand. No man of higher ability or purer purpose has ever been chosen to the office of chief executive of the commonwealth. If he is elected he will discharge the duties of the governorship without fear or favor. He will be the chief executive of Michigan—not the tool of an organization, or the creature of a political syndicate. He will restore to the state capitol its ancient traditions—the tradition of scholarship, the tradition of intellectual as well as financial honesty, the tradition of independence, the tradition of recognized ability.

"The governorship will no longer be a political broker's office conducted for the benefit of speculators in the faith and credit of the commonwealth. It will have passed into the hands of a gentleman who is without fear and without reproach. After many years Michigan will have a chief executive who requires no apologies. The consummation is one so devoutly to be wished that the nomination of George H. Durand should appeal to the citizenship of Michigan regardless of every consideration but the honor and good name of the state."

## It Needs a Tonic.

There are times when your liver needs a tonic. Don't give purgatives that gripe and weaken. DeWitt's Little Early Risers expel all poison from the system and act as tonic to the liver. W. Scott, 531 Highland ave., Milton, Pa., says I have carried DeWitt's Little Early Risers with me for several years and would not be without them. Small and easy to take Parely vegetable. They never gripe or distress.

## To Cure a cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

## Are You Hit?

There are state laws which need refreshing sometimes. For instance, in Michigan we have laws which regulate obnoxious weeds. We regret to say that there is undue lack of attention to this regulation by some residents of this city. Read it, may be it strikes you: "It shall be the duty of every owner, occupant or person having charge of lands, in this state, to cut down or cause to be cut down, all the Canada thistles, milk weed or other noxious weeds growing therein, in each and every year so often as shall be sufficient to prevent said Canada thistles, milk weed or other noxious weeds going to seed; and if any owner, occupant or person having charge of such lands, shall knowingly suffer Canada thistles, milk weed or other noxious weeds to grow thereon, and the same to ripen so as to cause or endanger the spread thereof, he shall on conviction be punished by a fine of ten dollars together with the cost of prosecution, and in default of payment of the same he imprisoned in the county where the land is situated for a period not exceeding twenty days."

## To My Friends.

It is with joy I tell you what Kodo did for me. I was troubled with my stomach for several months. Upon being advised to use Kodo, I did so, and words cannot tell the good it has done me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodo. Words of gratitude have come to me from him because I recommended it. —Geo. W. Fry, Viola, Iowa. Health and strength of mind and body, depend on the stomach, and normal activity of the digestive organs. Kodo, the great reconstructive tonic, cures all stomach troubles, indigestion, dyspepsia. Kodo digests any good food you eat. Take a dose after meals.

## A Tin Rooster.

The latest swindling game placed on the market for the benefit of the farmer, has made its appearance in Wisconsin and is due in Michigan any old time. This is the way the "bird" game is worked: An agent comes along with a tin rooster which he guaranteed would turn red six hours before each and every storm, thus giving the farmer plenty of time to prepare for the blow. Storms came and went, but the rooster did not change color, and the farmers started an investigation in an attempt to recover the \$30 check which he had given for the device. He found the check all right; it was at the village bank, and its face value had increased from \$30 to \$300. That is all.

## A Necessary Precaution.

Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures cough, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it.

## ESTRAY COLTS

Strayed from my farm in Plainfield, during the latter part of April last, two colts, one a very large black mare, 2 years old, white spot in forehead and roman nose. The other a light iron grey horse, 2 years old this fall, left hind foot white to gambol joint and a white strip in the face, and dark mane and tail. A liberal reward will be paid for their recovery.

CHARLES E. GRAVES,  
Hale, Mich.

## ESTRAY CALVES.

Strayed from my farm in Tawas township about July 20, 1902, five calves, one black heifer, wearing a bell, also 1 spotted heifer with bell and three spotted steers. Send information to FRANK KORMER, Tawas City, Mich.

A surplus of \$3,500,000 is in the state treasury. Taxes should be reduced so the money can remain in the pockets of the people. A surplus is too much of a temptation for boodle statesmen who break into the legislature.

The president has appointed Oliver Wendell Holmes, now chief justice of the supreme court of Massachusetts, to be associate justice of the United States supreme court, vice Justice Gray, who has resigned on account of ill-health.

The first authentic compilation of the voting precincts in the state has been compiled by Secretary of State Warner. It shows that there are 1,766 voting precincts in the state. Wayne county leads with 150, Kent is the second with 64. Calhoun has 38, Ingham 29, and the two smallest counties are Lapeer and Oseola, with four each.

Hereafter teachers' certificates of all grades will not contain the standings by which the examination was passed. The amended form of certificates has been adopted by Superintendent of Public Instruction Fall. There has been no change in the law on the subject, but it is said that the old forms did not comply with the school statutes.

A few years ago Olivet College began the establishment of permanent scholarships of \$1,000.00 each, the principal to be invested and the interest alone to be used for the benefit of students of superior ability who need a little financial encouragement. The College wishes to secure one hundred such scholarships and has already begun upon the second ten.

A Lansing dispatch says that Edward Cahill, formerly of the supreme bench, has been the most outspoken of any of the Lansing republicans in stating that he would support Judge Durand for governor. Last Memorial day, in an address before the G. A. R. veterans, Judge Cahill strongly criticized the existing condition of state affairs and since then has informed many of his friends that he would vote for Durand.

The annual report of the United States geological survey claims that the per cent. increase of coal production in Michigan in 1901 was greater than any other state. The total production was 1,241,241 short tons, spot value \$1,753,064. The report says: "The total development of the coal mining industry in Michigan during the past five years has been one of the most notable records contained in this report, and may be directly attributed to the growth of the manufacturing cities along the great lakes. Prior to 1897, Michigan had not developed her mines, the total production in 1895 amounting to only 112,322 tons.

**YACHT RACES.**  
**The Sixth Annual Regatta Opened Yesterday With Most Favorable Weather.**

The sixth annual meeting of the Tawas Beach Yachting Association opened yesterday with excellent weather, and the largest entry list in the history of yacht racing on Tawas Bay, and if the wind continues as favorable as it has been thus far this week the meeting will be one of the best held on the lakes this year.

The program is the most elaborate ever given and the prizes are the largest. The special feature of the regatta is the race between the "Caddillac" and "Detroit," of Detroit, which are conceded to be the fastest boats in their class on the great lakes. This race is for a special purse of \$200. There is also a race for the powerboats.

The new D. & M. cup will be sailed for in the free-for-all race which will start at 2 o'clock to-morrow afternoon.

Among the yachts here are the Caddillac and Detroit, of Detroit, the Sultana, of St. Clair, Jennie, Aurora, Buckeye, Aurelia, Wave, Idler, Blue Bill and Willie, of Bay City, Dream Point, Albuquerque, Mistake, of Alpena, Comanche, Dream, and Vision, of Tawas City, and Vera, of East Tawas.

The power boats are represented by the Winyah, of Alpena, Olive, Silver, Nahmetis, Priscille, of Bay City, Cordelia, of Saginaw, Emory and Tom Wood, of East Tawas.

The first race of the regatta was for boats of 21 foot class, and was sailed yesterday afternoon. It was won by the Wave, with Idler second and the Aurelia third.

**Catholic Mission.**

Monday morning, August 17th, at 10:30 mass, a mission given by Redemption Father will commence at St. Joseph Catholic church.

The object of a mission is to revive and strengthen the faith and moral spirit of our people, and we seek to obtain this by a course of plain and practical instructions. All are invited to attend the mission and especially our non-catholic brethren. The Reverend Fathers will explain the doctrine and practice of our church, but while doing so, will respect very scrupulously the rights of others, so no one need fear insult or bigotry. Services will be held at 5:30 and 8 o'clock each morning. Consistory of Holy mass and an instruction at 7:30 each evening, will be a sermon followed by benediction of the Blessed Sacrament.

State instructions—to which an especial invitation is extended, are as follows. For married women, Thursday p. m., at 3 o'clock; for women, (unmarried) Friday p. m., at 3 o'clock; for married men, Friday evening at 7:50; for young men, Sunday, August 24, at 3 p. m.

Special services which will not interfere with regular mission will be as follows: Wednesday evening, Polish confession, Thursday morning at 8 o'clock, instruction in Polish language; Saturday morning at 8 o'clock, instruction in German; Sunday morning at 8 o'clock, instructions in French. Respectfully Submitted.

Baggage Smashing. Among the railroad reforms much approved and applauded by travelers is the issue of orders by several corporations of prominence forbidding the banging about of railroad luggage in the riotous manner which has been the habit all over the United States. It is no exaggeration to say that in countless cases men employed by the railroads have displayed a perverted ambition to excel one another as "baggage smashers," eager to show the strength of their muscles and bent upon surpassing their rivals in wanton destruction of private property.—New York Tribune. Unaccountable Delay. The coincidence of a fire following the issue of an insurance policy sometimes points to criminality. Not so, however, was it in the case of a certain college president. As the story goes, he received a note which shows that a corporation may have humor. The communication reads: Dear Sir-Inclosed find draft for \$50. We note that this policy went into effect at noon and fire did not occur until 4 o'clock. Why this delay? —Youth's Companion. A Colossal Statue. The colossal equestrian statue at Rome of King Victor Emmanuel II., which is now nearing completion, is about thirty-three feet in height from the level on which the horse stands to the crown of the king's head. The feathers in his helmet are about five feet extra. There will be space for one or two persons to get into the head and for four or five in the head of the horse. The scale of the figure is about that of the Bavaria statue at Munich. Great Baseball Records. The baseball records of the past are brilliant ones and an incentive to all players. The great unaided triple play of Paul Hines at Providence in 1878 has never been equaled. Neither officially have the throwing of a ball by John Hatfield, in 1872, a distance of 133 yards 1 foot 7 1/2 inches; Harry Berthong's running of the bases in 14 1/2 seconds in 1868 and Hugh Duffy's batting average of .438 in 1894.—Boston Globe. Table Linen. Do not allow holes to appear in table linen until it is all so thin that it has to be laid aside. On Saturday before the clothes are assorted for the washing look over all the soiled tablecloths and napkins, holding them to the light. Use embroidery floss to correspond with the quality of the linen, and every thin place should be darned or run as neatly as possible. You have no idea how much longer linen will last when cared for in this way.—Good House-keeping. The Clever Kittens. "My cat speaks French," said little Jeanne. "As plainly as can be; Says 'il vous plait' (that's 'if you please') And thanks me with 'merci!' I know, because I understand Each word she says to me." "And mine speaks German," with a nod, Said Lisa from the Rhine; "Says 'bitte' when she wants a drink And 'ja,' of course, and 'nein'; I wouldn't have a cat that spoke A different tongue from mine!" "That's thrue for you!" sweet Nora said, With merry look demure. "Me own shpakes Irish! Whin I set A saucer on the flure An' ask her wouid she like some milk The darlint tells me 'Shure!'" I met those kittens afterward, No matter where nor how; I listened well to what they said; Would you believe it now, They spoke in English, every one, And all they said was "Meow!"
