Take Care of the Stomach.

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cures, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderfully reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: Kodol has cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. I was given up by the physicians. Kodol saved my life. Take it after meals.

Judge Durand Stands.

It is with much satisfaction that the people of Michigan learn of the rapid recovery of Judge George H. Durand, of Flint, the democratic candidate for governor, and that his recovery is now assured.

At a meeting of the democratic state central committee held at Grand Rapids last Wednesday it was unanimously agreed that under the promising condition of Mr. Durand's health, that he should remain on the ticket. This decision will meet the approval of the many thousand citizens of Michigan who are friends of good government.

Judge Durand's letter of acceptance which was prepared by him previous to his illness, was read by his brother, L. T. Durand, of Saginaw, and was one of the ablest addresses ever given to the people of the state on political questions. It was devoted entirely to state affairs and cannot fail to appeal to every fair minded person regardless of party. It stamps Judge Durand as a man of the hour and guarantees to the people of Michigan an honest and clean administration of state affairs if they elect him next November.

The Reunion.

Northern Michigan Soldiers' and Sailors' Association began its 23d annual encampment at the fair grounds Wednesday morning, and will close today. The attendance of the old soldiers has been up to the average, but the attendance of other people has been somewhat of a disappointment. This can be attributed to a certain extent to the mis-representations made in last week's Gazette.

The officers in charge of the work of the encampment are to be congratulated on the excellent arrangements for the entertainment of the "old boys" and a most enjoyable time is being had.

Raymond, of Edson, returned last Saturday from the annual meeting of the Michigan Postmasters Association at Saginaw. "Cap" says that it was one of the greatest times he ever had in his life—one continual round of pleasure. An observant person remarks that "the public likes as well to read interesting matter in the advertising columns as in the news columns." There is nothing surprising about this, since the facts which are advertised have a direct personal interest to the public. Alpena County Fair, Alpena, Mich. Sept., 30th, Oct., 1-3. From all reports Michigan is going to have an immense apple crop this year. A piece of news everybody will be glad to learn. There is no fruit on earth that equals the apple for all purposes and we don't blame Adam and Eve for sampling them in the garden of Eden. Eaten raw they are Nature's own tonic and served up in pie or dumplings are the best served. The reader of risqué literature will find in Tabasco, the new monthly magazine, some of the most spirited and raciest short stories that have appeared in a long time. The magazine lives up to its unique name well as its contents are the very essence of spicy reading. It is handsomely gotten up typographically and will undoubtedly score an instantaneous success. It sells for only fifty cents a year. Tabasco Publishing Co., Lapeer, Mich. Perhaps no quality is more characteristic of the work of Booker T. Washington than the sanity of his view. His article "Problems in Education" in the September Cosmopolitan deal not only with the work of Tuskegee Institute but with the educational needs of the entire colored population of the United States. The race-problem is not one which can be left to settle itself, and every thinking man or woman should read this valuable contribution to a discussion whose importance will increase rather than decrease in the years to come. What brings more joy to a woman's heart than a beautiful stock of millinery goods? If there is anything, we have not heard of it, and in this connection we smile to think of the great amount of pleasure there is in store for the ladies of this vicinity when they call to examine the new fall stock at Mrs. Hurlbert's. It is complete with all the latest and prettiest styles and shapes, and cannot fail to please even the most fastidious. Ladies don't miss the treat she has in store for you. At the Alpena Republican county convention the following nominations were made: Treasurer, Charles Conklin; sheriff, Emerson Potts; prosecuting attorney, J. H. Killmaster; clerk, George Ruston; register, W. L. Chapelle; circuit court commissioner, F. A. Beede; surveyor, Edward Chapelle; coroners, M. Hale, E. M. Barker. The convention endorsed the national administration and congressional nominee, also the nominees for senator and representative, but said not one word about the state administration. A merchant states that his advertising last year cost him 45 cents for every \$100 worth of goods sold. He uses a half page for his business announcements each week, and says that as long as the people read newspapers he will advertise. There's a man possessed of a good head. Just as soon as merchants begin to look upon advertising as a branch of their business which requires as much care as any other part of it, then will advertising commence to pay. Honesty, force, originality and persistency in advertising make it a paying venture.—Livingston Co. Herald. Wanted.—Girls to work in silk factory. Apparently the inevitable thinning of the ranks of the Grand Army of the Republic has begun, to cease only when the last veteran shall have heard taps for the last time and the noble army shall have become a memory. The adjutant-general of the Michigan G. A. R. reports 361 Posts in existence in the state, a net loss of seven during the six months. The order now has a membership of 14,052, a net loss of 354. Of this number 216 died. Hon. W. H. Simpson and family leave next Sunday for Detroit, where they will hereafter reside, and where Mr. Simpson will engage in the practice of law. Mr. Simpson is one of our oldest residents and most esteemed citizens, having for twelve years served as judge of 28th judicial circuit. Mrs. Simpson has been very prominently identified with charitable work, as well as being prominent socially. The family will be greatly missed in this community.—Oscoda Press. There is no reason why there should not be successful ranches conducted on what was once regarded as the waste lands of this state. It was demonstrated as long as twenty years ago when the late Judge Marston bought a farm of sand that the rejected soil would not only provide pasturage for all farm stock but produce an abundance for their feed in winter and raise the crops adapted to this climate. Subsequent experiments have confirmed this and with the advantages of cheap tax lands, the availability of water, perfect protection against lawless interference and the markets within easy reach, the industry in Michigan might be made a highly remunerative one.—Free Press. An exchange reflects our sentiments thusly, "Good morning, have you paid your subscription this year? Perhaps you owe for last year, or several years, or may be for job work or advertising. Now, you understand, we don't need money, we have millions—to get; but it is really an imposition on our part to let people go on carrying our money around when we are so strong and healthy and abundantly able to bear the burden ourselves. For this reason we ask everybody who has any of our money in his possession to leave it at the office, or send it by mail, freight, express or any other way, just so it gets here. Silver and gold are heavy, and it would be a matter of life-long regret if anyone should get bow-legged carrying it around for us. A Sad Disappointment. Ineffective liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever. FOR THE LITTLE ONES.

The Dangerous "Just For Now" That Some Children Have.

Many young people form habits which cripple and handicap them for life by doing things "just for now," says Success. They let things drop wherever they happen to be "just for now" thinking that they will put the book, the tool, the letter or the article of clothing later where it belongs.

When these young people grow up to manhood and womanhood, they find that the habit of putting things down anywhere "just for now" has become a tyrant that fills their lives with confusion and disorder.

It takes no more time or effort to put a thing where it belongs in the first place than it does later, perhaps less, and the chances are that if you do not do so at the proper time you never will.

Even if it costs you a little inconvenience at the moment to put everything in its proper place, to do everything at the proper time, the orderly and methodical habits which you cultivate in this way will increase your power and usefulness a hundredfold and may save you much trouble and mortification in the future.

A Pretty Incident.

When President McKinley was at the Omaha exposition, a little girl with wavy hair slipped under the rope in the Manufactures building, and before a policeman could catch her she hissed, "Mr. McKinley, won't you please wear my rose in your buttonhole?" The president stopped and smiled and said: "Certainly, my dear. I will exchange with you." And, taking from the lapel of his coat the carnation that he always wore, he gave it to the little maid and put the rose in its place. Then the procession of cabinet ministers, diplomats, governors, senators, generals and other dignitaries, who were wondering at the cause of the interruption, was allowed to pass on.—Primary Education.

The Land of Nod.

At night, when off I go to bed,
I scurry quickly up the stairs
For fear that bogies from their lairs
To make a spring on me are led
(To hurry is much best one finds
And pass are they've made up their minds)

The friendly moon that sails so free
Throws shadows great and shadows small
That dance like polka on the wall
And to mazurkas beckon me,
And while I heavy lidded sleep
The sandman comes, and I'm asleep.

And in the dim lit land of dreams
Strange birds and beasts and elves and
lays
I meet in delis and bosky ways
And on the banks of rippling streams
Or join in singing soft, sweet strains
With mermaids fair in dreamland caves.

And when I wake and give a yawn
And see the sun come sianting in
And hear again the tureful din
Of blackbirds piping on the lawn,
And while I listen to their song,

Why, gracious! There's the breakfast
song!

A Scientific Toy.

It is not difficult to make a parachute of paper, as any umbrella can be taken as a model. But how can we get an apparatus by the means of which the parachute is carried into the air and opened?

Let us proceed as follows: Suppose we have succeeded in making a paper parachute. We didn't use whalebone or wire, but thin pieces of card extending a good bit over the edge of the parachute and fastened with their ends to a smooth wooden ring. This wooden ring is pulled over the stick of the parachute and moves smoothly up and

down. A bone button with a groove for a broad rubber band is fastened to the end of the parachute stick.

We get a paper mailing tube open at both ends and just wide enough to allow the parachute to slip in when folded together. On the lower end of the tube we fasten a strong piece of rubber band on both sides of the opening. We insert the parachute into the tube and place the bone button with its groove on the rubber band. Then, holding the tube with one hand, we pull the bone button, with the other stretching the rubber band. Then we let go, and the parachute shoots out of the tube like an arrow, reaches a considerable height, opens and then comes slowly down.
