MISS SARAH OWEN,
EAST TAWAS, MICH.

A BIG TIME.

Was had by the Old Soldiers during their Annual Encampment.

The 23rd annual Encampment of the Northern Michigan Soldiers' and Sailors' Association closed here last Friday, and was the most successful held in several years. The visitors were loud in their praise of the manner in which they were entertained and provided for, and their first meeting on "the shore" will long be remembered.

Thursday was the big day, and the attendance of people from around the county was large. The enrollment of the encampment was over 200, which is fully up to the average. The visitors were entertained at the fair grounds during their three days stay, and everything was in proper shape for their entertainment, and abundance of provisions were furnished, in fact the supply being much larger than the demand, and this is the one thing which always pleases the old soldiers. They don't like to go hungry.

An excellent program was carried out during the meeting, and many excellent addresses were made, all of which were much enjoyed. On Thursday afternoon the scholars of the East Tawas Schools attended in a body and sang a number of patriotic songs.

The camp fires on Wednesday and Thursday evening were well attended and proved most entertaining.

At the business meeting Friday forenoon it was voted to hold the next encampment at West Branch, and the following officers were elected

President—S. B. Thomas, West Branch.

Vice-President—O. J. Hickey, West Branch.

Secretary—R. A. Bobcock, West Branch.

Quartermaster—G. W. Willobee, West Branch.

B. F. Oakes, of East Tawas was elected vice president for Ioseo County.

The Women's Auxillary held their business meeting on Friday and elected the following officers for the ensuing year.

President—Mrs. Day, West Branch.

Vice-President—Margert Augus, Standish.

2nd vice Pres.—Mary Ingles, West Branch.

Secretary—Lottie Willobee, West Branch.

Treasurer—Mary Marsh, West Branch.

Mary Patterson, of Tawas City, was elected vice-president for Ioseo County.

The local officers and committees in charge of this year's reunion are entitled to much credit for the successful manner in which matters were conducted. President Walker, Secretary Oakes and Quartermaster Wade, with their assistants failed in no efforts to make the affair a success. To Quartermaster Wade the credit for the excellent arrangements in connection with the commissary department are due.

Change in Probate Laws.

At their recent annual meeting at Petoskey the probate judges framed a number of amendments to existing laws which they will ask the legislature to enact. One is relative to the commitment of indigent insane persons to asylums of the state instead of county asylums; another that the limitation be removed from the value of real estate that they may order sold at private sale, and the repeal of the present law as to dower for widows. It is proposed to give the widow an interest in the fee instead of the interest on the income of one-eighth of the real estate, as at the present.

Lingering Summer Colds.

Don't let a cold run at this season. Summer colds are the hardest kind to cure and if neglected may linger along for months. A long siege like this will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe, sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it.

The Fair.

On Wednesday, Thursday and Friday of next week occurs the 28th annual fair of the Ioseo County Agricultural Society, and all indications are that it will be the most successful ever held. The exhibits of fruit and farm produce should be exceptionally good this year, while the rapid improvement in the quality of the stock of the county assures a fine exhibit in that line. The special feature for this year will be the horse races. Four hundred dollars in purses are offered and horses from Alpena, Bay City, Pineconing and other points have been promised, and it is expected that the races will be the best seen on the shore in several years.

The base ball games between the teams from Omer, Tawas City and Au Sable will be hotly contested and will furnish plenty of sport for those who wish that kind of amusement.

The officers are making special efforts this year to give the county the best fair ever held, and the people will make no mistake in joining with them to that end.

Let everyone come, and each bring something to add to the exhibit. It will be to the advantage of every person in the county to make the fair a success.

Beware of the Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unequalled for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Soothes and heals.

The Town Roads.

"The matter of improved highway construction and maintenance can now be said to be before the people as never before in the history of the country, says Good Roads Magazine. The value of good roads to all industries is becoming so well understood and appreciated, especially by those who have given the subject study, that further facts seem scarcely necessary. The saving on the wear and tear of horses and vehicles, the heavier loads that can be hauled, the fewer number of horses required on a good road as compared with a poor one, the economy in time to business men, are points that appeal to every one.

There is no better advertisement for the country, the city or the town, nor is there anything that helps to increase the popularity of a section and the value of its property more than good roads do. The impressions of the stranger always depend upon the character of the roads and streets, and if he is seeking a location he will be governed by his impressions.

Many sections of the country, especially the south, have been practically depopulated by the isolation resulting from bad roads. The remedy is clear. Give the people the means of readily reaching their neighbors, the towns and schools, and a change is wrought at once. Education becomes general and resources are developed. The youth is contented to remain at home instead of seeking the already over-crowded city.

Not Generally Understood.

It is not generally understood just how, and the length of time after purchase, a tax title becomes a valid lien or title against the property that may be sold for delinquent taxes. The time for redemption is one year, during which time the owner of the property may redeem it by paying the tax title holder 100 per cent on and over the amount that was paid for said tax title certificate. After the sale the owner has one year in which to redeem his property. If he does not redeem it in one year, then the purchaser gets a title from the state, which is good against any other title for whatever the deed calls for, provided, always that the proceedings in the case, have been regular. The owner must then make the best terms he can with the tax title holder if he wishes to regain his property.

BALDWIN NOTES.

"Jack Frost" made us a call Saturday night, and although his whiskers were exceedingly white, he apparently did very little harm to corn, buckwheat, etc.

The corn crop, which looked hopeless some time ago, is coming on nicely, and if the present fine fall weather continues a few days longer a good crop will be harvested.

It is getting very monotonous without a wedding. We wish some of the young men who go north, east, south and west every night, looking for a wife, would decide soon.

Potato harvest has begun, but it does not make you happy to hear the remarks of our farmers as they sweat while tearing up the beautifully baked ground in search of the small tubers. We hope to hear better remarks next year.

Nelson Johnson is very happy although he has not told us about it. The fact is most apparent when you see him driving along, whistling and singing, harvesting his corn with the new Deering corn harvester recently purchased.

A couple of weeks ago we spoke very favorably of the crops that can be produced by our friends at Whittemore, but evidently we shaded our remarks too heavily and praised things too strongly, as we drew a heavy fire from the correspondent up there. If we said too much in praise of their crops we are sorry.

Whittemore Whittlings.

Paint it Now

If your house needs painting, paint it now—this fall—with **THE SHERWIN-WILLIAMS PAINT**. Here are some of the reasons why you should do so.

1. The weather is settled and you don't have to contend with the spring rains.
2. You will protect it against the winter's snows and storms.
3. You will avoid the annoyance of gnats, flies, and other insects sticking to the surface.
4. There is likely to be less moisture in it now than any other time; moisture is what often causes blistering, cracking; and like troubles.
5. S. W. P. costs less by the job than any other paint because it wears longest, covers most, looks best, and is most economical.
6. S. W. P. is best because it's made from best materials—pure lead, pure zinc, and pure linseed oil. It always satisfies; never goes wrong if rightly used.
