Mother.

When time scatters white flakes over the once dark, glossy hair of the dear old mother, and plants furrows on the cheek which you can remember as once being smooth and pink, then is the time to love and cherish, even more tenderly than ever before, that mother in the home. The eye may be dim—but it never fails to glow with love for the man or woman who was once her little child. Her sands of time are nearly run out, but, her affections will last to the end. Then watch over her, as she watched over you; cheer her declining years with your own never-waning devotion. She is your mother, whose place no other has or ever can fill. Many years ago she gathered you in her arms in times of childish troubles; do not forget now to sometimes hold her to your heart and kiss her withered cheek.—Lexington News.

Newspaper Fame.

Your great man shines before the populace in vain—without the newspaper. He spread eagles the constitution in vain—without the newspaper. His scientific researches and achievements are vain—without the newspaper. His wireless telegraph would be an accomplishment of small merit—without the newspaper. His moving sermons, rattling bell fire in the faces of sinners, are vain—without the newspaper. His successes in every walk of life are vain—without the newspaper. The newspaper is the famemaker of the age. Of course, some of the fame is cheap, but it satisfies the living wearer of the cloak even though posterity may change it.—New York Press.

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He is now sound, and well." Everybody ought to know, it's the only sure cure for coughs, colds and lung diseases. Guaranteed by J. E. Dillon and Dr. Darling, Druggists. Price 50c and \$1. Trial bottles free.

Resolutions of Condolence.

The following resolutions were adopted at the regular meeting of Grip Tent, No. 455, K. O. T. M. M., Monday evening:

WHEREAS: The Supreme Ruler of the Universe, in his infinite wisdom, has removed from the activities of life our esteemed Sir Knight and brother, Dan C. McKee, who died near Cebu, Cebu Isle, in the far off Philippines, Dec. 27, 1902, where for three years he had served as a defender of his country's honor, and after his discharge from the army he had engaged in business, thereof be it

RESOLVED: That while we bow in sorrow to the mandates of the Great Commander of all yet we can but deeply feel the loss we have sustained by the removal of this brother, whose record, both as a soldier and civilian, was always marked "excellent," and that we extend to the bereaved parents, sisters and brothers our deepest sympathy in the loss of one dear to them. Be it further

RESOLVED: That the charter of our Tent be draped for a period of thirty days, and that a copy of these resolutions be presented to the family, and a copy sent to the Modern Maccabee and local paper for publication, and spread at length on the minutes of this Tent.

Respectfully submitted,
L. J. PATTERSON,
WILLIAM B. KELLY,
E. A. CRANDALL,
Committee.

Resolutions adopted by G. K. Warren Post in memory of Reuben W. Platt, who died March 2, 1903.

Once more the messenger of death has mustered out one of our comrades, who proudly answered our county's call, for our nation's life and liberty; who unflinchingly stood at his post of duty from "61" to "65" in our struggle for liberty, against opposition. Silently he entered the darkness or dawn, that we call death, silently he passed beyond our horizon, beyond the twilight purple hills, beyond the uttermost reach of human hands or help, to the vast realm of silence or joy, where the innumerable dwell. He left with us the memory of a brave honorable man, who bowed alone to death. In the grave should be buried the prejudices, and passions that constantly beset our pathway through life. Charity should hold the scales on which are weighed the deeds of men. One by one our ranks are silently mustered out, and the time is not far distant when the muster roll will be complete and the Grand Army Comrades will be written records for future generations to peruse.

RESOLVED: That these resolutions be spread on the G. A. R. Post Records and the insignia of mourning be draped in our post room for thirty days and that a copy be sent to his family and friends.

H. A. GODDARD,
B. F. OAKS,
Committee.

TAWAS CITY, MICH., Mar. 13, 1903.

The agricultural progress of the United States and the work and condition of the American farmer has been noted by the German government, and a delegation of German farm experts is coming to this country in April to study for three months our agricultural methods. Chicago has been chosen as the center of operation of the experts' bureau.

In spite of the denunciations that are hurled from certain quarters at organized labor, it is a fact that the industrial unions are working for the uplifting of the workman and the betterment of his family and home by creating conditions that give him greater opportunities for self development, which will not only make him a more skilled craftsman but a better citizen of the state and nation.—*Talisman*

The legislature of Virginia has passed a bill by an overwhelming majority forbidding the employment of any child under twelve years of age in the mills or factories of that state and regulating the employment of children between twelve and fourteen in such establishments. Organized labor is making its influence and power felt everywhere throughout the United States, and the nation's shame and reproach—child labor—must sooner or later be removed.

The newly appointed consul general to Ecuador, upon seeing the room where his predecessor, Thomas Nast, the celebrated cartoonist, died of yellow fever, it is said, has resigned his office and is returning to the United States on the same steamer that took him south. If the truth has been told, he probably saw some pictures on the walls of the room that were not calculated to inspire him with confidence in Guayaquil as a health resort.—*Chicago Inter Ocean.*

The republican state convention at Detroit last Friday, gave the professional politicians and "machine" men of that party a severe jolt by amending the "canned" resolutions presented by the "machine" appointed committee, and which made no reference to a primary election law, so as to demand a general primary election law for the entire state being passed by the present legislature. The question now is, dare Doherty and his gang refuse to accede to the demands of their party.

On re-assembling the committee on permanent organization and order of business reported in favor of making the temporary organization permanent, which report was adopted.

George Anschuetz and Henry L. Drake were appointed tellers and the officers sworn in by Count Clerk Mark.

The committee on resolutions report declared in favor of the immediate adoption of a primary election law; public ownership of public utilities and all well-known democratic principles, and was adopted.

The convention then proceeded to balloting for candidates for the county ticket, and the following nominations were made: school commissioner, Eva M. Drake; road commissioners, Sylvester Vaughn and John O'Brien.

The following delegates were elected to attend the state convention: James O'Brien and Nelson Brabant, of Tawas City; Sylvester Vaughn, of Oscoda, and P. C. Goldie, of Tawas township.

Let a wide-awake, hustling merchant, who knows that advertising pays, put a list of low prices in the paper, and his competitors who do not believe in advertising, will tumble over themselves to post a lot of old box covers in the windows of their stores on which are daubed signs offering goods at the same price. The merchant who declares it don't pay to advertise, is not only a back number, but his acts belie his statements every day he attempts to do business."—Advertising World.
