Some Needed Funeral Reforms.

There are few things in which people are so loath to change their customs as in taking care of the dead. To some it seems almost sacrilege to depart from time-honored methods. But some changes are needed and are rapidly coming—having already been adopted in cities and more advanced communities.

The hour of death in the family is one of the supremest of our lives. As on other important occasions, counsel is needed and good judgment ought to be exercised. Here the pastor and undertaker who are wise and tactful may administer comfort and direct funeral arrangements that would avoid embarrassment at a later hour in the carrying out of the services. The undertaker may be the first to be called, however, and the only person with whom consultation is had, and a word in season by him would do away with mischiefs of the bereaved and mourning friends.

He should not permit the completion of arrangements for the hour of the funeral without consulting the pastor who is to conduct the service. If the family should be so thoughtless he should see that is not done. He should strongly remonstrate against large public demonstrations—except in cases of notable personages. We are glad to note the growing popularity of the private funeral, and the time is not far distant when the other kind will be the exception. Already the private funeral has proven its advantages and its reasonableness. It is now adopted by the best classes in many communities. It is not a particular mark of honor, neither a necessity to have a corpse taken to the church except when a person is a member of the institution in good standing and a resident long-respected whose death is in almost irretrievable loss to the community. The quiet home or private funeral would largely do away with the presence of that curious and audacious class which is never at any other service of worship and who make themselves obnoxious by their inquisitiveness and heartless criticisms.

The opening of the casket in a public service is most inappropriate and out of harmony with the rules of sanitation and propriety. Let us state reasons why. Diseases and epidemics are spread by this custom and have in many cases been directly traceable to this act. The mourners by a long way prefer to take their last look at the departed in the privacy of the mourner's chamber and their own home. It obviates the idle remarks and gossip of outsiders. Dramatic scenes too sacred for publicity take place during these moments. It is to be deplored that the public is so uncharitable as to criticize the failure to expose the dead. Are they not sufficiently interested and tender to go to the home and view the remains then quietly depart?

Another inexcusable evil is the Sunday funeral. Embalming has become so nearly perfect that the body can usually be preserved the few hours longer necessitated by waiting over the Sabbath. Or a few hours earlier would be desirably appropriate that the Sunday funeral may be avoided. It is audacity and an imposition that any class, order or fraternity should demand a Sunday funeral or refuse to attend in a body. The motive can be no other than for display. Surely this is not a proper time for advertising purposes. The undertaker may drop a word in season that would accomplish the desired end. Those who are sufficiently interested will attend on a week day. The undertaker requires his day of rest. The pastor's busiest day is the Sabbath. The workingman needs the quiet of the holy day. Undertakers, ministerial associations and liverymen all discourage the custom. It should be dispensed with—the sooner the better.

The service should be simple. A dishonest eulogy should not be expected. The life tells—which is the best evidence. The minister ought not unnecessarily prolong his discourse as in the case of an elder who took all afternoon for the sermon and when the undertaker and pall-bearers who completed the burial returned at six o'clock, they did so to find the preach-

er just concluding an exposition of his peculiar doctrine. Singing is not usually soothing at funerals, rather is harrowing, and too much of it should not be arranged for. Loud-talking and laughing should not be indulged in by thoughtless or any persons present. In leaving the home or church time should not be consumed unreasonably. On a cold or stormy day it ought not be asked that drivers and horses suffer from exposure which can possibly be avoided. Driving at a moderate trot where the distance is long or the weather inclement surely is no disrespect to the dead if discomfort is lessened for the living. At the grave where the removal of the head-gear endangers health by subjecting to the wind and cold—touching the hat during the grave service is a proper mark of reverence and respect. The modern device for lowering the casket into the grave is a great improvement and decided relief in the most trying moments of the burial.

People who are not supporters of any church should tender the minister a proper remuneration.

By way of comfort to the mourning in the loneliness and dejection of that dark hour think rather of the gain of the departed that your loss and look to Him who has said "Lo, I am with you always, even to the end of the world." E. KING.

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He is now sound, and well." Every body ought to know, it's the only sure cure for coughs, colds and lung diseases. Guaranteed by J. E. Dillon and Dr. Darling, Druggists. Price 50c and \$1. Trial bottles free.

To County Teachers.

Examinations in reading for the year will be based upon the following selections:

More Riot.

Disturbances of strikes are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the liver or kidneys as Electric Bitters. It's wonderful tonic, and effective nerve and the greatest all round medicine for run down systems. It dispels nervousness, pneumatism and neuralgia and expels malaria germs. Only 50c, and satisfaction guaranteed by J. E. Dillon and Dr. Darling, Druggists.

Senator Allison's Answer.

No member of congress is so successful in keeping his views out of the papers as Senator Allison of Iowa. His dexterity in this matter has earned for him the nickname "Pussy Foot." Some time ago he dictated to his secretary a reply to a letter asking for his opinion on a certain matter. When he had concluded, the senator asked his secretary what he thought of the answer. "Well, senator," said the secretary, "to be candid with you, I can't make out just what you do mean." "That's it, that's it," said the senator approvingly. "I don't want him to know either."

A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Garranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. G. S. DARLING, J. E. DILLON, H. A. GODDARD.

The new spring millinery is such as makes the average woman's heart swell with joy. Never before were so many handsome, new and pleasing shapes in hats offered for their inspection, while the blending of popular and pretty colors in trimmings is most becoming. There is hardly any way in which a person can do so much for his own locality, with so little cost and at the same time with so much benefit to himself and his family, as by giving a hearty support to his local paper. A newspaper with evidence of substantial support in its pages speaks volumes for a town. The fact that every trade seeker has an advertisement in it impresses strangers.

Capt. Trudell Married.
The many friends of Capt. Ben Trudell will join the Herald in extending congratulations, on his recent marriage. We take the following from the Grand Marais Herald, of last week.
The marriage of Capt. Benjamin Trudell to Miss Lena Phoenix occurred at the Life Saving Station Thursday evening of this week, at 8:30 o'clock. The ceremony was performed by Rev. S. M. Preston of the first M. E. church and the contracting parties were supported by Mr. and Mrs. Chas. F. Hitekok. The bride was charmingly attired in a white costume and the groom in conventional black. The wedding was of the quiet order but none the less pretty, none but relatives and a few near friends being present. Following the ceremony and the extending of congratulations; a dainty repast was served. The bride is one of our popular and capable young ladies, possessed of all those sterling qualities essential to prove a valuable helpmate. The groom is likewise a most popular Grand Marais young man, a genial whole-souled fellow, who is highly regarded by all his acquaintances, as well as by his superiors in the U. S. Life Saving Service, in which he holds the position of acting captain, in charge of the Grand Marais station, one of the most important as well as one of the best stations on the chain of lakes. As a lifesaver, the captain began at the bottom and successfully worked up to his present position. In the service he has a record that has few equals, for a man of his age. That he is a successful young man is evidenced by his good fortune in making this alliance.
