### AT THE STATE FAIR.

#### Iosco County May Have an Exhibit if the Farmers Will Co-operate.

The action taken by the board of supervisors at their meeting last week has made it possible for Iosco county to be represented by an exhibit at the state fair next fall, if our farmers will unite with the officers of the Iosco County Agricultural Society in carrying out the plans now under way.

In pursuance to a resolution of the board of directors of the county fair association, passed at their last meeting, President John Preston and Treasurer William B. Kelly appeared before the supervisors and asked for an appropriation to pay the expenses of making the exhibit, and the board appropriated the sum of \$100 for that purpose and appointed the executive committee of the county association to arrange for and have charge of the exhibit.

While the appropriation is not large, it is believed to be sufficient to meet all necessary expenses of taking a full car load of fruits, roots, grains etc., to Pontiac and making a creditable exhibit, if the farmers will unite in the effort and furnish the materials. That such exhibit will prove a valuable advertising medium to our county is beyond question, and the effort should receive the support of all. Last year Alpena and Alcona counties made an exhibit, and the results were so satisfactory that both are this year making preparations to excel their previous effort. This being the case it will devolve upon our farmers to respond liberally and with their best products. A little special effort on their part to raise extra good products will increase our chances of securing some of the prize money offered by the state association for these county exhibits.

It is planned to gather together from all parts of the county sufficient products to fill a car, these products to consist of grain, both threshed and in the straw, root crops of all kinds, fruit, and all other products that will go to make a good exhibit. Every farmer is asked to contribute something, all of which will be shipped to Pontiac and arranged as the "Iosco County Exhibit." All who are willing to aid in the work are requested to notify the officers of the local society at their earliest convenience, that they may have a full list when it comes time to gather the products for shipment. Remember, that to win, all must give their aid and support. The board of supervisors give their hearty cooperation and endorsement, and the officers of the fair association are ready to do all in their power to carry out the plans, if the farmers will unite in furnishing the materials. A little from each will accomplish the desired result.

#### Tawas Beach Regatta.

The idea of getting the Cadillac, Detroit, Milwaukee and Illinois together for a hot series of races at Tawas bay this year is meeting with favor among the yachtsmen, many of whom would take the journey up to the resort to see such gathering. It is extremely probable that the Detroit and Cadillac will go up there, and Russel A. Alger may also be induced to take the Minerva along in her new sloop rig to go in with the 35-footers for sport, if nothing else. Prospects are also good for enticing either the Illinois and Milwaukee to Tawas, even if both cannot be secured. If this is done it will make a handsome four-cornered event in the big class, and with the array of prizes offered it is easy to surmise that the races of the yacht club this year will surpass any previous effort. A total of \$750 in cash prizes will be hung up for the three days racing and there should be a lively gathering at the beach.—Free Press.

#### A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Guaranteed Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded. G. S. DARLING, J. E. DILLON, H. A. GODDARD

### To the Front.

A. C. Carton, a former resident of Horton Township, has been appointed superintendent of one of the departments in the beet sugar factory at Tawas, now in course of construction. After leaving this county Mr. Carton located at Lansing where he occupied responsible positions in different departments at the capitol, and in which capacity he made warm and influential friends who were not slow to recognize his sterling worth and executive ability. "Gus" was one of the most popular young men in political and business circles in this county during his residence here, and there are none but who will be pleased to learn of his advancement.—West Branch Herald-Times.

### An Oriental Evening

Occupies a considerable part of the program of the Colonial Moving Picture company, which appears at the East Tawas opera house, under the auspices of the Baldwin Tent K. O. T. M. M., May 25. There is mystery, magic and fun at every scene. The spirit of the times seethes in every picture displayed. It thaws the flinty, melts the misanthropic; children are enraptured; the world is merrier from participating in an evening's entertainment so crowded with curiosity and gemmability. The management have made this business the exponent of all that is brilliant and masterful; their pride centres in pleasing their patrons, who are the vital elements that either sustain or discredit the work of years. There is a fine indication of a good house to greet this company.

### City Appointments.

At the the statutory meeting of the city council Monday evening, Mayor Schlechte made the following appointments:

Attorney—James O'Brien.  
 Marshal and street commissioner—Frank M. King.  
 Health officer—Dr. C. A. Wakeman.  
 Chief of Fire Dept.—Wilfred Grisec.  
 Surveyor—J. M. Waterbury.  
 Poundmaster—E. B. VanHorn.  
 Member board of cemetery trustees, 5 years—Len. J. Patterson.  
 Member board of public works, 5 years—Emil Buch.

All appointments were confirmed except that of James O'Brien, for city attorney, which for unknown reasons three members of the council saw fit to hold up. The matter will probably be settled at the next regular meeting. Alderman J. M. Walker was elected president pro tem and Clerk Crandall named John B. King as deputy clerk.

### Alabaster.

The school gave an ice cream social Friday evening, the proceeds go toward getting books for their new library.

Mr. and Mrs. Niblack were called to Bay City, last week, by a telegram announcing the serious illness of Mr. Niblack's mother.

Miss Grace Redhead, of Tawas City, visited friends in Alabaster, last Sunday.

Sheriff Johnson was in town Monday. John O'Brien called on relatives here, Tuesday.

The regular service and Sunday school, will be held in the new church next Sunday afternoon at usual hour.

A new building, near the water-works for sheltering and repairing the U. S. G. Co.'s engines.

### Keene on Wall Street Tips.

James E. Keene, the noted Wall street speculator, is exceedingly chary about giving market tips to friends, though he is understood not to be so reticent with persons not on his list of intimates. Here is his own way of looking at the matter: "Most people will admit that I am about as good a speculator as there is on the street, but the very best I can do is to beat the game four times out of seven. Now, if I gave my friends tips three out of seven would go wrong, and how long do you suppose I could hold my friends under those circumstances? I never had a sure thing in my life. If ever I have, I'll let every dash blank one of my friends

CONTORTIONS OF A TRANSFER

"I wonder," said a Twenty-third street conductor, "if people ever think of the amount of trouble they give a conductor straightening out their transfers. There are ten transfer points on my route, and so nearly half of my passengers hand me transfers. You ought to see the condition these paper slips are in when they reach me. Some are torn, some crumpled, some folded, and each one has to be smoothed out and examined. All this has to be done between avenues, as I must be back on the platform at crossings. Most passengers toy with their transfers, folding them over and over again, creasing them at each fold, until it becomes quite a job opening them, especially if one's fingers are cold. But, worse still, some passengers roll up their transfers as if they were trying to make lamp lighters out of them, and women often crunch these little bits of paper into little balls."—New York Times.

Lorimer's Early Mornings.

This is a story told by the New York World's Washington correspondent: When Representative Lorimer of Chicago, who is coming back to the Fifty-eighth congress, was a young man, he worked for a time in the glue department of the Armour concern. One morning Mr. Armour came down to the packing house at 6:30 o'clock. He walked through the glue department and found Lorimer the only man there. "Do you get down at this time every morning?" asked Mr. Armour. "Yes, sir," Lorimer replied, "when you are in the city, sir." It wasn't long until Mr. Lorimer's salary was increased.

A Simple String of Pearls.

One New Yorker was telling another how beautiful Mrs. John R. Drexel looked at a function the previous evening, though she was simply dressed and wore not a sign of decoration save a simple string of pearls. "Don't know anything about the cost of women's dresses, of course," said the other, "but the 'simple string of pearls' you speak of was selected and matched by a famous expert and cost \$20,000. Each pearl swings from a diamond, which in turn is fastened to a band of sparklers. It's a 'simple string of pearls' with a vengeance."

Degerming Corn.

The degerming of corn—that is, removing the yellow germ from the tip of each kernel—is necessary in all corn for export, because the germs when corn is in the hold of a vessel start a fermentation which spoils the whole cargo. The product each year of this degerming is about 5,000,000 gallons of corn oil, which has heretofore been used to adulterate linseed oil, but now a process for clarifying it and removing its peculiar odor brings it into competition with olive and cottonseed oil.

Free Seats and Dress Clothes.

Oscar Hammerstein, the New York theater manager, is a great stickler for evening dress at the playhouse, especially among guests of the management. "The least a deadhead can do," he says, "is to dress up. It makes me tired to see a man in free seats in a sack suit. If he and his friend are in evening dress, they look like \$4, even if they ain't."

Eyes Bigger Than Stomach.

Mamma—Why, Bobbie! Crying at the table? What is the matter? Bobby (quite sobby)—There's four kinds of cake, an' I'm only hungry enough to eat two.—Brooklyn Life.

Landed.

"What is land?" "That part of the globe which is above water." "No; that is only dry land."—New York University Triangle.

Prejudicial Testimony.

"George has a pretty smart boy, hasn't he?" "George says so, but I'd just about as soon take the boy's word for it."—Cleveland Plain Dealer.

The neighbors of John DeGrow gave him a "bee" Monday to aid him in his spring work. Mr. D. has been suffering with sore eyes for some time past.

Supervisor Renno says that the Hale correspondent was mistaken in his statement in the issue of April 24, when he said Mr. Renno was pushing his vocation as an optician. Our supervisor wishes the correction made so that his many friends whom he knows will be holding orders for "specks," need not ruin their eyes waiting for him. He also congratulates the mistaken optician on his evident good looks.

A Starting Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at J. E. Dillon and G. S. Darling's Drug stores.

**Weekly Crop Bulletin.**

From U. S. Department of Agriculture, Michigan section, for the week ending May 4, 1903.

The mean daily temperature for the week ended May 2 was 48.0 degrees, or 0.7 of a degree below the normal; the average total precipitation was 0.32 of an inch, or 0.29 of an inch below the normal; the sunshine averaged 61 per cent of the possible amount.

The week began warm and balmy, but soon changed in character to cold and windy, with heavy and killing frosts on Friday and Saturday; the advent of cold weather on Thursday and Friday was accompanied by showers, changing to hail, sleet and snow.

The frosts slightly damaged young clover, and nearly every fruit county reports some injury to strawberries, early peaches and cherries; the extent of the injury has not yet been determined, but it is probable that strawberries and early peaches have been affected the most.

The cold weather has again checked the growth of wheat, rye, meadows, and pastures and retarded the germination of oats, peas and barley. Wheat mostly continues healthy, but has made very little growth; pasturage is still short and scanty.

Wet, cold ground has rotted some oat seed and necessitated reseeded on low land. Oat, barley and pea seeding are nearly completed in the Lower Peninsula; farmers are beginning to sow oats, peas and spring wheat in the Upper Peninsula. Plowing for corn, beans and sugar beets is becoming general in the southern and central counties and sugar beet seeding is quite generally beginning in the principal sugar beet counties. Early potato planting is in progress in most of the central and southern counties.

**Notice of Board of Review.**

Notice is hereby given that the Board of Review of Tawas City will meet at the City Hall, in said city, on Monday, the 18th day of May, 1903, at 9 o'clock in the forenoon, and will continue to be in session at least four successive days, and at least six hours each day, beginning at 9 a. m. each day, at which time and place the several assessment rolls of the said city will be reviewed and equalized by said board.

E. A. CRANDALL, City Clerk.

Dated at Tawas City, Mich., May 2, 1903.

**TO DISCUSS GOOD ROADS.**

**National and International Convention to Be Held.**

The National Good Roads association has issued invitations for the national and international good roads convention to be held in St. Louis April 27 to May 2, to promote interest in scientific road construction, says the St. Louis Republic. W. H. Moore, president of the Good Roads association, recently made the following statement as to the objects of the convention:

"The convention has for its purpose the broadening of interest in the good roads question and the initiative for a greater demonstration during the world's fair in 1904.

"The question of road improvement is receiving more attention than ever before. This country is behind all others in the civilized world in road construction. More than 90 per cent of its area is destitute of improved roads, burdened with primitive methods of roadmaking and made almost impassable from mud in winter and insufferable from dust in summer.

"Persistent agitation of the good roads question must be kept up until public sentiment shall demand the improvement of highways that in their present condition are barriers to social and commercial progress.

"The chief subject demanding public attention is industrial improvements, the most important of which is the betterment of the common roads. The convention will hear discussions upon scientific methods of common road construction, including plans for providing for their cost and maintenance, together with recommendations for practical public road legislation. The nations of the world are commercially and socially interested in this important question. They will be represented in the convention."

**Good Roads Versus Good Schools.**

One of the most beneficial results of road improvement is the facility it gives to consolidate country schools and thus concentrate our children into central buildings, so making graded schools possible in our country districts. Where improved roads exist the children by means of bicycles easily go long distances to central schools. Thus graded roads make possible graded schools, the improved roads working in harmony with the state education law, giving the children of the rural districts the same advantages as those residing in cities. In one year forty-four Connecticut towns by means of improved roads were enabled to give free transportation to a large number of their pupils, says the New York Tribune. Eighty-four small schools were closed, and 849 children rode to the central schools. The cost of transportation was about \$12,000, but a gross amount of some \$20,000 was saved, leaving a net saving of some \$8,000. This saving was only a small part of the benefit derived, for it resulted in a better attendance and better schools. This close co-ordination between improved roads and education cannot be too strongly impressed upon the public attention.

**Roadbuilding in California.**

The experience in California has shown that even the longer term convicts can be employed to great advantage by the state in quarrying and crushing stone at one or more central points for use in permanent roadbuilding. Stone is being extensively crushed in this way in California at less than half what it costs to do this work with hired labor in other states. The quarries used for this purpose are surrounded by a strong stockade, which also incloses the convict quarters, and the escape of prisoners under such conditions is not greater than that from the state prisons.

**A Sure Thing.**

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for consumption is a sure cure for all lung and throat troubles: Thousands can testify to that. Mrs. C. B. VanMetre, of Shepardsville, W. Va., says "I had a severe case of bronchitis and for a year tried everything I heard of, but no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by J. E. Dillon and G. S. Darling Druggists. Trial bottles free. Regular sizes 50c, \$1.

**Memorial Day.**

General orders have been issued by Commander Anthony, of the Michigan G. A. R., calling upon the posts throughout the state to properly observe Memorial Day. The general orders say:

"Let the sacredness of the day be upheld by discouraging all efforts on the part of selfish interests to make it a day of sports and games. The day is sacred to the memory of our noble dead. Let us strive to keep it so."

**A Startling Test.**

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. Try them. Only 50c at J. E. Dillon and G. S. Darling's Drug stores.

**Big Attendance at U. of M.**

The attendance at the University of Michigan for the current college year is the largest in the history of the institution. The forthcoming calendar will show a net enrollment of 3792, which is 80 greater than the enrollment of 1900-1, which was the largest up to the present year. During the last ten years the attendance has increased by more than one thousand, and in the last fifteen years by more than two thousand.

The gain in students this year over last has been made by the engineering department, 120; summer sessions, 95; law and homeopathic departments, 9 each; pharmaceutical department, 1. The losses in enrollment are sustained by the medical department, 58; dental department, 54; and literary department, 6.

Every state, territory, and possession of the United States, save Alaska, is represented by students. The Michigan students are more than 55 per cent of the total. While the number of students from Illinois is less than last year, the number from Ohio, Indiana, New York, and Pennsylvania, is greater. There are five students from Porto Rico, and three from the Philippine Islands.

Forty-six students come from 14 foreign countries or the provinces of foreign countries. Of the 46, 13 are from Ontario, 6 from Japan, 6 from Mexico, and 4 from Turkey.

Quick, of Tawas township, county of Isosco, and state of Michigan, to Charles H. Prescott, of the city of Cleveland and the state of Ohio, which said mortgage was recorded in the office of the Register of deeds of Isosco County, in Liber 9, of mortgages, on page 467, on the 10th day of April, A. D. 1890, at 2 o'clock p. m.; and the amount claimed to be due and remaining unpaid on said mortgage at the date of this notice being the sum of Three hundred Forty-five Dollars (\$345.00), principal and interest, and a stipulated attorney fee of Twenty-five Dollars (\$25.00); and a suit now proceeding at law having been instituted to recover the debt secured by said mortgage, or any part thereof:

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said mortgage, and in pursuance of the law in such case made and provided, the said mortgage will be foreclosed by sale of the mortgaged premises therein described, to-wit:—the South half of the South half of the North-east quarter of Section Thirty-three, Town Twenty-two North of Range Seven East, at public auction to the highest bidder, at the front door of the Court House in Tawas City, in said county of Isosco, (said being the place where the Circuit Court for said county of Isosco is held,) on the 13th day of July, A. D. 1903, at three o'clock in the afternoon.

Dated, Tawas City, April 13th, 1903.  
CHARLES H. PRESCOTT, Mortgagee.
