Railroad to Black Lake.

Some months ago this paper stated that a branch of the D. & M. would probably touch Black Lake this year, and within the past few days it became evident that it is a certainty. The direct cause of this road was the formation of the Onaway Limestone Co., with \$100,000 carital, to exploit the limestone bed of J. M. Clark, of Stony Point.

E. J. Lobdell, J. M. Clark, and some Eastern capitalists are interested in the company and it is understood that it has a contract with the sugar factory at East Tawas to furnish the lime rock for refining purpos-

It is stated that trains must be running by Sept. 1st. As soon as the survey is finished a gang of laborers will be put on to rush the grading and laying of rails. It will develope the natural resources of Black Lake as a summer resort, as the beautiful shore will soon be bought up for cottage sites and Onaway will become a suburb of the future cement city .---Onaway Outlook
