In sums of from \$50 to \$5,000, on long time, at low rates and on liberal terms.

LLOYD G. McKAY, Cashier.

THE YACHT RACES.

The Detroit and Cadillac Will Race For a Special Prize.

The annual regatta of the Tawas Beach Yacht Association will begin on Tawas Bay next Monday and continue for four days. This promises to be the greatest meeting ever held here.

The special feature will be a race between the cracked yachts Detroit and Cadillac for a purse of \$250 and a handsome silver punch bowl.

The best yacht on the great lakes will be here to compete for the many valuable prizes offered in addition to \$750 in cash. The official program has just been issued and is as follows:

Monday, August 31—Reception on board yachts in the afternoon. Smoker in the evening at Tawas Beach club house.

Tuesday, Sept. 1—Special purse race between the old 35-footers, such as the Cadillac, Detroit Illinois, Beaver, Genesee, etc., for The Free Press silver trophy and \$250. Best two in three races. The course to be decided by the regatta committee. Preparatory gun, 9 a. m.; starting gun 9:10 a. m. The starting and preparatory guns will be fired at the same time as for the first races.

Free-for-all over straightway course—Preparatory gun 9:30 a. m.; starting gun 9:40 a. m.; first prize, \$75; second prize, \$40; third prize, \$25; fourth prize, \$10.

Wednesday, Sept. 2—Second special purse race for D. & M. silver cup and \$150 in purses. Preparatory gun, 9:30 a. m.; starting gun, 9:40 a. m. Course triangular. 15 miles. First prize, D. & M. silver cup and \$75; second prize, \$40; third prize, \$25; fourth prize \$10.

Thursday, September 3—Special purse race, free-for-all, triangular course. Preparatory gun, 9:00 a. m.; starting gun, 9:10 a. m. First prize, \$70; second prize, \$30; third prize, \$20; fourth prize, \$15.

Entries for all races must be made with the secretary-treasurer of the association at headquarters before 5 p. m., Monday, August 31. Previous to that date address East Tawas, Mich.

The rules of the Yacht Racing Union in conjunction with those especially formed by the I. L. Y. A., will go.

A measurer's certificate from the home club must accompany each entry. This rule will be enforced.

In all cases the number of competing yachts must exceed the number of prizes given.

All starts shall be flying, and shall be one gun starts. At the expiration of ten minutes the second gun will be fired as a signal to start.

Thursday, Sept. 3—Special free-for-all power boat race. Preparatory gun at 1 o'clock, start at 1:10 p. m.

Herd of 40 Buffaloes.

Howard Eaton of Medora, Mont., still owns the largest herd of buffaloes in the world, despite the fact that he has made several sales lately.

He sold one bull and four cows to Paul McCormick of Billings recently, and last week sent a bull and two cows to Winnipeg, where they will be put into the public zoological gardens.

There is money in raising buffaloes. Eaton gets \$600 a head for his bulls and \$400 for the cows.

He has 40 in his herd at Medora and they increase with a reasonable degree of rapidity.

Suicide Prevented.

The startling announcement that a preventive of suicide has been discovered will interest many. A run down system, or despondency, invariably precede suicide and something has been found that will prevent that condition. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerveine, will strengthen the nerves and build up the system. It's also a great liver, kidney and stomach regulator. Only 50c. Guaranteed by G. S. Darling or J. E. Dillon, druggists.

To Cure a cold in One Day.

Take Laxative Bromo Quinine Tablets. All druggist refund the money if it fails to cure. E. W. Grove's signature on each box. 25c.

GENERAL NEWS.

Last Saturday a bolt of lightning did \$500 damage to the Arenac county court house at Standish.

Lord Salisbury, the distinguished English statesman, died at London, last Saturday evening, at the age of 73 years.

Rev. F. J. Blanchard, who has been pastor of the Oscoda Baptist church for the past three years, closed his labors there and will attend school the coming year.

The A. S. & N. W. Ry. telephone linemen, near Mio, have been busy the past week transferring the company's line from the old branch to the new one, where the company's camps are now located.

All church-members of whatever denomination will be interested in Ernest F. Eilert's article in the September WOMAN'S HOME COMPANION, which tells of the great good work of the Lutheran church.

Contracts for building the Wellington R. Burt school at Saginaw for manual training have been let as follows: To James S. Kerns & Sons, mason work, \$51,599; Hugh Speacer & Bros., carpenter work, \$34,889; total \$86,488.

The Reliance took the first of the cup races last Saturday, beating the Shamrock III by nine minutes, over a 15 mile run to windward and return. Tuesday the Reliance won the second race over a triangular course by one minute and nine seconds.

The Washtenaw county officers are disputing as to the manner of death of William Bentz, the farmer whose body was found near his Dexter home. Sheriff Gauntlett thinks the man committed suicide, while the coroner thinks it murder. A local maniac may have done the deed.

Daniel McCallum, an old lumberman of Alpena, was run over and killed last Friday night by the D. & M. freight going north. The accident occurred three miles south of Alpena. His body was literally cut to pieces and strewn along the track for a distance of ten rods. The deceased was 56 years of age.

The packhouse of the Ontario Powder Co., at Tweed was blown up Saturday and three men—Charles and Lyman Moon and Edward Tebo—were torn to shreds, pieces of their bodies were found hanging in the trees in the vicinity. The building was demolished and many windows broken in the town by the explosion.

It is rumored at the Agricultural college at Lansing that the United States government experiment station in horticulture will be removed from M. A. C. to the sub-station at South Haven. As the latter city is in the middle of the Michigan fruit belt, it is thought that the work can be carried on in that locality to better advantage.

With the trial of Mrs. Mary McKnight, of Kalkaska county, postponed to the next term of court, interest in her case will die out for the time being. Her suffering, both mental and physical, will be as keen as ever. Her confinement in the Kalkaska jail is telling on her decidedly. Her appearance is far different from what it was at the time of the hearing.

Where 10 years ago the annual disbursements of the state were a little over \$3,000,000, they are now upwards of \$7,000,000. Last year, according to the report of State Treasurer McCoy, the total disbursements of the state were \$7,387,535.81. The receipts for the year were \$8,450,829.99, with a balance on hand of \$4,517,105.32, which includes the state treasurer's deposit in the City Savings bank of Detroit, of \$75,000.

The work on the extension of the D. & M. to Black Lake is progressing slowly. It was agreed that trains would be running by September 15 but greater speed must be made than is yet manifest if it be done. A gang of men are now at work on the rock ledge, under charge of Mr. McGill, an expert quarryman, getting the rock stripped and docks built, ready for business as soon as the railroad is completed.—Onaway Outlook.

Phone No. 68.

TAWAS CITY, MICH., Aug. 28, 1903.

Whittemore.

Harvey Bayes has gone to Prescott's farm to work.

Sandy McDonald was a county seat visitor yesterday.

George Armstrong was at Tawas on business Tuesday.

Misses Schroyer and Ferry were at Tawas Wednesday.

W. S. Hall was in Tawas City two days this week, on business.

Little Leon Schroyer has the scarlet fever, but Dr. McColl is attending him and we look for a speedy recovery.

The Sunday school picnic, scheduled for last Wednesday, was postponed on account of the prevalence of scarlet fever.

Our school will open again Monday in charge of Prof. Campbell, with Miss Lena Redhead, of Tawas City, as primary teacher.

Our genial station agent is again on duty, after enjoying a honeymoon. Hereafter the trains will be on time and everyone is happy.

John Hess has purchased a new Huber engine and will soon be in the thrashing business. We predict a successful season for him.

There was a reception at the home of L. C. Dutton on Tuesday evening.

The C. E. society put up a nice little surprise on the happy couple and invaded their sanctuary, testifying their appreciation and esteem by their presence and presents. Some nice little speeches of presentation and acceptance were made, refreshments were served, and a most enjoyable time was had. All join in wishing them a long, happy, fruitful, useful married life.

The boys are much exercised over an article published in the Herald of last week. They have mistaken the author and testifying their disapproval, by sly hints and disreputable means, such as throwing apples and misles at houses after dark. There is no quarrel with the boys, but we purpose standing by "any party" who will make an attempt to enforce law, order and good government in our village.
ELI DUTTON.

Laidlawville.

William Munderbank, Joseph Deno, Roy Deraney and Dan O'Neil, of Saginaw, are enjoying several days camping at Sand Lake.

Mr. and Mrs. J. Zeptful returned to their home in Lancaster N. Y., after two weeks visit with August Zimmith and wife. Mr. Zeptful admires Iosco County very much.

Some of our farmers are beginning their fall ploughing.

Everybody in Laidlawville went cranberrying Monday, but no one found a greater quantity than they could easily carry home.

Joe Zimmith is home for a few days.

Mrs. Jas. Shippy and daughter Maude, are visiting at Alma.

M. McLeod is busy taking the school census this week.

Mr. and Mrs. A. Zimmith are entertaining Mrs. P. Hottis and two little daughters, of Whittemore.

Mr. Colger, of Wilbur, called on Mr. McLeod Sunday.

Wanted—A woman capable of doing general housework, to whom we will pay good wages. Apply to,
MRS. TEMPLE EMERY,
East Tawas, Mich.

Reno Rumbings.

The two Mesdames Colvin's were welcome guests at Taft, last Sunday.

Grant Murray and wife have returned, after a few days absence.

Contract peas seem to be taking everybody's time this week. They are being loaded and shipped to Detroit.

Mr. Smith, of Bay City, is fencing his ranch near Sand Lake.

Mr. Brown is preparing to build a house and barn on his ranch, four miles west of Taft.

Mr. Jackson is at present making preparations to fence his ranch. He is looking for the wire on every train.

Jim did not buy a threshing machine. Did he Charley?

Boys; have your cow-bells, saws, guns and horns ready. There is going to be a few more weddings in the very near future.

The average industrial wage in America is higher than in England by, in blast furnaces, 40 per cent, foundries 100 per cent, engineers 70 per cent, boiler makers and iron ship builders 100 per cent, cotton spinners 75 per cent, cutlery 100 per cent, weavers 10 per cent, tailors 200 per cent, boots and shoes 70 per cent, leather works 35 per cent and bookbinders 100 per cent. Tube makers, carpenters, furnishing trades and paper makers get higher wages in America than in England, while iron and steel workers and shipwrights get the same. Such is the report of the English commissioners for the several trades who recently spent three months investigating our methods and conditions at the expense of Mr. Mosely.

American Cigarettes in India.
It is now said that the cigarette trade of India, an enormous and a growing one, for every native smokes, has been captured by America. It is the old story over again—surplus stock sold at ruinous prices. Ten American cigarettes, done up in a box, can be bought today in any Indian bazaar for a halfpenny. The native merchant pays 3s. 6d. a thousand for them, a price which includes all charges, duty, etc. Of course, neither English nor Indian tobacco merchants can withstand such prices.

Shipments of Fruit to the North.
Some idea of the enormous dimensions of the fruit and garden truck traffic from the south to the north in the spring months can be gained from the fact that on one day a little while ago the Atlantic Coast line shipped thirty-four refrigerator cars full of strawberries from Wilmington, N. C. As each car holds about 8,000 quarts, the total shipment amounted to 272,000 quarts. This shipment was only one of many.

Agriculture in Mexico.
Statistics for 1901 show that Mexico produced corn worth \$104,000,000; wheat, \$24,000,000; rice, \$2,333,333; beans, \$16,000,000; chili, \$6,000,000; sugar, \$11,000,000; dark sugar, \$7,000,000; sirups, \$6,000,000; tequila, \$4,000,000; pulque, \$5,000,000; heniquen, \$22,000,000; litle, \$1,000,000; cotton, \$6,500,000; cocoa, \$1,500,000; coffee, \$9,000,000; tobacco, \$8,000,000; vanilla \$1,333,333; chicle, \$1,000,000; rubber, \$334,000.

Russia's Monopoly of Asia Minor.
The whole northern part of Asia Minor, according to the treaty between Russia and Turkey, is now placed under such conditions that Russian capitalists have the area open to them, to the exclusion of foreign enterprise. A situation analogous is found in Persia, where the entire northern portion is acknowledged to be under the exclusive economic influence of Russia.

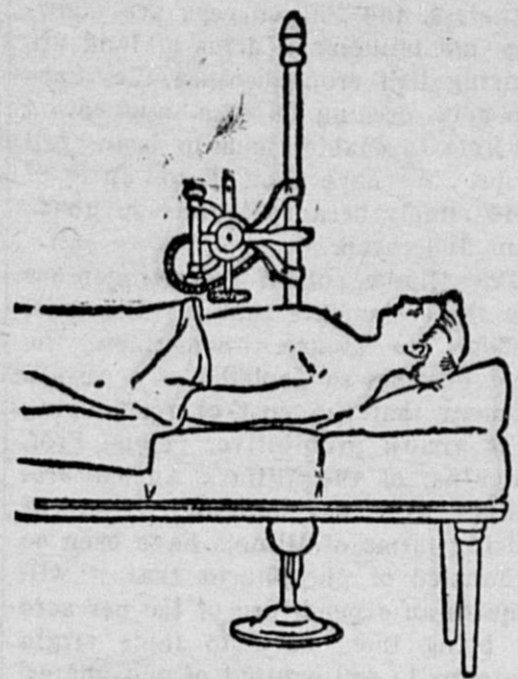

Connecticut Watches in China.
Almost every male Mantchoo carries a Connecticut dollar watch. The United States had no trade worth mentioning with Manchuria until we began to furnish Russia ties, rails and engines for her railways. Now the trade in flour and cottons is important.

LAVISH VISITORS TO PARIS.

Maxim, the proprietor of the famous Frivolous, an all night Paris restaurant in the Rue Royale, known to all American and English visitors, and whose chief business was done in the three hours after midnight, has bought the Embassadeurs and the Alcazar, two famous places in the Champs Elysees. Hitherto these have been open air music halls, but Maxim intends to transform the Embassadeurs into a theater and the Alcazar into a restaurant. The price paid for both properties is about \$200,000. Maxim, who used to be head waiter at Weber's, made a large fortune in the past decade, mostly out of Americans and Englishmen. The Marquis de Dion says that he, the Prince de Sagan and Max Lebaudy, son of the sugar magnate, assisted in opening Maxim's, thereby making the place famous. Lebaudy is dead, De Sagan is bankrupt and De Dion has gone into trade, while Maxim has become enormously rich. Maxim's fortune is an indication of the lavishness with which foreigners spend their money in Paris.

So much is heard of the different treatments and cures for nearly all the ills to which man is heir, or thinks he is, that possibly interest will be shown in the machine recently designed by a southerner, seemingly to produce an effect exactly the reverse from the rest cure which has been preached in recent years. This new apparatus will give the movement cure, actually pummeling the different parts of the body until the disease is supposed to be hammered out and the healthy tissue renewed. The patient to be treated reclines on a special couch, fitted with very flexible springs. Mounted on a vertical standard beside the couch is an electric motor, to which is attached a flexible shaft, through the medium of which movement is imparted to an eccentric. As the eccentric revolves it oscillates a vertical shaft with short, sharp strokes, and on the lower end of this shaft is the pummeling device, which is preferably of pneumatic construction, with means for varying the degree of hardness to suit the condition of the flesh to be treated.

Says Corsets Cause Appendicitis.
The death in Paris of the Comtesse Louise de Talleyrand-Perigord, following a very serious operation, calls attention to the great number of society women who have been serious ill, including Princesse de Wagram, Vicomtesse Antoine de Contades, Mme. Alfred de la Ville le Roux, Mile. de France and Mme. Waldeck-Rousseau. Several have had operations for appendicitis. Recently a professor of the faculty of medicine was asked how he accounted for this, and he said: "It is all due to the present fashionable corset, the pressure of which displaces the abdomen, impeding digestion."

Typhoid Antitoxin.
Dr. Allan MacFadyen of the Jenner institute in London has succeeded, by first freezing typhoid bacilli to a hard and brittle state with liquid air, in so pulverizing them that an extract of the toxin contained in the cell substance can be obtained. Experiments have already been made with this extract which indicate that a valuable remedy for the treatment of typhoid fever can be prepared by its use.

Epilepsy Goes With Hydrophobia.
It is related in Vienna that a high Servian official, afflicted with epilepsy, recently went to the Pasteur institute at Budapest for treatment for hydrophobia. Under the Pasteur treatment the wound caused by the bite of the dog soon healed, and with this cure his epilepsy also disappeared. The case is attracting much interest in medical circles.

Railroading.
The proposed demonstration at Lansing, Mich., of Bion J. Arnold's new system of electric railway construction is only another one of several demonstrations and tests which are slowly and apparently surely paving the way toward the future abandonment of steam as the motive power in land passenger transportation. The system is known as "electro pneumatic" and it is promised for it that it will reduce the cost of equipment from 20 to 40 per cent. Substations are to be done away with, thus effecting a large saving in labor.

In brief, the system "eliminates the present rotary converter substation system" and operates "by means of a high tension working conductor, carrying the current to a single phase alternating current motor by means of which the car is driven directly by the motor without the use of the direct current."
Much of the energy which is now dissipated through the stopping and starting of cars will be conserved under the new system, it is said, because the speed is to be controlled by compressed air, and the energy otherwise lost is stored and may be used later as if the car were equipped with a storage battery.

This storage of energy makes it possible to detach the cars from the main line, disconnect the conductor and with the stored power do necessary switching without the use of energy from the power house.

Consumption of Railroad Ties.
The annual demand for railway ties is 400 for each mile of track, and the average life of a tie is seven years. It is an unusual acre of forest that has 800 trees that will make three ties each, and it takes fifty years to grow a tree that will make three ties. Therefore twenty-five acres of forest are necessary for every mile of track. Electric railways included, there are in the United States about 250,000 miles of road.

SCHOOL SHOES

We were aware that School would commence in a few days and anticipated your wants by getting in a large and well selected stock of BOY'S, YOUTHS', MISSES AND CHILDRENS SCHOOL SHOES.

Do not buy until you have looked over our line. OUR FALL STOCK has all arrived, so you will have no trouble in getting Shoes to suit and sizes to fit all feet. As to prices we know they are right also.

Our Clearing Sale on Summer Goods will only continue Three Days next week.

See our ad next week it will do you good.

The Bay City Business College

—WILL OPEN—
SEPTEMBER 1

FOR THE FALL TERM IN

New Location consisting of Two Floors
of New Washington Theatre Building,
Corner of Washington Ave. and Sixth St., Bay City, Mich

Our college has the best situation of any college in the state, but this is useless unless good work is done by the faculty. Our reputation for excellent work is of long standing and we are determined that the coming year shall exceed all previous ones as to results. We GUARANTEE our instruction to be SATISFACTORY and we GUARANTEE THE OFFER OF A POSITION within a reasonable time after the student becomes competent. We are to stay and must carry out the above or GUARANTEE to refund the student's tuition money. Uncle Sam wants STENOGRAPHERS and BOOK-KEEPERS. He needs more than are available. He pays \$1,200 per year to start, raising to \$1,400 in six months. Why not prepare for such a position.
Bay City Business College.

Mrs. C. A. Pinkerton, of East Tawas, has been entertaining Misses Sessler and Green, and John Pinkerton, of Saginaw, this week.

M. E. Friedman, left Monday for Detroit and other points, to buy his fall stock. His sons, Isadore and Hymie, accompanied him.

Mrs. Bert Walker and children, returned to their home at Cleveland last Saturday, after several weeks visit at the home of Alderman Walker.

Henry Kane sold his fine team of chestnut drivers to Robert Rayburn, of Alpena, last week. This is one of the finest matched teams on the shore.

Mrs. I. Hadwin, of Port Sanilac, and Frank Romer, of Detroit, returned to their homes Wednesday, after a visit at the home of George Hadwin, of this city.

Mrs. A. G. Herr, of Port Huron, arrived in the city Tuesday, for a two weeks visit with her brother, Hal A. Grauger and wife. Grace Grauger accompanied her.

For the Labor day celebration at Bay City, Sept. 7, the D. & M. Ry., will sell tickets at one fare for the round trip. Date of sale Sept. 7, limited for return to Sept. 8.

Charles Oliver and wife returned to their home at Saginaw last Friday, after a visit with relatives. Mrs. George Thomas, Sr., accompanied them for a visit in that city.

All who have anything to contribute toward the Isoco County exhibit at the State Fair, are requested to deliver it to the Secretary, at the Herald Office, not later than Sept. 3rd.

The Epworth League will give a Moonlight Excursion on the City of New Baltimore, next Wednesday evening. Tickets 20 cents; children 15 cents. Refreshments will be served.

Wanted—A girl for general house work. Good wages will be paid to a good girl. Apply to, MRS. H. S. WATERMAN, Tawas Beach.

Vine Grange is arranging for a farmers' picnic to be held at Sand Lake, Thursday, September 10. It is urged that everybody attend as it will be a day of solid enjoyment. A good program is being arranged.

Miss Sarah Owens is visiting at Orion for a few days. She will go to Grand Rapids before returning and purchase her stock of fall millinery. Miss Ethel Urquhart is in charge of the store during her absence.

A party composed of Postmaster Oakes and James Richards, of East Tawas, and Harold Richards and Dr. Pelton, of Detroit, left Tuesday for Bamfields, from which point they will make a trip down the AuSable river.

Fred Woyhan has been suffering with a bad case of blood poisoning the past week. While piling lumber on Prescott's dock last Tuesday, he had the misfortune to run a shiver in his left hand.

The new dynamo for the East Tawas electric light plant has arrived and Electrician Frank Black has been busy installing same. Mr. Black is thoroughly familiar with the work and when completed a big improvement will be seen in the city lights.

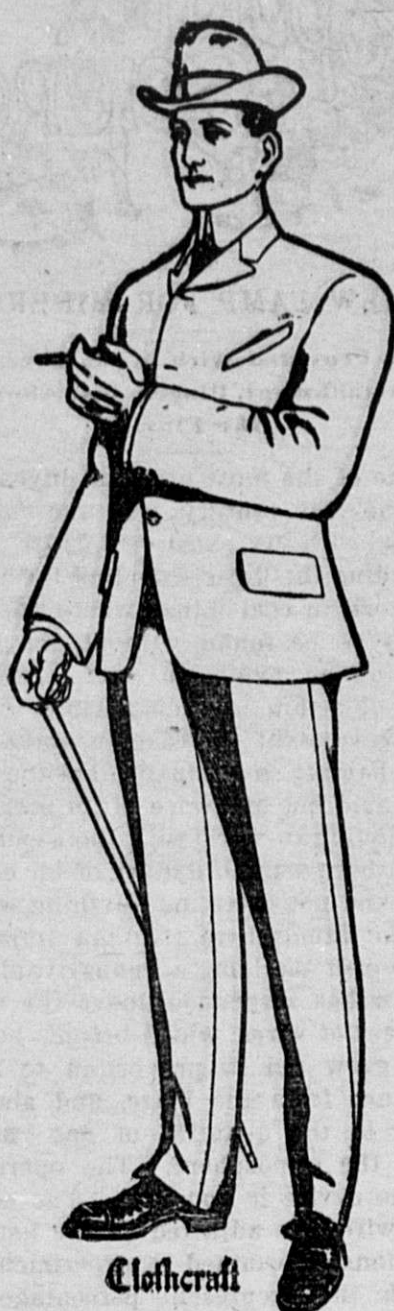

Material is being put on the ground for the erection of the new parsonage for the Em. Lutheran church, to replace the one burned July 4. The new building will be of brick veneered, and a credit to the congregation. The work will be commenced at once.

The \$2000 policy carried in the Modern Macabees, by Dan C. MaRae, was paid to his parents, Mr. and Mrs. Alex. MaRae, of this city, last week. Dan died at Ceon, P. I., on last Christmas, and considering the time required to secure the necessary certificates of death, which had to be sent from here there and returned after the first notice of death had been received here, establishes a record to be proud of by this popular order.

James R. Snowdy and O. S. Burton, two former residents of Whittemore, are branching out in their new homes in Presque Isle County. Last week Jim purchased the Onaway Inter Lake and Ora has formed a partnership with a gentleman named Alderman, and will establish another paper at Millersburg, to be known as the Enterprise. We welcome the boys to the fraternity and wish them success.

Miss Barbour, National Evangelist of the W. C. T. U., who gave a most interesting talk in the M. E. Church last Sunday evening, will conduct a meeting next Tuesday afternoon, for the purpose of organizing a Mothers' Union. Every lady in the city is urged to attend this meeting. The place of meeting will be announced from the pulpits next Sunday also a card will be hung in the post-office.

C. V. Hicks, Alpena music store.

Tawas City.

J. C. Barber, the real estate man, continues to hustle new settlers into Isoco county. This week he has sold farms to Q. C. Martin, of Sebina, Ohio, and Peter Hammond, a prominent merchant of Wilmington, in the same state. E. B. Mills and John Schuster, are two other Buckeyes, who have been here this week prospecting. Besides owning a large number of improved farms Mr. Barber has a large quantity of excellent wild land. He also handles real estate on the commission plan.

Ida May, daughter of Mr. and Mrs. Alexander McCormac, died at the home of her parents, in this city, last Saturday afternoon, of appendicitis. The deceased was 17 years, two months and one day of age, having been born in Alabaster, June 21, 1886. She was taken ill but a few days previous to her death and grew worse so rapidly that Dr. Bishop, of Bay City, was summoned on Thursday previous to her death, and he, assisted by Drs. Thompson and Conant, operated on her, but without avail, death relieving her sufferings. The young lady was an active member of the Baptist church and young people's society, and her untimely death is sincerely mourned by her many young friends. The funeral was held from the Baptist church Monday afternoon, Rev. C. H. Prescott, officiating, and the remains were laid at rest in the city cemetery.

Card of Thanks.

To the many kind friends and neighbors who extended to us every possible aid and sympathy during our bereavement in the death of our daughter Ida, we wish to extend our heartfelt and most sincere thanks.

MR. AND MRS. A. McCORMAC.

An Acknowledgement.

It is our desire to thus publicly announce our thanks to the order of Modern Macabees, for the prompt payment of the policy held in that order by our son Daniel, and especially to the members of Grip Tent, of this city, for their assistance in securing the necessary proofs, etc.

ALEX. McRAE AND FAMILY.

TEACHERS.

The following selections will form the basis of the examination in reading for the year beginning August 1903.

August, 1903—"The American Scholar,"—Emerson.

October, 1903—"A Rill From the Town Pump," from "Twice Told Tales," Vol. I.—Hawthorn.

LATEST FASHION NOTES.

GOWN OF SILVER-BLUE ZIBELINE.

A gown for a semi-formal occasion is always desirable. Silver-blue-zibeline, which is now so much used for both formal and informal occasions, is the material of which this gown is

made. Bands of the beautiful Bulgarian embroidery, executed with Cortelli embroidery silk and a lavish use of handsome Luxenil lace, add very materially to the beauty and finish of our model. The back is sure to please the feminine eye, being done in the popular cascade effect.

The Proper Care of Milk.

There has been some dispute lately about the beneficial effect of mixing air with milk, but for all that the aeration helps to cool the milk quickly, and this is very important for keeping the milk in good condition.

The cans of milk should be set in cold water and cooled to a temperature of 50 degrees as quickly as possible. Do not leave the cover closed tightly on the cans, but place them on top of the cans so that the air will circulate but the milk will at the same time be protected from flying dust. If the milk is kept at a temperature near 50 degrees from the time it is taken from the until it reaches the creamery, the buttermaker will not often have cause to object to the milk because of the improper care it has received. The milk obtained at each milking should be kept separate from that of a previous milking. Never pour warm milk into cold milk, but if the morning's and night's milk must be mixed in order to take them to the factory in the cans available, both should be thoroughly cooled before mixing.

A great many instructions in addition to these may be given in regard to the health of the cows, the feed they are given, and the care of the stables—such as whitewashing it once or twice a year. These instructions are all beneficial, and it will be a paying investment for any dairyman to provide the necessary conveniences for keeping his barnyard and stables well drained and clean; also to provide a good place to keep the milk in cold water, and to give the matter of feed for his cows careful attention.

Musty and dusty feeds or rotten ensilage are especially objectionable for milk cows.

Puts An End To It All.

A grievous wail oftentimes comes as a result of unbearable pain from overtaxed organs. Dizziness, backache, liver complaint, and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by G. S. Darling and J. E. Dillon, druggists.

New Cruiser Launched.

The new armored cruiser, Pennsylvania, was successfully launched at Cramp's shipyards, Philadelphia, on Saturday, Miss Coral Quay, daughter of United States Senator Quay, acting as sponsor. The Pennsylvania has a displacement of 14,000 tons, a horse-power of 23,000, speed of 22 knots an hour and cost \$3,890,000.

The Death Penalty.

A little thing sometimes results in death. A mere scratch, insignificant cuts or puny boils, have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It is the best salve on earth and will prevent fatality, when burns, sores, ulcers and piles threaten. Only 25c at Darling's or Dillon's drug store.

A Mile in Two Minutes.

Before a great crowd of spectators at Readville, Mass., last Saturday, and with track and weather conditions perfect, Lou Dillon trotted a mile in two minutes, a new world's record.

So that no breeze might interfere Millard Sanders, driver of the great mare, brought out the daughter of Sydney Dillon for the attempt early in the day. For pacemakers there were two running horses hitched to road cars, Peggy from Paris and Carrie Nation. On the second attempt the word was given. The trio went to the quarter pole in 30 1/2 seconds.

With never a skip Lou Dillon went so smooth gaited down the back stretch as to lead those not timing the mile to believe that her speed was not alarmingly fast. The half was clicked off in 1:00 3/4.

Around the turn to the three-quarter pole the clip quickened, the third quarter being in 30 1/2 seconds making that mark of her journey in 1:31.

To the amazement of all the last quarter was driven in 29 seconds, thus making the mile in the wonderful time of two minutes.

Those who had witnessed the performance leaped to their feet and sent forth cheer after cheer. Lou Dillon apparently was as fresh as though she had only been out for a jogging exercise. Sanders said he fully believed that before the season closes he will drive the mare in 1:59 or better.

Murder Theory is Accepted.

Ann Arbor, Mich., Aug. 25.—Coroner Watts who from the first has insisted that the death of William Benz of Lima Township, near Dexter, was murdered, has been apparently justified by the results of a post-mortem held Monday.

Determined to satisfy himself and the public as to the cause and manner of the young man's taking off, the coroner took Dr. Theodore Klingmann, of Ann Arbor Mich., to the scene of last Friday's tragedy, who, with Dr. Honey, of Dexter, made a very careful examination.

It was found that the wounds supposed to have been made by the hammer were more numerous and serious than so far reported. In addition to those already known about, they found the skull fractured at the base, behind the right ear, while on the left shoulder there was a concussion as from a blow, and on the breast a severe bruise three inches in diameter. None of these injuries, the surgeons think could have been made with the light hammer thought to have been used.

Another fact that tends to disprove the theory of suicide is that none of the blows on the face heretofore supposed to have been inflicted by the tack-hammer, severed an artery, and because of this it is argued that the bloody stains found in the house could not have been caused by the bleeding of these wounds.

Until the post-mortem established the fact that Benz was struck a violent blow from behind, the people of Dexter were generally of the belief that he had committed suicide. Opinion is in favor of the other theory now, and it is likely a reward will be offered for the apprehension of the murderer or murderers.

End of Bitter Fight.

Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes, of DuPont, Ga. "and gave me up. As a last resort I tried Dr. King's New Discovery for Consumption. The benefits I received were striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds, throat and lung trouble. Guaranteed at G. S. Darling's or J. E. Dillon's drug store. Trial bottle free. Price 50c and \$1.

A Fatal Boat Ride.

Bay City, Aug. 23.—Miss Genevieve Thomas, aged 27 years, was drowned in the Kawkawin river about 11 o'clock last night, while boat riding with E. G. Pike, manager of the local Michigan Telephone Co., and the latter had a narrow escape from the same fate. The Pike and Thomas families occupy the same cottage and about 9 o'clock Pike and Miss Thomas went out for a ride, and toward midnight Pike appeared at cottage and sank unconscious to the floor. His wet clothes indicated what had happened and a searching party at once went out. Miss Thomas's body was found in about six feet of water and was recovered by her brother. Pike says his companion stood up in the boat near the D. & M. bridge to see the Alpena train pass by, lost her balance and capsized the boat. Miss Thomas was well known and popular.

ALL OVER THE HOUSE.

Some Useful Hints on the Subject of Home Decorations.

A touch of bright color in a rather somber room was given by a sofa pillow covered with two fringed and flowered Turkish towels of a deep yellow. An ordinary bed pillow was used, and the towels, after being overhanded together with yellow cotton upon the wrong side, were slipped over the cushion and the fringed ends run by hand close to each end of the cushion, so it could easily be removed for washing.

A pretty cover for a center table can be made of a yard of dull, heavy raw silk tapestry, the edge finished with tassel fringe to match the tapestry.

Any cane seat chair with a pretty back can be decorated so it will be nice enough for the reception room. Pad the seat with cotton covered with denim, cover the denim with silk tapestry, concealing the tacks with upholsterer's braid. Make a rectangular cushion of plush in the same color, line with canton flannel, wad with cotton and tie at the back with cotton cord. Nail to the back with brass tacks, having heads as large as a copper cent. At each upper corner of the pad place a bow of heavy silk cord and one long, heavy tassel.—Lucy B. Haven-Johnson in Housekeeper.

Hollandaise Sauce.

Wash half a cup of butter in ice water, divide into three equal parts, place one part in a saucepan with the yolks of two eggs and half a teaspoonful of vinegar or lemon juice; place the saucepan in a larger one containing hot water and stir continually with a wire egg whip until the butter is melted; then add the second part of the butter and as it thickens drop in the third part, stirring all the time; add one-third of a cupful of hot cream or water slowly; continue stirring; cook one minute; add seasoning. Do not allow the water in the saucepan to boil, as this is liable to separate the sauce. This is one of the most delicious sauces and yet the most difficult to prepare because of the danger of overcooking. It should be the consistency of rich cream.

To Prevent Kitchen Odors.

Kitchen odors are a source of constant annoyance to many householders because they do not know how to prevent or dispel them. This is one of the things in which an ounce of prevention is worth a pound of cure. Do not allow grease to splutter over and do not scorch or burn the victuals which are cooking. Never leave pots and stewpans unwashed or allow them to dry and simmer on the range. A solution of soda water in the proportion of two pounds of washing soda to one gallon of water kept on hand and poured into the bottom of pans and kettles, the solution shaken well up on the shelves, will keep them from becoming odorous until washing time comes, and they will then be easily cleaned.

City Council Proceedings.

Regular meeting of the Common Council of the City of Tawas City, held at the Council Rooms, Tuesday evening, August 18th, 1903.

Present, Mayor Schlechte, Aldermen Stahmer, Schlechte, Walker, Katterman, and Deputy Clerk King. Quorum present.

Minutes of meeting of August 4th read and approved.

Following bills presented and referred to committee on claims and accounts: John M. Waterbury, surveying, \$9 50; N. C. Hartingh, labor on street, 30 47; E. Wouk, labor on street, 1 20; E. Wouk, labor on walk, 2 77; Suple Brabon, Draying, 25; Dan Ross, Draying, 25; Ed. VanHorn, Draying, 25; M. Schlechte, Draying, 25; Walt Brown, Draying, 25.

Committee reporting favorable on above bills. Moved by Walker and supported by Stahmer that bills be allowed and orders drawn for same.

Carried, all voting yes. Moved by Ald. Walker, supported by Ald. Stahmer, that the Street Committee build walks on Lake St. adjacent to lots 3, s. 1/2 of lot 5. N. 1/2 of Lot 5, 20 feet, Lot 7, all in Block 4, Tawas City and present bills to owners thereof for payment.

Carried, all voting yes. Moved by Ald. Stahmer supported by Ald. Katterman, that Street Committee, serve notices upon the owners or occupants of the following described property to build sidewalks. Lots 1, 2, 3, and 4, Block 1, open lot between Lots 1 and 21. Between Blocks 4 and 2, all on 4th street. Lot 1, Block a, Whittemore street, all in Tawas City.

Carried, all voting yes. On motion Council then adjourned.

JOHN B. KING, Mayor. E. M. SCHLECHTE, Deputy Clerk.
