## ENTERTAINMENT COURSE

### That for the Coming Season the Best ever Offered the Tawas.

The Tawas City entertainment course for the coming winter is the best ever offered the people of the Tawas, and should meet with even more pronounced success than those of the past two seasons. Past experience has proven that our people are alive to the advantage of these entertainments and the promoters have made a special effort to secure the best yet offered them. The course will consist of four numbers, and includes the Dixie Jubilee Concert company, which gave such a phasing entertainment here last winter. This is conceded by all to be the best company of colored singers before the public, and that every available seat will be taken on the night of their appearance here can be safely predicted.

The Hearons Sisters Concert company is one of the very best musical combinations. Each member is an artist of exceptional ability and their appearance here is a piece of good luck on the part of the management of the course, as the demand for this company was great and many were disappointed in not booking them. They will please all lovers of music.

George Wood Anderson will lecture on "Baldheads, Inside and Out." Of him, Ralph Parlette says: "No platform speaker in Ohio has come to the front more rapidly. He is in the front rank to stay, and the people have taken him enthusiastically to their hearts. The Lord has given him a great thinker, a great personality, a great gift of oratory, and a great mouth for its escape. Last night I heard him lecture to 1500 people and saw him hold them at high tension from start to finish. I rejoice that the bright future predicted for the Anderson of my boyhood days has proven all to feeble." This is sufficient recommendation that he will prove an acceptable entertainer.

"More Taffy and less Epitaphy" will be the topic on which H. W. Sears, one of the particularly bright stars of the American platform, will entertain our people with, sound logic, true philosophy combined with wit and delivered in a pleasing manner, always makes Mr. Sears popular with his audiences. One cannot hear him with out both feeling better and being better. Lou J. Beauchamp, says of him. "He touched in me the fountains of laughter and tears, and won my affections, respect and love. He is a great-hearted, great-brained, great-souled man, and the platform needs him."

### A Love Letter.

Would not interest you if you're looking for a guaranteed Salve for Sores, Burns or Piles. Otto Dodd, of Ponder, Mo. writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best Salve on earth. 25c at G. S. Darling's and J. E. Dillon's drug stores."

### TEACHERS.

The following selections will form the basis of the examination in reading for the year beginning August 1903.

October, 1903—"A Rill From the Town Pump," from "Twice Told Tales," Vol. 1.—Hawthorn.

March, 1904—Canto V. of "The Lady of the Lake,"—Scott.

TERSELY TOLD

The Detroit Journal is now installing a new quadruple press. It will cost \$30,000, and will print, fold, paste and count 800 papers a minute.

Burton R. Parker, of Detroit, has been appointed supervising special agent of the treasury department, succeeding W. S. Chance, of Canton, Ohio, who is transferred to St. Paul.

When a girl keeps her beau lingering on the front door steps for more than an ordinary length of time you can just bet dollars to peanuts it's her first "feller", and she's keeping him there a while so that the neighbors can see him.

The state department has compiled a synopsis of the fish and game laws of the state, copies of which will be distributed upon request. Previously large volumes containing the law in full were published, but it is believed the laws in this form will be more satisfactory.

In the case of Louis Blanchard vs. the Detroit and Mackinac railway, in which the plaintiff sought to recover damages for an injury sustained while in the company's employ on March 3 1900, Circuit Judge Frank Emerick, Wednesday, directed the jury to return a verdict of "no cause of action".—*Alpena Pioneer*.

The editor of the Review of Reviews comments in his October number on Canada's part in the Chamberlain Zollverein programme, with especial reference to commercial union as a practical policy for the United States and Canada. His comments supplemented and reinforced in an article contributed to the same magazine by Mr. Eugene G. Hay.

The man "on the inside" says that the Warner slate at the state convention will look like this: Fred M. Warner, of Farmington, governor; Alexander Maitland, of Negaunee, lieutenant governor; Edwin A. Wildey, of Van Buren county, auditor general; State Senator Glazier, of Chelsea, state treasurer; Charles Blair, of Jackson, attorney general; and senator Prescott, secretary of state.—*Holly Advertiser*.

The D. & M. has purchased 20 acres of land near the city limits of Cheboygan, and is negotiating for 30 acres more. The property will be used for railroad yards and provide terminal facilities. Practically all the right-of-way between Mullet Lake and Cheboygan have been secured. Two carloads of Alpena Portland cement have been shipped to be used in the construction of the bridge across the Cheboygan river.

In Judge Dunn's court, Standish, the matter in question was the petition of the D. & M. railroad company praying for the condemning of certain lands in Turner township traversed by the railroad line. The respondents were Peter McDonald and W. A. Young. A jury was summoned to view the premises and determine the damage. They agreed that Mr. McDonald should be paid \$275 for damages and W. A. Young \$150.

Saginaw.—Fire which started in the warehouse of A. F. Bartlett & Co. Sunday threatened the entire city, owing to the high southwesterly gale which prevailed. The warehouse and another north of it were destroyed and the flames then leaped across the street destroying the large machine shop and foundry of Bartlett & Co. The buildings of the Christy Buggy Co., were the next to go, followed by the office, two warehouses and machine shop owned by L. Clingofstine. The total losses will foot up at least \$100,000. While the fire was raging the cylinder head in the large engine at the power house of the Saginaw Valley Traction Co., at Carrolton, blew out, crippling the company and causing damage amounting to \$3,000.

**Admits to Slander.**

John Wieman, a farmer of Tawas township, came to the city last Saturday after a warrant for Chas. Curry, of East Tawas, charging him with having poisoned eight head of cattle, and repeated the charges to a number of people. An investigation developed the fact that the cattle had broken into Curry's enclosure and into a summer kitchen and partook of a package of Paris Green, which was in a cupboard, two of them dying from the effects of it. As a result of Wieman's charges, which were false, Curry had him arrested on the charge of slander, and he was brought before Justice Kelly, last Monday, where the case was settled by the payment of costs and the signing of following statement for publication:

The statement of John Wieman of the Township of Tawas, Iosco County Michigan, made voluntarily and freely without any inducements being offered to him. Says that on the 26th day of September A. D. 1903, I falsely and maliciously, without any foundation of truth whatever, did make statements to different persons accusing Charles Curry, of East Tawas, of poisoning my cattle. The statements were made by me maliciously and falsely and without any foundation of truth. The facts relating to the poisoning of my cattle are as follows:

My cattle were pastured on the McMillan place adjoining the premises worked by Charles Curry aforesaid, the cattle broke through the fence; went over to the vacant house on the McMillan place and broke into the summer kitchen of the house on the said premises, where they found a package of Paris Green on the shelf of said summer kitchen, of which they ate, from which eating two head died, for which said Charles Curry is in no way to blame, and in making the statements that I did concerning said Charles Curry, I confess and admit were false and untruthful. Mrs. L. A. Muir lost her pocket book between P. E. Shien's residence and Friedman's store. It was a chain pocket book with her name on the inside.

Thomas Jamieson was at Bay City last week, and enjoyed a visit with his old comrades-in-arms, William Grandy, of that city, and A. B. Cole, of Ann Arbor. They were members of Co B, 29th Michigan infantry, and like all others of the old boys, have most enjoyable visits when they meet.

The funeral of Charles Gates was held from the Baptist church, in this city, last Sunday afternoon, and was one of the largest ever held in this city. Rev. J. Pearson officiated. The deceased was 54 years, four months and eight days of age. He leaves a wife, son and daughter to mourn his loss.

"Self Accused" at the opera house, Wednesday evening by home talent, under the direction of Milton B. Garfield, was greeted with a good house, and was presented in a most acceptable manner, showing careful study on the part of each participant and the result of good work on the part of the director.

John Copeland, of East Tawas, died Monday evening. On Saturday evening about 7:30 o'clock, Mr. and Mrs. F. C. Baker who reside adjoining the home of the deceased, were attracted by unusual noise, and on investigation found Mr. Copeland lying on the floor of his sleeping apartments partially undressed, with his head in a pool of blood.

Dr. Gates was called Sunday morning and found him suffering from concussion of the brain, which appeared to have been caused by a heavy fall or blow on the head. A coroner's inquest was held before Justice Tat Monday evening, and the investigation convinced the jury that the deceased came to his death by falling and striking his head on an iron-bound trunk, while in the act of undressing. The deceased was 77 years, 11 months and 19 days of age, and was born in Ireland. He is survived by eight children. The funeral was held from the Presbyterian church Wednesday afternoon, Rev. A. C. Kay officiating.

**LATEST FASHION NOTES.**

**A PRETTY TAFFETA WAIST.**  
 Separate waists are always in demand and this pretty bodice is handsomely trimmed with point de Venise lace, and black velvet ribbon. The yoke is of lace, and extending down the entire front is a broad lace band, which runs around the waist just under the arms, and also just above the waist line. These bands of lace are very effectively finished with narrow black velvet ribbons, three rows of which also appear on the cuffs. The sleeves may be made elbow length with the deep cuff used, same as the cut. Corticelli sewing silk is generally used on a waist of this kind, which is made over an unboned lining of thin idea silk, and is hooked under the arm,

Black is always a safe color for an elderly woman to select. Also some shades in gunmetal and deep purple are very becoming to women with grey hair. These may be trimmed with white facings, the jackets often showing a jabot in front, which gives a soft full effect. Crepe de China is also much used and is deservedly popular. A grey crepe de Chine trimmed with black, or white trimmings, is most charming for an elderly woman the white softening the severity of the dead black.

**Another Good Year.**

The annual report of the Detroit & Mackinac, just published, says the past year was very prosperous. No passengers were killed or injured, and freight and passenger statistics are satisfactory. The policy of giving frequent cheap excursions, with better train service, has increased the passenger earnings from \$73,122.89 in 1896 to \$224,769.78 for the past year.

"It is believed," says President Hawks in his report, "that our towns have ceased to go back, and are all showing a steady and permanent increase in population, due to the introduction of other industries in place of the pine lumber industries. The Hecla Cement & Coal Co. is making cement at West Bay City; East Tawas has a new sugar factory; Alpena will soon have in operation the plant of the Michigan Alkali Co. to supply limestone to the Wyandotte Soda Ash works and to beet sugar and chemical works throughout the state, as well as crushed stone for paving operations, and a quarry is being opened at Black Lake, five miles from Onaway, for furnishing stone and lime. Ten miles of the extension to Cheboygan has been partially completed during the year, and it is hoped to have trains running into Cheboygan by January 1."

Besides stimulating the development of various industries along the road, Mr. Hawks is doing all he can to work up sentiment for a second growth of timber. "Considerable attention is now being directed to forestry in Michigan," he says in his report, but until forest fires are stopped by law it is hopeless to expect much progress in raising second growth timber. No better chance for studying a second growth timber can be had in Michigan than at Tawas Beach, where the company has kept out fires for several years.

The gross earnings of the road during the past year were \$953,708.23, operating expenses, \$571,646.87, net earnings \$382,061.36, less interest \$92,000, dividend, \$23,750; taxes, \$90,493.01, surplus for year, \$171,718.30; total surplus, \$730,746.30. Freight earnings for the year were \$682,269.79.

**Experimental Work of Country Boys.**

The experimental and observation work of the boys, thus far, has consisted in testing the vitality of various seeds, planting corn and noting growth, testing smut in oats, experiment with sugar beets, etc. In making investigations with reference to smut in oats, each boy was directed to go into four different fields and make three counts in the same field by placing a barrel hoop over as many stalks of grain as the hoop might enclose, and then counting and recording results. The percentage of smut was determined by the boys. Some of the work that came under my personal direction showed a percentage of smut from three per cent., the lowest, to 23 per cent., the highest. This was practical work in arithmetic.

Each boy, last year, was given two pounds of sugar beet seed by the experiment station at Urbana. The department wanted to interest the boys and see at the same time whether sugar beets could be grown with profit in this dairy region of northern Illinois. The illustrations with this article shows some of the boys with their plots of sugar beets and prize, growing corn. Some very fine beets were raised by the boys. They selected specimens and sent them to the experiment station to be analyzed. The remainder were fed to the stock on the farm.

The boys concluded that if sufficient help could be secured at a reasonable wage, sugar beets could be grown here with profit. One boy kept an exact account of labor, rent of ground, etc.—in short, the first cost raising his beets. His plot comprised forty-five square rods of ground. The total cost of cultivation, harvesting and rent of ground was \$19.75. The number of bushels raised was one hundred and eighty-three, thus making the cost a trifle over ten cents per bushel. These beets tested the best of those received at the experiment station, showing 18 per cent. sugar and 86.7 purity coefficient. This was practical work for the boys, and many of them are keeping note-books on the present year's work.—From "Learning by Doing, for the Farmer Boy," by Sup't O. J. Kern, in the *American Monthly Review of Reviews* for October.

**Would Curtail Bishop's Power.**

The action of the lay conference at Jackson, looking to a request to the general conference to make the power of the bishop in the matter of appointments less autocratic, was fully endorsed by the ministers. Resolutions were adopted by the latter asking President Roosevelt to recommend measures to congress calculated to end the traffic in opium; demanding that Roman Catholic countries accord to protestants in catholic countries the same degree of religious freedom they themselves enjoy in the United States (reference being had to alleged suppression in Peru); and congratulating the management of Albion college.

Here is a truism, several of 'em, from the Petersburg Sun: A newspaper is a pretty good index of a village. This is recognized everywhere. If the paper has a healthy appearance the village is generally set down as healthy. Thousands of people see the paper representative of the village that have never seen the town and form their good opinions. The value of these opinions cannot be measured. Smiles, good words, a friendly grasp of the hand, cost but little effort, yet they are a mighty influence. A healthy looking and live newspaper makes a healthy sentiment and healthy sentiment makes a healthy town.
