So far as known he had no relatives, and when taken sick he was taken to the county farm that he might have proper care.

The remains were taken charge of by friends and brought to Armstrong's undertaking rooms in this city, and arrangements for the funeral are now being made.

# Death of a Centenarian.

At the home of his daughter, Mrs. Thomas G. McCausland, in Alabaster, last Friday morning, occurred the death of John Pesick, at the advanced age of 99 years, 7 months and 10 days. ONE SHOULD SEEK TO CLOSE HIS EYES TO THE TRUTH THAT THE RACE IS PASSING THROUGH A VERY SERIOUS AND TRYING PERIOD OF ITS DE-VELOPMENT, A PERIOD THAT CALLS FOR THE USE OF OUR RIPEST THOUGHT, OUR MOST SOBER JUDG-MENT AND FREQUENT APPEALS TO HIM WHO HAS PROMISED STRENGTH TO THE WEAK.

During the season through which we are now passing I wish to ask with all the emphasis I am able to command that EACH INDI-NIDUAL of the race keep a calm mind and EXERCISE THE GREATEST DEGREE OF SELF CONTROL and that we all keep a brave heart. LET NOTHING LEAD US INTO EX-TREMES OF UTTERANCE OR ACTION. By this method of procedure we shall be able to justify the faith of our friends and con-

found our enemies. In the affairs of a race, as with great business enterprises, IT IS THE INDIVIDUAL OF FEW WORDS AND CONSERVA-TIVE ACTION who commands respect and confidence. Vastly more courage is often shown in one's ability to SUFFER IN SI-LENCE or to keep the body under when sorely tempted than in acting through the medium of a mob. IN THE LONG RUN it is the race or individual that EXERCISES THE MOST PATIENCE, FORBEARANCE AND SELF CONTROL in the midst of trying conditions that WINS HIS COURSE and the respect of the world.

By Rev. Dr. LYMAN ABBOTT

HE WOMAN OF OTHER YEARS NEVER DREAMED THAT SHE WAS GREAT OR THAT SHE WAS SPECIALLY USEFUL OR THAT SHE HAD ACHIEVED ANYTHING WORTH LIVING FOR. HER UNCONSCIOUSNESS WAS HER CHARM. SELF CONSCIOUSNESS WOULD HAVE SPOILED HER.

She was not a great woman; at least no one thought her so. IN TRUTH, THEY DID NOT THINK MUCH about her. THEY SIMPLY LOVED HER. She wrote no books; her letters never circulated in a wider circle than that of a few favored friends. Her song of love was too sacred and she was too shy to sing it to the public or to strangers. She had admiration for women with a "gift;" sometimes she was a trifle tempted to envy them. But

she had no "gift" herself. Her only singing was a lullaby to her own baby.

HER SPHERE WAS HER HOME. It grew up quietly, as quietly as a flower grows, and no one knew-she did not know herself-how much she had done to tend and water and train it.

HER HUSBAND HAD ABSOLUTE TRUST IN HER. He earned the money; she expended it. 'And as she put as much thought in her expendi-

tures as he put in his earning EACH DOLLAR WAS DOUBLED in the expending.

This was the woman who in other years MADE HAPPY HOMES and husbands. THIS IS THE WOMAN STILL FOUND IN THE WORLD BY PEOPLE WHO KNOW WHERE TO LOOK FOR HER.

Ah, blessed home builder! You have no cause to envy women with a "gift," for there is NOTHING SO SACRED on earth 'AS A HOME and no priest on earth so divine as the WIFE AND MOTHER WHO MAKES IT and no gift so great as the gift which grafts the bud of heaven on the common stock of earth.

# Uncle Sam's Wealth.

Now that the season of annual rcports of the United States treasury has arrived, the people of the country are reminded that Uncle Sam's riches are enormous-so huge, in fact, that the mind is absolutely unable to compass them. Here are a few of the salient facts of the national wealth gleaned from Secretary Shaw's annual report, the annual report of the director of the mint, the monthly statements (Dec. 1) of the comptroller of the currency, the chief of the division of loans and currency and

The trust funds in Uncle Sam's strong box on the first of this month amounted to \$931, 208, 869. The amount may reach a round billion before the end of 1904. The general fund of the treasury ("free" money) was \$144,745,023. The available cash balance-a fund that can be drown on for public needs at a moment's notice -was \$219,237,429. The stock of gold com and bullion of the government was \$1,298,107,736-an increase of nearly \$16,000,000 in a single month. This is a larger gold stock than is possessed by any other nation on earth, constituting nearly 20 per cent of the whole. France comes next with \$947,700,000. The amount of money actually in circulation in this country on Dec. 1 was \$2,449,168,418. This is nearly three times as much as the total circulating medium of the country in 1870. The national bank currency outstanding is \$421, 106, 979. The mints have been so busy with turning out coins for the Philippines that the domestic coinage has been somewhat had been referred to a committee 1903. neglected. Ireland's Great Astronomer. Ireland's great astronomer, Sir Robert Ball, has just reached his sixty-third year. It is true that he has been astronomical professor at Cambridge for a decade, but he remains a thorough Irishman still. His career as an astronomer dates back to 1865, when shortly after leaving Trinity college, Dublin, he was placed in charge of the famous private observatory established at Parsonstown, King's county, Ireland. When the possibility of signaling to Mars was under discussion he pointed out that if a flag of the size of Ireland was waved from a pole to match there was just the ghost of a chance that an astronomical Martian might perceive the ghost of a flutter on the earth.
