### TERSE TALES OF THE TAWASES.

An Epitome of the Happenings in which the People are Interested.

The rain it fell, and, it froze,  
Which interfered with Eddie's poze.  
He stuck out his feet, but struck on his nose,  
And drifted off in a comatose doze.  
To arouse him from which took several bice—  
And an application of garden hose;  
And he cussed very free when once he aroze.  
But none were shocked for so it goze,  
When first it rains and then it snoze.  
And these lines are the limit, as everyone knoze.

Death entered the home of Mr. and Mrs. John B. King and removed their little daughter Margaret, who died Thursday evening, Feb. 25. The little one was 16 months old, and the bereaved parents have the sympathy of all. The funeral was held from the home Saturday afternoon, Rev. King officiating.

Timothy McDermott, a well-known character, of East Tawas, died at the Hinckman house, last Friday evening. He was about 60 years of age, and has no relatives so far as is known. The remains were taken in charge by friends who gave the old man a christiaa burial, the funeral being held from King's undertaking rooms Monday forenoon, Rev. A. C. Kay, officiating.

Old furniture brightened up and made to look like new with a coat of hard oil finish. A sample of my work of this kind can be seen at F. E. Hayes' for whom I have just completed some work of this kind. Work done with neatness and dispatch, without the removal of carpets or furniture. This is the only time for such work. Leave orders at Herald office. Thos. W. Sines, painter and paper hanger.

It may be interesting to some who have slipped in "just a few words" of writing in a package of paper or merchandise mailed at the low rates to their friends, that the abuse has become so common that postmasters have been instructed to examine such packages and report if writing is found, to the department officials. The next the senders know, will be a visit from a deputy United States marshal with a warrant of arrest, and they will be taken to Bay City for trial with the result of having to pay a fine of \$25 and the cost of the action.

A certain young man secured a marriage license a few days ago and took the train for the home of his bride. While on the train he became very much interested in the discussion of the culture of sugar beets, which happens to be his especial hobby, and wishing to illustrate his idea of how to Americanize beet growing, he reached into his pocket for a piece of paper and drew a rough sketch of the manner of laying out a field. It is reported that the minister who performed the ceremony made remarks which were not complimentary to County Clerk Mark, but after A. C. had studied over the disfigured license for some time he pleaded guilty to being author of the hieroglyphs and cleared the good name of our efficient county clerk.

The next regular Teachers' examination for Ioseo county, will be held in the Court House, Tawas City, beginning Thursday, March 10th, at 8 o'clock a. m. local time.

J. A. Campbell, Com'r.

A most severe snow storm, accompanied by a strong northeast gale, visited this section all day Monday. Fully a foot of snow fell, and in many places drifts eight feet high could be found. It was the worst storm of the winter. The D. & M. abandoned its freight trains and only the most persistent work succeeded in getting the passenger trains through, and they were from one to sixteen hours late.

A. C. Carton, the popular agriculturist of the Tawas Sugar Co., was united in marriage with Miss Grace Hazelton, a popular young lady of Lansing, on Saturday last. The happy couple were greatly surprised on their arrival on the 12:55 train that evening to find fourteen of Mr. Carton's friends ready to receive them and they were escorted to the apartments in the Emery block where a bountiful banquet and reception was tendered them. During his residence here Mr. Carton has made a host of friends who will join with the Herald in extending a hearty welcome to his bride and wishing them happiness and prosperity.

A New Block.

Every town is hustling for new industries:—canning factories, wood-working establishments, shops, mills, or something of that kind. This place now has the promise of a fine 10 story brick block. Hurrah! John C. Wright editor of the Lyre (Liar) magazing, Petoskey, Mich., agrees to build a large branch office here if he can get enough people to subscribe for his publication. As soon as our citizens take an interest in the matter he says he will draw up the plans and commence to figure on it. He doesn't ask one cent of bonds, exemption from taxation, or anything of that kind. It will simply be a gift to the city same as a Carnegie library. The lying business is always good and a building of that kind would be an ornament to our town and besides one is needed here: The Lyre is \$1 per year and a rip roarer. Leading papers say it is one of the most unique, interesting and original publications in America. It has lately improved in numerous ways and doubled in size. Everyone ought to take it. The Lyre licenses with which the subscribers are provided are great.

TAWAS CITY, MICH., MAR. 4, 1904.

The annual city election is but four weeks away, yet there appears to be but little interest in who are to be our city officials for the coming year. An occasional suggestion is made but as yet we have heard of no avowed candidates for any position.

It is evident that Col. Loud's friends in Bay county propose to put a quietus on the congressional aspirations of Hon. "Tip" Aplin, as a large number of them held a meeting last week and passed strong resolutions endorsing the Colonel and pledging Bay county to him.

United State trade with Porto Rico was five times as great in 1903 as in 1897. The total value of our trade with the island last year was \$22,000,000. The important exports were breadstuffs, cotton manufacturers, iron and steel manufacturers and general provisions.

The republican state convention for the purpose of electing delegates to the national convention and placing in nomination fourteen electors of president and vice president, will be held at Grand Rapids May 18. The republican state central committee will also be chosen at this convention.

In spite of the death of Senator Hanna, fostering spirit of the ship subsidy bill, it is said the measure may still become a law. The advocate are still urging the granting of subsidies, but a serious blow to their hopes is the latest report of the department of commerce and labor, showing a material increase both in commerce and American ships.

The bureau of commerce and labor has published a table showing the division of the world's merchant marine among the several nations. Great Britain has 5,929 steamers of 100 tons and over; Germany, 1,193 and the United States 846. The gross tonnage of these vessels are: Great Britain, 13,966,972 tons; Germany, 2,767,463, and the United States 1,610,466.

**TWO YEARS IN PRISON**

**And to Pay a Fine of \$10,000 Each.**

Washington, Feb. 27.—"Guilty as indicted" was the verdict announced by jury in the now famous postoffice conspiracy trial, shortly after 8 o'clock last night stating at the same time that it was the verdict as to all four defendants, August W. Machen, late general superintendent of the rural free delivery division, George E. Lorenz, of Toledo, Ohio, and Samuel A. and Diller S. Groff, of this city.

There was very general astonishment that the jury had included in the conviction Samuel A. Groff, the Washington policeman and inventor of the Groff fastener, as to whom Halmes Conrad, special counsel for the government, Thursday informed the jury he did not expect a conviction and that he personally did not believe in his guilt.

The district attorney and the officials of his office, as well as Postoffice Inspector Mayer, all of whom were in court when the verdict was brought in, expressed their gratification at the result of the trial, which lacking two days, lasted seven weeks.

Justice Pritchard this afternoon sentenced Machen, Diller B. Groff and Lorenz each to two years' imprisonment in the penitentiary and to pay a fine of \$10,000 each. The court decided to make several counts in indictment constitute one offense. The case of Samuel A. Groff has not been decided. The beginning of the penitentiary sentence will date from the time of their arrival at the penitentiary.

All three defendants have given notice of appeal and furnished bonds of \$20,000. Samuel A. Groff, the fourth defendant has been allowed four days in which to prepare his case on a motion for a new trial and rest of judgement.

**Some Facts About Apples.**

Europe has discovered that about the finest thing that nature has produced so far is a big, rosy, juicy, fragrant, thin-skinned and hard-meated apple, grown in the United States and carefully picked and packed, the Grand Rapids Herald says:

Since last fall nearly 3,000,000 barrels of American apples have crossed the ocean. That is nearly 1,000,000 barrels in excess of the previous year's shipments, and every week shows an addition of thousands of barrels to the figures.

New York state still furnishes the bulk of the apples for export. That is because the farmers and apple growers of that state have devoted time and money to apple culture and made it pay.

The average orchard in most states is a picture of neglect. Trees are planted and left to shift for themselves. Enough apples are raised for home consumption, but there is little idea of making money out of the crop. And yet, oranges are cheaper than apples in the markets of every city today. The people want good apples, and cannot get them. The demand in winter is always greater than the supply. It would seem that some of the men who are raising cheap wheat on high-priced land in Michigan, at least, might learn something from these market conditions.

**Held it for 30 Years.**

Franklin, Pa., Feb. 28.—A Titusville oil refining firm has purchased from S. A. Peiffer, agent for W. J. Kountz, of Pittsburg, Pa., the contents of a noted oil tank near Enterprise, Pa. The price paid for the oil was not given to the public, but it is believed to have been at the ruling market rate—\$1.80 a barrel. The oil amounted to 5,550 barrels.

Oil men throughout the Pennsylvania oil region have been interested in this tank and its contents for the last thirty years. The capacity of the tank is seven thousand barrels, and it was filled from one well, owned by Mr. Kountz, in the early seventies. Five dollars a barrel was the price Mr. Kountz put on this oil, and he declared he would not sell it for less. Four years later he changed his mind to the extent of disposing of a portion of the oil to Titusville refiners at the rate of \$4 a barrel.

**Working Overtime.**

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel troubles. Easy, pleasant, safe, sure. Only 25c at G. S. Darling's and J. E. Dillon's drug stores.

**FIRST IN THE FIELD.**

**The Socialists Nominate Their State Ticket last Saturday.**

Lansing, Feb. 27.—The result of the Michigan socialists convention yesterday is the following ticket for the coming campaign:

Governor, C. J. Lamb, Dryden; lieutenant-governor, J. A. C. Menton Flint; secretary of state, H. P. Keaver, Laurium; state treasurer, Martin Cooney, Saginaw; auditor-general, D. B. Hovie, Grand Rapids; state land commissioner, J. J. Stoll, Alpena; attorney-general, Ira G. Mosher, Charlevoix; superintendent of public instruction, Wesley Emery; member state board of education, George Perry, Gladstone; justice of the supreme court, R. G. Kirsch, Manistee; J. D. Hunt, Jonesville, and Peter Kratt, Muskegon.

State chairman, J. H. McFarland, Flint; secretary, J. A. C. Menton, Flint.

Resolutions were adopted indorsing the national socialist party principles and the principles of international socialism, "to the end that all wars may cease." The loss caused by wars was emphasized together with the burden laid upon the producers. Sympathy was extended to the Colorado miners, and President Parry and his plans were condemned.

**How Cossacks are Mobilized.**

Col. de la Panouze, a retired French army officer, with a brilliant career as cavalry commander and as military attache to French embassies in various European countries, gives this description of the Russian Cossacks:

"In Europe the Cossacks operate conjointly with the ordinary cavalry, but in Asia they are the only mounted troop of the Muscovite empire. In exchange for a helmet and other privileges the Cossacks are bound to military service, and to furnish their horses and equipment, uniforms, etc. There are, according to the official statistics published in 1900 by the imperial commission, 150 regiments of mounted Cossacks, three divisions, 53 sotnias or squadrons, 18 battalions of infantry, and 44 batteries of light artillery; in all 190,000 soldiers and non-commissioned officers.

"The mobilization of the Cossack forces is rapidly made, without great expense of ink and paper. The military posts in the immense steppes, not being connected by telegraph lines, are served by gonzy, or couriers, buying the best of horses, and who stay permanently near the province governors in order to carry their orders to the log dwellings of the Cossacks. When the mobilization order reaches the central military administration of the provinces each gonetz starts, carrying in his right hand a small red flag in daytime, and a red lantern at night crying: 'The czar calls you! Mobilization. In a moment all the village is up. On the high pole in front of the municipal building a red flag in daytime or a red lantern at night is hoisted. All the men, accompanied by women and children start for the rallying place. All the men are clothed in their finest caftans of all colors. Nobody is missing; even sick men refuse to stay behind. Those who would voluntarily remain behind would not dare to return to the village; their mothers, wives or sisters would gouge out their eyes, as has happened several times.

"The whole Russian Asiatic region from the Ural mountains to Vladivostok is colonized by these Cossacks, to whom could be joined the thousands of converted Mongols living along the frontier of Mongolia and Manchuria. Innumerable reinforcements in cavalry can be drawn by Russia to push toward the east. It is calculated that there are 80,000 horseman along the railroad line of Moukden-Newchwang. There would be great danger for Japan if there was truth in the theory advanced by Gen. Prievalsky, that 25,000 Cossacks would be sufficient, if need be, to conquer the Chinese empire."

**More Riots.**

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the liver or kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels nervousness, rheumatism and neuralgia and expels malaria germs. Only 50c, and satisfaction guaranteed by G. S. Darling and J. E. Dillon, Druggists.

Jack Munroe, the "Butte Miner," defeated Tom Sharkey "the Sailor," in a six round glove contest at Philadelphia, last Saturday night.

A few dollars invested in insurance, will bring you in a few hundred in case of loss by fire. "See F. F. French of East Tawas, for reliable insurance.

Rosecommon is liable to fail in the establishment of a hoop and barrel factory because her enterprising citizens are loath to invest \$3,000 in stock.

It is rumored that Geo. B. Horton, master of the state grange, will announce himself a candidate for the republican nomination for governor within a few days.

"The Home Restaurant," at East Tawas, is the proper place to go for a first-class meal. Mrs. Dease serves meals at all hours and in an up-to-date style. You are invited to call.

At the forthcoming spring election Cheboygan county will vote on raising and spending \$12,000 for the purpose of remodeling the present county jail and constructing an addition thereto.

An exchange is authority for the statement that the spring styles in the ladies' magazines show a revival of the fashions worn away back in 1830. Is the fashion cycle 74 years long?

It is reported that a prominent young book-keeper of Bay City lost \$3,600 in the gambling rooms of that city in about four days. And now the police have closed up every joint in the town.

A scaffold in the dome of the new postoffice building in Chicago, fell last Friday carrying 15 workmen with it to the first floor of the building, a distance of 250 feet. All the men were killed.

The Chicago coliseum where the republican national convention will be held, June 21, will seat 10,000 people. Some 230 desks for newspaper men will be grouped semi-circle around the platform.

Last year there were 517 deaths from grip in Michigan. In 1902 there were 373. The statistics are furnished by the secretary of state, not by the proprietor of a sure-thing microbe eradicator.

John Alexander Dowie, prophet, is finding Melbourne too hot to "Zionise." Crowds hooted him down when he tried to speak Saturday and toughs mobbed him on the street. He was refused accommodations at the best hotels.

"De stoakkeepah who doan do no advertisin' in de papers," says Hon. Jeremiah Grieger of the World's Democratic Agitator, "might jes es well kiss hisse'f goodbye, kase dey ain't nobody goin' to leab no happy home to trade wif em."

Judge Connine, of Iosco county, will hold court here Thursday when motions will be heard in the case of Merritt township vs. the townships of Gilford and Denmark, Tuscola county. The defendants are dissatisfied with the decree.—Bay City Times.

If a handshake is a fair index of a person's character some people have a snaky, slimy, listless soul, says an unknown editor. We would just as soon shake hands with a mud turtle or a water dog as with a man who stretches forth a bunch of lifeless fingers as a salutation. To use an expression of the Post-Dispatch, we believe "almost any man would prefer the stony eye, the frozen face, or the marble heart, to the cold, fishy hand. None of them leaves a feeling of personal contamination. The othes does."

In deciding the case of Charles Barker, of Alpena, vs. the great live, L. O. T. M. M., the supreme court decided in favor of the great live. The great live's claim was on the ground that the deceased person had used misrepresentation in securing the certificates.

The Baltimore fire is described in the Review of Reviews for March by Joseph M. Rogers. Photographic illustrations of the burned districts, with an excellent map accompanies the article. Some of the lessons of the disaster for other cities are set forth briefly by Wilham J. Fryer.

It is reported that rich radium-bearing earth has been discovered in the Llano gold and coal fields in western Texas. Scientists who have recently visited this section say that these earths will produce a larger percentage of radium than any other known deposit. Radium is sure to become cheaper in time.

The catholic pastor, Daens, has published over his own signature in a Brussels paper a criticism of the pope in which he condemned the collection of 40,000 francs by the Catholic Society of Journalists for his holiness. While fully believing the pope infallible, so far as religion is concerned, he thinks he should keep out of politics.

The American Publishers' association, better known as the book trust, has been defeated in its attempt to prevent price cutting by New York retailers. R. H. Macy & Co, refused to sign an agreement not to cut, so the book trust refused to sell the firm books. Macy sued, and the New York court of appeals has decided that the trust violated the laws in attempting to interfere with private business.

George H. Waltensperger and William E. Bolles, who have been connected with the Detroit Free Press for many years, have resigned to take charge of the Twentieth Century Review, an illustrated monthly home magazine published in Detroit. Mr. Waltensperger is the advertising manager and Mr. Bolles is the managing editor. The magazine is now completing its fourth year and has the largest number of subscribers among the publications of its class in Michigan, the monthly circulation being 160,000 copies. Mr. Waltensperger has been connected with the business department of the Free Press for twenty years, while Mr. Bolles has been a member of the editorial staff of the Free Press for seven years.

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he got worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for coughs, colds and all lung diseases. Guaranteed by G. S. Darling and J. E. Dillon, Druggists. Price 50c and \$1.00. Trial bottles free.

**COMMITTEE.**

**Paving From Beet Factory Refuse.**

Detroit, March 1.—An industry that will be of special benefit to the manufacturers of beet sugar in Michigan is about to be established, with headquarters in Detroit. Dispatches from Lansing state that articles of incorporation have been filed for the American Asphalt-mastic Co., capital stock \$115,000. According to the articles,

the company is organized "to manufacture and sell asphalt-mastic or a composition for the purpose of paving and roofing, consisting of asphaltum and lime sludge from purification of beet juice in sugar manufacture."

The incorporators are: Ammi W. Wright, the Alma, Mich., millionaire, who has 1400 shares of preferred stock; F. R. Hathaway, 100 shares of preferred stock; Roderick A. Gurley, of Denver, Colo., 5,000 shares of common stock and Wm. H. Worswick, of San Francisco, who has 5,000 shares of common stock. Gurley and Worswick have been in Michigan lately making contracts with various beet sugar manufacturers for the waste product, which hitherto they have been obliged to have removed from their factories at considerable expense. It is estimated that the Michigan manufacturers have been practically throwing away about 75,000 tons of this refuse yearly.

The new company has a patented process by which limestone dust is manufactured out of the waste from beet sugar products. This material is about twice as light in weight as the crystallized lime now used.

By the new process, which is said to be Mr. Worswick's invention, the decrystallized lime dust is mixed with asphaltum before the sand is used, the result being an asphalt, which the manufacturers claim, will last twice as long as the ordinary asphalt used in paving streets. Expert Proctor says:

"The stuff looks good to me, though I have not analyzed it. I understand Prof. Dow, the Washington, D. C., expert is carefully examining it."

It is said the first factory will be located at Alma, Mich.

**Record Breaking Locomotives.**

The Baldwin works at Philadelphia are constructing ten locomotives for the Atchison, Topeka and Santa Fe Railroad company, which will be the largest in the world, and are expected when put in use, to mark the beginning of an epoch in railroad freighting which may result in the abolition of thousands of smaller and weaker engines by the large railroad companies of this and other countries. They are the product of a theory that one gigantic locomotive, having the power of two of the present average type can be operated more cheaply than two small ones. The ten locomotives will be able to pull 60,000 tons of dead weight on a level grade. The weight of each engine complete will be about 280,000 pounds and that of the tender about 300,000 pounds.

Although of the same width of the smaller engines and adapted to the same tracks, the new type is much longer and higher than the others, and when placed beside one of the old-style locomotives the latter appears a pigmy indeed. The most distinguishing features beside the size are the tandem cylinders and the immense driving wheels. The high-pressure cylinders are placed well forward, and just back of them are the low pressures. A man of average height standing beside one of the great driving wheels would not reach to the top rim, for each of the drivers is about eighteen feet in circumference. There are five pairs of drivers, and in the extreme front of the engine is a pair of pony wheels.
