## KILLED HER HUSBAND.

An Alcona County Woman Slays Her Husband with an Ax.

Harrisville, Mar., 7.—A terrible murder was brought to light today, when Mrs. Chris Sthiahold, of Mikado Alcona Co., confessed to a coroner's jury that she killed her husband with an ax last Wednesday at 6 a. m. while he sat by the fire and the children were still in bed. After killing him she dragged the body from the house and buried it in a snowbank near the house. She also covered the blood with snow.

Her children knew of the deed and continued to go to school without revealing the secret. Her son works in the woods and came home Saturday night and asked where his stepfather was. She replied that she had killed him and buried him in the snow. Her son went and stayed with neighbors that night and Sunday told of the crime.

At the inquest she first said he was sick and died and his heart beat no more.

He was a German of 55 years and they have five children. She had been married twice and had a son of her own. At the inquest she abused her son in German for telling on her. She said she intended to burn the body in the spring and no one would know of it.

At the examination held Monday she was bound over to the circuit court on the charge of murder in the first degree.

TAWAS CITY, MICH., MAR. 11, 1904.

It is announced that President Roosevelt will not attend the "under the oaks" celebration, at Jackson, July 6th.

"Grafting" seems to be the chief occupation of office holders in all departments of our government. How long will the people pay the penalty.

Secretary Shaw has notified all special national bank depositories, including those of New York City, that they will be required to pay on account of the Panama canal purchase 20 per cent of their holdings of government funds on or before March 25. The 20 per cent aggregates about \$30,000,000 leaving about \$20,000,000 to be supplied from the treasury.

It is now reported that George B. Horton, of Lenawee, county, will not be a candidate for governor, but will come out as a candidate for lieutenant governor, on the Stearn's ticket. These two primary reformers should make a strong combination.

From a report made to Congress Monday it appears that there is being paid annually to certain postmasters \$15,880 illegal salary, clerk hire and office rents, and that it is all being done on special recommendations of congressmen. The report mentions seven of the members of congress from this state. The more the post office department is investigated the worse it stinks.

Gov. Odell, of New York, must have given President Roosevelt a severe shock by his blunt manner in declining to become chairman of the national republican committee, and at the same time serving notice that the President must not interfere with New York politics. Is it possible that Gov. Odell has aspirations to become a candidate for the presidency.

John E. Ferris, vice-president of the Saginaw Roosevelt club, has resigned because the club insisted on "working both ends and the middle," by soliciting contributions from both J. S. Stearns and Fred Warner. Mr. Ferris says he cannot endorse "grafting." He certainly would never make a successful cog in the present political machine of Michigan, and for that reason showed excellent judgment in withdrawing from the organization.

## An Arkansas Winter.

MR. EDITOR:—Have you had a winter of cold and snow?

Would that I could show you a photograph of our "winter."

Mr. Ryan, (engineer from Hot Springs to Little Rock, and who spent a summer at Tawas,) assures me that that the past has been the coldest winter he has known here in 26 years. I think not that the temperature has been the lowest, but that it was below freezing for the longest continuous period. The lowest temperature was 10° above zero on perhaps three occasions, with occasional figures between that and 22°, nearly all our days have been clear and bright, even when the ground was slightly frozen.

As for snow, we had an infant storm about the last of December. Downy flakes to a depth of a half inch came one night, clinging to tree, bush and stem, beautifying them beyond imitation or description, but the glory had vanished ere night-fall, except as the shadow of roof, house or fence had protected little groups of the delicate crystals.

At intervals, for three or four times, the wind were permitted, for two or three minutes at a time, to whirl about these white descendants from the dark clouds in miniature squalls which were invisible as soon as they had fallen.

But the "snow storm" of our winter came in this way, rain fell copiously on Feb. 19th, most of the day, during the night the temperature fell and snow was formed. Sleet also came down, coating houses, fences, trees—everything it could reach, forming quite a crust over the slowly melting snow. A drizzle, gentle but constant, lasted all day.

The Lord's day dawned warmer and clearer. What walking the goers to church and Sunday school had that morning! At evening most of the walks were dry, the street-crossings being the worst at the hour of worship.

There—you have our winter. All its storms. Some chilly damp winds have come to us. The air has been full of germs, causing catarrh, colds, coughs, la grippe, and some chills and fever, but there has been no deadly epidemic.

The comment upon the weather in our own home, repeated has been, "delightful—delightful." What a contrast to the winters we have known in the north.

Plowing on the farms began in February. Oats were sown, gardens were planted, and some of the plantings are up, peach trees are blooming, and vegetation shows renewed life. So many days have the warmth of spring in them. Last Saturday, Feb. 27, the "peepers" were turning up merrily, and I wished for my summer coat while calling a little out of town. Yesterday, March 2, had almost the warmth of a summer day. Ladies were out without wraps and in white waists.

We feel for those "buried in snow," and "dwelling on ice."

Yours sympathetically,  
A. WATERBURY.

## Pays the Top Price.

For the benefit of the farmers who think they are not receiving a sufficiently high price for their beets, we give below a table showing the prices paid by the Michigan factories and the prices paid by the Colorado factories for beets with the same sugar content. These figures are taken from the Saccharine Journal of Sugar City Colorado, and this paper announces that the prices thus mentioned are an advance on the prices the factories have been paying in the past.

	Colorado	Michigan
For beets testing from 14 per cent to 17 per cent sugar per ton	4.75	5.16 to 6.16
For beets testing from 13 per cent to 14 per cent sugar per ton	4.25	4.93 to 5.16
For beets testing from 12 per cent to 13 per cent sugar per ton	4.00	4.50 to 4.83
For beets testing from 11 per cent to 12 per cent sugar per ton	3.75	4.16 to 4.50

Colorado factories reserve the privilege of refusing beets containing less than 11 per cent, while Michigan factories put the limit at ten per cent.

In Colorado 25 cents per ton is paid for each per cent of sugar above 17 per cent while in Michigan the price advances 3 3/4 cents per ton for each per cent of sugar.

It is a well known fact that Michigan factories pay more for beets than is paid anywhere else in the world.—Michigan Investor.

It is seldom that a great magazine is an assured success from its first issue, yet this is what the "Twentieth Century Home," which made its first appearance in February, is. In typographical appearance it is a work of art far in advance of ordinary magazines, while the matter contained therein is of more than ordinary literary merit. The second number (March) is just out, and no woman can fail to appreciate the many good things it contains.

An advertising periodical says that when one of two merchants in the same line of business advertises, and the other does not, the latter pays the advertising bill of the former in loss of trade. This is true in a measure; but the gain of the advertiser is not limited to the trade which he wins from the other. His advertising creates trade. It induces people to buy who would not otherwise feel impelled to buy.

If your uncle has an aunt who has a nephew whose wife has a cousin that is married to an old friend of your wife's sister, whose grandfather used to live in the same town with an old schoolmate of yours, whose son-in-law is now in St. Louis, you should at once renew the acquaintance with a view of saving hotel bills while attending the World's Fair. This scheme can be worked successfully in many instances, says an exchange.

Among the subdivisions of the congress will be one devoted to the Greek language. Of this section, Martin L. D'Ooge, professor of the Greek language and literature at the University of Michigan, has been invited to serve as chairman; he has accepted.

The Easter number of the New Idea Woman's Magazine is a galaxy of bright contributions, which are, at the same time, practical hints to the home-staying woman. Among the special articles "Automobiling for Men and Women" tells the proper costume for those who indulge in this popular sport. There is another of those important papers on "Psycho-Physical Culture," telling a woman how she may preserve her beauty; and "A Word for the East-Bride" is full of good, sound, counsel to the novice in house-keeping. The second of the series of "Brief Business Talks for Women" is given, and its advice will prove valuable and wholesome to all women who will heed it.

Christ Church, East Tawas. F. A. SAYLOR, Rector.

Friday, March 11.—Even song and Lecture on the "Church's care of Her Children."

Sunday, March 13.—Holy Eucharist 7:30 a. m. Morning Prayer, Litany and Sermon, 10 a. m. Subject The "Infallible" Reason for being a Churchman.

Thursday, March 17th.—Holy Eucharist, 7:30 a. m.

The following notes in this issue and subsequent issues are for those who call themselves prayer-book churchmen and also for some who desire to know what the church teaches.

God's Revelation of Himself—We adore God's mercy in giving us the knowledge and sense of duty towards him. For in the knowledge of God standeth our eternal life. Truly to know him is eternal life. There is no other name under heaven given to man in whom, and through whom we may receive health and salvation, but only the name of our Lord Jesus Christ. They are therefore to be bad accursed that presume to say that every man shall be saved by the law or sect which he professeth, so that he be diligent to frame his life according to that law and the light of nature.

The Church has the Revelation—Christ's church is the ark whereby we pass the waves of this troublesome world and finally come to the land of everlasting life. The whole body of the Church is governed and sanctified by the Holy Spirit. Moreover, God has promised through His Son Jesus Christ, to be with His Church to the end of the world, and thus this Church hath received the doctrine and sacraments and the discipline of Christ according to the commandment of God. All Jews, Turks, Infidels, and Heretics must be fetched home to the Lord's flock that they may be saved. We pray to be defended from the sins of heresy and schism, and that from all false doctrine, heresy and schism, the good Lord would deliver us. (To be continued)

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he got worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for coughs, colds and all lung diseases. Guaranteed by G. S. Darling and J. E. Dillon, Druggists. Price 50c and \$1.00. Trial bottles free.

Through the untiring efforts of Percy Grant, of the Tawas Sugar Co., the farmers of this vicinity have come to a wise understanding of the condition of the beet crop last year. First, that the majority of the farmers who raised beets made their maiden attempt and naturally were without the experience which is very necessary in the raising of beets. Second, no matter if they had the experience it would have been impossible to realize a great amount on account of the bad season. But with the experience they have had and the prospects of a good season, next year will be a banner year in the sugar beet industry.

**Card of Thanks.**  
It is with the most sincere appreciation that I take this opportunity of extending my heartfelt thanks to the many kind friends and neighbors who so generously extended to me and mine the many acts of kindness and sympathy during the illness and death of my husband. HARRY EGGLESTON, AND FAMILY.

**Two Angels.**  
Verses written on the death of Glenn Eggleston.  
Two angels left heaven the other day  
In search of gems for their father's home.  
They called at the house just over the way  
And said to the youngest and fairest "come."  
The mother pled for her darling boy,  
But the angels had saw him, and anxious were they  
To bear him away to their father's house,  
Where they could sing and chant to eternity's day.  
They robed his body, and crossed his hands,  
And laid him away in his narrow bed  
And the pure white snow with its cunning art,  
Spread its mantle white o'er his fair young head.  
He sleeps on the hill-side, this wintry night,  
It is only the clay—the spirit is above.  
In a pearly nook right close to the throne  
He is shielded and sheltered, by our father's care.  
Father and mother, he's waiting for you,  
Keep the narrow way our Saviour has trod,  
And bye and bye when your touring is o'er  
He will lead you carefully to your children and God.

**Suggests Many Reforms.**  
Washington, March 7.—The commission appointed by the president on Oct. 22, 1903, to make suggestions regarding provisions of the laws relating to public lands, has made to the president a partial report, which was sent to congress to-day. It recommends the repeal of the timber and stone act and the substitution of suitable provisions for selling, after appraisal, the timber on public lands when needed in large or small quantities for industrial purposes.  
The commission also recommends the repeal of the law permitting assignment of entries under the desert land law, and urges the importance of a more careful administration of the law, especially of those provisions relating to obtaining an adequate permanent water supply.
