An Apalling List.

It is in order for Michigan towns to take time and the Fourth of July by the forelock and forstall a repetition of the horrors of last year resulting

from the use of toy pistols, dynamite bombs and cannon firecrackers, the Grand Rapids Press thinks.

The records of the principal cities show that during the last ten years 1,100 persons were killed, 5,800 injured and a property loss of \$6,000,000 sustained in Fourth of July celebrations ebrations.

Most of these victims were boys slain to make an American holiday The American Medical Journal says 4,449 deaths and injuries were caused deaths from lockjaw caused by toy pistols; from other injuries, sixty deaths; ten persons made blind; seventy-five lost one eye; fifty-four lost hands, arms and legs; 174 lost fingers, and 3,670 received other injuries—a costly sacrifice to so-called patriotism.

Dissipations Among Boys.

At the recent meeting of superintendents of schools at Lansing, Prof. Parmelee, of Charlotte, who has become a prominent figure in this state through his investigations into the "dissipations of pupils," gave an address on that subject. In that address he asserted that dancing, card and other social parties held on other than Friday or Saturday evenings, are detrimental to pupils doing good work. Many of the so-called places of recreational information. tion are the starting place of dissipation, where the dreaded cigarette babit is acquired. Statistics compiled by him show that 25.2 per cent of the high school boys of the state smoke, mostly cigarettes, and that 14.4 per cent of the grammar school boys are slaves to the habit. It is cigarette smoking which causes a large per cent of the boys to drop out of school before graduating.

Prof. Parmelee says that the U, of M. fraternities, in their eagerness to get new members, solicit among high school students. He asserts that by correspondence with the several deans he has learned that all of the 'condi-tioned' students are those who are foremo-t in such outside enterprises; which detract from their best efforts

in school work. Mr. Parmelee advocates strict laws relative to the sale of tobacco to minors. He thinks if a fine was imposed on every boy under age caught with tobacco on his person, it would stop

the cigarette habit. There is no subject of such grave Graduate of Michigan University, post-grad- importance to the nation as the proper training of our boys and girls. Cotton and its products will bring more than 400 million dollars into the United States from other parts of the world in the fiscal year which ends with next month. Last year the total exports of cotton and its products amounted to 376 million dollars and a statement just issued by the department of commerce and labor shows that in raw cotton alone the total for the present year exceeds the figures of last year by nearly fifty million dollars, thus indicating that the grand total of cotton and its products exported will exceed 400 million dollars in val-

Any man can take a newspaper. It is the cheapest thing he can buy. Every time a hen clucks and has laid an egg, his paper is paid for that week-It costs less than a postage stampless than to receive a letter. It comes to you every week rain or shine, calm or stormy. No matter what happens it enters your door a welcome friend, full of sunshine, cheer and interest. It opens the door of the great world and puts you face to face with its people and its great events. It shortens the long winter nights. It is your adviser, gossiper and friend. No maa is just to his children who does not give them the local paper. No man is good to himself who does not take newspapers.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether time. Dr. King's New Discovery for consumption is a sure cure for all lung and throat trouble. Thousands can testify to that. Mrs. C. T. Van Metre of Shepardtown, W. Va. says "I had a severe case of bronchitis and for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery then cured me absolutely." It's infallible for croup, whooping cough, grip pneumonia and consumption. Try it. It's guaranteed by G. S. Darling and J. E. Dillon. Trial bottles free. Reg. sizes 50c, \$1.00. Discovery for consumption is a sure

Extension to Mackinac Will be Finished Early in July.

J. D. Hawks. president and general nanager of the Detroit & Mackinac railway, stated Tuesday that the extension of the main line from Cheboygan to Mackinac would be completed early in July.

"Work has been hindered by coninued rains," said Mr. Hawks, "but the grading is now well advanced, at Prescott, The bridge across the Cheboggan river has been completed, with the exception of some riveting, and construction trains will be able to cross in a tew days, Our crossing map for from a visit with her cousin Miss Lail, glass vase and a handsome copy of the extension has been approved by of Whittemore. the railroad commissioner, and we are all ready to go ahead putting down the rails. We have made no promises thus far, but allowing for more rainy weather I can safely say we will have the line completed within six weeks."

The completion of the Detroit & Mackinac is expected to have an important influence upon the welfare of the road. It will give the hne important boat connections at Mackinac and will also mean the final link in a new rail route to the upper peninsula .-Bay City Times.
