About a year ago F. F. French had a bicycle stolen, and got no trace of it until last Saturday when Allen Ash found it hidden under James Richards barn, where the thief had put it.

Deputy Sheriff Chase spent a couple of days in the vicinity of Onaway looking for the "penny picture" men who skipped from East Tawas last week. His search was without results.

J. M. Boomer has purchased a machine for making cement building blocks, and is using this material for building the basement under Dr. Darlings store. Cement blocks are fast becoming the most popular building material, being both more durable and cheaper than brick.

Circuit court was in session last Monday. Peter Shampine, charged with assault with intent to do great bodily harm, was arraigned, and plead guilty to simple assault, and was let go on suspended sentences. In the ejection case of the Flint Land Co. vs. Edward Louks, which Judge Connine has had under advisement, was decided in favor of the plaintiff.

Edson R. Waite, traveling auditor for the Publisher's Collection Agency, made us a call Wednesday. For the first time in several years we found a few bad accounts for him, and we sincerely hope that prompt settlement will be made by all who receive notice from the agency. There are a few more on our book whom we will be obliged to send in, if settlement is not made in the near future.

The benefit dance given by the D. & M. ball team at the East Tawas opera house last Friday evening was largely attended and was a most enjoyable social occasion. The boys have their new suits and are now preparing to make an effort to have their grounds put in suitable condition, and in this should receive the hearty support of the citizens of East Tawas. The boys have played seven games this season of which they have won six.

The annual teachers' institute for this county will open at the high school building in this city next Monday and continue for two weeks. Prof. E. P. Clark will be conductor, assisted by Commissioner Campbell. The primary work will be in charge of Miss Fanny Allen, of Ypsilanti. Both Prof. Clark and Miss Allen have been here on previous occasions and are held in high esteem by the teachers of Isoco county for their enthusiastic work. The prospects are for one of the best and most enthusiastic institutes held by our teachers in several years.

Phone No. 68.

TAWAS CITY, MICH., JULY 29, 1904.

Thomas Taggart, of Indianapolis, was on Tuesday elected chairman of the democratic national committee.

Judge Parker has fixed August 10 as the date for the ceremonies notifying him of his nomination by the Democratic national convention as a candidate for the presidency.

Bryan favors the state control and ownership of railroads. He thinks placing them in control of the federal government would be a centralization of power that would be dangerous. This would be true in politics if we are to judge it by the postoffice department, which has become a tremendous political power, and used by whichever party happens to be in control.—*Bay City Times.*

If the democratic state convention, which meets in Grand Rapids next Wednesday, is controlled by good judgment and men who are honestly in favor of a reform in state affairs, it will nominate as a candidate for governor some good honest man like George D. Jackson, and not J. S. Stearns, a man who has once attempted to buy the governorship, and failing in this tried to gain it on a primary reform basis.

The wise up-to-date merchant will not allow himself to drop out of public view between active business seasons. If he does he will lose much of the advantage of his previous advertising. In what is known as the quiet season is a good time to get rid of left-over goods, to clean up and get ready for new stocks. It never pays to carry over goods from season to season, it is much better to turn them into cash at cost if necessary. The money is better than old goods on the shelves, which are depreciating every day.

**A Flat Rate for Beets.**

The sugar factories in the west have been paying a flat rate for beets for several years. There is now talk of adopting that plan in Michigan, as a means of reconciling the farmers so they will take up the raising of the crop on a wider scale.

There is some objection to the flat rate system made by the manufacturer of sugar. He knows that if he were paying the farmer for his beets on the flat rate system the farmer would aim to grow large roots, so as to increase his tonnage, and the percentage of sugar is smaller in large beets than in the little ones. That is the Michigan argument. However, western manufacturers find the flat rate plan the better and are content to follow it.

But the farmer has an argument against the percentage plan. He knows that when he draws his beets to the factory, the manufacturer has everything in his hands to beat him if he is so disposed. The manufacturer weighs the beets, he determines the tare, and also the percentage of sugar. The farmer has nothing to say about it and he has no person to appeal to if he believes he has been purposely or accidentally defrauded. The factory side of the case isn't so overburdened with favorable argument that it can not be met by the farmer.

It has got down to this: Until the factory and farmer can reach a better understanding there will not be so many beets raised as there were the first two years of the industry in Michigan.—*Bay City Times.*

**THE REPUBLICANS**

**Held Their County Convention Wednesday.**

The republicans of Ioseo county held the most harmonious and least enthusiastic county convention for the nomination of county officers that has marked the history of that party in the past ten years, Wednesday. With the exception of judge of probate and surveyor all nominations were made by acclamation, and the opposition for these nominations developed no strength.

Chairman Stein of the county committee, called the convention to order at 10 o'clock, and called John A. Campbell, of Burleigh as temporary chairman. Ward B. Conine, of Au Sable, was elected temporary secretary. A committee on credentials was appointed, and their report showed full delegations present from all townships and wards. Committees on permanent organization and order of business, and resolutions were then appointed and the convention took a recess until 1 o'clock.

On reconvening after dinner, the committee on permanent organization reported in favor of making J. A. Campbell permanent chairman and A. C. Heble, of Alabaster, permanent secretary, which report was adopted. John Doyle, of AuSable, and C. D. McLennan, of this city were appointed tellers.

The committee on resolutions submitted their report which endorsed the national and state administrations, also Congressman Loud and the candidacy of Hon. G. A. Prescott for secretary of state. The report was adopted without applause.

The nominations were then taken up and the names of Alfred R. Weir, the present incumbent, and J. W. King of this city were presented for the nomination of judge of probate. The ballot stood Weir, 31, King 10, and J. M. Walker 1. No further ballots were taken until surveyor was reached, when the names of H. M. Belknap and Eph Ash were presented. Belknap won by a vote of 30 to 9. The balance of the ticket was nominated by acclamation. The following is the full ticket:

Judge of Probate—Alfred R. Weir.  
Sheriff—Charles Curry.  
Clerk—John A. Mark.  
Treasurer—Harry W. Stockman.  
Pros. Att'y—Charles A. Jahraus.  
Register of Deeds—E. A. Crandall.  
Circuit Court Com.—Edwin Rawden.  
Surveyor—H. M. Belknap.  
Coroners—Dr. N. J. McColl, John Armstrong.

Forest C. Ebling, of AuSable, was elected chairman of the county committee; and Ward B. Conine, of AuSable, secretary.

**Be Comfortable.**

Going to church in your shirt sleeves is justified by the Bible. "Come to church in your shirt sleeves, men, when you find the weather too hot to sit in church with your coats on," said the Rev. T. G. Bawer, pastor of the Epworth Methodist church of York, Pa., last Sunday, in a sermon, the text of which was: "And the same John had his raiment of camel's hair and leather girdle about his loins." Touching upon the simplicity of dress and its appropriateness in the house of God, he extended the foregoing invitation to the men, and also told the women to select cool church-going attire. "When you come to church, dress for comfort," he said "and not for appearance and attractiveness. The religion of Jesus Christ is not something to be carried in the coat pocket, but in the heart." Men of God in days of old stood up and preached in their shirt sleeves, and why not now when it is such beastly hot weather? We sat and sweat and envied a man who appeared cool and serene in the audience at the Baptist church last Sunday morning in his shirt sleeves. While some shake their heads and say it is so out of place, we say no, and that it is gospel liberty.—*Ex.*

**Destroy the Weeds.**

In conversation with a well-known farmer, last Monday, he sounded a note of warning to farmers generally regarding the increase of noxious weeds on the farms and along the highways. Many farmers who rent their farms and remove to the village grow careless and the tenants not caring other than to get all they can off the farm, the land is soon run over with prickly lettuce, Russian and Canadian thistles, wild carrots and many other weeds which are not only a menace to the crops, but the land as well. There is scarcely a farm in this county but in which such a condition of things exists. It is time that our farmer friends awoke to the danger that confronts them. The law says that a township weed commissioner shall be appointed, whose duty it shall be to see that noxious weeds along the highways and on farms shall be destroyed; but has this been done? Farmers, look to your interests and see that your neighbors do the same. A vigorous campaign waged against this evil will in a short time have the effect of cleaning out these destroying elements of crops and property.—Ex.

**Making Trees into Newspapers.**

A trial was recently made in Austria to decide in how short a space of time living trees could be converted into newspapers. At Elsenenthal, at 7:35 in the morning, three trees were sawn down; at 9:34 the wood, having been stripped of bark, cut up and converted into pulp, became paper, and passed from the factory to the press, whence the first printed and folded copy was issued at 10 o'clock. So that in 145 minutes the trees become newspapers.

**ALL OVER THE HOUSE.**

There is Wise Economy In Learning to Do Household Work Easily.

"Do sit down," said a wise mother of a family to the new and ambitious young housemaid. "I do not in the least approve of what might be called laziness or the habit of collapsing into a chair every time one turns around, but I do believe in saving one's strength when it is just as easy to do it."

"You are standing at the table to pare your potatoes when you might just as well sit down to it. By and by there will be cleaning and brushing and scrubbing to do, when you must stand."

"If there is fruit to prepare, vegetables to get ready or any of the many things where one may remain quiet while doing them, it is much better to sit. This gives renewed energy for the harder part of the work, and, while there is so much about housework that is necessarily taxing it seems to me a very wise thing to do this."

"I do not know why economy in strength is not just as important as economy in anything else. Certainly the ability to make the best of all our powers is worth a little study."

"People who are well and strong often seem to enjoy a reckless exhibition of their physical ability, but with these a time almost always comes when the heavy strain of wasted energy begins to tell on the constitution; then it is too late to prevent the damage."

**A Tack In Time.**

The economic value of a stitch in time is equalled by that of the tack replaced promptly, says an exchange. A sweeping day seldom goes by that the edge of the carpet is not found loose or a shade cracked from its roller. It is some work to get the hammer and tacks and make repairs, but it pays.

After years of housekeeping experience one concludes that the housekeeper needs her own hammer about as much as her own toothbrush. A few cents will buy three kinds of tacks—the common carpet tack, double pointed or straw matting tacks and very small ones for curtains.

Keep the outfit in a little box. Straw matting must be repaired at the first sign of decay, or it will go to ruin quickly. The stove zinc, if ragged edges are nailed down at once, will last for a long time after it begins to wear.

Taken in time, household as well as physical ailments may be treated successfully and a long life of use follow.

**Substitutes For Starchy Foods.**

Too much starchy food is eaten in many households. Potatoes are served with every meal, and they are usually mashed or boiled. It is well to substitute rice, hominy and macaroni for potatoes two or three times a week at the very least and better still to omit any of these at many meals. Fried hominy is a delicious substitute for potatoes when chicken is served. Boil the hominy in the usual way, pour it into a shallow dish to cool and slice into pieces half an inch thick. Flour lightly and fry in chicken fat or butter and drippings. This is an excellent breakfast or luncheon dish served with maple sirup or chicken gravy.

**A Pretty Bedroom.**

If bedroom furniture is old and shabby a clever woman can make it look fresh and attractive with a coat of enamel. Nothing is prettier for the sleeping apartment than white, and a dainty room can be made by having all the furniture, woodwork, picture frames and boxes painted with white enamel; then cover your cushions with a pretty little rosebud spotted muslin, with curtains, bedspread and dresser covers of the same. You will find that with very little trouble and small expense you can make a fairy bower that any one might envy you.

**Creamed Eggs.**

Boil four eggs twenty minutes, then put them into cold water for five minutes. Make a white sauce with two level teaspoonfuls of flour and butter, adding gradually one and a half cupfuls of milk. Put on the fire and stir until it boils; then add one-fourth teaspoonful of salt and a little pepper. Toast slices of bread and butter them. After removing the shells from the eggs cut them crosswise, taking out the yolks. Cut the whites in rings and mix them with the sauce. Pour this over the toast and rub the yolks through a strainer over all.

**Leather Effects.**

Much prominence is given leather effects among the fashionable wall coverings for halls, dining rooms and libraries. A great deal of care, however, should be observed in their use, as they need large, spacious apartments and furniture in keeping to make them either consistent or effective.

Paul Crego has had a relapse, and is seriously ill.  
E. A. Williams raised a large barn last Saturday afternoon.  
Miss Grace Fullerton is visiting with friends at Turner, and other places.  
Mrs. Winters, of Saginaw, is visiting her daughter, Mrs. J. H. Mooney.  
Mrs. Rose Chapman and daughter Lana, are visiting at P. G. VanNortstran's.  
Mr. and Mrs. Carl Green are to be congratulated. A fine daughter was born to them last Saturday.  
Samuel Kelly Sr., was seriously injured last week by falling from a staging on a house he was shingling.  
Miss Isabelle Dunham gave her friends a pleasant surprise Saturday evening, by coming home from Chicago for a visit.  
R. N. Dillenbeck spent Friday evening at his home here. He is at Prescott at present, relieving the D. & M. agent, who is enjoying a vacation.

Huckleberries are coming rapidly.  
L. S. Ewing and wife, of Saginaw, are here with Mrs. Ewing's father, W. J. Bayne. Mrs. L. A. Ewing, of Lenoir Lake, spent Monday night here but returned the next morning. The third daughter, Mrs. Peter VanPatten of Lewiston, has not yet arrived. Mr. Bayne is still alive but with no hope of recovery. Ella Woodbury is conducting the store.

**Crop Conditions.**

The following is the weekly climate and crop bulletin of the Michigan section, weather bureau, for the week ending Monday, July 25.  
The mean daily temperature for the week ending July 25 was 69.6 degrees, or 0.6 of a degree above the normal; the average precipitation was 0.39 of an inch, 0.08 of an inch below the normal; the sunshine averaged 75 per cent of the possible amount.  
The week has been moderately warm, bright and rather dry, which was very favorable for haying and harvest work. Generally, corn and oats have improved, but they are now in need of more moisture. Late potatoes, beans, sugar beets and garden truck are generally in good condition. Pastures, however are short and dry and much in need of rain.  
Wheat and rye harvest have made rapid progress in the central and southern counties and most of the grain in those sections is well secured in stack and barn and threshing has begun in the southern counties. Wheat yields are light and show some rust and a rather shrunken berry. Barley harvest is becoming general. Oats are maturing quite rapidly in the central and southern counties and will probably be ready to cut next week; the oat straw is short, but the heads are generally well filled and quite promising.

Peninsula, the yields in the latter section being quite good. Apples and plums continue quite promising, although considerable apple dropping is reported.

**D. & M. 8, Tawas City 5.**

The D. & M. and Tawas City ball teams met last Friday for the third time this season and for the third time the East Tawas boys won, although this was the best game thus far played and had it not been for a combination of errors in the fifth innings the result would have been a victory for Tawas City. Nostrum for East Tawas struck out four men, while Butzliff for Tawas City struck out six. Both boys pitched good ball. Several sensational plays were made on both sides, considering the bad conditions of grounds, the game being played on the old Emery slab yard. Below is the score by innings:  
East Tawas—0 0 2 4 0 2 0 x 8  
Tawas City—0 0 1 0 0 4 0 0 5  
Batteries—Norstrum and Emerson; Butzliff and Wuzgazer.

**D. & M. Gun Club.**

A re-organization of the D. & M. Gun Club was instituted at a well attended meeting held last Saturday evening, and a full set of by-laws were adopted. Under the new organization it will be composed of members from both Tawas, and steps will at once be taken toward securing suitable grounds and the erection of a club house. A meeting will be held this week to complete the organization. An effort is being made to arrange a shoot next Thursday between the local club, Saginaw, Bay City and Alpena.

**BOSS OF THE ROAD.**

Toot! Toot! Toot!  
It's to scoot!  
Flee!  
Climb a tree  
Or a pole,  
Fall into a manhole,  
Jump the fence,  
Get hence  
Some way  
Without delay!  
Don't stop  
To chin the cop,  
Or to play  
Marbles, or to pass the time of day  
With some deaf friend,  
Or to send  
A message home to the folks,  
Or to crack jokes,  
Or to wink at some bewitching one,  
But drop your dignity and run!  
It is the time of year  
For the red devil wagon to appear.  
It's on the wing  
With the first faint hint of spring,  
And it's on you,  
Too,  
Unless you get a wireless move  
On yourself and prove  
That it is not.  
The plot  
Thickens the moment it is nigh,  
And unless you are spy  
And exceptionally able to disappear  
You would better engage room in the hospital by the year.  
Speaking of scourges,  
The modest and retiring auto urges  
Its claims in that line  
With a fine,  
Ornate burst of eloquence.  
Therefore, regardless of expense,  
When it is nigh  
Collect your witnesses and prove an alibi.

**Seven Million Feet of Lumber Went Up In Smoke.**

Bay City, July 25—Fire which started in Handy Bros. lumber yards Sunday afternoon threatened the destruction of the west side. Before the flames were subdued 7,000,000 feet of lumber and several loaded cars belonging to the Michigan Central and D. & M. railroads were destroyed. The shipyard of James Davidson was in great danger for a time, and the steamer Nicaragua was badly scorched before she could be pulled away to a place of safety.  
The West Bay City water works had been shut down for repairs to the wells and it was some time before much water could be thrown on the fire. Handy Bros. estimate their loss at \$70,000 and the railroads will lose about \$10,000.

**WHY DO SO MANY PEOPLE RIDE CRESCENTS**

Twice as many Crescent bicycles as any other have been bought annually for the last six years.

**WHY DOES THE NUMBER OF CRESCENT RIDERS INCREASE EACH YEAR**

Crescent sales have increased steadily year after year.

You can answer these questions yourself if you will come to our store and see a Crescent. Probably then we will not need to ask.

**WHY DON'T YOU RIDE A CRESCENT**
