To The Public:

In last week's issue of this paper the statement was made by a competitor that the public should be fooled by this sale as it was a fake as to the goods offered and honesty of the prices. Such a statement is not right to make unless investigated first to see it true or not. As to quality of goods would say that I carry as good a stock as to quality and up-to-date goods as are shown in any store in this county, in fact if any judge of goods would look through our stock he would find less trash and unsalable goods than in any other stock.

As to business honesty, my business is built on honest principals, I have strictly one price to everyone. My goods are all marked in plain figures that any one can tell what the goods will cost him. Nothing is misrepresented. Any person not not satisfied with his purchase can always get it exchanged or the money is cheerfully returned.

The public can rest assured that in trading at my store they will always get everything as advertised or represented.

A Letter From Arkansaw.

MR. EDITOR—Your last issue found me at 220 Broadway, Little Rock, Ark., installed in the room just left vacant by Dr. John T. Christian, D. D., LL. D., who had started on a trip to England, to be absent some seven weeks. He became pastor of the Second Baptist church of Little Rock, the first of last June. But for a number of years he has made a like trip and for a year had been under engagement to again preach at Edinburgh Castle, in East London. This is a church which has no settled preacher, although there are those who are employed to do pastoral work.

The preachers are engaged for only a month at a time, except that this brother would be engaged for two months, if he would so serve, because of the long distance which he goes to reach them. He declined to preach for them more than four Lord's days, in as much as he desired to do some special work in the British Museum, which he could do in no other place. At the request of the church he therefore put the care of it, preaching and all other work into my hands, until after the second Lord's day in September. Dr. Christian preached to his people on the morning of the 24th of July, and left by evening train to make sure of the boat on which he had engaged passage. My responsibilities began with the evening service of that day. The church has a reputed membership of some six hundred, this will give you some idea of the demands to which I am liable.

May I tell you something of a secret? The South is quite a place to receive "titles" of one kind or another. The captains, colonels, majors, and like honorary designations, were a surprise to me. No doubt but you will be amused when told that before leaving the train which bore us into the state, I had been called Colonel; and since then they have called me captain and doctor, never major, that I remember. The title which seems most determined to stick, is "doctor". It is vain to tell them that I am no kind of a doctor, not even a horse or cow doctor; that I am in such excellent health that I do not need to be doctored in the slightest degree. All resistance is useless, and I seem at the mercy of those who know net in this matter how to be merciful. At the first I took it as a pleasantry, thinking it would drop away of its own inertia. The hope was visionary. Then feelings not easy to describe began to surge over me. But I drop all personal elements out of mind, regardless of what it costs me, and say, Mr. Editor, if you are yearning for titles and longing for honors, just come down south in a way which will

give this most kind hearted people a chance to relieve your unsatisfied aspirations; and if they do not do their best to make something of you, they will treat you by a different rule than has been stretched over my untitled name. You can sympathize with my predicament, can't you, if you cannot help me? Genuine sympathy is good, but, please do not laugh too much over the tale of my trials as poured into your confidential ear.

Let me return to the work of Dr. Christian at Edinburgh Castle. Each Sunday morning he will preach to about 2000 boys, in the afternoon to men only, perhaps some 1500, in the evening to a mixed congregation of about 3000.

The origin of this work is interesting. A young man in poor circumstances was teaching a class of boys from the street, in a room which he hired for that purpose. A fire had been needed on the hearth, and when he was ready to close one afternoon one of the boys remained and drew near the fire, saying how good it felt to sit there, that it was the first fire he had been near in a long time. By many questions the teacher learned that this boy and many others had no home, no parents, no place to sleep; but slept on the roofs of houses, and obtained their meals as they might. The teacher discredited the story, and gave the boy to understand that he thought him chaffing, the boy proposed that the teacher go and see for himself; he acceded to the suggestion and wished to start at once. The boy said "no it is too early, the police would nab them if they gathered so soon." They sat and talked, the teacher becoming more interested as he listened. When quite late the boy arose, buttoned his coat, and said, "now let's go." They passed from street to street, making their way steadily toward the poorer quarters, turning at last into a poverty alley indeed. Presently the young guide said, "can you shinny?" The teacher thought he could; up a post shinned the boy, after him went the teacher. Stretched on the roof, with no coverings but the heavens, lay thirteen boys. He could scarcely believe his own eyes. But then and there a purpose was formed to do something to give these and other boys who had no home, some place of refuge where they could sleep in security and comfort. Though without means he kept to his purpose until 16000 boys and 2000 girls, otherwise homeless and friendless are given refuge and care. It is to one group of these that Dr. Christian will again preach this summer, as in years past.

Now, Mr. Editor, as you may have something else to do than to just hear me talk, I'll take my hat, leave my "good day" with you, and take my leave.

Yours very truly
A. WATERBURY.

New Idea Woman's Magazine.

An article on "The Modern Nursery," by Mildred K. Smith, and the fourth number of "Perdit's Problems," by Alice Chittenden, are to be features of special interest in the September number of the New Idea Woman's Magazine. These two papers are of instant value to all home-makers in their practical suggestions and helpfulness. Both are photographically illustrated. Miss Cory's articles on "Physical Culture" are letters written out of the sound knowledge of long experience in her special line of work, and may be depended upon as absolutely reliable in every detail. These articles are illustrated in such a way as to illuminate the specific directions given in the text. "Fashions in Shirt waists" and "Novelties in Men's Wear" are feature articles in the fashion department, which is to be enlarged henceforward by the addition of another color plate.

The Detroit Tribune.
 The great independent and eminent fair newspaper, the Detroit Tribune, has just completed a work of much historic value to the state of Michigan. The work is the official souvenir of the recent celebration at Jackson of the fiftieth anniversary of the monster mass meeting held under the Jackson oaks July 6, 1854, at which Michigan placed herself squarely against the extension of slavery and formed the republican party. The book contains the official proceedings of the celebration, a history of the republican party and portraits of many eminent citizens who took part in that great historic event of 50 years ago. It also contains engravings of the chief participants in the celebration, of many leading citizens of Michigan. Being bound in leather, the work will form a lasting memento and a valuable historical possession for those who are to receive it.

Suicide Prevented.
 The startling announcement that a preventative of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by G. E. Darling and J. E. Dillon druggists

YACHT RACES.

Saturday closed one of the most successful meetings ever held under the auspices of the Tawas Bay Yachting Association.

There was a good wind every day of the meet, a fine list of entries for every race, and just enough sea to make the sport most interesting.

There were eight entries to the D. & M. Cup race. The Cadillac, Finesse, Mistake, Sultana, Wrinkle, Aurora, Jennie, Wave and St. Elmo. This was a very pretty and most exciting race, but was easy for the Cadillac, she winning by over ten minutes to the good.

More interest was attached to the power yacht race than any other on the program, owing to the fact that G. T. Wood, the popular East Tawas jeweler, owns the Dorothy, one of the boats entered for the race. There were four other entries, the Olive, Priscille, Ayalon and Albatross, but the excellent way the Dorothy was handled by Sanderson and Walker made her an easy winner by a minute and half grace.

J. Krudson, one of the crew on the Priscille, had his foot badly jammed after the finish, being caught between his boat and the dock.

SATURDAY.
 In the 35-foot race the Cadillac was forced to fight to a finish for the Free Press trophy, after the Jennie had beaten her over five legs of the course. There were three boats entered in this race, the Cadillac, Jennie and Aurora. The Cadillac winning, with the Jennie a hot second, the Aurora meeting with a mishap, being unable to finish the race.

The afternoon race was sailed under the strongest kind of a puffy shore breeze. Several times spectators' hearts almost stood still as the yachts heeled over until their cabin rails were foaming a foot deep under water. At one time it was considered the Aurora had gone over and the life saving crew, which was among the spectators held itself in readiness.

Sultana, with her enormous fin keel, heeled over until her topmast seemed to be but a few feet from the water and her rail was three feet under. Cadillac stood on her beam and one of her crew evidently in a spirit of dare-deviltry, hung over her side and touched his feet to her center-board as she lay over an angle of less than 45 degrees. There were seven starters in the free-for-all race, finishing in the order here given, Cadillac, Aurora, Wrinkle, Jennie, Sultana, St. Elmo and Mistake.

THE WINNINGS.
 The Cadillac, of Detroit, carried off the Free Press trophy and \$245 in cash. Wrinkle, of Toledo, won the Saginaw Evening News cup and \$140 in cash; Finesse, of Detroit, got \$90; Jennie, of Bay City, \$65; Aurora, of Bay City, the D. & M. cup and \$45; Hussar II, of Toledo, the Bay City Times cup; St. Elmo, of Bay City, \$35 and Wave, of Bay City, \$15. The Bay City Tribune cup for the power yachts went to Dorothy, of East Tawas, together with \$25. Priscille, of Bay City, took \$15.
