circuit court convened last Monday, **Emery Block and Other Buildings** Judge Connine presiding. There was of East Tawas, Destroyed by a very light docket, with no criminal Fire. cases and the work was concluded

Tuesday, and an adjournment taken The handsome Emery block at East Tawas was totally destroyed by fire last Tuesday night, entailing a loss including stocks, of \$20,000. The fire was discovered at about 8:45 in the evening and an alarm was turned in and the fire department made a prompt response and had the fire

ed as follows: Mary A. Joslyn from practically under control when the main pipe at the water works burst and cut off the water supply. Notwithstanding the valiant efforts of the citizens the fire again soon gained headway, and for a while it looked as though the whole east portion of the

city was doomed. The hand engine from this city was sent for, but owing to the fact that no one was present who knew how to work it, it was not brought into commission for fully two hours. In the meantime the Emery block, together with the ice house. feed house and Hinchman house barn were burning and were entirely destroyed.

The Emery block was owned by Samuel Anker, and occupied by his grocery and market, Miss Julia Felcher's millinery store, Wrather & Rourk hardware store and the Tawas Sugar Co's offices, on the first floor. The second fioor was occupied by the I. O. O. F. hall, Sugar Co. offices, and the residences of A. C. Carton and C. W.

The case of Thomas Davison vi Antime Valin, was the only jury case tried, and the defence not appearing, a verdict of \$204.58 was rendered in favor of plaintiff. The balance of the civil cases were continued over the term. be served. A cordial invitation to all. Four decrees of divorce were grant-

Attend Our Reduction Sale university in the second of the of Stoves and Ranges.

The prices that we are making on these high grade goods this week will make it interesting for anyone who is in need of a Stove or Range. In most cases there are only one or two of a kind, so if you intend to purchase a Stove or Range, the earlier you look over our line the more liable you are to obtain what you want.

It will be of great interest to know that provision has been made for our new field secretary, and he will begin his duties after the first of the year.

On Dec. 18 and 19 General Secretary Voght, of Boston, will be in Detroit, and it is hoped many Endeavorers will take advantage of this opportunity to hear him.

#### **Renovated Butter Packages.**

Lansing .- Stricter enforcement of he renovated butter law, is about to be begun by the dairy and food commissioner. The law provides that no person or firm shall manufacture for sale, expose for sale, sell, exchange or deliver any butter that is produced by melting regular butter so that the butter fat may be drawn off, to be mixed with skimmed milk, and reworking or rechurning the mixture, unless the mixture be conspicuously labeled or stamped, "Renovated But-ter," on two sides of the packages. The fine for an offense against this statute is from \$25 to \$500, or from six months to three years' imprisonment in the Ionia reformatory, or both.

#### The Grange is Growing.

There will be a larger attendance at the coming session of the Michigan State grange than last year, and there will be more representatives of subordinate granges, who will constitute the membership of the state body, present than there has ever been before. There has been a large increase in the number of subordinate granges and they will be represented by more than 400 delegates at the state meeting. The attendance of outsiders interested in the doings of the state grange will also be unusually arge.

#### Soo Canal Tonnage Figures,

Sault Ste. Marie.-Figures from the canal office show that November was another record breaker in regard to tonnage, but the total for the season to the present time is not as great as to the same date last year. The tonnage for November was 5,911,668 tons, as against 2,807,454 tons for the same month last year. The total for the season to date is 30,575,209 tons It is expected that the December business will be far in excess of previous years.

Improvement came at once not to crush the peppers, and serve. and four bottles entirely cured her."

Pictures In the Kitchen, Hang at least one picture in your kitchen in such a place that it will meet your eye a score of times daily.

Pepper Stew.

Let it be a landscape or a figure or a picture "that tells a story," only be Notice is hereby given that George Charters sure that it is not a scene that reproduces something of the daily routine. If practicable change the picture for another once a week or moth. Good prints of the best pictures can be had as low as a cent each. Take a look at the picture often, seeing what it means or rather realizing each time what it says to you personally. This will break up the monotony, which is the deadliest thing about housework.

#### Uses of Coal Oil.

A few drops on your dusting cloth will brighten your furniture as well as prevent dust from flying from the cloth.

One tablespoonful added to each boilerful of water will lessen labor as well as whiten your clothes when washing. A few drops added to your boiled starch will make ironing easier.

A few drops on a hinge or roller which formed a bad habit of squeaking will insure a speedy cure.

A few drops added to the water with which windows are to be washed will save time and labor.

#### Eliminates Danger.

ADJUSTABLE WINDOW SASH.

reason the cleaning cannot be done

thoroughly and seldom looks as nice as

if the cleaning could be very easily and

thoroughly accomplished and danger of

accident eliminated. In this frame the

sash is hung on trunnions and hinged

at the middle, so that it may be readily swung horizontally entirely around to

bring the exterior of the glass in the

inside of the room and as readily reversed. The sashes carrying the glass

balance each other, so that the raising

or lowering of one produces the oppo-

To Mend Kid Slippers. White or colored kid slippers often be-

come shabby in appearance because the kid has been peeled off the heels. If the slippers are otherwise in good con-

dition the heels can be made to look like new by cutting from the top of an old glove of the same color a piece of

kid large enough to stretch and paste about the heel. The upper edge can be

securely pushed under the sole of the shoe and neatly trimmed at the bottom. If not worn until perfectly dry

Air the Bedclothes.

Teach the boys as well as the girls

the proper way to put the bedclothes

the result is most satisfactory.

site movement in the other.

There is always a certain amount of danger attached to the washing of the outside of the windows, especially in the upper stories, as the narrow width of the window sills allows but scant is not necessary to salvation, but space on which to sit, and many a housewife, even if she has plenty of it would be sinful to neglect it. nerve, is afraid of slipping. For this Unfair.

Animal and Plant Allies.

An interesting instance of the manner in which insects sometimes assist Remove the seeds from a dozen green the growth of plants is furnished by peppers and boil half at. hour in light- the history of a climbing plant which ly salted water. When tender, take up grows in the Philippines. At an early and set one side. Put into saucepan a stage in its career the plant, which, Those who will persist in closing half dozen fresh tomatoes, a sliced on- like other plants, begins to grow from ion, a sprig of parsley, a couple of the ground, severs its connection with cloves and a teaspoonful of salt. Add the soil and thenceforward lives with cold water, and bring to a boil. Sim- its roots attached to dead bamboo canes. It develops, in addition to other strain. Put a tablespoonful each of leaves, certain pitcher shaped leaves, butter and flour into a frying pan, and into the cups of which it sends a second set of roots. A species of small black ant frequents the pitchers and incidentally carries into them minute fragments of decaying wood and leaf mold, from which the roots derive a constant supply .of food for the support of the plant.

#### England's Milk Bill.

The laborer, it seems, is content with 5 gallons of milk, 9 pounds of cheese and 15 pounds of butter in the twelve months. Artisans and mechanics have 12 gallons of milk, 11 pounds of cheese and the same quantity of butter. Each member of the upper class, however, drinks on an average 31 gallons of milk in a year, eats 101/2 pounds of cheese and 41 pounds of butter. A member of the upper class drinks rather more than six times as much milk as a laborer, eats just a little more cheese and uses three times as much butter.

#### Old Laws of Scotland.

On the statute book of Scotland is still an act passed in 1825 ordering that "na man play futeball," because it is "esteemed to be unprofitable sport for the common gude of the realme and defense thereof." There is also a statute against alien immigration, passed in 1426, and authorizing "all his majesty's subjects" to "take, apprehend, imprison and execute to death the said Egiptians (gypsies), either men or women."

#### Probably It Would.

In a Sunday school the class was under a question on the sacraments. The sacrament of matrimony was takon up, and a seven-year-old startled her teacher when replying to a question as to the necessity for this sacrament by answering: "No. Matrimony should a favorable opportunity afford

Our Stock is the largest and best in the city, and is strictly Fresh.

Our Grocery Department is filled with a select Stock of Groceries.

Stickney & Robinson. PHONE 57 TA WAS CITY, MICHIGAN.

Little five-year-old Edith was taken to a dentist, who removed an aching tooth. That evening at prayers her mother was surprised to hear her say, "Forgive us our debts as we forgive our dentista."

Optimistic Mr. Cockran. W. Bourke Cockran, the famous Irish-American lawyer and orator, has recently returned to his home in New York from an extended visit to Ireland and England. In an interview the other day Mr. Cockran gave expression to the most optimistic opinions regarding the future of Ireland. "Ireland is saved to the Irish," said he. "An era of prosperity is about to set in following the

W. BOURKE COOKRAN.

passage of the Irish land bill by parliament that will put the 'old sod' where it has belonged for years."

The bill referred to by Mr. Cockran was introduced by King Edward himself, and it is thought that the influence of the brilliant Irish-American visitor upon those high in English counsels had something to do with the adoption of the measure. While enthusiastic over the benefits which will accrue to the Irish people through the new land bill, Mr. Cockran modestly denies that he had a share in securing its adoption
