The whole lecture was replete with wit, eloquence and inspiring illustration. The large audience was delighted.—Sioux City, Iowa Journal. At the Congregational church next Monday night. We please the children and make them laugh. When we take their photograph. A. C. HUTCHINSON. Rose City is the latest hamlet to be incorporated as a city of the fourth class. While we congratulate our bustling little neighbor on her new dignity, we are very much of the opinion that the manufacturing of so many small cities by special acts of the legislature is a serious mistake. In our humble opinion if the legislature would revoke the charters of every city in the state with less than 5000 inhabitants and give them a village government it would be a good thing. As an illustration, Ioseco county has three city governments, which doubles the number of supervisors in this county, and yet not one of the cities have any special advantages which they could not have under a village charter, and the expanse of running the affairs of the county are more than doubled, and we sometimes think that a board of twelve supervisors would do the work of the present 24 better than it is now being done. Wanted—Girls to work in silk factories. Permanent employment, good wages, clean, healthy work. Call on 50 to 100 more girls. Address BELDING BROS. & Co., Belding, Mich.

As the coat shrinks the wearer's profanity expands. Why waste workmanship on unshrunk cloth? Saves time in the factory, and time of course is money—but the wearer gets "the short end" and wears the short coat. That is not the "Clothcraft" way. There is a patented Clothcraft machine that shrinks the cloth in the piece before it is made up. Does exactly what the high priced tailor does with wet cloth and hot iron, but does it quickly by wholesale. This is only one point of Clothcraft excellence, but it shows the

intent of the Clothcrafters and the thoroughness of their work. No other concern does or can use our shrinking machine. It's a Clothcraft patent. Without it no cloth is likely to be properly shrunk in a factory except at very great expense. The style and fit of Clothcraft clothes and cloth are self evident. You can see and judge them for yourself—but it is well for you to know that behind the perfection of fit and finish is the solid honesty of wearful cloth and workmanship.

SOMETHING WORTH KNOWING!

A good many people, not only in this city but throughout the county, have found that they can buy better goods for less money at the smaller jewelry store. My store is one of the eight thousand that supply the greater amount of the people, while we find only three thousand larger stores. The reason is low expenses, personal attention to buying and selling and lower prices than the larger stores. Therefore the success of the smaller stores. Have you looked over my new spring goods. It will pay you. I will be more than glad to have you compare prices. Yours Respectfully, W. B. MURRAY. D. & M. RY. WATCH INSPECTOR. East Tawas, Michigan.

THE ELECTION.

Bad Weather Caused a Light Vote to be Polled Throughout the State.

The generally bad weather throughout the state last Monday resulted in a light vote being polled. The republican state ticket was elected by a majority of about 80,000. In the election of local officers and circuit judges the independent voter cast a large figure and many cities elected democratic and citizen tickets.

The first election in Greater Bay City resulted in the election of a democratic mayor, recorder and justice, while the republicans elected a comptroller, treasurer and bridge commissioner. The common council will stand 12 democrats and 22 republicans.

In Wayne county James D. Burns democrat was elected sheriff. The democrats also elected two of the six circuit judges and over half of their city ticket.

C. L. Collins defeated E. E. Anneke for circuit judge in Bay County by a small majority.

In this county the result is about as usual, party lines receiving but little attention. F. C. Ebling was elected county road commissioner, over T. F. Robinson.

Judge Connine was re-elected circuit judge of the 23d judicial circuit without opposition.

Below is the result in Ioseco county:
