There has been considerable correspondence regarding the matter but is now settled and he feels that he can look forward to a good crowd. Tickets are on sale at Hanson's.
C. V. Hicks Pianos, and Organs

James Roberts, formerly of this city, and now engaged as switchman for the D. & M. Ry. Co., at Bay City, was thrown from the top of a car in the yards in that city, Monday, sustaining a double fracture of his right leg below the knee and a dislocation of the ankle besides being otherwise bruised.
Merchants are now planning their fall and holiday advertising, and in connection therewith we desire to call to their attention that the only practical way of reaching the people of Ioseco County is by using the Herald's advertising columns. It is guaranteed reach more people in this section than all other papers combined.
Mrs. J. G. Dimmick left Monday for Rutherfordton, North Carolina, where Mr. Dimmick has charge of the Beniah Mining Co.'s business. It is probable that the family will make that their permanent place of residence. The family have a host of friends in the Tawas who will unite with the Herald in wishing them prosperity in their new home.
The first number of the Tawas City Entertainment course will occur at the court house next Tuesday evening, when Robert Parker Miles will deliver his lecture "Sparks." In his lecture here last season Mr. Miles made the most favorable impression of any lecturer who has ever visited our city. He pleased everybody and his return engagement is sure to be greeted with a full house.
"A Secret Enemy," presented at the East Tawas opera house Wednesday evening, under the direction of the author, Burdett Milton Garfield, of Buffalo, supported by local talent, was greeted with a full house and given a most cordial welcome. The play is strong and replete with interesting situations. Each member of the cast took their part in a most able manner and are the recipients of congratulations from the large audience present.
Mr. and Mrs. Clifford Hayes and family, of Grant township, left last Saturday for a few days visit in Oscoda county before taking their departure for Marysville, Wash., where they expect to locate permanently. Mr. Hayes has been one of the most progressive and industrious farmers and the many friends regret the removal of the family from our county, but unite in hoping that they will find peace and plenty in their new home in the far west.
The pleasant home of Mr. and Mrs. William Allen, of Reno township, was the scene of a happy wedding last Wednesday afternoon, when their daughter, Elizabeth Ethel, was united in marriage to Mr. James A. Syze, of that township. The ceremony was performed by Rev. Severance in the presence of about sixty of the friends and relatives of the contracting parties. An elaborate wedding supper was served. The popularity of the young people was shown by the many handsome and useful presents of which they were the recipients. The happy couple left Thursday morning for a couple of weeks wedding tour to Flint, Detroit and other points.
Strayed or Stolen—From my residence in Alabaster, Oct. 15, two milk cows. One black and white and other roan in color. The black cow has long horns one of which is drooped downward. A liberal reward is offered for information leading to their recovery. P. F. MATTISON, Alabaster.
C. V. Hicks, Alpena music store.

Judge Connine held the adjourned term of circuit court yesterday. Chancery matters occupied the larger portion of the day. Matilda Lalonde was granted a divorce from Joseph Lalond. The case of Paul H. Brown vs. Anna Brown was heard and taken under advisement by the judge. Alfred Belenger plead guilty to entering and robbing C. H. Prescott & Sons' store, and will probably receive the sentence of the court today.
The many friends of James Henry Mount in this city were pained to learn of his death which occurred at his home in Detroit last Monday, from Bright's disease. Henry, as he was familiarly known, was one of the best known and most popular officials of the D. & M. Ry. Co. Holding the position of cashier and paymaster he came into direct contact with almost every employee of the company and was universally respected by all. The deceased was about 48 years of age and has been connected with this road for the past 25 years, working himself up from the position of station agent in this city to the responsible position which he held at the time of his death. He leaves a wife and two children, Charles and Isabella, besides four brothers, George, of this city, Josiah, Frank and Delbert, of Bay City. The funeral was held at Bay City Wednesday afternoon.

NO. 1A WOOL

Clothcraft Clothes have a great deal to do with the decline of the custom-tailoring business.

A man who likes to be well-dressed is usually willing to spend some money on his clothes, but when he can duplicate the work of his tailor by getting a Clothcraft suit or overcoat, and save ten dollars at the same time, it is a plain business proposition for him to buy Clothcraft Clothes.

Clothcraft designers dissect the finished product of the leading English and American tailors, in order to exactly reproduce the best of their work in Clothcraft Clothes.

To this foundation they add many original ideas which are exclusively "Clothcraft." The Newport, shown here is a typical Clothcraft production—coat single breasted, wide lapels, slightly curved front, concave shoulders, close-fitting collar; trousers full peg-topped—this swell suit is made in a great variety of all-wool fabrics, and is priced from \$10 to \$25.

Just a Word.

It is not our purpose to use our columns to dun our patrons, but just at the present time we are in need of money very badly and we happen to have a considerable amount due us, and as it is quite necessary that we should have it by November 1st, and being unable to make personal calls on all of those indebted to us we take this manner of asking them to settle. We hope to receive a prompt response to this request from all whose subscription has expired as well as those who are owing us on other accounts.

Hon. W. R. Herst has accepted the nomination for mayor of greater New York on the municipal ownership league ticket.

The New York National base ball club won the world's championship series from the Philadelphia American League team last Saturday, having won three out of four games.

It is estimated that the iron ore brought down the lakes this season will reach the numerous total of 35,000,000 tons, equal in weight to the entire wheat product of the United States in two average years. It's a big pile of solid stuff.

Foreign labor continues to pour into the country in unprecedented volumes as well as foreign merchandise. Immigration at New York last month exceeded all previous September records—the 90,772 arrivals comparing with 82,708 a year ago, with 51,000 two years ago, and less than half that number three years ago.

There is but one way in which the local merchant can beat out the mail order houses—that is, do just what they do—advertise. The mail order houses build up and keep up their business purely by advertising. It is less than half the battle for newspapers to refuse mail order advertising, when some of the stores they are trying to protect, reciprocate very little in kind.

A law was passed by the last legislature whereby transient merchants can be stopped from soliciting orders from the farmers and people of any county. This law requires a license fee of \$10 per day from non-resident solicitors or peddlers, and the merchants of Bad Axe recently put the Chicago grocery house solicitors out of business in Huron county with it.

The navy department at Washington has made the statement that the armored cruiser Colorado at her first target practice, recently, made a record with her six-inch guns never before equaled. It was accomplished without derangement of her sights. It was the first time the Colorado had fired her guns in target practice and her gun crews are newly organized.

Lumber prices all over the northwest are to take another raise within the next two months, so it is said. At a joint meeting of the Wisconsin Valley and Mississippi Valley Lumbering Association held in Minneapolis a majority of the fifty-five committeemen present were in favor of raising the prices on every grade of lumber. It is further stated that lath prices will be advanced at once.

When a man don't give his wife any money nor pay the preacher nor contribute a cent to build up his town or country, some people call him a hog, but that is slander—slander against the hog. The hog does pay. He pays the doctor, the printer, the preacher, the store keeper, builds a new house for the wife, buys organs, pianos, buggies, and sends the children away to school. Don't ever compare a mean stingy man to a hog again.

Fifty years ago practically all the paper in use was made from rags, preferable linen rags. To-day most of it is made from wood pulp. Now, if the plans of certain experimenters are carried out, the linen itself, or a good substitute for it will be made from wood pulp. Artificial silk made from pulp has for some time been on the market, and the demand is said to exceed the supply. A new process has been patented for spinning many different sorts of fabric from moist pulp. The fiber so obtained is called "silvalin"—"wood thread."

The death of Sir Henry Irving occurred at Bradford, where the famous actor was playing in a tour of the English provinces, shortly before midnight Friday night. Sir Henry had appeared at the Theater Royal as Becket in his dramatization of Lord Tennyson's play of that name, and apparently was enjoying his customary health. Returning to his hotel after the performance he was suddenly attacked by severe pains. Before the physicians who were summoned arrived syncope ensued and the end came in a few minutes. Bram Stoker, his manager for years, and a few intimate friends were with Sir Henry when he died.

Another Good Year.

The annual report of the Detroit & Mackinac shows the road to be in a fine condition. In it President J. D. Hawks says:

"The road has had another good year. The Cheboygan extension was opened July 4, 1904. It takes time for the traveling and shipping public to get acquainted with a new line. Advertising in newspapers and pamphlets does a certain amount of good, which is in a way cumulative, but personal advertising from people who have actually used a new line, and found it up to date in every respect, is the kind that counts most, and this is slow in producing results. Cheboygan is a competing point by water and rail. Many of our old rates had to be re-adjusted and in some cases reduced to meet the new conditions, and it took part of the year to work up to the new rates, as the Cheboygan business did not at once compensate for the necessary reductions.

"The small increase in gross earnings does not mean that the road has reached its limit in that direction. Scarcity of cars was badly crippling the industries along the road and so there were added during the latter part of the year 1 cafe coach, 1 parlor coach, 12 day coaches, 1 smoking car, 1 baggage, mail and express car, one baggage car and 2 heavy locomotives. These were received too late to add to earnings this year, but have been of great help during the summer.

"There were ordered during the year and received after its close 200 box cars, 25 furniture, 50 single deck stock cars and 100 gondola cars.

There were ordered and used on the south end of the road 4000 tons of 85 lb. steel rail. The 70 lb. rail replaced by this heavier rail was used south of Cheboygan to take the place of 52 and 56 lb. rail, so that now we have the entire road laid with 70 lb. or heavier rail. Our steam shovel was kept at work during all the year putting on ballast. The concrete gang worked steadily putting in permanent culverts and cable guards in place of wood.

"Attention is called to the decrease in percentage of our business under the head of 'Product of Forests.' Last year it was 61.72 per cent of our freight business; this year it was 55.62 per cent, and for the year ending June 30, 1896, it was 91.35 per cent.

"Stone, sand and other like articles have grown from 0.19 per cent in 1896 to 13.70 per cent this year. General merchandise from 3.46 per cent to 16 per cent.

"Cement, brick and lime, from which we are ultimately to get a large revenue, show for the year only 1.09 per cent. The decrease in coal tonnage is accounted for by the fact that a large amount of coal mined at West Bay City, for which we used to receive a small tonnage charge, is now hauled by the Pere Marquette in train loads over a short piece of our track under a leasing agreement."
