The war of 1812, which had such concern with subsequent events of special interest to the early inhabitants of Detroit and its neighboring villages is to be perpetuated in memory by establishing at Flat Rock, the scene of many of the negotiations of the Indians under the leadership of the great Tecumseh, two mounted cannon appropriately inscribed.

Carty, at Maple Ridge, Fred Lawrence who lives in that neighborhood, struck a veritable treasure trove among a and papers and \$150 worth of postage stamps taken from Fred Twining's Boston, Mass. store and postoffice at Twining, several weeks ago. Mr. Lawcence immediately telephoned to Mr. Twining. who went and claimed his property.

The capitalists are never contented no matter how much they are making, out they preach contentment to the work people. Why shouldn't the work people be ambitious to better their condition as well as the fleecers? Es pecially so when all they ask is to have more of what they give their own life and labor to produce, while the capitalists want to increase their holdings not out of their own production, but out of what the work people produce. What do you think about it?—Ex.

GEO. L. CGRNVILLE, Attorney for Plaintiff. Sheriff of Iosco Co

When you buy a Clothcraft suit you can safely wager every dollar you have in the world that there is not a thread of anything but wool in it.

It is pure selfishness which dictates this all-wool policy. The millions of dollars worth of Clothcraft Clothes sold every year could not possibly be sold if Clothcraft overcoats, and suits, had not the shaperetaining and long-wearing qualities of all-wool fabrics to back up their superb style and perfect tailoring.

The illustration gives as good an idea as can be given in a newspaper of the beautiful lines of the Clothcraft Surtout frock overcoat. This overcoat is the masterpiece of the best designer that ever laid out a pattern. It has a fine concave shoulder line; close-fitting waist with hollowed back; full, roomy, well-hung skirts; the new broad lapels-in fact it is perfectly correct at every point and could not be duplicated by a tailor for less than \$50 to These cost less.

> Many persons are aware that state expenses have been materially increased during the past fifteen or twenty years out of all proportion to the growth in population of the state, although but few will be prepared for the fact that in the last sixteen years the state expenses have more than doubled and in fact nearly trebled. A comparison of state expenses in the year 1889, under the administration of Governor Luce. with those of the year 1905, must constitute an eye-opener to the people of the state. In 1889 the population of Michigan, as nearly as can be estimated from the censuses of 1884 and 1890, was 2,000,000, while in 1905 the population was 2,500,000, an increase of twentyfive per cent. The total expenses of the state government in 1889 were \$3,134,929, while in 1905 the expenses had grown to \$8,287,991, an increase of 270 per cent.

COLE'S HOT BLAST Wonderful Heater and Fuel Saver

Shows Stove

Burning

The Original Cole's Hot Blast Stove

Cole's Original Hot Blast, by means of the Patented Hot Blast draft used

in connection with other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or On account of the patented air tight and gas tight construction giving perfect

control over the drafts, it also saves the heat usually wasted up the chimney. \$5.00 worth of hard coal, soft coal or lignite, or a \$1.50 ton of slack or coal siftings is thus made to do the work of twice the amount of fuel in other stoves and the cost of the stove is more than saved in fuel each winter. \$7.50 worth of slack will heat your house winter, five tons at \$1.50 a ton does the work.

Build only One Fire a Winter

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the hard coal or soft coal put in the night before. No other stove does this. Fire, therefore, never goes out, kindling fires is dispensed with, and the rooms are kept at an even temperature all the time.

Read the Guarantes. We are the exclusive agents for Cole's Original Hot Blast and sell it on the accompanying guarantee which cannot be made on any other heating stove in the world. If you want to save half your fuel bill and would enjoy the luxury of getting up in a warm house on cold winter mornings without kindling fires, buy Cole's Original Hot Blast now.

Avoid Imitations

Imitations of this Original Hot Blast are many. None of them has the absolutely air-tight and gas-tight construction throughout which Cole's Hot Blast has by reason of its numerous patents. A Patented Steel Collar connects the elbow draft to the stove body and cannot open by action of the fiercest heat. The Patented Compound Hinge on the lower draft cannot warp, and the draft door closes air-tight by its own weight. The guaranteed Smoke-proof Feed Door prevents smoke, dust or gas escaping when fuel is put in the stove

Imitations soon open seams and cracks which spoil them for keeping fire and cause the gas half of the coal and much of the heat to escape up the chimney. See the name "Cole's Hot Blast from Chicago" on the feed door of our stove. None genuine without It.

Ask to see the patented dustless ash cover for removing ashes. Our method is the only clean way.
