## Notice to Subscribers.

On April 1, next the subscription price of the Herald will be advanced to \$1.50 per year, payable strictly in advance. This advance is caused by the increased cost of paper and other material, and to meet extensive improvements which we contemplate making at that date. After careful estimate we find that printing a country newspaper at \$1.00 per year is a losing proposition and will not permit of improvements.

Until April first all subscriptions, either in advance or those now due, will be received at the rate of \$1.00 per year, but after that date \$1.50 will be required. It will be to your advantage to pay at least one year in advance before that date.

George Webster, jr., received a bad scalp wound on the side of his head, by coming in contact with a shaft, while at work at the Tawas Manufacturing Co.'s plant, last Friday.

James LaBerge has just received his spring and summer samples from the Clere Clothing Co. The new goods are the finest yet. Do not order your spring suit until you call and see this line.

From The Onaway Outlook we learn that John Koepke, formerly of this city, has just resumed his duties as section foreman there, after having been laid up since Dec. 6, with a lame leg and having undergone an operation.

The state of Michigan netted \$12,596.45 from the inspection of illuminating oils in Michigan last year. State Oil Inspector Benjamin, after paying his own salary that of his deputies and all expenses of the office turned over the above amount to the state treasurer.

Last Friday Judge Conne sentenced William O'Mara, who pleaded guilty to the charge of burglary, to the state prison at Jackson for a term of not less than two and a half years nor exceeding 15. He also granted Florence Kelly a divorce from William H. Kelly, and Arthur LaFave one from Anna E. LaFave.

Michigan Christian Endeavor day will be observed by the local society next Sunday, March 11, in commemoration of the formation of the Michigan Christian Endeavor union nineteen years ago. A special program will be given and an offering will be taken for the benefit of the union and its work in this state. A cordial invitation is extended to everyone to come and enjoy this meeting and help to further a good cause.

Some of our subscribers do not seem to thoroughly understand regarding the increase of the subscription price of the Herald which goes into effect April 1. We have endeavored to make it plain that you can secure the paper at \$1.00 per year for as many years in advance as you wish, by making the payment before April 1. A large number have already taken advantage of this offer and have paid their subscriptions one and two years in advance.

The railroad tax assessment rolls has been placed in the hands of the auditor general for collection. Few railroads will pay, however, as an injunction is still in force restraining that official from levying on property of the companies until the tax cases now before the federal supreme court are disposed of. The opinion of the supreme court declaring the Galbraith law unconstitutional does not effect the average rate of taxation in a different manner than that provided for by the constitution.

The Northern Michigan asylum, which has one of the most notable herds of Holstein-Friesian cows in the United States, closed a deal by telegraph last week with F. W. Field of Brockton, Mass., for the sale of a change registered Holstein, for \$1,500, the largest sum ever paid for a Holstein in Michigan. This cow ranks fourth in the United States as a butter producer, averaging over 50 quarts daily, the equivalent of 29:19 pounds of butter per week.

Writing from Hamilton, Mont., John Fitzgibbons, a former Tawas City boy says: Enclosed find check for \$2.00 for my subscription to the Herald to Oct. 1, '07. The paper is worth \$1.50 a year and you ought to have it. I sold the first Herald that was printed when it was first started at Tawas City by Mr. Miller. I sold it to Mike Murphy and one side was all smeared with ink. The paper is better than ever. Success to it in the future. We are always glad to hear from former residents who have gone to other fields.

TAWAS CITY, MICH., MAR. 9, 1906

According to the state labor bureau Michigan stands fifth in the list of paper producing states. There are 33 mills in the state having a daily capacity of 2,397 pounds. The aggregate value of the production last year was \$8,233,961 and employment was given 3,614 persons.

An exchange says an up-to-date twentieth century farmer reads newspapers, and first of all he reads his local paper. He wants to know what his neighbors are doing, what is happening in the world around him and he wants in many cases to study the advertisements and find where he can buy goods the cheapest. He don't say much about it perhaps when he goes to the store to do his trading, but just let a merchant advertise a special bargain and see if the up-to-date farmer don't find it out and take advantage of it.

Governor Warner says that "there has been a remarkable change of sentiment for the direct nomination law all over the state," and accordingly in his own county he has come out in favor of the primary system straight down the line. The governor is just as far behind the lighthouse in his discovery of state sentiment on primary reform as he was in the Galbraith law, both being a case of getting shoved in. Almost any politician would have well been able to appreciate state sentiment by looking at Mr. Warner's last vote and making comparisons with the vote of his colleagues—*Saginaw News*.

Methodists of Michigan are planning an important state missionary convention, to be held at Flint, March 13-15. The purpose of the convention is to bring together conference and district officers of the different organizations of the church, the pastors and the representatives from the local churches and young people's societies within the bounds of the Detroit and Michigan Conferences, for the consideration of some of the problems fundamental to the christian occupation of the unevangelized nations, and also for prayer, fellowship, and discussion of methods and the best helps available for fulfilling the great missionary purpose of the church.

The Michigan investor, a financial paper is devoting most of its editorial space to the alleged injustice of railroad taxation, and in the last issue of the paper sets out to show the people that railroad taxes are of no benefit to the state anyway as all the money goes to the schools. It forgets that the schools are a part of the state that some one's taxes must support, and if the teacher's salaries are paid by the railroads the rest of the people are relieved of the necessity of paying just as much taxes as we get out of the corporations. The railroads, instead of trying to get out of paying their just share of taxation by means of such boards as the tax commission or the Galbraith law passed by the legislators that they own, would do better by far to work for an honest and economical government and lower taxes for all. Then we could all reap the benefit. *Cheboygan Democrat*.

### Doctors Are Puzzled.

The remarkable recovery of Kenneth McIver, of Vanceboro Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die, when as a last resort I was induced to try Dr. King's New Discovery and I am happy to say it saved my life." Cures the worst coughs and colds, bronchitis, tonsillitis weak lungs, hoarseness and lagrippe. Guaranteed at G. S. Darling's and J. M. Wuggazer & Co. drug stores. 50c and \$1.00. Trial bottle free.

For Sale:—A set of new computing meat scales. Will be sold at a bargain if taken at once. Enquire at the Herald office.

### Women in Metal Work.

A series of articles on "Arts and Crafts Industries" is begun in the March New Idea Woman's Magazine with an account of the making of jewelry and designing in metal, in which work it appears many woman are now not only engaged but successful. Some charming pieces are shown as the work of Miss Jane Carson of Cleveland and others, including brooches, watch fobs, lamps, jewel boxes, tongs etc. The writer, Miss Delia Austrian, is very optimistic concerning the outlook for women in this craft. "There are other women," she says in the East and West who are doing artistic work in metals and in the fashioning of jewelry. They are one in the opinion that this work gives delight and worthy remuneration to such as possess talent and perseverance. They say that there was a time when a strong prejudice was felt against women craft-workers, and that Americans preferred to buy their jewelry in Paris instead of patronizing the artists of their own country, but this is no longer the case. American women want artistic and able work, and because these workers possess the talent and perseverance needed, they have won recognition and are enjoying the fruits of their efforts."

### Constitutional Convention.

At the election to be held on the first Monday in April, 1906, the question of calling and holding a convention, for the purpose of making a general revision of the Constitution of this state, will be submitted to the qualified electors.

The ballots upon which this question will be submitted will be separate and distinct from all other ballots used at this election.

If a majority of the qualified electors, voting at such election, shall decide in favor of calling a convention for the purpose of revising the Constitution, it will become the duty of the legislature at the next session to provide by law for the election of delegates to such convention, whose duty it will be to prepare a general revision of the Constitution, which shall be submitted to the qualified electors at some future time for adoption or rejection.

GEO. A. PRESCOTT,  
Secretary of State.

### Torture By Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing Me., Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." ## How To Save Your Strength Time and Team in Plowing

GOOD plowing means lifting a good weight of soil, turning it clear over and doing it easily and fast.

You can lift anything if you get the right "purchase" on it.

And an Oliver Plow cuts clean and deep, lifts easily, turns the soil at a proper angle, and throws it off so that it falls clear over of its own weight.

This is because an Oliver Plow is shaped and balanced in keeping with practical working principles.

It conforms to natural laws of leverage, friction and gravitation.

And this results in true "Lightness of Draft."

The Oliver Plow shown below is always sharp, because so shaped that it sharpens in going through the soil.

Its mold board scours easily, being extra smooth, bright and impervious to rust.

These are some of the reasons why an Oliver plow will help you save time, strength and your team.

But there are others. Take this "State of Michigan Plow," made in two sizes and called the—

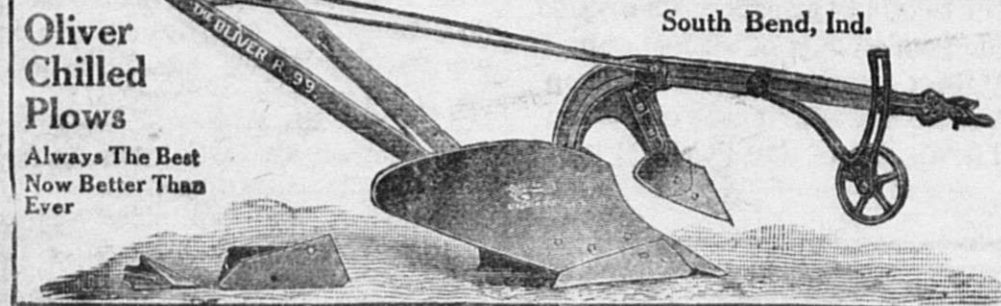

### Nos. 98 and 99

Observe the parts we have described. Also the heavily braced steel beam which no jar can loosen.

Notice how every part is centered toward the pull. Not an ounce of power is lost.

It is adapted to the heaviest work—will plow any kind of soil and plow it thoroughly.
