THE TAWAS HERALD.

Only Eight Days Remain

In which you can secure the Herald for \$1.00 per year. Unless your subscription is paid in advance before April 1st it will cost you \$1.50 per year. We have given our subscribers every opportunity to take advantage of this low price and if they neglect it it is not our fault. It is much satisfaction to us that such a large proportion of them have availed themselves of the opportunity offered and have paid one or more years in advance. Those who neglect it have only themselves to blame. Many new

subscribers have also enrolled on our subscription list. The subscription price of the Herald will be advanced to \$1.50 per year on April 1st, 1906.

It is doubtful if in all the years of Spanish rule in the Philippines a more heartless slaughter of the natives can be found than that by American troops last week, when 900 natives, including women and children were slain. What the natives of these islands gained by a change from Spanish to American rule is hard to see. Such acts as these should bring a blush of shame to the cheek of every true, liberty loving American.

Because there are men in Iosco county who aspire to serve in the state senate or the lower house of the legislature, and who have the manhood to announce their desire, our neighbor the West Branch Herald-Times goes into hysterics about once a week and accuses them of a desire to "hog" all the offices. As yet the Herald-Times has not named a candidate from that county and it begins to look as though none could be found. So far as the senatorial nomination is concerned, it is practically assured that A. C. Carton of East Tawas will land it without much of an effort.

Watson's for March.

Watson's Magazine begins its second year with the March number. It has grown and prospered and Mr. Watson's virile editorials show no falling off in spite of former predictions that he could not sustain the force and brilhancy with which he began his crusade for the rights of the many against the privileges of the few. Watson's has been enlarged to 160 pages, the cover has been improved, and the name changed from Tom Watson's to Watson's. Instead of the one department with which the magazine first appeared there are now seven two of them edited by Mr, Watson himself; and the fiction and verse have risen to a very high standard of excellence. The advance in price from ten to fifteen cents is more than warranted by the improvement and enlargement.

To City, Village and Township Treasurers and Clerks, and other officials who will soon have to furnish bonds:

I desire to call your attention to the advantages and desirability of furnishing a security bond. They are the most acceptable and safe bond that can be had and you avoid the trouble of asking your friends to go on your bonds

I have secured the agency for two of the best known and most reliable bonding companies in the country,

the Title Guarantee and Security Co. and

The Fidelity and Deposit Co.

The cost of these bonds is so low that you can well afford to secure them, the minimum cost being \$5.00. Write me in regard to prices and particulars.

Municipalities and townships should insist that their officials furnish fidelity bonds and should bear the expense or at least a portion of it. It would prove a good investment to them in many cases.

Farmers Meeting.

We are informed from the headquarters of the American Society of Equity | March 16th, 1906. at Indianapolis. Ind., that a meeting will be held at Owosso, Mich., April 27th and 28th, 1906, to organize a ter

ritorial union of said society. This is a farmers organization and its chief object is to secure profitable prices for all farm crops, to raise prices when they are too low, and to maintain them, when equitable. It is the original advocate of "Controlled Marketing" by farmers to compel fair prices table. and it claims a large degree of the credit for the revolution that has been worked in marketing crops the last few years, and which is responsible for the better prices for crops that have prevailed.

March 1st, it called a strike of the Nays-None. grain producers against the declining committee on claids and accounts: prices and has prepared a circular G. S. Darling, supplies containing figures and facts showing why farmers should strike, and a Thos. McGill, salary strong argument why they can win. This circular is before us and the figures are truly revelations. They show Jno. B. King; salary 1 year and postage that a few million bushels of grain, called "Visible Supply" (which is really a temporary surplus,) influences Marzinski, Brabon, Brown. Nays-None. the price on hundreds, or thousands, or millions of bushels representing the farmers total crops. It is contended that a little more control by farmers will eliminate this "Visible Supply", or keep it very small, when prices can be made right and kept right.

The arguments presented in this circular are the strongest arraignment against the old system of price making with that old enemy of the race, conby speculation we have ever seen.

A general invitation to all tarmers s extended, all members of the society are urged to attend, and local unions are expected to send delegates.
