### Died from His Injuries.

Last Friday afternoon occurred what proved to be a fatal accident. As the north bound local freight was unloading at this station John Canfield attempted to pass over the tressel, back of the court house, along side of the train. The train backed up knocking him down so that his left arm fell across the rail and the wheels passed over it above the elbow. He was removed to Darling's drug store and Drs. Wakeman and Conant dressed the wound, but owing to his advanced age, 86 years, he failed to rally from the shock and died Sunday morning.

The deceased was an old soldier and had been a resident of this place for nearly 40 years. He leaves an aged wife, one son, Thomas of Alpena, and two daughters, Mrs. Snyder, of AuSable, and Mrs. W. H. Spencer, of Chicago. The remains were taken to AuSable Tuesday for interment.

### To the Voters of East Tawas.

I respectfully announce myself as a candidate for justice of the peace, and solicit your votes. Sibley G. Taylor was nominated at the convention but does not desire this office, being a candidate for city clerk, and asked the election commissioners to take his name off ballots, but they refused. It is a question as to one legally holding city clerk and justice of the peace and in case of Mr. Taylor being elected and not qualifying as justice, we will have but one justice, and that one John W. Tait.

H. C. BRISTOL.

TAWAS CITY, MICH., MAR. 30, 1906

The Saginaw Evening News calls attention to the very "clever" scheme of Gov. Warner in providing enrollment blanks for the republican voter. The attorney general says that while there is no provision in the law for their use, yet they may be used. The governor can already see the great desirability for the machine to remain in control, so these blanks are provided that the local adherents of the present regime may see to it that enrollment is made in advance and handed in on election day. The chief executive does not say what shall become of the blanks after election and the law fails to state that they become public records. The trickery of the measure is slowly but surely being revealed.

If you desire to have a voice in the adoption or rejection of the so-called primary law, or to have a voice in the selection of candidates under its provisions, in case of its adoption, during the next two years, it will be necessary for you to enroll at the election next Monday either as a republican, a democrat, a prohibitionist, or a socialist, and after you have so enrolled you can take part in no other party nominations during the next two years, if the so-called primary law is adopted. The thousands of honest independent voters of the great state of Michigan are thus forced to become partisans or else be disfranchised in so far as the primaries are concerned. This is the worst feature of the many bad ones in the so-called primary law.

### Democratic Nominations.

The Democrats of Tawas City held their city convention and ward caucuses Monday evening all of which were largely attended. The following nominations were made:

### Republican Nominations.

The Republican caucuses were held on Thursday evening of last week and the city convention on Saturday evening. With one or two exceptions all old officials were re-nominated. In the first ward Chas. Nellen was nominated for alderman to fill vacancy caused by Ald. Garber's resignation and F. M. King to succeed Ald. Harting. In the third ward Thomas Davison was nominated to succeed Ald. J. H. Brown. There was but little contest for any of the nominations. Below is the full list of nominees:

Treasurer—Thomas J. Moore.  
Justice—William B. Kelly.

Editor Len J. Patterson evidently appreciates the value of his Tawas Herald. He has increased the subscription price of his paper and in so doing has made the pleasant discovery that his patrons also know a good thing when they read it. Instead of losing subs the latter have cheerfully met the problem and laid down their money in advance. Besides representing Tawas City the Herald prints the news from Hale Lake, Whittemore, Wilber, South Branch, Reno, Hemlock Sherman and other town too numerous to name.—*Millersburg Enterprise*

### Doctors Are Puzzled.

The remarkable recovery of Kenneth McIver, of Vancebro Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die, when as a last resort I was induced to try Dr. King's New Discovery and I am happy to say it saved my life. Cures the worst coughs and colds, bronchitis, tonsillitis, weak lungs, hoarseness and lagrippe. Guaranteed at G. S. Darling's and J. M. Wuggazer & Co. drug stores. 50c and \$1.00. Trial bottle free.

### For Good Roads.

Hon. Horatio S. Earle, state highway commissioner and widely known as champion of good roads, is out with an extended article on the subject of road taxes in which he shows the fallacy of the present system (which is in reality a lack of system) and urges the passage of a sensible state law for general adoption. He admits, however, that there is no time to do anything this year so he advises as follows:  
"What can be done? Substitute no other than this year, but assess your statute labor and vote a cash highway and bridge tax as you have been doing. Make permanent improvements on some of the leading roads. Further, if the following plan meets your approval, tell your state senator and representative in the state legislature, and you will get the law for 1907.

Mr. Earle then outlines his idea of a law that would fit the case in the following language:

The township law I advise is to abolish the statute labor tax system entirely, collect all road taxes in cash, but have two taxes, the first to be known as the Road Repair Tax, to be levied on property outside of incorporated villages; none but voters residing outside such villages to be permitted to vote on it. This is to take the place of the statute labor tax and should not exceed one per cent of the assessed valuation; every dollar of it to be expended on the roads along the property taxed. Then the farmer living away from the leading highway will have his road kept in repair.

The second tax to be known as the Road Improvement Tax will be levied on all the property in the township.

It should not exceed one per cent of the valuation of the township in any one year and all the voters in the township have the privilege of voting how much it shall be.

All townships will be divided into four road districts and an overseer elected in each district, whose duties will be to look after emergency repairs and to act, under orders of the township highway commissioner, who will be in charge of all highway and bridge work in the township.

The repair tax fund the commissioner will by law be compelled to expend on roads passing the property on which it is levied, but the improvement tax fund he must use as directed by the township board.

This, in my opinion, will furnish the ideal township road system.

The overseers should by law be paid one dollar and fifty cents per day and the commissioners two dollars. Then with a good law and good men, we will improve all the roads in Michigan.

### Torture By Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures liver complaint, dyspepsia, blood disorders and malaria and restores the weak and nervous to robust health. Guaranteed by G. S. Darling and J. M. Wuggazer & Co. druggists. Price 50c.

### A Good Plan.

"Simplified spelling," the latest slogan of practical educators, sounds so sensible that it should make a strong appeal to every matter-of-fact American. The campaign to secure it, now formally launched, seems so business-like, too, that the English speaking world might well sit up and take notice, says the Grand Rapids Press. When such literary authorities as Prof. Brander Mathews undertake to lead the reform campaign, intellectual circles as well as counting room seekers after systematized simplicity can afford to give it attention.

Reform in spelling is bound to come. Too many letters are used and words are spelled in flat contradiction to their sound. In an ordinary note of reasonable length, scores of letters are absolutely wasted. In writing them the correspondent also wastes time, ink and paper. Moreover, in learning the method of employing these useless letters he has wasted energy and occupied spaces in his memory that might have been better utilized with other things.

A general reform put into effect all over the country at once, would be better than the unofficial and only partly recognized changes that are now being made by educators in certain parts of the country.

### A Scientific Wonder.

The cures that stands to its credit makes Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, of Waynesboro Pa., of a distressing case of piles. It heals the worst burn-sores, boils, ulcers, cuts, wounds, chilblains and salt rheum. Only 25c at G. S. Darling's and J. M. Wuggazer & Co. drug stores.

### Cut of the Shore Mills.

The territory lying east of the Mackinaw division of the Michigan Central railroad and north of the Saginaw river to the straits of Mackinaw is designated as the Lake Huron shore. It is traversed by the Detroit & Mackinaw railroad from Bay City to Cheboygan, and has long been one of the largest lumber producing areas in Michigan. Lumbering began at an early day along this shore and although the great body of white pine has vanished this region contains the largest and most valuable tracts of hardwood and hemlock timber to be found in the country. The main lumbering points on the shore are AuSable and Oscoda, Alpena, Onaway, Millersburg and Cheboygan, with numerous small mills scattered along the line of the railroad and its branches. A considerable portion of the cut of these mills is handled by rail through Bay City but the product of the shore ports is moved out mostly by water, AuSable, Alpena and Cheboygan being the chief water shipping points. Some lumber is shipped from Rogers City and some from Tawas.

The year of 1905 was a prosperous one in the main for the lumber industry and the manufacturing firms made good records. The output of the mills in the Lake Huron shore territory for the year aggregate was as follows:

Lumber, feet	184,532,000
Lath, pieces	61,633,000
Shingles, No.	103,581,000

### Factory Women in Michigan Poorly Paid.

Miss Luella M. Burton, of Detroit, woman factory inspector, is just completing her annual report. She has found that 39,307 women were employed in factories and shops in Michigan last year. This is an increase over the number so employed in the previous year and two and one-half times the number employed in factories ten years ago. The daily wages varied from 75 cents to \$1.05 per day.

Generally speaking, she reports conditions for women employed in factories as improving. She says employers are steadily bettering conditions. Her chief objection, she says, is to the practice of girls employed in cigar factories biting off the "tag ends" of cigars. This she considers offensive to the girls and objectionable on the ground of sanitation.

### Eighth Grade Examinations.

Pupils' eighth grade examinations will be held Thursday and Friday, May 3 and 4, 1906, in the following places: Hale, East Tawas, AuSable and Whittemore. Examinations will begin promptly at 8:30 a. m.

Reading will be based on: "The Landing of the Pilgrims."—Felicia Hemans. J. A. CAMPBELL.

### South Branch.

Little Grant Cowie has been very sick for several days.

Mrs. Bert McFall returned to Brant Tuesday after a three weeks visit with her mother Mrs. Jennie Patrick.

Mrs. Jennie Patrick entertained a goodly number Thursday evening in honor of the sixteenth birthday of her daughter.

Sandy Gordon, for many years foreman for S. G. M. Gates, died suddenly, of heart failure while directing work at his camp in Curtisville, Tuesday morning. He was a comparatively young man and leaves a widow and two children. Mr. Gordon was a brother-in-law of J. B. Rowland who died in the same way just a week ago.

A number of friends and neighbors gathered at the home of Mrs. Nellie Larkin last Saturday in honor of the one hundredth birthday of her mother Mrs. Sarah Monteny, the oldest woman the guests have ever seen. Mrs. Monteny is the mother of eleven living children, the eldest of whom is eighty one years old, and the youngest fifty nine. Besides these she has a host of children's children whose name is legion, even unto the sixth generation.
