TAWAS CITY, MICH., APRIL 6, 1906

It sounds too good to be true, and yet the dispatches from Washington state it for a fact that the committee on agriculture of the house decided not to recommend any appropriation for free seed distribution. The death of this hoary old fraud will mean a saving of at least a quarter of a million dollars annually to the government, and it is to the everlasting credit of the farming class that the action of the committee was due to petitions from farmers' organizations in various parts of the country.—*American Farmer.*

This country is the greatest consumer of hides and skins in the world says the Shoe Retailer. It uses in a year 48,000,000 goat skins, 24,000,000 sheep skins, 16,000,000 hides of all kinds, 9,000,000 calf skins, and 2,000,000 other skins. It imports all its goat skins, a total amount of about \$25,000,000 worth, and over \$10,000,000 worth of hides and over \$17,000,000 of other skins, a total of over \$50,000,000 worth of hides and skins. Germany imports one-third less hides and skins than does this country, and England and France each import one-half as much.

"A law to Exterminate Mugwumps would have been a good title for our primary reform statute," says the *Manistee Daily News*. This famous law spreads itself over a twenty-page pamphlet. In order to make intelligible Attorney General Bird has issued, for the benefit of election officials and party leaders, an "official construction" or commentary, which fills a thirteen-page pamphlet. It is not yet known whether or not it will be necessary to prepare a commentary on the commentary to bring the terms of this curious and wonderful statute within the comprehension of the average citizen.

The Elections.

At the spring elections throughout the state last Monday an exceptionally large vote seems to have been polled, and the results indicate that the reform wave has reached Michigan very strong and many cities have made a clean sweep regardless of party. Many non-partisan and reform tickets were elected, and where party tickets were run the result seems to be about evenly divided.

The indications are that the proposition for a constitutional convention to revise the state constitution has been carried by a large majority.

On the question of party enrollment for the primaries a large per cent of the voters seem to have enrolled.

In the various townships of this county the result was in most places the return of old officials. The following supervisors who stood for reelection being defeated: James Jackson of Sherman, P. J. BONDS

To City, Village and Township Treasurers and Clerks, and other officials who will soon have to furnish bonds:

I desire to call your attention to the advantages and desirability of furnishing a security bond. They are the most acceptable and safe bond that can be had and you avoid the trouble of asking your friends to go on your bonds

I have secured the agency for two of the best known and most reliable bonding companies in the country,

The Title Guarantee and Security Co.

and

The Fidelity and Deposit Co.

The cost of these bonds is so low that you can well afford to secure them; the minimum cost being \$5.00. Write me in regard to prices and particulars.

Municipalities and townships should insist that their officials furnish fidelity bonds and should bear the expense or at least a portion of it. It would prove a good investment to them in many cases.

CONSCIENCE CLOTHING

The foundation of a permanent fitting garment is in its shape-retaining qualities and the secret lies in the proper sponging of the cloth to avoid shrinking; not merely a wet cloth and a hot iron, but scientifically sponged by practical men;—by means of the CLOTHCRAFT patent process. This is one reason for the success of CLOTHCRAFT clothing, now add to this the genius of the designer of CLOTHCRAFT CLOTHES, the personal supervision by experts, the non-shrinkable body canvas, the vital insides, etc. and there you have the perfection of form-fitting properties that have universally established CLOTHCRAFT apparel as indisputably among the best fashioned garments that ever graced the form of man.

Texture, pattern or trimmings be they ever so standard have neither the elements of fashion or merit without these perfect fitting essentials. It is the fit that distinguishes your clothes from the general every day kind.

You can no more expect clothing satisfaction without it, than you can look for good bread from bad flour. Be sure you're safe, ask for CLOTHCRAFT CLOTHES and you ask for just what you're looking for.
