The arrangements for the county rally of the Christian Endeavors, to be held in this city Saturday and Sunday, April 28-29, are about completed and an excellent program has been prepared for the occasion. Among those who will participate in this program are W. A. Prince, of Alpena, and E. T. Lindsay, of Saginaw. Both of these men have had a wide experience in Christian Endeavor work, the latter being the corresponding secretary of the Michigan C. E. Union. A cordial invitation is extended to all who are interested in the work to attend this rally. Entertainment will be provided for all who come.

**Improved farms for sale; some to rent or lease on shares.**  
John W. Curtis, Whittemore.  
C. V. Hicks Pianos, and Organs.

**Life Crushed Out.**  
Between 9 and 10 o'clock last Tuesday forenoon Alexander Shawl, was caught between two cars while at work at the sugar factory, and so badly crushed that he died within a few moments. As near as we have been able to ascertain, the facts are about as follows. Shawl was engaged in moving a car, when the switch engine backed in to pull out some cars, and moving at a very rapid rate. When it butted into the car which caught the unfortunate man the coupling failed to hold and the car was kicked back and crushed Shawl between the drawheads of that and the car on which he was working.

Coroner John Armstrong was summoned, and impaneled the following jury: W. H. Warren, Ed Spring, J. A. Johnson, George Cadorette, J. S. Vaughn and G. E. McKiddie. After viewing the body, the inquest was adjourned until Wednesday evening, at which time ten witnesses were sworn. After nearly an all night session the jury returned a verdict that the deceased came to his death by being pinched between two cars, but failed to place the blame. The deceased was about 34 years of age and leaves a wife and six children. The funeral will be held Saturday or Sunday.

**John McDonald Found**  
John McDonald, the son of Mr. and Mrs. Dan McDonald, whose disappearance was noted in last weeks issue, was found last Tuesday, by George Shaw, of this city. Mr. Shaw went to his farm on the townline between Tawas and Alabaster, and while in the barn discovered what he supposed to be the body of a man. He came to town and notified Coroner Armstrong who went out. It was then discovered that it was young McDonald and that he was not dead, although in a serious condition. He was removed to his home about a mile distance and Dr. Crane called. He found the young man in serious conditions, although there is some hopes of his recovery. His feet were badly frozen and he was so weak from illness and want of food that he was almost helpless and would have survived but a short time.

Dr. Crane is of the opinion that the young man was suffering from an attack of typhoid fever and in a demented condition at the time he left home on March 27. In all probability the boy has been buried in the straw where found for the entire 21 days and practically without food.

**A Card.**  
I wish to state to the people of the community that the verdict rendered at the inquest of Alex Shawl was no fault of mine. Everyone was aware that he came to his death by being crushed between two cars. It was our duty as jury to place the blame. That five of the jury were willing to place the responsibility, but were forced to compromise.  
Yours respectfully,  
J. S. VAUGHN.

**Eighth Grade Examinations.**  
Pupils' eighth grade examinations will be held Thursday and Friday, May 3 and 4, 1906, in the following places: Hale, East Tawas, AuSable and Whittemore. Examinations will begin promptly at 8:30 a. m.  
Reading will be based on: "The Landing of the Pilgrims"—Felicia Hemans.  
J. A. CAMPBELL.

## SAN FRANCISCO IS IN RUINS.

### Earthquake and Fire Wreck Famous Western City.

San Francisco, April 18.—The appalling disaster to San Francisco may be summed up as follows:  
A violent earthquake occurred at 5:13 this morning, lasting three minutes and causing thousands of structures to fall in ruins. It also broke all the water mains and tore gas conduits apart. To add to the horror, fire broke out in many portions of the city.  
At 10 o'clock tonight the fire was still unabated and thousands of people are fleeing to the hills and clattering for places on the ferry boats to cross the bay.  
The damage is now believed to have reached \$200,000,000 and 50,000 people are thought to be homeless.  
The death loss will reach 2,000 and many thousands are injured.  
Nearby towns suffered as much as the metropolis. Scores of towns are almost in ruins.

TAWAS CITY, MICH., APR. 13, 1906

The Presque Isle County News, of Millersburg, issued a handsome special edition last week, of 14 pages. It was a credit to the publishers, H. Whitely & Son.

The U. of M. catalogue shows 4,571 students in attendance this year, 435 more than last year. Of these 2,517 are Michigan students, but 48 states and territories and 19 foreign countries are represented.

We have seen people go to church and devoutly sing "Shall we know each other over there?" when they won't speak to their neighbor on the street. Better get acquainted with your neighbor on earth, and practice a life that will lead you over there.

It is a mighty poor excuse for a man who cannot do something to help push his home town to the front. If you can't do anything else you can at least write some friend the good points about the town. You can never tell when such seed will fall on fertile soil.

Attorney General Bird denounces in strong terms Wm. Alden Smith, as a candidate for U. S. senator to succeed Gen. Alger, because he represents the railroad interests. Now if he will do the same by the rest of the candidates who represent corporation interests, and at the same time trot out some man who will represent the people, he may render a good service to the state.

The main cause of the great deficit in the revenues of the postal department each year is the "franking privilege" extended to government officials. This abuse could be largely remedied by stopping the use of the rubber stamp and requiring each congressman or senator to actually sign with a pen all franked matter. Tons and tons of useless documents which the railroads are now getting big pay for carrying would then be cut off.

The two first men to declare the Michigan primary law impractical are Gov. Warner and Chairman Diekema, of the republican state central committee. When some of the republican candidates for Senator Alger's seat in the U. S. Senate wished to submit the nomination to the people at the June primaries both these advocates declare that such action under the present law is impractical and impossible without legislative action.

A couple of weeks ago the Michigan Agricultural College started "corn specials" throughout the southern part of the state on which a number of the professors of that institution made trips stopping at the various stations and gave the farmers many good ideas as to preparing and caring for their corn crop. The idea was well received by the farmers and large numbers turned out. This week it has been turned into a political excursion for the benefit of Gov. Warner and he has been making speeches. He may possibly know as much about growing corn as the ordinary farmer. Of course the taxpayers pay the freight.

Dr. Lyman Abbott discusses in the June number of the Woman's Home Companion, the question, "Is the World growing better?" in the light of personal recollections. The fiction list is headed by "The Return of Jonathan Hall," a striking Memorial Day story by Edwin Asa Dix. Among other stories are, "A Question Settled," "Affairs of State," "The Patient Churn," "The Test," "Buddie," "The Tale of a Persian Rug," "The Desert and the Ravens," and "The Case of the Spring Lock." The special article, "American Dollars and Faked Antiques," gains additional interest from an authorized comment by Sir Caspar Purdon Clarke. There are also practical articles on "Landscape Gardening for Modern Homes," "Summer Embroidery," "Women and Proof reading," "Fashion and Home Affairs." Published by The Crowell Publishing Company, Springfield, Ohio; one dollar a year; ten cents a copy.

### Devil's Island Torture.

is no worse than the terrible case of piles that afflicted me 10 years. Then I was advised to apply Bucklen's Arnica Salve, and less than a box permanently cured me, writes L. S. Napier, of Rugles, Ky. Heals all wounds, burns and sores like magic. 25c at G. S. Darling's and J. M. Wuggazer & Co. drug gists.

### Care of Growing Pigs.

Young pigs fare best on a ration of one pound of corn and oats mixed, to two pounds of middlings, says Farm Stock Journal. Give this as a regular ration and then with from three to five hours daily on the range the youngsters ought to take on a fine growth of bone and muscle and be in good shape to fatten readily in the fall. The night care of growing pigs is as important as their care during the day. Their beds should be clean and dry and in a well-ventilated pen, not a pen through which the wind and rain will blow, but one in which they will keep dry and yet have all the fresh air necessary. It also should be well provided with plenty of clean, sweet bedding and have an exit so that the pigs will not find it necessary to foul their bed-room. Try this plan of pig-raising and see if the result is not a better class of pigs at no more expense than under the old plan.

### Simple Landscape Gardening.

Many a small city yard can become an earthly paradise by the addition of two or three Lombardy poplars with a foxglove border, an arching pine and say a few annuals. Annuals which grow, blossom and die before the blast of winter or the dry season are worth just as much as the staid perennials; if their life is short, it is brilliant. Their number is legion. Mexican and horned poppies, wallflowers, zinnia, petunia, marigold, four-o'clock, sunflower, phlox, sweet pea, bachelor's buttons, morning glory, nasturtium, or perhaps a little grandmother garden can be laid out under the shadow of the tree, or an herb, marsh or wild garden.

I recently saw a most beautiful treatment of a small place some one hundred feet long by sixty feet wide, having a fence ten feet high, a few feet of lawn and the stump of an old tree as their only permanent adornment. Chinese honeysuckle, wistaria and Virginia creeper tumbled over that fence, making a picture difficult to equal, impossible to forget. —Samuel Hovee in Woman's Home Companion for May.

## HOW TIMES HAVE CHANGED

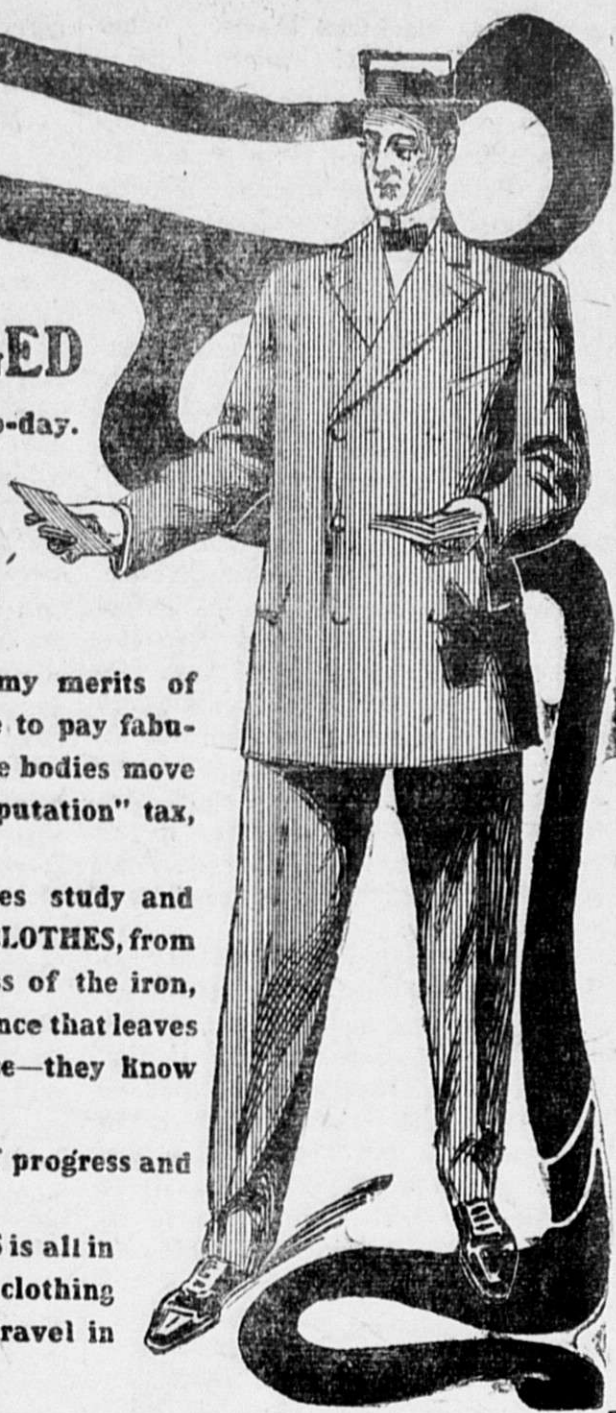

The "Custom made" shoe is almost obsolete to-day. Who thinks of getting a shoe built to order in this age of recognized shoe science? CLOTHCRAFT occupies the identical position in clothingdom; it is to the exclusive shop, what the modern shoe is to the one time shoe-maker.

If every man realized the service and economy merits of CLOTHCRAFT there would be no reason for the excuse to pay fabulous prices for clothes, but the country is big and large bodies move slowly. Clothing with character and without the "reputation" tax, are instantly recognized in CLOTHCRAFT garments.

Think what fifty years of conscientious clothes study and clothes betterment means to wearers of CLOTHCRAFT CLOTHES, from the first stroke of the designer's chalk to the last press of the iron, a chain of critical scrutinies has developed an excellence that leaves clothing buyers practically without a second choice—they know they're safe.

CLOTHCRAFT CLOTHES represent fifty years of progress and you receive the full benefit of this great development.

The advantage of buying CLOTHCRAFT CLOTHES is all in the clothes not in the habit; the CLOTHCRAFT label is clothing insurance—the assurance that "all wool" doesn't travel in shoddy company.
