Henry Kane has installed a force pump, which is operated by his gasoline engine, and forces water to his livery barn. It is of sufficient force to throw a good stream from a two inch hose, and will be of great aid in case of fire in that part of the town, as it will increase the amount of water to be had at least one-half.

It is always much pleasure for the Herald to note the success and advancement of the young men who were formerly residents of the Tawas. The rapid advancement of Herbert K. Oakes, son of Postmaster and Mrs. B. F. Oakes of East Tawas, as a marine lawyer has been noted with much gratification by his friends here. He has just carried to completion an undertaking which would be a credit to a man much older in experience than Mr. Oakes. Last Sunday a handsome new steamer known as the "Earling" left Superior for her maiden trip down the lakes. This boat was built at Superior and is 545 feet in length and 55 feet beam, and has a capacity of 10,000 tons of ore, and cost \$400,000. Mr. Oakes was the builder and manager of the boat, having interested several other gentlemen in the enterprise.

Primary Law is Full of Defects.

Lansing, June 5—As primary election day approaches the employees of the attorney-general's department dread to hear the long distance telephone ring. It is pretty certain to mean an inquiry from some anxious county clerk, election commissioner or party chairman as to the provisions of the primary law.

On many important matters the law is distressingly silent, on other points it is positively contradictory. The attorney-general's department has found the law full of holes, but has done its best to give a construction of the statute. The amount of work done by the department and the vexation resulting from the new law cannot easily be magnified.

There is a strong feeling here that had the constitutionality of the law been tested in the courts, it could not have been sustained by reasons of its many defects, if not from lack of harmony with the spirit of the constitution.

Leading lawyers of the state have repeatedly stated that in their judgment the law is fatally defective, and that it has been saved only through the failure of some interested persons to get it before the supreme court.

A Sad Accident.

An accident which crippled a young man for life occurred last Saturday afternoon as the Rose City train was leaving this city. Otto Cornack, who was employed as brakeman, fell from the train at the Huletown crossing and the trucks of one car passed over his legs, crushing them so badly that amputation was necessary.

It appears that Otto, who was employed as head-brakeman, went over the train to the engine after leaving the station, and as he was getting onto the tender fell between the cars in such a manner that his legs went under the first car. None of the trainmen saw him fall and he was not missed until the train reached McIvor. Fortunately Mrs. Jacob Sands, who lives near the crossing, saw the accident and went to the young man's aid. Dr. Crane was summoned and the unfortunate boy was brought to the Bay Side hotel. Dr. Crane, assisted by Drs. Wakeman and Gales, amputated the right foot at the ankle while the left limb was taken off just above the knee. Mr. Cornack withstood the shock in good shape and is now recovering in a most satisfactory manner.

Otto is the son of Mr. and Mrs. Otto Cornack, of Baldwin township, and a brother of Conductor Charles Cornack, and has been in the employ of the D. & M. Co. for about six months. He is about 20 years of age and a young man of excellent reputation. It was a very narrow escape from a fatal accident.

TAWAS CITY, MICH., JUNE 8, 1906

United States Senator J. E. Burton, of Kansas, who was recently convicted of boodling, has been forced to resign his seat.

Hon. Fred R. Ming, of Cheboygan, was nominated for state senator from the 29th district, at the republican convention held at Petoskey last Thursday.

One important duty of each political party at the primary election next Tuesday is the election of township and ward delegates to county conventions. If you want your township represented at county conventions you must elect them at the primary election.

President Roosevelt Monday afternoon submitted to congress a message regarding the stockyard conditions and also the reports of the special commissioners. In his message the president said that conditions were revolting and that the federal government did not have sufficient authority under the present law. He urged the Beveridge bill as an improvement.

Next Tuesday the voters of this county will have the opportunity of saying whether or not they wish to adopt the so-called primary law. Also to vote under its provisions for candidates for governor and lieutenant governor. The republican can-

didates who have received sufficient petitions to have their names placed on the ticket are, for governor, Fred M. Warner, and for lieutenant governor, Patrick A. Kelly. There will be but one name on the democratic ticket, that of Woodbridge N. Ferris for governor, no candidate having received sufficient petitions for lieutenant governor.

There should be no "factions" in this little city of ours. Every improvement made enhances the value of all property in and surrounding our town. We should live as one big family, and we believe few towns can show up a more progressive and intellectual family. We have as few "black sheep" in our place as any flock in the state. When there is discord in the family there is little progress. When there is a united pull there is little we cannot accomplish. Envy, jealousy, hatred, pull us all down. Envy is a canker that gnaws at the heart and makes one sour, disgruntled and unhappy. Jealousy makes one unfair in passing judgment; hatred does not pay even from a sordid point of view. Let us all be friends and pull together and show our neighbors what a large and harmonious family can accomplish in building up a town.

We are not given to boasting but we are proud of the farmer boys of this vicinity. They are, with rare exceptions, a healthy, intelligent and happy class of young men. We feel like taking our hat clear off when we meet them upon our streets, and no class is more welcomed to our office. Too many boys leave the farm where they would have made substantial and good citizens, and go to the city where only one in a thousand succeed in life's battle. There are farmers who fairly drive their boys away. There is no excuse for this. The farmer boy is entitled to his vacations, to several relaxations, his visits to the city, good books, magazines and his home people. To the observing one it is plain to be seen that the old farm is the best place in the world for the average young man and never fails to bring a happier and more useful life than the city. Young man, you who till the soil and earn your bread by the sweat of your brow, we are proud of you; our latchstring is always out to you and you will always have a friend in this paper. Come and see us and give us the news from your neighborhood.

The Saginaw Plan.

According to the statement of a gentlemen who knows, Saginaw has a man who is doing a great work for the city as well as securing a remunerative employment for himself. During the winter he makes a tour of the residence district of the city and to the owners of the various properties makes a proposition to furnish them with shade trees for their yard and along the street in front of the house for a certain price, say \$1 for each tree.

His work is guaranteed and if any tree does not grow he replaces it. He has lots of work. People jump at the chance to beautify their homes at so small a cost. They all say that they would have had the trees planted long before, but that they did not know who would do the work and do it right and they did not have time to hunt around or do it themselves.

That's the way the business goes in Saginaw. Of course it might go differently in Tawas, but there seems to be no good reason why it should.

Few things beautify a city more than its trees. It is a beautiful sight to look upon a street and see a solid line of shade trees extending the whole length. Some of our streets are pretty well fixed now, but there is room for great improvement.

Then, too, there are probably several men in the city to whom such work would be well adapted. Some elderly men for instance, who are not fitted for hard manual labor. However, there is an advantage in having one man do all the work for he would no doubt take pains and put all the trees in straight line while if several men were at it such might not be the case.

It might be a good plan for the city to encourage the property holders in the matter by giving a small rebate for each tree set out during the year. It would be a good investment.

An Alarming Situation

Often results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life pills; the best and gentlest regulators of stomach and bowels. Guaranteed by G. S. Darling and J. M. Waggazer & Co. druggists. Price 25c

Mortality of Mich. During April.

The total number of deaths returned to the office of the secretary of state for the month of April was 3,097, corresponding to a rate of 14.6 per 1,000 estimated population. This is slightly lower than the rate for the preceding month, 14.8, but slightly higher than the death rate for the corresponding month of 1905, which was 14.4 per 1,000 population.

There were 4,259 births returned as having occurred during the month of April, representing a rate of 20.1 per 1,000 estimated population. This is slightly higher than the rate for the preceding month, which was 18.7 per 1,000.

Important causes of death were as follows: Tuberculosis of lungs, 230; other forms of tuberculosis, 25; typhoid fever, 30; diphtheria and croup, 36; scarlet fever, 28; measles, 42; whooping cough, 45; pneumonia, 341; diarrheal diseases of infants under 2 years, 50; meningitis, 51; influenza, 61; cancer, 131; accidents and violence, 157. There was one death returned from smallpox during April, which occurred in Custer township, Sanilac county.

Democratic County Convention.

The Democratic County Convention for the county of Iosco will be held at the Court House in the city of Tawas City on June 19th, 1906, at eleven o'clock in the forenoon, for the purpose of electing delegates to the Democratic State Convention for the nomination of state officers, the election of delegates to the congressional, senatorial and representative conventions and also for the transaction of such other business as may come before the convention. The several townships and wards will be entitled to the following number of delegates respectively, same to be elected by the several precincts at the primary election to be held June 12, 1906:

The best way to guard against schemes of grafters and keep up-to-date in general is to be a regular reader of this paper. It is always the one who does not read his home paper who gets caught by the grafters and fakirs.

We notice in our exchanges a number of towns are having heavy penalties to pay on account of damages sustained by dilapidated sidewalks. A broken board in the walk cost one town \$25,000. A word to the wise is sufficient.

Eleven deaths and 13 births were reported to the secretary of state from Iosco county for the month of April. Of this number Tawas City reported two each, while East Tawas had three deaths and one birth, and AuSable one death and four births.

The fourth assistant postmaster general has issued an order providing that after July 1 next, rural delivery carriers when making their trips will visit and examine only the boxes for which they have mail for delivery and those on which signals are displayed to indicate that there is mail to dispatch. Those patrons who are now maintaining mail boxes on which there are no signals will be required to procure some sort of device which will serve as such.

Why is it that one man finds it possible to maintain and in some cases even increase the fertility and cleanliness and appearance of his farm while his neighbor with the same soil (naturally), the same sunshine and showers and the same natural advantages, permits his land to run down and become seeded with noxious weeds? It must be in the man and his methods of management; in the learning and knowing how to do a thing and in doing it just right. Few men do as well as they know.

One of our good farmers was telling on the streets yesterday a conversation he chanced to hear between a young boy in his teens and a Christian Scientist. It appears the Scientist came across a small boy sitting under an apple tree doubled up with pain. "My little man," he said, "what is the matter?" "I ate some green apples," moaned the boy, "and, oh, how I ache!" "You don't ache," answered the follower of Mrs. Eddy: "you only think so." The boy looked up in astonishment at such a statement, and then replied in a most positive manner: "That's all right; you may think so, but I've got inside information."

We all admit that telephones are a great convenience, yet they occasionally make a man feel like breaking the third commandment. Some times on a busy day when work is rushing and your 'phone rings twenty eight times and only two rings are of any importance, the other twenty-six being calls from some one wanting to speak to your help, the inquiry being "Is— in?" This takes two from their work twenty-six times and some one has to pay for all that lost time in addition to the annoyance. It doesn't look just right, now does it. During working hours 'phones in business houses, at least, should be used for business only.
