 The calling of the republican county convention to nominate candidates for county officers at so early a date as June 23, is causing a big "kick" to be made by many members of that party.

 There seems to be but one contest for nominations for county officials on the republican side this year—that of county treasurer. J. G. Dimmick, of East Tawas, and H. D. Stockman, of AuSable, are both hustling for the delegation.  
 Len Patterson has had to enlarge his paper, the Tawas Herald, in order to take care of his increasing advertising patronage. The Herald is one of the best of our exchanges and here's hoping Len will yet have to make it as big as a barn floor—for the same purpose of course.—Tower Press.

 Fred Menzer, who owned the large livery barn at Omer, the Omer house, lands and horses, transferred most of his property to his wife, sold his interest in property in Saginaw and has disappeared.  The home of Asa Wiltse, a farmer near Lupton, was discovered on fire yesterday morning while the family was sleeping. Wiltse, who is a cripple, awakened first and escaped with his wife, who was so badly burned that she will lose her eyesight. Their two children, a boy aged 6 and a girl aged 3, perished in the flames.  
 Len Patterson has enlarged the Tawas Herald from a six-column to a seven-column quarto and promises still further improvements. The Herald is a first-class country paper, well printed and always filled with well paying advertisements. Len is a good newspaper man and deserves all the success that has come to him, —Rose City Review.  
 If every farm contained a toolhouse in which every tool was kept in its place when not in use, there would be a great saving of time during the busy season. It often happens that the value of the time lost in seeking some tool not in its place is greater than the cost of the tool. Much of the loss of time and exposure of tools is due to the lack of some suitable place for storage. It costs but little to build a toolhouse and it need not be proof against heat or cold, the main point being a good roof, so as to protect the tools and implements from dampness.  
 M. E. Friedman and Harry Schlanger, of this city, and Maurice Marks, of Oscoda, have purchased the Sam Rivkin store building and stock of general merchandise at Omer and will assume charge of same about July 15. This is the largest and best stock of goods in Omer. Mr. Schlanger will have charge of the business. It is with much regret that the people of this city lose Harry, as he is a young man of much business ability and universally popular. Omer is to be congratulated on his location in that city. His many friends here unite in wishing him success and feel confident that he will "make good" in his new position.  
**Girls Wanted**—To work in the silk factories. Clean, light work, good wages, steady employment. Mills are well lighted and ventilated. Private boarding houses for girls only have all conveniences. For particulars address

**THE PRIMARY LAW WINS.**  
**Tuesday's Election Created Practically no Interest Throughout the State.**  
 About ten per cent of the enrolled voters of the state showed interest enough in the primary election last Tuesday to go to the polls and vote. Those who did were largely in favor of the primary law, and it was adopted by a large majority by both political parties.  
 The nominations made under its provisions were practically unanimous, the republicans nominating Fred M. Warner for governor, and Patrick H. Kelly for lieutenant governor. The democrats voted solidly for Woodbridge N. Ferris for governor. No name appeared on the democratic ticket for lieutenant governor, but the returns indicate that Charles H. Kimmerle, of Cassopolis, received the necessary 40 per cent required for the nomination, and will be Mr. Ferris' running mate.  
 The returns in Iosco county have been so slow in coming in that we are unable to give anywhere near the complete returns, but the vote is very light.  
 In this city only 56 votes were cast 46 republicans and 10 democrats. Of the republicans 29 voted in favor of the law and 17 against it. But two democratic votes were against.  
 Republican delegates to the county convention are as follows:  
 First Ward—F. F. Taylor.  
 Second Ward—F. W. Marzinski, Geo. H. Hadwin.  
 Third Ward—Collie Johnson, W. W. Ramage.  
 The delegates to the democratic county convention are:  
 First Ward—William Drager.  
 Second Ward—L. J. Patterson, Nels Brabant.  
 Third Ward—Joseph W. Minor, Michael Murphy.  
 Alabaster republicans four for and one against the primary law, while the democrats voted two for and one and one against. Warner received five votes and Ferris three. A. C. Hebel was elected republican delegate and C. M. Davis as the democratic delegate.  
 Baldwin republicans voted 6 for and one against, and the democrats one against. The republicans elected John Alstorn delegate to the county convention, and the democrats elected John Schuster.  
 Wilber republican voted 8 for and 4 against the law, and the democrats two for and one against. Warner received 12 votes and Ferris 3. No delegates were elected by either party to the county conventions.  
 The republicans of the 10th congressional district voted in favor of primary law for the congressional nomination.

**Republican County Convention.**  
 A republican county convention will be held at the court house in Tawas City, Michigan, on Saturday, June 23, 1906, at ten o'clock a. m. to nominate republican candidates for the county officers; and to transact such other business as may properly come before this convention. The several townships and wards of the county will be entitled to delegates as follows: Alabaster 1, AuSable township 3, AuSable city, 1st ward 1, 2nd ward 2, 3rd ward 1. Baldwin 1, Burleigh 3, East Tawas, 1st ward 2, 2nd ward 3, 3rd ward 3, Grant 1, Oscoda 4, Plainfield 2, Reno 2, Sherman 2, Tawas 3, Tawas City, 1st ward 1, 2nd ward 2, 3rd ward 2, Wilber 1.  Dated May 31, 1906.

TAWAS CITY MICH., JUNE 15, 1906

"Non-Partisan Federation of Direct Legislation Forces," is the name of a new reform legislation organization of the state which was completed at Lansing last Friday, with George B. Horton, master of the state Grange as president. The new organization will work for provision in the new state constitution for the initiative, referendum and recall.

Did you ever stop to reflect that it was one thing to talk about people and another thing to have people talk about you? If those of us who use our tongues a little too freely about our neighbors would stop and reflect about this matter and know the great evil that comes from too much gossip and tattling, we are sure we would call a halt and gossip no more forever.

An important department of the Young Men's Christian Association work today is that for boys. Each local association in addition to the work for boys accomplished in its buildings, conducts a summer camp at some nearby lake or river. More than three hundred boys were in these local camps in Michigan last year. As a model for the local camps and a training school for their leaders, as well as to accommodate those from cities having no associations, the State Executive Committee established a state camp for boys 12-16 years of age on the shores of Torch Lake in Antrim county. The prospectus of this camp has just been re-

ceived and is an attractive booklet. Parents of boys interested can secure a copy by addressing L. E. Buell, State secretary, Ann Arbor, Mich.

These are the days when the discontented farmer's fancy lightly turns to thoughts of moving. The great railway systems of the west flood the mails with manuals setting forth the beauties and virtues of this and that region, each claiming to be par excellence the home-seeker's paradise. Agriculture has in this aspect taken the place of mining. In former times the "new country" that offered the most attractions to settlers from a distance was that in which gold was taken out of the ground in big yellow nuggets or infinitesimal dust; in these later days the search is still for a quick fortune, but the medium exploited is the growing crop, which can be turned into gold—or greenbacks—by the slower processes of planting, cultivating and harvesting; and the pioneer now has for his emblems the gang-plow and the reaping machine, instead of the pick and pan. Now, the advertising circulars teem with prints in which the settler's comfortable homestead and happy family are shown, projected against fields of heavy-headed grain, trees groaning under apples and peaches proportionately as large as watermelons, and the cattle of a thousand hills grouped in a pen by the side of the railroad, awaiting rapid shipment to markets where buyers stand in line, longing for the chance to draw fat checks in payment. While these pictures attract the eye, few if any, have ever bettered their condition by leaving our own fair county, and the few who have left would be only too glad to be back.

### What the Machine Is.

For many years the state of Michigan has been in the grip of a political machine. For the benefit of the people who do not fully understand just what a political machine is, or how it works, we make the following explanation:

The railroads, street railways, gas companies, telephone companies and other enterprises dependent for their existence and prosperity upon special privileges granted by the state legislature, or the councils of cities, and the mining companies which desire to escape just taxation, put forward some very wealthy man whose interests are allied with theirs and who is ambitious to become a member of the United States senate. They understand that the United States senate is the national bulwark of so-called "conservatism," which means the protection of the right of the rich and strong to become richer and stronger through the use of special powers, privileges and immunities granted by the government. The people of the state would not elect such a man if they had a free choice in the matter. But he can afford to spend hundreds of thousands of dollars, if necessary, to secure his election and to protect the privileged interests with which he is allied. Through his lieutenants, guided by some astute politician, he selects, in various parts of the state, men with an itch for political preferment without means of their own, and it is the money of the would-be United States senator that lands them in Lansing. Being elected by the use of his money they of course return the favor by choosing him senator.

Having been elected to the United States senate, this wealthy representative of special privileges is now in a position to maintain control of the state government through the use of federal patronage. The object of this control is to secure from a servile state legislature special privileges and immunities for the business interests which he represents. Any legislator who is particularly willing to father corporation measures or is particularly strenuous in resisting the clamor of the people for reform, is awarded by an appointment as internal revenue collector, United States district attorney, collector of customs, or some less prominent position in the federal service at a fat salary with plenty of time to spare for political skulduggery. The rank and file of the legislators are put under obligations by free railroad passes and other favors from corporations and individuals having a special interest in controlling legislation, and made servile by the threat that any tendency toward independence on their part will be rewarded with political death and the substitution of others who will wear the machine collar without protest.

In its essence, both in origin and in maintenance, the political machine is an organized system of bribery, sand-bagging and free-bootery, with the common people of the state and city as the victims.—Civie News.

### DEDICATE TEMPLE.

## Big Day for Modern Maccabees in Port Huron.

Port Huron, June 12.—Thousands of Knights of the Modern Maccabees, a majority from Michigan, but many representing other states, are celebrating the silver anniversary of the order here today and participating in exercises incident to dedicating the new \$80,000 temple. Red and white bunting, the Maccabee colors, are flowing in profusion. The city presents a gala appearance.

The dedication exercises began this morning with a parade led by Gov. Warner of Michigan, Gov. Broward, of Florida, who is one of the prominent guests at the celebration, Mayor Brand Whitlock, of Toledo, Mayor Lee, of Saginaw, Mayor Todd, of Jackson, and several other visiting executives were also in carriages in the parade. The dedication exercises began at 1:30 this afternoon. On the reviewing stand were all the great camp officers, great hive officers, invited guests, choir and some others who were assigned a part in the exercises. Mayor Spencer, of Port Huron, made the address of welcome. Great Commander C. H. Thomas, of Hastings, gave the response in behalf of the order and Mayor Whitlock, of Toledo, in behalf of the visitors.

"Ancient Maccabees" was the subject of a ten minute address by J. C. Lehr, John B. Mellvain spoke on "Modern Maccabees," Mrs. Frances E. Burns, grand commander of the Lady Maccabees, on "Women in Fraternal Orders," J. C. Root, of Omaha, on "Our Sister Orders."

Immediately following the ritual part of the dedication exercises was a prize drill by the knights and ladies in costume.

At 10 tonight all great officers and delegates leave on a special train for Ludington where the biennial business session begins.

The first issue of the AuGres Enterprise, published by the Enterprise Co., with Bert S. Moran, as editor, reached our table last week. It is a most creditable appearing paper and with Mr. Moran as editor the people of that village may rest assured that they will get all the news, dished up in a most readable manner.

Why is it that no one wants to live in the country anymore? Cities are full of people who live from "hand to mouth," and whose total wealth is represented by the clothing they have on. Years go by and these persons never have a home. They lose that independence that the proud owner of a farm has. If there is one needed reform it is to keep people on farms and away from cities.

If you know or hear of an interesting item in the community, make it a point to see that it finds a place in your local paper. We should much appreciate your effort and will send our reporter to ascertain or verify any lacking points. Anything which tends to better or brighten the news service of a paper makes it of so much more value to the community, and the subscribers are the ones mostly benefited thereby.

## CONTINUE MR. STOCKMAN.

H. D. Stockman, of AuSable, a Candidate for County Treasurer.

MR. H. W. STOCKMAN  
Our present efficient County Treasurer

MR. H. D. STOCKMAN  
Rep. Candidate for County Treasurer

The very enviable record made by Mr. H. W. Stockman as treasurer of Iosco county has begot in many friends all over the county a desire to continue in the office the policy he has adopted and the efficiency and cordiality that has characterized the conduct of this important position during his two terms of service. Tensely speaking, Mr. Stockman has "filled the bill" to the entire satisfaction of the numerous patrons of the office. The statute relating to treasurers—township, city and county—does not provide for their continuance in office for more than two terms, hence another must be chosen this year to succeed the present incumbent in the county office.

In order to continue the policy and efficiency of Mr. Harry W. Stockman in this important place, his numerous friends have prevailed upon his brother, Mr. Horace D. Stockman, of AuSable, to stand for the nomination, and he has not only consented but is pleased to do so in deference to the wishes expressed by these friends.

Arrangements for the Home Coming Week, at AuSable and Oscoda, from July 29 to Aug. 4, are being completed and a fine program of entertainment has been mapped out. This promises to be the greatest gathering of old residents ever held in this section of the state. Former residents of those towns from all parts of the country have signified their intention to be present.

The cigarette fiend is being hit hard upon all sides in the business world. The Chicago, Burlington and Quincy Railroad company has announced that every employe found smoking cigarettes the company will no longer give him employment, for they have ascertained to their satisfaction that the cigarette fiend cannot, or does not, perform his duties in as satisfactory a manner as does the other fellow. This is poor encouragement for our boys.

Let everyone keep hustling to improve the appearance of their streets and lots. Keep all kinds of rubbish off the streets and sidewalks, and see that your houses, fences, etc., are neatly painted. There is nothing that helps the looks of a town and induces newcomers to settle in it more than neatly-painted houses and fences neat and tidy streets and sidewalks, and fruit and shade trees on your lots. Let us see what you will do for the benefit of our progressive little city.

We have been "talked about" for printing several items of news about people who live here, or have lived here that "brought disgrace upon other members of the family." We did not bring the disgrace. If the father, mother, sister or brother had conducted themselves in the proper manner we would not have been able to print those "disagreeable articles." Do not blame us for the misdeeds of your friends or relatives. We are here to print the news and we are going to do it. You and your friends should keep your fingers where they belong if you do not want them pinched. If you think what we publish is not true we invite you to make us prove it, but if you don't want us to publish your misdeeds, quit your meanness. It is the duty of every decent paper to make an effort to improve the morals of the community in which it is published. Some have one way of doing this and some another. We believe in publicity.

**Wanted:**—Travelling salesman. Must furnish references and invest \$1,000.00 in first class 6 per cent bonds. Salary and expense paid. Experience not required, we teach business at our mills. The Wheeling Roofing & Cornice Company, Wheeling, W. Va.

He himself will not be able to leave his business interests to attend personally to the duties of treasurer, but if elected he will appoint as his deputy the present officer, who will conduct the office as heretofore.

Mr. Harry Stockman needs no eulogy from friends. His record is well known, and is its own eulogy. He has been one of the best officers Iosco county ever had. Of his brother we may say that he is one of the substantial business men of AuSable, having an extensive grocery business there. He has been chosen to fill several local offices, among them supervisor, deputy city treasurer, etc., and he has always been faithful to every trust. He was born in his home town 36 years ago and has lived there since. He is a gentleman of good moral habits and is honorable and upright in all his dealings. A republican of the right stripe, and it is believed the delegates from both AuSable City and Oscoda will support him solidly in the republican county convention to be held on the 23rd inst.—*Iosco County Gazette.*

**Condition of State Crops.**  
Lansing, June 9:—The state crop report, issued this afternoon, says that the weather during May was not favorable for wheat, although the condition of the cereal remains unchanged at 75 in the state. Six per cent of the crop was plowed up because winter killed, and 4 per cent of the crop was ruined by Hessian fly.

The condition of rye is reported at 83 per cent; oats, 91; barley, 86; meadows, 82.

The acreage planted to corn is 99 per cent and the condition of the crop 90 per cent. The potato acreage is 92 per cent and the condition 92. The sugar beet acreage is 87 per cent of the average.

Frost during May diminished fruit prospects, which are given as follows: Apples, 73; pears, 68; peaches, 54; plums, 52; cherries, 64; and strawberries, 72.

**A Co-Operative Summer Cottage.**  
An article in the New Idea Woman's Magazine for July, on "How Eight Girls Built a Co-Operative Summer Cottage," suggests a way to be sure of having congenial companionship for one's vacation, so often a disappointing matter in summer hotels and boarding houses. These girls had all been spending their substance unsatisfactorily at crowded resorts and resolved to try the simple life and get back to nature for a change. So they bought a few acres of land on the shores of a mountain lake and had a kind of octagonal cabin built and furnished. The cabin had two stories, the downstairs with living room, dining room and kitchen, the upstairs with eight compartments as bedrooms for the eight partners. The writer gives the items of cost of the cabin, which amounted in all to only \$606.00, and the whole season's expenses, including the cabin which remained for other seasons, were no more than the cost of former vacations, which had vanished leaving nothing behind, not even health.

**Following the Flag.**  
When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired commissary sergeant U. S. A., of rural route 1, Concord, N. H. says: "I was two years in Cuba and two years in the Philippines, and being subject to colds I took Dr. King's New Discovery for consumption, which kept me in perfect health. And now in New Hampshire we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at G. S. Darling's and J. M. Wiggazer & Co.'s, druggists. Price 50c and \$1. Trial bottle free.
