### Tawas Beach Program Out.

The directors of the Tawas Beach Yachting association have completed the program for the 1907 races and have elected new officers. Allen M. Fletcher again heads the association as commodore. The Saginaw yachtsmen broke into the association on representation and H. T. Wickes, of Saginaw, was elected vice commodore. John R. Cotter, of this city, remains fleet captain. The fleet surgeon is Dr. B. P. Brodie, of Detroit. Harry W. Garland, of this city, was re-elected measurer and N. C. Harting, of Tawas City, secretary-treasurer.

Special attention will be given this year to the sixteen-foot class, out of which a lot of sport is expected. A new race will be the cat boat race, in which a number of Bay City cats will participate. Detroit, Port Huron and other cats will also enter.

The dates, previously announced,

are August 14, 15, 16 and 17. The association will give the usual entertainment features. The 16-footers will race the afternoon of August 14 and the Bay City Tribune cup for power boats, now held by the Two Howards, of this city, will be competed for the morning of the 15th. In the afternoon the D. & M. cup race, the Tawas beach "classic" will be sailed. The 21-footers and the special cruising class will race the following day. The cruising class came near being thrown out but a special effort will be made to bring the cruisers here. The last day the free for all handicap, cat boat and dinghy and swimming races will be given. The purses this year will again aggregate over \$700, and there will be the D. & M. cup, the Free Press trophy, now held by the Otsiketo, in the 21-foot class, and the Tribune cup for power boats.—*Bay City Tribune.*

### SCHOOL NOTES

MAUDE BAXTER, Editor.  
NINA SAWYER, Ass't.

The ninth grade is taking up composition work.

Roy Clark and Victor Katterman have returned to school.

The fifth grade is reading selections from "Robinson Crusoe."

So far this month the second primary has no tardy marks.

The eighth grade have been reading Irving's "Legend of Sleepy Hollow."

Tillie Hosbach, Lome Pfeiffer and Leo Sines have been absent during the week.

Miss Murphy has been confined to her home for a few days on account of illness.

The grammar room wish to thank Mr. Chaffee for the use of his book, "A Man Without a Country."

The manual training class of the second primary have made about fifty rugs since they began weaving.

The fourth grade wish to thank the sixth grade for the use of part of their dictionary and the fifty-three fragments.

A number of the pupils of the third and fourth grades are absent from school on account of colds and sore throats.

Last Monday afternoon Mr. Chaffee gave the pupils of the intermediate room a most interesting lecture on the bones of the skull.

Elizabeth Jahraus, Laura Risto, Eunice Clark, George Hosbach, Seegne Geddale and Margaret Johnson were peddled in spelling last week.

All but five of the fourth grade have memorized the poem entitled "Independence Bell." A picture on the board shows the boy just as he shouts aloud, "Ring, grandpa, ring! Oh ring for liberty!"

Remember the Old Plantation Quartette at the Baptist church on Tuesday evening, Feb. 12. We pay a fitting tribute to Lincoln's birthday by listening to the songs of the race that he proclaimed free. Admission 50 cents. Noah Bellbarz, the entertainer, closes the course on March 26th. Single admissions 35 cents. Tickets to admit to both entertainments may be had for 65 cents. Now is the time to purchase.

Last Tuesday morning the zoology class witnessed the dissection of a rabbit, Harry Rollin having been successful in shooting one the night before. Before the dissection the general appearance, mode of life, adaptability to his surroundings, protective coloring, his enemies, mode of escape, etc. were discussed. How breathing is accomplished was shown by exposing the lungs and diaphragm, and then by means of a piece of rubber tubing and a small glass tube the lungs were inflated, the chest enlarged; by pressing down the diaphragm on ceasing the blowing the air escaped from the lungs and the chest assumed its normal size. The different organs of the body were observed. The great length of the intestine was noticed. It was nearly ten times the length of the body. The kind of food on which the rabbit lives demands a long time for digestion.

WARD SCHOOL.

Miss Lois Shiyas spent Sunday with her father at Rose City.

Hattie Lonsberry, Vernon Whittlemore, Luella Patterson, Gladys and Russel Hadwin, Stella Kovige, Frank and Tony Halleck and Keith Tyler have been absent the past week because of hard colds.

Misses Clark and Larmer taught for Miss Crandall last week.

Our class motto this year is "Push" and the flower is the white rose.

Misses Murphy and Wardell taught for Miss Murphy Tuesday and Wednesday.

Some of the normal girls have turned paper peddlers. Better stick to teaching, girls.

Any district board desiring the services of a trained teacher for next year should correspond with Miss Willsey at an early date.

To help defray the expenses of graduation the normal girls will serve a supper cooked by themselves, at Friedman's hall Feb. 12, 1907. Buy tickets and take your friends.

The Townliners now come to the front and boldly declare that they and not the people of the Hemlock road have the best teacher in the county. Miss McRae and Miss Murphy are both graduates of our county normal, so it is probably six of one and a half dozen

of the other. Hurrah for the green and the white!

A meeting was held by the normal girls last Friday and the following officers elected:

Mrs. WILLIAM McDONALD.  
Mrs. COLBURN.

### Bologna Must Be Pure.

Lansing—Frankfort and bologna sausages must not be adulterated hereafter with cracker crumbs and cereals. The dairy and food department has issued this mandate.

It is claimed that many manufacturers make use of these ingredients to adulterate sausages, enabling them to sell cereals at meat prices, the crackers and cereals also absorbing considerable moisture for which the manufacturers get good money. Food Commissioner Bird has ruled that the use of these "fillers" must stop absolutely.

### Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. K. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee by G. S. Darling and J. M. Wuggazer & Co., druggists. Price 50c.

### Preaching Righteousness.

In warning a jury to protect themselves from any possible causes which might prejudice their minds, and cause a miscarriage of justice, Judge Parkison took the altruistic ground that, when approached with any offer of a bribe, men should stand on their honor, and the dignity of pure manhood, and by these resent even the idea of presumption that it was possible to be bribed.

"The public never ought to get the idea that they can influence a judge or jury in the administration of justice," said his honor. Less than thirty minutes later, a number of leading men of the city assented to a remark that in public life there has been a lot of money used to secure office, and placing these statements paralled with each other, one naturally asks what is the truth.

In the case of the jury, there was no likelihood that any person would attempt to approach them, because the accused man is apparently friendless, but the history of jury business has instances where bribery has been discovered. And in securing public office it is known that money has been used in buying ballots. But against these facts, is it not also true that there are healthful signs of an awakening of public conscience, and that bribery in any form, is becoming a more and more dangerous crime?

One powerful factor in this progress towards an ideal commonwealth is the publicity furnished by an unfettered press. Recent developments tend to show that what is done in secret may be proclaimed from the housetop.

It has long been accepted as a truism that every man has his price, and if this is a libel on manhood today, we have made a great stride towards ideal morality. Yet it is apparent that from the national executive to the ordinary administrator of the law, there is the constant preaching of righteousness in public life, and the result will surely be seen in the coming years, for if the fountain is pure we may look for the stream to be pure.—*Jackson Citizen-Press.*
