## TAWAS CITY, MICH., APR. 12, 1907

The Indiana legislature has completed all business and gone home. The Michigan legislature has not thought about business yet.

Gerrit J. Diekema, of Holland, has been nominated by the republicans of the 5th congressional district to fill the vacancy caused by the election of Wm. Alden Smith to the U.S. senate. The democrats have nominated George P. Hummer, of Grand Rapids.

In the 19 years since the interstate commission began the collection of facts about accidents, nearly 6,000 passengers, over 48,000 employees, not well advertised, as, for example, and nearly 90,000 other persons have furniture, he said that they flood been killed on Amercian railways, and nearly one million more have been crippled or maimed, scalded or invalided.

Another of the grand old men of Michigan passed to his reward last Sunday-Judge Josiah Turner, of Owosso. Judge Turner came to Michigan in 1840, and was, until a years of age.

local papers and direct their special killed.-Ex.

efforts to communities where the merchants are up-to-date a lyertisers. If the mail order man finds that any line of business in any town or city is

that territory with their literature and always with satisfactory results.

He believed it true, he said, that country merchants could greatly cripple the mail order business, if they

would advertise.

## Do-Nothing Legislature.

Not many years ago there was a the legislature there is little doubt party called the "know nothing" and that the measure reported out few years ago one of the foremost the actions of the present legislature by the committee at the instance of men of the state, and notwithstand- has justly earned the symphonious the lobby, fixing earnings of \$2,000 ing his advanced age, kept fully up title of "doing nothing." Out of 92 a mile as the figure over which a twoon all current events. He was 96 days up to Tuesday, for which the cent fare should be granted, would 3,060 feet, or over half a mile of twine.

stitch harness machine. This machine uses hard wax and does work far superior to hand work, as it uses a smaller awl, a larger and stronger thread, pulls the stitches tighter and makes more stitches to the inch than hand work. I absolutely guarantee that harness sewed on my machine will wear longer than the best hand work.

I will continue to use the very best number one oak tanned leather and will not raise the price of har= ness, because the machine will do the work much better and quicker than five men and therefore greatly reduce the cost of making harness.

A farmer who cradles his wheat cannot afford to sell grain as cheaply as the farmer who uses a self binder. This is a machinery age and the same rule applies to the harness business.

Of course there is a vast difference between fac= tory=made harness and harness made in my shop, be= cause the factory uses poor material as well as cheap labor, whereas I use the best of leather and thread and construct the work myself.

A. STEINHURST
