## EXCELSIOR!

**Tawas City Lands a Factory for Manufacturing It.**

For some time the Business Men's Association has been working with view of the location of a plant in this city for the manufacture of excelsior. G. A. Cottrell, of Hudson, and Alva Davis, of Flint, representing the company who will build and operate the factory, came to the city Wednesday evening, and last evening a large and enthusiastic citizens' meeting was held at which their proposition was presented and accepted.

The plant will employ about 40 hands and will use a large quantity of popular, birch, soft maple and wood of that nature. The plant will be a good thing for this section as it will furnish a ready market for these woods of which there is large quantities tributary to this city.

"The Comanche." Dr. Crane's auxiliary yacht was launched last Friday. The boat has been much improved since last year, having had a new 30 h. p. gasoline engine installed and her cabin enlarged. It is expected that with her new engine the boat will easily make ten miles an hour.

The East Tawas high school graduates a class of ten members this year. They are: Neil Shivas, Alfred Sudestrom, Wenner Applin, Sadie McElheron, Cora Parker, Edith Grant, Frank Fernette, Mary Cadorette, Cora Davey and Sam Anker. The commencement exercises will be held on the 20th inst.

Rose City extends an invitation to the people of this vicinity to come there and help them to celebrate the 4th. They have arranged for a special train to run from East Tawas in the morning, connecting at Emery Junction with a train from Prescott and Whittemore. The train will leave Rose City for return in the evening. A fine program of sports has been arranged, with a game of base ball between the club from this city and the Rose City team. The East Tawas band has been engaged for the occasion.

The third annual commencement of the Iosco County Normal School is being held this week. Wednesday evening occurred the baccalaureate sermon, delivered by Rev. Ed. A. Kinney. The address was a masterly one and full of excellent advice and good cheer to the young ladies of the class, urging them on to success in their chosen field. Last evening was given the class day exercises, and tonight Hon. Delos Fall will deliver the commencement address. Next week we will give a more complete report of the exercises.

She was walking along the street, young and handsome, little dreaming of the danger that hovered near her, says an exchange, when a cloak was thrown over her head and she felt herself picked up and carried away and she swooned. When she regained consciousness she beheld a bear-eyed villain staring at her. "Aha! my pretty bird, you are mine at last," he hissed thru his teeth. "Where am I?" she asked. "You are in a store that doesn't advertise, therefore no one every comes in here," he answered gleefully. "Alas! then indeed I am lost!" she shrieked, and she swooned again.

"The question of keeping the children fairly presentable during their play hours is always doubly difficult in the summer. Half an hour's romping in the garden will soil and rumple any frock, until it is only fit for the tub, so all sensible mothers devote a large share of the summer's outfit to strong, easily ironed dresses in which their little ones can play in peace." Thus says the authority on "Practical Clothes for Little Girls" in the July number of the New Idea Woman's Magazine, and common sense is the keynote of her article. The same writer extends her helpful advice to the summer girl with athletic tendencies, and appropriate suggestions are given for costumes adapted to any of her varied activities. Read these articles before undertaking the preparations for your summer outing and you will find your task much simplified.

## MUNDY CONFESSES.

**Admits That He Shot Mrs. McKay and Joseph Turcott at Oscoda May 8th.**

The expected has happened and Eugene Mundy has admitted the shooting of Mrs. McKay and Joseph Turcott, on the beach at Oscoda, on the evening of Wednesday, May 8. Last Wednesday Mundy sent for Sheriff Curry and told him he wished to make a clean breast of the affair. He then said that Mrs. McKay had had his money for two or three years and had all of his last winter's wages. She had promised to marry him, but had thrown him over. Turcott bothered him and threatened to shoot him if he did not keep away. Mundy says he went to the beach and watched Turcott and Mrs. McKay until they came out of the shanty and then shot twice. He says he did not intend to shoot Turcott, but shot twice at the two of them. He could not tell which fell first. He then went to the Central hotel and put the gun in his trunk, afterward hiding it where it was found in the garret.

After going to the hotel and leaving the gun he went back to the beach to see if the woman was dead. Finding her dead, he then went to the home of James LaPlant, for whom Mrs. McKay kept house, and told him that she had been shot. Afterwards he returned to the hotel and went to bed, where he remained until arrested by Sheriff Curry.

Mundy has been in a state bordering on nervous prostration for some time since his arrest, and Sheriff Curry has expected a confession, notwithstanding the nerve shown by the accused man in protesting his innocence.

His case will undoubtedly be the first disposed of when court convenes next week. While the officers had been unable to get any direct testimony, they had built up one of the strongest possible cases of circumstantial evidence and there was but slight doubt of a conviction.

## A Great Entertainment.

One of the leading attractions of its kind to appear here this season comes in form of the American Motion Picture Co., and is billed for one night only, on the evening of Wednesday, June 19, 1907, at the East Tawas opera house, and will be given under the auspices of the East Tawas band.

The company comes well recommended and the Herald urges every lover of amusement to witness and enjoy this wonderful exhibition of life motion pictures and illustrated songs. This attraction must not be compared with inferior companies who have appeared here and who failed to please. Pictures that are interesting, exciting so much interest in the largest cities will positively be shown at this performance.

The machine used is the very best that money can buy, and this advantage together with expert manipulation, good light, and the best films makes this entertainment one of perfect enjoyment. The subjects are all selected for the most critical audiences and never fail to please the most exacting and fastidious.

Having one of the best and most up-to-date outfits obviates the flickering and unsteadiness noticed with the old style machines. Our pictures are clear and brilliant and no flicker is perceptible. It will be impossible to see anything better, no matter where you go or how much you pay.

Seat sale commences next Monday morning at Hanson's bazaar, prices 25, 35 and 50 cents.

Read special, free prize offer on page eight.

## Bicycle Notice.

This is a warning to all bicycle riders that the ordinance relative to bicycle riding on sidewalks on the west side of Lake street from Prescott's store corner to Friedman's store corner and thence on north side Matthews street to Matthews street bridge will be duly enforced.

#### Competition Keen.

Clare, as well as every other town in Michigan, which endeavors to build up a school that will afford the rising generation an opportunity to secure a reasonable education at home is being met with a condition which many school officers and patrons regard as a disgrace to the state and an imposition upon those who are cheerfully paying taxes to keep up such schools.

It is reported upon excellent authority that the faculty of the Mt. Pleasant Normal is offering to eighth grade graduates from the rural schools free tuition for two years, at the end of which time the students will be given a two years normal certificate, which entitles them to teach the rural school. At the expiration of the two years the certificate will be renewed for two years more.

In plain English, the normals have adopted a policy which is ruinous to the high schools and renders absolutely ineffective every effort that is being made in the smaller cities and villages to build up a creditable high school of twelve grades. Under this idea the tenth grader of the city school is a qualified teacher under the normal plan, with the possible advantage through the normal course of a little training in a special course for teachers. How many school officers would think of engaging a tenth grader from any school of the character of Clare's as a teacher for a rural school, and Clare has as good as any town of its size?

The state imposes certain taxes for educational purposes and compels its levy in every community, yet it permits one of its own institutions to say that two years beyond the rural eighth grade the student, by attending a normal, can have a state certificate.

This condition is probably more deeply appreciated in communities located near state institutions of the character mentioned, but it is a notorious fact that soliciting is done to keep rural eighth graders from attending schools like that of this city, in order to keep up the attendance in the state normals, and for the apparent purpose of affording positions for a large faculty.—Clare Courier.

#### "Financial Insanity."

Every once in a while a phrase with a jingle pleasing to the American ear is thrust upon us and immediately becomes a by-word on every American tongue, says the Jackson Citizen Press. We have had "frenzied finance," we have all been driven to "brain storms," we are told that we also suffer with "dementia Americana," we have already went howling "on the warpath." The latest thing, however, is "financial insanity," or rather to "frenzied finance," closely related to "unwritten law" and a first cousin to "dementia Americana."

The other day a man in Boston, charged with having criminally concealed his assets from his trustee in bankruptcy, was given his liberty on a plea of "financial insanity." He had an insane habit of spending money, later having no idea where the money went.

Alas, how many there are of us who ought to be in asylums! If there is a national sin heavy on our American shoulders it is that of getting through money. There is hardly an American who could not get away with a plea of "financial insanity."

Yes, we Americans have a terrible habit of spending money and not knowing where it goes. Ask any American housewife and she will tell you that such is the case.

Where does the money go—the money we spend? Every day the prices on coal and oil and meat and milk leap up to a higher altitude. Where does the money go? To the coal trust, to the oil, meat and milk trusts. That's where it goes.

Truly we are all insane, or we would never stand for such a state of affairs. We will have to find out where the money goes, and when we find out we'll be made. Suddenly we will wake up, procure our little tomahawks and take a jaunt down the "warpath." There will be a great splash into "unwritten law." A great armful of demented Americans will swoop down into Wall street and there will be a pulling down of strongholds and a slaughtering of bulls and bears.

We laugh and say that E. E. Har-

riman just returned from a plunge in the "immunity bath." These things are not to be laughed at. Don't you know that the joke is on us?

Where does the money go? How many times have you asked yourself this question?

#### Stop to Think.

When accused of bribery some time ago a Colorado state senator arose during the debate and quoted impressively,

"Let him who is without sin among you cast the first stone."

It is said that the scriptural passage caused his accusers to reflect.

Isn't it true that we are often quite ready to condemn our neighbor when often we, too, are floundering in sin and corruption? "That man has sold his vote!" you might yell across the senate floor. Very well, you may yell it if you know it to be true, but first reflect: "Have I ever sold my vote?"

"That man is a liar—that man is a drunkard—that man is a thief!" Very well, "Let him who is without sin among you cast the first stone!" "Have I ever told a lie?" you might ask yourself before you start in to flay the liar. It is possible that you have.

Truly, the drunkard, the thief and the liar will have their reward—every ounce. But it is quite impossible for you to administer it. Your business is to find out your mistakes and get rid of them. Then you may have the privilege of casting your stone—not at the man, but at the evil that has bound him—and by so doing help to usher in the millennium.—Exchange.

#### Summer School Facts.

The summer session is rapidly becoming one of the important features of the University of Michigan. During the summer of 1906 there were 1034 students enrolled, and coming as they did from all parts of the country, they formed a most representative body.

The south is sending more students to the summer session each year, as the facts in regard to the situation and summer climate of Ann Arbor become more generally known. Nearby lakes and rivers offer many opportunities for a pleasant day's outing and from Detroit, which is within easy reach, there are many delightful trips by steamer which are taken annually by scores of summer students.

Regular excursions which are conducted in connection with the work in botany, zoology, and geology, are open to all students of the summer session. The trips to Niagara Falls and Put-in-Bay, Lake Erie, being especially instructive are attended annually by a very large number of students. On account of the low rates, which can be obtained, the cost of these excursions is very moderate.

#### He Fired the Stick.

"I have fired the walking-stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve; that has healed the sore and made me a happy man," writes John Garrett, of North Mills, N. C. Guaranteed for piles, burns, etc., by G. S. Darling and J. M. Wuggazer & Co. druggists. 50c.

#### Excursion to Alpena

via D. & M. Ry. Sunday June 16. Excursion train leaves Tawas City at 9:45 a. m., round trip rate \$1.00; proportionate rates from other stations. Children between 5 and 12 half fare. Tickets good only on excursion train. See hand bills and D. & M. agents.

#### Remarkable Rescue

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c. and \$1.00, at G. S. Darling's and J. M. Wuggazer & Co.'s drug stores, Trial bottle free.

#### June Teachers' Examination.

Notice is hereby given that the regular June examination of candidates for teachers' certificates will be held at the court house in Tawas City, on Thursday and Friday, June 20th and 21st, 1907, beginning at 8 o'clock a. m. Reading based on Burke's Conciliation of American Colonies.

#### The Magic No. 3.

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Me., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man to-day. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney troubles, by G. S. Darling and J. M. Wuggazer & Co. druggists, 50c.

## Iosco County Normal Class of 1907

The third annual commencement of the Iosco County Normal School will be held at the court house this Friday evening. Hon. Delos Fall, of Albion, will deliver the commencement address. The class is the largest since the organization, being composed of thirteen young ladies. The class has done most excellent work during the past year and it is generally conceded that as a whole they will prove successful teachers.

FIRST ROW—Mabel Lintz, Clara Larmer, Lucy Bristol, Alma Ferrister, Muriel Murphy  
SECOND ROW—Ethel Wardell, Frances Halleck, Belle Barron, Sybil Clark  
THIRD ROW—Kate O'Brien, Mary Hottis, Mabel Cox, Anna Sullivan

We herewith present our readers with an excellent likeness of Miss Cora Willsey, who has had charge of our County Normal since its organization in the fall of 1904. Our county was most fortunate in securing the services of Miss Willsey as she is conceded to be one of the very best normal teachers in the state, and her work here has proven most satisfactory. The graduates of the Iosco County Normal stand among the very best rural teachers in the state. Miss Willsey has been engaged to take charge of the new normal in Cheboygan county next year. The people of that county are to be congratulated on securing so efficient a teacher to take charge of the work there. Miss Willsey's many friends here deeply regret her departure, but wish her success in her new field of labor.

profited by the instructions gained by the use of the microscope.

## SCHOOL NOTES

NEVA DICKEY, Editor.  
LAVINA COX, Assistant.

Harnet Schill has left school.  
George Baxter has left school.  
Roy Clark is absent this week.  
Ellen Buswell was absent Tuesday afternoon.

The seventh grade is studying Asia in geography.

Leonia Hoshack and Hattie Renka were absent Monday.

The fifth grade pupils are studying Riley's "Knee deep in June."

Our boys did finely in the County Field Day at the park last Saturday.

Last Friday morning the three lower rooms united for morning exercises.

The seniors are studying the subject of telegraphy, the wire and wireless systems.

On account of the rain several of the high school pupils were prevented from attending school.

The pupils of the primary with the pupils of the ward primary enjoyed a delightful afternoon in the woods Thursday.

Steven Nisbet's name should have appeared in the report of the grammar department last week as one of those whose average scholarship was 95.

A fine Bousch and Loueb compound microscope has been purchased for the high school. The class in science give a vote of thanks to the school board.

Through an error the name of Cyrilla Ramage was omitted from the list of our graduates. The correct list is: Cyrilla Ramage, Grace Davison, Grace McCue, Lulu Cox, Gertie Moore, and Harold Brabant.

Ten pupils were perfect all the week in spelling in the second primary. Florence Stickney, Bert Crandall, Margaret Johnson, John Buehler, Minnie Neuman, Paul Groff, Pauline Gaul, Laura Risto, Ida Anderson, and Seegne Geddale.

NORMAL DIXIT.

"It really doesn't matter much if we've no wealth or golden fame, if we plug along and do the square, we'll get there just the same."

Good-bye! Good-bye!

Owing to the kindness of Supt. Chaffee not only the classes in science, but also the intermediate grades have

## Girl's Blond 'Rat' a Jewelry Shop.

The following dispatch from New York City to the daily papers is of interest to our readers by the reason that it refers to a former well-known resident of this city, Theo. Simon:

When Annie Cooperstein, a maid employed in the home of Theodore Simon, a manufacturer, was arrested on suspicion of having stolen \$2,545 worth of jewelry, she looked the personification of innocence. The matron of the west one hundred and twenty-fifth street police station noticed, however, that there was an unusual bulge in the girl's front hair, and decided to investigate.

Cleverly concealed in the "rat" under Annie's blond locks was found the missing property. The matron pulled out, one after the other, a diamond sunburst worth \$1,000, a diamond neck chain, three diamond rings, a band ring and a ladies gold watch.

"That feels better," said the unrepentant maid, when she was relieved of her burden. "My head has been top heavy for the past two days. But my! I never thought you would search the "rat."

The Cooperstein girl has been employed in the Simon household since last Thursday. She is an Austrian, twenty years old, and has been in this country four years.

## Crops of State Not All Ruined.

Lansing, June 8.—Crops are not entirely ruined, according to the June crop report just issued by the secretary of state. The average condition of wheat is given at 70 per cent which is four per cent lower than one month ago. It is estimated that eight per cent of the wheat sown last fall was winter killed, and that four per cent has been destroyed by the Hessian fly. The condition of rye is reported at 81 per cent, corn at 63 per cent, oats at 75 per cent, meadows at 79 and potatoes at 2. The acreage of sugar beets at 89 per cent, barley at 86 per cent and corn at 9 per cent.

The following statement has been sent here from Berrien county, one of the banner fruit counties of the state, relative to the fruit situation:

Early strawberries are hurt by frosts and will be a light crop and late; late strawberries look good, not over one-fourth of a crop near the lake; apparently no sweet cherries; peaches very light, hurt by frost some and San Jose scale considerably; plums, a light crop; early apples set very full; late apples will be a very good crop; pears will be a fair crop where trees were not frozen last October; muskmelons will have probably reduced acreage.

## "The Old World And Its Ways."

Col. William Jennings Bryan announces a new book of travel entitled "The Old World and its Ways," which recounts his recent tour around the world and his journeys through Europe. It is profusely and elegantly illustrated with 240 artistic engravings representing men and things seen in the various countries of the earth during that noted journey. The engravings are made from photographs taken by him or his party especially for this publication. It is the monumental literary work of his life, and is published under his special supervision. He has, by special contract with his publishers, made the retail price low down with the view to putting it within the easy reach of every reader and book buyer.

The book gives his experiences—what he saw and did—whom he met and his impressions and conclusions. He made a profound study of men and things as he saw them in this noted journey around the world. He gives governmental, educational, religious and other conditions, from the standpoint of a student and one profoundly interested in all the people of the earth.

While Col. Bryan traveled as a private citizen he went with the prestige of having made two memorable contests for the presidency of the United States, and he was everywhere recognized and entertained as a great representative American, having a leading part in the direction of American affairs. He was given opportunity for observations never before accorded to any one traveling in private capacity.

If one wants to see the world, and the people who are at the head of affairs in all countries, as well as the masses, he has in this book an opportunity of seeing them through the eyes of Col. William Jennings Bryan. It is sold by subscription, and the Thompson publishing company of St. Louis, Mo., are the fortunate publishers. They offer an especially inviting opportunity to solicitors in another column of this issue.

Prescott is the cheapest place in Ogemaw county to do buying and pays the highest price for wool and farm products. Come and see if this is not true.

Lee Atkins came home this week for his summer vacation. After a short visit with his parents he will leave for Portland, Oregon, and other western points.

Mr. Leighet had the bone of one of his feet split by having it stepped on by a horse which he was attempting to help up after it had become tangled in the harness. It is a painful wound.

Henry Zeran and Harry Eymmer were at Cranberry lake last Sunday to try the new gasoline launch, and Hank caught a black bass weighing eight pounds, just to retain his reputation as the champion fisherman.

The death of Frank Oliver, who was drowned at Blind River, Ont., on Tuesday of last week, was doubly sad from the fact that the young man was to come home on Saturday and to have been married on Sunday. The funeral was held Sunday and was the largest ever held here, being under the auspices of the I. O. O. F. fraternity, of which the deceased was an honored member. The bereaved ones have the sympathy of the entire community.

The territory tributary to Prescott embraces some of the finest farming lands in the state and produces the best peas, beans and other grains that can be raised anywhere. The development of this industry has been easily retarded ten years for the want of proper facilities for handling the crop. It is therefore much satisfaction to us to announce to the people of this vicinity that Prescott is the village to come to the front and supply the much needed elevator to properly take care of the products. The Prescott Elevator Co., with F. S. Carr as manager, has been organized here and will erect a large elevator on the west side of the railroad, to be equipped with all the modern machinery and facilities for properly handling grain in large quantities. They will also furnish seed for the farmers and contract with them for their crops.

### Townline Topics.

Regular meeting of Vine Grange June 19.

Who can doubt that corn is king when, in addition to its food and feed value, the cob is used to make alcohol, cider vinegar and "pure maple sirup," while from the husk is turned out a fair article of smoking tobacco. Coal and cotton will have to look to their laurels.

**Say!** Do you believe for a second that any merchant loves you so that he is going to give you something for nothing? If you do you will find in the end that he is just fishing and you are the fish, and that you have got to be caught or he has got to quit or fail, and that is not what he went into business for. I imagine that you had better deal with a man who does not give premiums or compel you to buy five or ten dollar lots and work in goods on you with a big margin for him and which you could get along without. Watch your weights and don't spend your wool money for things you can get along without.
