Enlarging Your Business

will read every word we have to say. Are you spending your money for advertising in haphazard fashion as if intended for charity, or do you advertise for direct results?

Did you ever stop to think how your advertising can be made a source of profit to you, and how its value can be measured in dollars and cents. If you have not, you are throwing money away.

Advertising is a modern business necessity, but must be conducted on business principles. If you are not satisfied with your advertising you should set aside a certain amount of money to be spent

annually, and then carefully note the effect it has in increasing your volume of business; whether a 10, 20 or 30 per cent increase. If you watch this gain from year to you will become intensely interested in your advertising, and how you can make it enlarge your business.

If you try this method we believe you will not want to let a single issue of this paper go to press without something from your store.

We will be pleased to have you call on us, and we will take pleasure in explaining our annual constract for so many inches, and how it can be used in whatever amount that seems necessary to you.

If you can sell goods over the counter we can also show you why this paper will best serve your interests when you want to reach the people of this community.

TAWAS CITY, MICH., JUNE 28, 1907

When Jefferson was asked by the Maryland legislature to accept a third term, he answered: "If some termination to the services of the chief magistrate be not fixed by the constitution, or supplied by practice, his office, normally four years, will in fact, become for life, and history shows how easily that degenerates into an inheritance.'

Two more states have established a direct election of United States senators-Iowa and Washington-making five states this year, and a total of eighteen. The northern states are Oregon, Washington, North Dakota, Wisconsin, Illinois, Iowa, Missouri and Oklahoma, with a unanimous house in Pennsylvania and a tie vote in the senate. The southern states are Virginia, South Carolina, Georgia, Florida, Alabama, Mississippi, Texas, Arkansas, Tennessee and Kentucky.

Attorney Charles S. Hampton, of Detroit, is being urged by the people of Detroit tor the appointment as the democratic member of the state railroad commission. Under the law passed by the legislature creating this board of railroad commissioners, it shall be composed of not to exceed two members of any one political party, thus being non-partisian. Mr. Hampton is a man of large ability and thoroughly conversant with matters to be considered by this important commission, and his many friends will unite in urging his appointment by Gov. Warner.

Do you believe for a second that any

merchant loves you so that he is going to give you something for nothing? If you do you will find in the end that he is just fishing and you are the fish, and that you have got to be caught or he has got to quit or fail, and that is not what he went into business for. I imagine that you had better deal with a man who does not give premiums or compel you to buy five or ten dollar lots and work in goods on you with a big margin for him and which you could get along without.
