The annual school meeting occurred at the school house last Monday evening and was fairly well attended. James H. Nisbet and C. A. Jahraus were elected as members of the board. It was voted to expend \$500 in building an annex to the high school building for the accommodation of the county normal. The treasurers report shows the financial condition of the district to be in good shape with a balance on hand of \$3964.31.

For the Constitutional Convention.

The republicans of Iosco county will present the name of Fremont F. French, of East Tawas, as one of the candidates for the 28th senatorial district as a member of the constitutional convention. Mr. French is exceptionally well qualified for this important position. A business man of large and varied experience and a careful student of state affairs. While a consistent republican he is also a man of independent thought, who holds the interest of state above that of party, and in this important position will give his best efforts in securing the adoption of a constitution that will be a credit to our great commonwealth.

Mr. French was born in Chautauqua county, N. Y., Jan. 11, 1857. At the age of 20 he graduated from Phillips Academy, at Andover, Mass., and in 1880 from the law department of the University of Michigan. He has been actively engaged in this state since that time. While a resident of Ogemaw county he held the office of circuit court commissioner and treasurer of the city of West Branch. Since locating here he has served as mayor of East Tawas, and has discharged the duties of these public offices with credit.

The Lazy Bug.

The balmy days of summer have come. Beware!

The lazy bug is on the wing. Watch out.

And if he hasn't got you yet he will. You'll know that he has made your acquaintance when that tired feeling comes on; when you have an inclination to slam down the roll top and hie away to the purling brook and the green hillside.

The lazy bug is the industrious man's friend. The lazy bug never bothers the industrious chap, altho he would like to. The industrious man jumps into his summer underwear, even if it is for one day, and works all the harder. And while the lazy bug's victims are away at the hillside and brooklet the industrious man is appropriating all the good things that the lazy man has left behind.

So you see, Mr. Man-Who-Wants-To-Win, you are going to lose your good name if you run away to the purling brook and green hillside to pluck out the lazy bug's sting.

Only work that much harder. Let the sweat run, the collars wilt, the dull fingers ache and the brain thump. But work!

And if you run away to the purling brook, don't be surprised if, when you roll up your desk lid the next time, your stenographer says to you: "While you were gone, sir, the Geewhills decided to take their big contract over to Mr. Smith instead of risking it with you."

Then will you realize that you have been stung again!—Exchange.

Dressmaking.

The preaching services of the Presbyterian church at Alabaster will be held on Sabbath afternoon hereafter—next Sabbath, July 14, at 3:30 and after that regularly at 3 o'clock. The communion of the Lord's Supper will be observed this Sabbath.

A. ARTHUR GRIPES, Pastor.

Prentice's Vauville tent show is exhibiting in this city this week and has been greeted by a good audience each evening, everyone being well satisfied. They give a good clean show, well worth the price of admission. They will be here tonight and tomorrow night. Next week they will exhibit at Alabaster.

Your teeth are like plants—they need constant care. The preservation of the teeth is one of the things everyone should take pride in. It is important to your good health. Call on Dr. W. N. Yeager and have yours attended to. At his office in this city next Tuesday, Wednesday and Thursday.

Rev. H. J. Richter, of Grand Rapids, will make his regular annual visitation to St Josephs Parish next Sunday, at which time a class of 75 will be confirmed. In the morning at 8 o'clock the class will receive its first Holy Communion, and at 10:30 the Bishop will administer the sacrament of confirmation.

Card of Thanks.

I desire to extend my most sincere thanks to the friends for the aid and sympathy shown me and my little daughters during our recent sad affliction, and to assure them that their kindness is much appreciated by us.

Something For Nothing.

Probably never in the history of the United States were the newspapers so greatly besieged with applications for free advertising as at the present time. The requests come from every corner of the country, and the reasons given for the requests are as numerous and varying as the requests themselves. A "school for nurses" is being established in Philadelphia; a "home for consumptives" in Florida; a "home coming" in Boston, and three score other alleged charitable or pleasure enterprises are being planned, and the newspapers are solicited to supply publicity, without charge. In ninety percent of such enterprises a goodly corps of energetic Yankees are drawing fat salaries while they frame up delightfully worded letters to the country newspapers soliciting the aid mentioned. In the hospital, training school and other so called charitable enterprises there is a generous sized faculty looking over the shoulder of the paid president or secretary and praying that a sufficient number of the country publishers will accept the elegant rhetoric to warrant them in drawing their salary for years to come.

Encouragement to local charities is commendable and deserved, but the country publisher can well devote a little more time to considering whether he is doing justice to himself by contributing composition and space to the schemes herein mentioned.—*Clare Courier*

Twenty Years.

A census bulletin on the production of lumber, lath and shingles in 1906 has just been issued. The amount of lumber actually cut by over 20,000 mills which made reports was 375,000,000,000 feet. This is the largest production ever recorded. The total supply of merchantable timber in the United States is supposed to be less than 2,000,000,000,000 feet. This would indicate that if we keep our demand stationary we shall have twenty years from now only what our forests will have grown in the interval.

The statistics gathered by the census emphasize the passing of the white pine of the lake states. The censuses of 1870, 1880 and 1890 showed Michigan the banner state in total production of lumber. In the census of 1890 the lead passed to Wisconsin, with Michigan second and Minnesota third. This relative position was maintained until 1905, when Washington leaped to first place and Louisiana to third, with Wisconsin second and Minnesota and Michigan fourth and fifth. Louisiana now climbs to second place, while Wisconsin drops from second to third and Minnesota from fourth to seventh. Mississippi and Arkansas have moved up to fifth and sixth places, while Michigan goes to fourth.—*Cadillac Evening News.*

Sympathy.

A world without sympathy would be a cruel abiding place. Those who have suffered and received expression of true sympathy from friends, would hardly dare think that their suffering would have been without a spoken word of comfort from living soul. We are often tempted to feel that any word of sympathy we may speak or write to another, at a time of special trial, is not worth the doing; that so many such words will be spoken to that one that our own will count for nothing. The prompting to keep silent in another's time of sorrow is a false one. Spoken sympathy is as a mantle of love; it comforts, strengthens and inspires. There has never been a word too much of sympathy spoken to a sorrowing one. Sympathy's very cumulation forms a great force that uplifts and strengthens. It is needed by the weak; it is still more needed by the strong. It is within every one's power to give it. And God, who is love, will bless it always.—*Sunday School Times.*

Michigan First in Salt Production

Washington, July 9.—Michigan led the entire country in its production of gypsum and salt in 1906. This is the announcement of the geological survey which has just made public statistics of the production of all kinds of minerals in every part of the country. Of gypsum Michigan produced 341,716 tons, valued at \$753,878. Its closest rival is New York with a production of 288,631 tons, valued at \$749,696. The total gypsum production of the country was 1,540,535, valued at \$3,837,975.

The peninsula state produced 8,978,630 barrels of salt in 1906, valued at \$2,018,760. The salt production of New York was slightly less, 8,978,630 barrels, but the survey credits the salt of that state with a higher value, placing the value for the year at \$2,093,686. Michigan and New York, according to the statistics of 1906, are in a class by themselves in salt production, no other state furnishing half as much as either of them. The entire salt production of the country was 28,172,380 barrels.

In production of Portland cement, Michigan holds third place, with 3,747,525 barrels, valued at \$4,814,965. Pennsylvania holds first place, with a

production of 18,463,424 barrels, valued at \$18,598,339. New Jersey is slightly ahead of Michigan in quantity producing 4,423,648 barrels, but the New Jersey article isn't considered so good as that produced in Michigan. So the value of the New Jersey production of 1906 is placed at \$3,445,364, which is less than the value of the Michigan product. The total production of Portland cement for the country was 46,463,424 barrels, valued at \$52,446,186.

New School Law.

The state is sending to the truant officers of the various counties copies of a newly enacted compulsory education law which has been slightly changed by the recent legislature. The age limit is now fixed at seven to sixteen years, although children of five years may be sent. Hereafter it will be necessary for the commissioner to notify the sheriff and he will in turn notify the truant officer, being notified directly by the commissioner. By the new law the county officer has authority to act in cities and villages where no regularly appointed officer has been named. The salary has been boosted from \$2.90 to \$3.00 per day, and actual expenses. The law takes immediate effect and it will be necessary for all city and village truant officers to file a bond of \$500.

U. S. Lands in Michigan.

Marquette, July 9.—Uncle Sam still holds title to 236,109 acres of land in the state of Michigan. This is a decrease of 20,456 acres from the area of the public domain a year ago at this time, land to that amount having been taken up during the last 12 months either under the homestead law or the timber and stone act. The annual report of the Marquette land office of the government, just compiled, shows that the government holdings in the Wolverine commonwealth are almost equally divided between the two peninsulas, there being 148,733 acres in 26 counties in the territory below the straits, and 137,379 acres in the 15 counties of upper Michigan.

The counties in which lie the greatest acreage of government land are the following: Chippewa, 40,150; Oscoda, 38,911; Iosco, 36,961; Marquette, 20,744; Schoolcraft, 19,617; Montmorency, 16,307; Luce, 13,839; Presque Isle, 11,346; Keweenaw, 12,561; Alcona, 9,995; Delta, 7,915.

In none of the other thirty counties in which there is government land is there as much as 6,000 acres, and there are ten with less than a thousand acres. Mecosta county there are only for acres of government land; in Newaygo, 120; Wexford, 125; Gogebic, 157; Antrim, 160; Arenac, 321; Gladwin, 540; Grand Traverse, 600; Mason, 678; and Menominee, 879.

American Farmers' Good Fortune.

Good fortune appears to attend the American farmer, despite the belated season. The prospect for making up from foreign plenty the shortage, caused by delayed sunshine and abnormal temperature at home, is small. Europe, as has been shown, has its own crop deterioration to consider; Australia, India, and the Philippines will give no marvelous returns in food production; South America is optimistic, but the extent of its harvest is yet uncertain. Lessened bushels of grain and lacking bales of cotton mean continued high prices,—not to be beaten down, because nowhere in the world is an opulence of yield visible.

The American farmer is much better off than he expected to be when ice and snow in May caused alarm. On the whole, his delayed harvest, though lessened in quantity, may give him a return almost as satisfactory in dollars and cents as some of greater volume gone before. With a wheat surplus from last year in his granaries, he is in a position to contemplate with equanimity the coming twelvemonth.

The consumer may have to face a problem of increased living expense, but the farmer, even if his corn gives only a moderately satisfactory yield, will forget last spring's gloomy perspective and consider himself well treated. From this source, at least, we need anticipate no material lessening of our national prosperity.—"From 'A Year of Delayed Harvests,'" in the American Monthly Review of Reviews for July.

Military Day Changed

Governor Warner has changed the military day for Saginaw's great semi-centennial week, from Monday Aug. 19th, to Friday Aug. 23rd. On this day the troops will arrive, give a demonstration of war time camp life, and march 3,000 strong.

They will also be in Saginaw Saturday, review day, and drill and pass in review.

This will certainly be a grand sight. Adding much to the interest will be the fact that the U. S. regular troops will be with them, bringing a U. S. band.

State Fair Premium List.

The state fair premium list for 1907 has been received. The classification in several departments has been enlarged and the premiums increased. Classes have been added for Ayrshire cattle, American coach horses and Hampshire hogs. Also for Angora goats.

The premiums for the classes of live stock owned in Michigan are the same as those open to all.

The premiums for exhibits from the northern counties have been increased, also the premium on grains. The first premium on both white and red wheats is \$12 on each.

Altogether it is the most complete

premium list yet issued by the state society, and in extent of classification and variety of interest represented is not excelled by that of any other fair in this country.

Any of our readers may have a copy sent to their address by writing I. H. Butterfield, secretary, Detroit, Mich.

Separate Wraps for Summer Gowns.

The authority on fashion of the New Idea Woman's Magazine says in her article in the August issue that it is a well recognized fact in the modish world that some one article of dress always monopolizes the first place of interest and importance in the wardrobe. This year it is the separate wrap, from the bewitchingly airy and fetching little shoulder scarf of silk and chiffon, to the cloaks and capes of cloth lace and pongee. This season every linen frock should have its separate jacket, tailored with the same care as lady's cloth suits, and even over a lingerie waist are worn fascinating little boleros of exquisite handkerchief linen and lace. These are described in detail, and graceful drawings shown the use of appropriate patterns in a variety of attractive materials.

Long Live The King!

is the popular cry throughout European countries; while in America, the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the proven remedy. Guaranteed at J. M. Wuggazer & Co's and G. S. Darling's drug stores. 50c and \$1.00. Trial bottle free.

Edward McDonald, aged 87, known as the oldest Maccabee in Michigan, died in Alpena. He was born in Scotland; served 19 years in the British navy; came to Port Huron in 1849; served two years in the civil war and resided in Alpena 27 years.

Charles H. Chapman, during the month of July, reports that as state game warden he investigated 145 complaints of violation of the laws and made sixty-four arrests. He secured forty-nine convictions, and collected fines and costs aggregating \$781.40. The proceeds of sales of property seized amounted to \$117.44.

Uncle Sam will begin next September to decorate with various service badges and emblems those who have won special distinction in wars since 1861. The war department was authorized some time ago to issue these rewards of merit, and about two miles of ribbon will be used in making them.

There is some prospect for another America's cup race next season, with Sir Thomas Lipton again a challenger, according to reports in yachting circles. When Sir Thomas was in this country last year he expressed a desire for another try at the trophy, but only on condition that the races would be sailed under the new measurement rules, which practically precludes sending a "racing machine" type of boat to the line.

Hardening an ordinary drill in sulphuric acid, states the English Mechanic, makes an edge that will cut tempered steel or facilitate cutting hard rock. The acid should be poured into a flat-bottomed vessel to a depth of about one-eighth of an inch. The point of the drill is heated to a dull cherry red, and dipped in the acid to the depth. This makes the point extremely hard, while the remainder remains soft.

Special delivery letters may now be sent without the special delivery stamp of ten cents, but these letters must bear ten cents worth of other stamps in addition to the regular postage, and these letters must also be marked "special" to secure prompt transmission to the party addressed. Some of these special delivery letters are coming through the local post-office without the word "special," and until a ruling is received from the postoffice department they will be treated as special delivery letters if they have the requisite postage.

In every city there are movements which call for the expenditure of money. Some of these are of distinctly public character, and are paid for through taxation. Others are of a semi-public character, and for them the funds must be raised by voluntary contributions. These must come from the men who are doing the business of the place and who have the money. There is no other way. The man who has the money is the man who must pay the bills, if they are to be paid. Most enterprises of a public nature which have for their object the bettering of conditions, business and otherwise, in a city will, directly or indirectly, return more than the money expended to those who pay it.

Harry A. Garfield, eldest son of the murdered president, has just been elected to the presidency of Williams college, from which he himself was graduated in 1885. Garfield practiced law in Cleveland for years, was president of that city's chamber of commerce, and then became professor of politics in Princeton, which place he leaves for his new honor.

A bill passed the recent legislature entitled, "The Standish hotel bill." It provides that no liquor shall be sold in Standish except in connection with a hotel. It also provides that the hotel must not have less than ten furnished sleeping rooms, kitchen, dining room and sitting room and adds \$500 to the price of the liquor license, making the license \$1,000.

"And now," remarks the Kansas City Journal, "it is said the government will investigate the shoe trust. Is this the last?" To which the Chicago Tribune replies: "Yes; this is awl." The Washington Post is moved to exclaim, "well 'pon our sole!" while the Rochester Post-Express says, "The chances are, however, that the gentlemen who compose the trust will not be reduced to their uppers." Of course not, they are too well heeled.—Saginaw News. The investigation may cause their tongue to run out.

BUY A FARM

Select one of the following descriptions and become independent. Rural free delivery brings your mail almost to the door.

- 120 Acres** within 2 1/2 miles of Turner. Fine soil, partly improved, convenient to schools and churches.
- 40 Acres** 1 1/2 miles off the Hemlock road in Grant township, partly improved, soil suited to produce everything marketable. Within short distance of postoffice, ry. station and schools.
- 120 Acres** within 4 miles of Prescott. Good soil, easily cleared, good roads, good market.
- 40 Acres** 1 1/2 miles from Whittemore. A bargain for someone seeking a small farm.
- 80 Acres** good land, some improvements, within 3 1/2 miles from Cheboygan. A bargain if taken at once.
- 320 Acres** within 2 miles of Taft, a station on the Rose City branch of the D. & R. Ry.; two miles of woven wire fence, running stream, just the place for a good stock farm.
- 40 Acres** located near Turtle P. O., a station on the main line of the D. & R. Ry. Good running stream, and with the purchase of the good land surrounding it would be a grand opportunity to establish a large stock farm.
- 120 Acres** of good farm or grazing land within 4 1/2 miles of Whittemore, enclosed with several hundred rods of woven wire fence, good running stream, fine place for stock raising.
- 280 Acres** unimproved land in Presque Isle county, 2 1/2 miles from Onaway; will sell cheap.

Terms reasonable. Small payment, balance easy. For further particulars address
